DIAGNOSTIC PRE-TEST

SECTION 1
LISTENING COMPREHENSION

Time—approximately 35 minutes
(including the reading of the directions for each part)

In this section of the test, you will have an opportunity to demonstrate your ability to understand conversations and talks in English. There are three parts to this section, with special directions for each part. Answer all the questions on the basis of what is **stated** or **implied** by the speakers you hear. Do **not** take notes or write in your test book at any time. Do **not** turn the pages until you are told to do so.

Part A

Directions: In Part A you will hear short conversations between two people. After each conversation, you will hear a question about the conversation. The conversations and questions will not be repeated. After you hear a question, read the four possible answers in your test book and choose the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Listen to an example.

Sample Answer

Ⓐ Ⓑ Ⓒ ●

On the recording, you will hear:

(man) *That exam was just awful.*
(woman) *Oh, it could have been worse.*
(narrator) *What does the woman mean?*

In your test book, you will read:

(A) The exam was really awful.
(B) It was the worst exam she had ever seen.
(C) It couldn't have been more difficult.
(D) It wasn't that hard.

You learn from the conversation that the man thought the exam was very difficult and that the woman disagreed with the man. The best answer to the question, "What does the woman mean?" is (D), "It wasn't that hard." Therefore, the correct choice is (D).

This is the end of the Listening Comprehension Pre-Test.

Turn off the recording.

When you finish the test, you may do the following:

- Turn to the **Diagnostic Chart** on pages 583–584, and circle the numbers of the questions that you missed.
- Turn to **Scoring Information** on pages 581–582, and determine your TOEFL score.
- Turn to the **Progress Chart** on page 591, and add your score to the chart.

LISTENING COMPREHENSION

The first section of the TOEFL test is the Listening Comprehension section. This section consists of fifty questions (some tests may be longer). You will listen to recorded materials and respond to questions about the material. You must listen carefully, because you will hear the recording program one time only, and the material on the recording is not written in your test book.

There are three parts in the Listening Comprehension section of the TOEFL test:

1. **Part A** consists of thirty short conversations, each followed by a question. You must choose the best answer to each question from the four choices in your test book.
2. **Part B** consists of two long conversations, each followed by a number of questions. You must choose the best answer to each question from the four choices in your test book.
3. **Part C** consists of three talks, each followed by a number of questions. You must choose the best answer to each question from the four choices in your test book.

GENERAL STRATEGIES

1. **Be familiar with the directions.** The directions on every TOEFL test are the same, so it is not necessary to listen carefully to them each time. You should be completely familiar with the directions before the day of the test.
2. **Listen carefully to the conversations and talks.** You should concentrate fully on what the speakers are saying in the recording program, because you will hear it one time only.
3. **Know where the easier and more difficult questions are generally found.** Within each part of the Listening Comprehension section, the questions generally progress from easy to difficult.
4. **Never leave any answers blank on your answer sheet.** Even if you are unsure of the correct response, you should answer each question. There is no penalty for guessing.
5. **Use any remaining time to look ahead at the answers to the questions that follow.** When you finish with one question, you may have time to look ahead at the answers to the next question.

THE LISTENING PART A QUESTIONS

For each of the thirty questions in Part A of the Listening Comprehension section of the TOEFL test, you will hear a short conversation between two speakers followed by a question. After you listen to the conversation and question, you must choose the best answer to the question from your test book.

Example

On the recording, you hear:

(man) *I've always wanted to visit Hawaii with you.*
(woman) *Why not next month?*
(narrator) *What does the woman mean?*

In your test book, you read:

(A) Next month isn't a good time for the trip.
(B) She doesn't want to go to Hawaii.
(C) She suggests taking the trip next month.
(D) She's curious about why he doesn't want to go.

Answer (C) is the best answer to the question. *Why not next month?* is a suggestion that they take the trip next month.

STRATEGIES FOR THE LISTENING PART A QUESTIONS

1. **As you listen to each short conversation, focus on the second line of the conversation.** The answer to the question is generally found in the second line.
2. **Keep in mind that the correct answer is probably a restatement of a key word or idea in the second line of the conversation.** Think of possible restatements.
3. **Keep in mind that certain structures and expressions are tested regularly in Listening Part A.** Listen for these structures and expressions:
   - structures (*passives, negatives, wishes, conditions*)
   - functional expressions (*agreement, uncertainty, suggestion, surprise*)
   - idiomatic expressions (*two-part verbs, three-part verbs, idioms*)
4. **Keep in mind that these questions generally progress from easy to difficult.** This means that questions 1 through 5 will be the easiest, and questions 26 through 30 will be the hardest.
5. **Read the answers and choose the best answer to each question.** Remember to answer each question even if you are not sure of the correct response. Never leave any answers blank.
6. **Even if you do not understand the complete conversation, you can find the correct answer.**
   - If you only understood a few words or ideas in the second line, choose the answer that contains a restatement of those words or ideas.
   - If you did not understand anything at all in the second line of the conversation, choose the answer that sounds the most different from what you heard.
   - Never choose an answer because it *sounds like* what you heard in the conversation.

The following skills will help you to implement these strategies in the Listening Part A section of the TOEFL test.

STRATEGIES

SKILL 1: FOCUS ON THE SECOND LINE

In Listening Part A you will hear a short conversation involving two people; this conversation is followed by a question. It is important to understand that the answer to this type of question is most often (but not always!) found in the second line of the conversation.

Example

On the recording, you hear:

(man) *Billy really made a big mistake this time.*
(woman) *Yes, he forgot to turn in his research paper.*
(narrator) *What does the woman say about Billy?*

In your test book, you read:

(A) It was the first time he made a mistake.
(B) He forgot to write his paper.
(C) He turned in the paper in the wrong place.
(D) He didn't remember to submit his assignment.

The second line of this conversation indicates that Billy *forgot to turn in his paper,* and this means that he *did not remember to submit it.* The best answer is therefore answer (D).

The following chart outlines the most important strategy for Listening Part A:

STRATEGY #1: FOCUS ON THE SECOND LINE
1. The second line of the conversation probably contains the answer to the question.
2. Listen to the first line of the conversation. If you understand it, that's good. If you don't understand it, don't worry because it probably does not contain the answer.
3. Be ready to focus on the second line of the conversation because it probably contains the answer. Repeat the second line in your mind as you read through the answers in the text.

EXERCISE 1: In this exercise, you should focus on the second line of the conversation, read the question, and then choose the best answer to that question. Remember that you can probably answer the question easily with only the second line.

1. (man) *Can you tell me if today's matinee is a comedy, romance, or western?*
   (woman) *I have no idea.*

   (C) She doesn't like today's matinee.
   (D) She does not know.

2. (woman) *Was anyone at home at Barb's house when you went there to deliver the package?*
   (man) *I rang the bell, but no one answered.*
   (narrator) *What does the man imply?*
   (A) Barb answered the bell.
   (B) The house was probably empty.
   (C) The bell wasn't in the house.
   (D) The house doesn't have a bell.

3. (woman) *You just got back from the interview for the internship. How do you think it went?*
   (man) *I think it's highly unlikely that I got the job.*
   (narrator) *What does the man suggest?*
   (A) It's unlikely that he'll go to the interview.
   (B) He thinks he'll be recommended for a high-level job.
   (C) The interview was apparently quite unsuccessful.
   (D) He had an excellent interview.

TOEFL EXERCISE 1: In this exercise, listen carefully to the short conversation and question in the recording program, and then choose the best answer to the question. You should focus carefully on the second line.

SKILL 2: CHOOSE ANSWERS WITH SYNONYMS

Often the correct answer in Listening Part A is an answer that contains synonyms (words with similar meanings but different sounds) for key words in the conversation.

Example

On the recording, you hear:

(woman) *Why is Barbara feeling so happy?*
(man) *She just started working in a real estate agency.*
(narrator) *What does the man say about Barbara?*

In your test book, you read:

(A) She always liked her work in real estate.
(B) She began a new job.
(C) She just bought some real estate.
(D) She bought a real estate agency.

In this conversation, the key word *started* means *began,* and the key word *working* refers to *job.* The best answer to this question is therefore answer (B).

The following chart outlines a very important strategy for Listening Part A:

STRATEGY #2: CHOOSE ANSWERS WITH SYNONYMS
1. As you listen to the second line of the conversation, focus on key words in that line.
2. If you see any synonyms for key words in a particular answer, then you have probably found the correct answer.

EXERCISE 2: In this exercise, underline key words in the second line of each short conversation. Then underline synonyms for these key words in the answers, and choose the best answer to each question. Remember that the best answer is probably the answer that contains synonyms for the key words in the second line of the conversation.

(C) Why they can't leave at noon.
(D) If they could leave the room.

3. (man) *Was the concert well received?*
(woman) *The audience applauded for a long time after the performance.*
(narrator) *What does the woman say about the concert?*

(A) The performance went on for a long time.
(B) There was applause throughout the performance.
(C) The people clapped on and on after the concert.
(D) The audience waited for a long time for the concert to begin.

TOEFL EXERCISE 2: In this exercise, listen carefully to the short conversation and question in the recording program, and then choose the best answer to the question. You should look for synonyms for key words in the second line.

SKILL 3: AVOID SIMILAR SOUNDS

Often the incorrect answers in Listening Part A are answers that contain words with *similar* sounds but very different meanings from what you hear in the recording program. You should definitely avoid these answers.

Example

On the recording, you hear:

(man) *Why couldn't Mark come with us?*
(woman) *He was searching for a new apartment.*
(narrator) *What does the woman say about Mark?*

In your test book, you read:

(A) He was in the department office.
(B) He was looking for a place to live.
(C) He was working on his research project.
(D) He had an appointment at church.

The key words in the second line of the conversation are *searching* and *apartment*. In answers (C) and (D) the words *research* and *church* sound like *search*, so these answers are incorrect. In answers (A) and (D), the words *department* and *appointment* sound like *apartment*, so these answers are incorrect. The best answer is therefore answer (B).

The following chart outlines a very important strategy for Listening Part A:

STRATEGY #3: AVOID SIMILAR SOUNDS
1. Identify key words in the second line of the conversation.
2. Identify words in the answers that contain similar sounds, and do not choose these answers.

NOTE: In Appendix A there are drills to practice distinguishing similar sounds. You may want to complete these practice drills before trying the following exercises.

EXERCISE 3: In this exercise, underline key words in the second line of each short conversation. Then underline words with sounds similar to these key words in the answers, and choose the best answer to each question. Remember that the best answer is probably the answer that does not contain words with sounds that are similar to the sounds of the key words in the second line of the conversation.

(C) The man should pack his suit in case he needs it.

WHO, WHAT, WHERE

SKILL 4: DRAW CONCLUSIONS ABOUT *WHO, WHAT, WHERE*

It is common in Listening Part A to ask you to draw some kind of conclusion. In this type of question the answer is not clearly stated; instead you must draw a conclusion based on clues given in the conversation. One kind of conclusion that is common in this part of the test is to ask you to determine *who* the speaker is, based on clues given in the conversation.

Example

On the recording, you hear:

(woman) *Can you tell me what assignments I missed when I was absent from your class?*
(man) *You missed one homework assignment and a quiz.*
(narrator) *Who is the man?*

In your test book, you read:

(A) A newspaper editor.
(B) A police officer.
(C) A teacher.
(D) A student.

The clues *your class, homework,* and *quiz* in the conversation tell you that the man is probably a teacher. Answer (C) is therefore the correct answer.

Another type of conclusion that is common in Listening Part A is to determine *what* will probably happen next, based on clues given in the conversation.

Example

On the recording, you hear:

(woman) *Are you going to read those books here in the library?*
(man) *I think I'd rather check them out now and take them home.*
(narrator) *What will the man probably do next?*

In your test book, you read:

(A) Sit down in the library.
(B) Look for some more books.
(C) Return the books to the shelves.
(D) Go to the circulation desk.

The man says that he would like to *check the books out now.* Since the *circulation desk* is where you go to check books out from a library, the man will probably go to the circulation desk next. The correct answer is therefore answer (D).

A final type of conclusion that is common in Listening Part A is to determine *where* the conversation probably takes place, based on clues given in the conversation.

Example

On the recording, you hear:

(woman) *Are you going into the water, or are you just going to lie there on the sand?*
(man) *I think I need to put on some suntan lotion.*
(narrator) *Where does this conversation probably take place?*

In your test book, you read:

(A) At a beauty salon.
(B) At the beach.
(C) In a sandbox.
(D) At an outdoor restaurant.

The clues *water, sand,* and *suntan lotion* in the conversation tell you that this conversation probably takes place at the *beach.* Answer (B) is therefore the correct answer.

The following chart outlines the key point that you should remember about this type of question:

CONCLUSIONS ABOUT *WHO, WHAT, WHERE*
It is common for you to be asked to draw one of the following conclusions in Listening Part A: 1. *WHO is probably talking?* 2. *WHAT will s/he probably do next?* 3. *WHERE does the conversation probably take place?*

EXERCISE 4: In this exercise, read the short conversation and question, underline the clues that help you answer the question, and then choose the best answer. You will have to draw conclusions about *who, what,* and *where.*

1. (man) *I'd like to deposit this check in my account, please.*

(A) A store clerk.
(B) A bank teller.
(C) An accountant.
(D) A waitress.

2. (woman) *Have you deposited your paycheck yet?*
(man) *No, but that's next on my list of errands.*
(narrator) *What will the man probably do next?*

(A) Earn his paycheck.
(B) Write a check for a deposit on an apartment.
(C) Go to a bank.
(D) Make a list of errands to run.

3. (man) *Did you get the bread, eggs, and milk?*
(woman) *Now we need to stand in line at the checkout counter.*
(narrator) *Where does this conversation probably take place?*

(A) In a restaurant.
(B) At a bakery.
(C) On a farm.
(D) In a market.

TOEFL EXERCISE 4: In this exercise, listen carefully to the short conversation and question in the recording program and then choose the best answer to the question. You will have to draw conclusions about *who, what,* and *where.*

(C) A teacher.
(D) A business manager.

SKILL 5: LISTEN FOR *WHO* AND *WHAT* IN PASSIVES

It is sometimes difficult to understand *who* or *what* is doing the action in a passive sentence. This problem is often tested in Listening Part A.

Example

On the recording, you hear:

(man) *Did Sally go to the bank this morning?*
(woman) *Yes, she did. She got a new checking account.*
(narrator) *What does the woman imply?*

In your test book, you read:

(A) Sally wrote several checks.
(B) Sally wanted to check up on the bank.
(C) A new checking account was opened.
(D) Sally checked on the balance in her account.

In this conversation, the woman uses an active statement that means that *Sally opened a checking account.* The correct answer uses the passive structure that *a checking account was opened* to express the same idea. Therefore, the best answer to the question above is answer (C).

You should note the following about passive sentences in Listening Part A:

PASSIVE STATEMENTS
1. If the conversation contains a *passive* statement, the answer to the question is often an *active* statement.
2. If the conversation contains an *active* statement, the answer to the question is often a *passive* statement.
NOTE: Check carefully *who* or *what* is doing the action in these questions.

EXERCISE 5: In this exercise each of the correct answers is either a passive restatement of an active sentence or an active restatement of a passive sentence. Read the short conversation and underline the key active or passive statement. Then read the question and choose the best answer to the question. Be careful about *who* and *what* with these passives.

1. (woman) *Alice needs to pay her tuition today.*
(man) *But her tuition has already been paid.*

SKILL 6: LISTEN FOR *WHO* AND *WHAT* WITH MULTIPLE NOUNS

When there is more than one noun in a sentence in Listening Part A, it is common for the answers to confuse which noun does what.

Example

On the recording, you hear:

(man) *Do you know who is in the band now?*
(woman) *I heard that Mara replaced Robert in the band.*
(narrator) *What does the woman say about the band?*

In your test book, you read:

(A) Robert became a new member of the band.
(B) Robert took Mara's place in the band.
(C) Mara didn't have a place in the band.
(D) Mara took Robert's place in the band.

In the woman's response to the man's question, she talks about two people *(Mara* and *Robert),* and these two people are confused in the answers. Because *Mara replaced Robert,* this means that Mara is in the band and Robert is not. The best answer is therefore answer (D).

The following chart outlines the key point that you should remember about questions with multiple nouns:

NEGATIVES

SKILL 7: LISTEN FOR NEGATIVE EXPRESSIONS

Negative expressions are very common in Listening Part A, and the most common kind of correct response to a negative statement is a positive statement containing a word with an opposite meaning.

Example

On the recording, you hear:

(man) *How did they get to their grandmother's house in Maine in only five hours?*
(woman) *They didn't drive slowly on the trip to Maine.*
(narrator) *What does the woman say about the trip?*

In your test book, you read:

(A) They drove rather quickly.
(B) They couldn't have driven more slowly.
(C) They wanted to travel slowly to Maine.
(D) They didn't drive to Maine.

The correct answer is answer (A). If they *did not* drive *slowly* to Maine, this means that they drove rather *quickly*. Notice that the correct answer uses *quickly*, the opposite of *slowly*. The answers that use *slowly* are not correct.

The following chart outlines the types of negative expressions that you should be careful of:

TYPES OF NEGATIVE EXPRESSIONS		
Expression	Example	Correct Answer
Regular negative: *not* or *n't*	Tom is *not sad* about the results.	*not sad = happy*
Other negatives: *nobody, none, nothing, never*	*Nobody* arrived *on time.* Sal *never works hard.*	*nobody ... on time = late* *never works hard = lazy*
Negative prefixes: *un-, in-, dis-*	The patient was *insane.*	*insane = not sane = crazy*

EXERCISE 7: In this exercise, underline the negative in the second line of each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that uses an opposite meaning.

(D) The concert can't take place.

The correct answer to this question is answer (C). If it *isn't impossible* for the concert to take place, then it *is possible,* and the modal *might* indicates possibility.

The following chart outlines the situations where double negatives can occur:

DOUBLE NEGATIVES		
Situation	Example	Meaning
negative word (e.g., *not, no, none*) and a negative prefix (e.g., *in-, un-, dis-*)	He didn't like the unclean office.	did not like unclean office = liked clean office

SKILL 9: LISTEN FOR "ALMOST NEGATIVE" EXPRESSIONS

Certain expressions in English have "almost negative" meanings. These expressions are common on the TOEFL test and need to be reviewed.

Example

On the recording, you hear:

(woman) *Were you able to pay the electric bill?*
(man) *I had barely enough money.*
(narrator) *What does the man imply?*

In your test book, you read:

(A) He had plenty of money for the bill.
(B) He did not have enough money for the bill.
(C) He paid the bill but has no money left.
(D) He was unable to pay the bill.

In the man's statement, the word *enough* indicates that there was *enough*, so he did *pay the bill.* However, it was *barely* enough, so he almost did not have enough and certainly *has no money left.* The correct answer is therefore answer (C).

The following chart outlines common "almost negative" expressions:

COMMON "ALMOST NEGATIVE" EXPRESSIONS

almost none	*hardly, barely, scarcely, only*	There is *hardly* any food in the refrigerator.

FUNCTIONS

SKILL 11: LISTEN FOR EXPRESSIONS OF AGREEMENT

Expressions of agreement are common in Listening Part A, so you should become familiar with them. The following example shows agreement with a *positive* statement.

Example

On the recording, you hear:

(man) *I think that the hypothesis is indefensible.*
(woman) *So do I.*
(narrator) *What does the woman mean?*

In your test book, you read:

(A) She is unsure about the hypothesis.
(B) The hippopotamus is behind the fence.
(C) She thinks that the hypothesis can be defended.
(D) She agrees with the man.

The expression *so do I* is an expression that shows agreement with a positive statement, so the woman means that she *agrees* with the man. The best answer is therefore answer (D).

Other expressions are used to show agreement with negative statements.

Example

On the recording, you hear:

(woman) *I don't think that our history teacher is very interesting.*
(man) *Neither do I.*
(narrator) *What does the man mean?*

In your test book, you read:

(B) He thinks the history teacher is interesting.
(C) He shares the woman's opinion.
(D) He doesn't think the woman's idea is good.

The expression *neither do I* is an expression that shows agreement with a negative statement, so the man *agrees* with the woman. The best answer is therefore answer (C).

The following chart lists common expressions that show agreement. You should become familiar with these expressions:

EXPRESSIONS OF AGREEMENT	
Agreement with Positive Statements	Agreement with Negative Statements
So do I. *Me, too.* *I'll say!* *Isn't it!* *You can say that again!*	*Neither do I.* *I don't either.*

EXERCISE 11: In this exercise, underline the expression of agreement in each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that shows agreement.

SKILL 12: LISTEN FOR EXPRESSIONS OF UNCERTAINTY AND SUGGESTION

Expressions of uncertainty and suggestion are common in Listening Part A, so you should become familiar with them. The following example shows an expression of uncertainty.

Example

On the recording, you hear:

(man) *Do you know anything about the final exam in Physics?*
(woman) *It's going to be rather difficult, isn't it?*
(narrator) *What does the woman mean?*

In your test book, you read:

(A) The exam is not going to be too difficult.
(B) She's positive that it's going to be hard.
(C) She thinks that it might be hard.
(D) She has no idea about the exam.

The tag question *isn't it* changes a definite statement into a statement that shows uncertainty, so the best answer is one that expresses uncertainty. The best answer to this question is answer (C) because the words *thinks* and *might* express uncertainty.

Other expressions that are common in Listening Part A are expressions of suggestion.

Example

On the recording, you hear:

(man) *I'll never have time to type my paper tomorrow.*
(woman) *Why not do it now?*
(narrator) *What does the woman suggest?*

In your test book, you read:

(A) Finishing the paper today.
(B) Not working on the paper now.
(C) Never typing the paper.
(D) Taking time out from the paper now.

In this example, the expression *why not* is an expression of suggestion, so the woman suggests *doing it now.* In this suggestion, the woman is referring to the paper that the man needs to type, so the best answer is answer (A).

The following chart lists common expressions that show uncertainty and suggestion:

EXPRESSIONS OF UNCERTAINTY AND SUGGESTION	
Uncertainty	Suggestion
. . . isn't it (tag)? *As far as I know.* *As far as I can tell.*	*Why not . . . ?* *Let's . . .*

EXERCISE 12: In this exercise, underline the expression of uncertainty or suggestion in each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that shows uncertainty or suggestion.

SKILL 13: LISTEN FOR EMPHATIC EXPRESSIONS OF SURPRISE

Emphatic expressions of surprise are common in Listening Part A, so you should become familiar with them. When surprise is expressed, it implies that the speaker did not expect something to be true.

Example

On the recording, you hear:

(woman) *Did you see Paul driving around in his Mustang?*
(man) *Then, he DID get a new car.*
(narrator) *What had the man thought?*

In your test book, you read:

(A) Paul would definitely get a Mustang.
(B) Paul did not know how to drive.
(C) Paul did not like Mustangs.
(D) Paul would not get a new car.

In this conversation the emphatic form *he did get* is used to show the man's surprise that Paul got a new car. It means that the man expected that Paul *would not get* a new car, so the best answer is answer (D).

The following chart outlines various ways to express emphatic surprise:

EXPRESSIONS OF EMPHATIC SURPRISE

Verb	Emphatic Form	Example	Meaning
be	*be*, with emphasis	Then, he *is* here!	I thought he was not here.
modal	modal, with emphasis	Then, you *can* go!	I thought you could not go.

CONTRARY MEANINGS

SKILL 14: LISTEN FOR WISHES

Conversations about wishes can appear in Listening Part A. The important idea to remember about wishes is that a wish implies that *the opposite of the wish is true.*

Example

On the recording, you hear:

(woman) *It's too bad that you have to stay here and work during the school break.*
(man) *I really wish I could go with you and the others to Palm Springs.*
(narrator) *What does the man mean?*

In your test book, you read:

(A) Maybe he will go with the others on the trip.
(B) He is unable to go on the trip.
(C) He's happy to be going on the trip.
(D) He's going on the trip, but not with the others.

In this conversation the man *wishes* that he *could go* with the others on the trip, so the implied meaning is that he is *unable to go*. The correct answer is therefore answer (B).

The following chart outlines the key points that you should know about wishes:

KEY INFORMATION ABOUT WISHES		
Point	Example	Meaning
• An *affirmative* wish implies a *negative* reality. • A *negative* wish implies an *affirmative* reality.	I wish I *had time* to help. I wish I *did not have time* to help.	= no time to help = time to help
• A *past* tense verb implies a *present* reality. • A *past perfect* tense verb implies a *past* reality.	I wish he were at home.* I wish he *had been* at home.	= is not at home = was not at home

*Remember that *were* is used instead of *was* in wishes: "I wish I *were* going."

EXERCISE 14: In this exercise, underline the wish in each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that implies the opposite of what is said.

SKILL 15: LISTEN FOR UNTRUE CONDITIONS

Conversations containing conditions can appear in Listening Part A. The important idea to remember about conditions is that a condition implies that the *opposite of the condition is true.*

Example

On the recording, you hear:

(man) *Do you think that you'll be able to go to the party?*
(woman) *If I had time, I would go.*
(narrator) *What does the woman say about the party?*

In your test book, you read:

(A) Maybe she'll go.
(B) She has time, so she'll go.
(C) She is going even if she doesn't have time.
(D) It's impossible to go.

In this question, the condition *if I had time* implies that the opposite is true: The woman does not have time for the party, so she *cannot go.* Therefore, the best answer to this question is answer (D).

The following box outlines the key points that you should know about untrue conditions:

KEY INFORMATION ABOUT UNTRUE CONDITIONS		
Point	**Example**	**Meaning**
• An *affirmative* condition implies a *negative* reality. • A *negative* condition implies an *affirmative* reality.	If she *were at home*, she could do it.* If she *weren't at home*, she could do it.	= not at home = at home
• A *past* tense implies a *present* reality. • A *past perfect* verb implies a *past* reality.	If I *had* money, I would buy it. If I *had had* money, I would have bought it.	= do not have money = did not have money
• *Had* can be used without *if.*	*Had I had* money, I would have bought it.**	= did not have money

*Remember that *were* is used instead of *was* in untrue conditions: "If I *were* there, I would help."
**This has the same meaning as "If I had had money. . . ." Note that the subject and "had" are inverted.

EXERCISE 15: In this exercise, underline the condition in each short conversation. Then, read the question and choose the best answer to that question. Remember that the best answer is one that implies the opposite of what is said.

IDIOMATIC LANGUAGE

SKILL 16: LISTEN FOR TWO- AND THREE-PART VERBS

Two- and three-part verbs appear in some questions in Listening Part A. These verbs are expressions that include a verb and one or more particles (such as *in, on,* or *at*); the particle changes the meaning of the verb. Questions involving two- and three-part verbs can be difficult for students because the addition of the particle changes the meaning of the verb in an idiomatic way.

Example

On the recording, you hear:

(man) *What time does the meeting start?*
(woman) *Didn't you hear that it was called off by the director?*
(narrator) *What does the woman say about the meeting?*

In your test book, you read:

(A) The director called a meeting.
(B) The director phoned her about the meeting.
(C) The director called the meeting to order.
(D) The director canceled the meeting.

In this question, the two-part verb *called off* has a different meaning than the verb *call,* which means *phone.* The two-part verb *call off* means *cancel,* so the best answer is answer (D).

NOTE: A list of common two- and three-part verbs and exercises using these verbs appear in Appendix B. You may want to study these two- and three-part verbs before you try the following exercises.

EXERCISE 16: In this exercise, underline the two- or three-part verb in each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that is related to the meaning of the two- or three-part verb and might not seem to be related to the meaning of the verb without the particle.

SKILL 17: LISTEN FOR IDIOMS

Idioms appear in some questions in Listening Part A. Idioms are special expressions in a language that all speakers of the language know; these special expressions describe one situation in life but are applied to many different areas of life. Idiom questions can be difficult for students because they seem to be describing one situation when they are really describing a different situation.

Example

On the recording, you hear:

(man) *Tom is a full-time student and is holding down a full-time job.*
(woman) *He's really burning the candle at both ends.*
(narrator) *What does the woman say about Tom?*

In your test book, you read:

(A) He's lighting a candle.
(B) He's holding the candle at the top and the bottom.
(C) He's doing too much.
(D) He's working as a firefighter.

In this question, the idiom *burning the candle at both ends* has nothing to do with candles and nothing to do with burning or fires, so answers (A), (B), and (D) are not correct. Instead, this idiom is an expression that is used in a situation when someone is trying to do more than he or she really can do; after all, a candle usually only burns at one end, so a candle that burns at two ends is *doing more than it can.* Therefore, the best answer to the question above is answer (C).

NOTE: A list of common idioms and exercises using these idioms appear in Appendix C. You may want to study these idioms before you try the following exercises.

EXERCISE 17: In this exercise, underline the idiom in each short conversation. Then read the question and choose the best answer to that question. Remember that the best answer is one that might not seem to be related to the idiom in the second line.

THE LISTENING PART B QUESTIONS

Part B of the Listening Comprehension section of the TOEFL test consists of two long conversations, each followed by a number of questions. You will hear the conversations and the questions on the recording; they are not written in your test book. You must choose the best answer to each question from the four choices that are written in your test book.

The conversations are often about some aspect of school life (how difficult a class is, how to write a research paper, how to register for a course). The conversations can also be about topics currently in the news in the United States (desalination of the water supply, recycling of used products, damage from a storm or some other type of natural phenomenon).

Example

On the recording, you hear:

(narrator) ***Questions 1 through 4.*** *Listen to a conversation between a professor and a student.*

(man) *Hello, Professor Denton. Are you free for a moment? Could I have a word with you?*

(woman) *Come on in, Michael. Of course I have some time. These are my office hours, and this is the right time for you to come and ask questions. Now, how can I help you?*

(man) *Well, I have a quick question for you about the homework assignment for tomorrow. I thought the assignment was to answer the first three questions at the top of page 67 in the text, but when I looked, there weren't any questions there. I'm confused.*

(woman) *The assignment was to answer the first three questions at the top of page 76, not 67.*

(man) *Oh, now I understand. I'm glad I came in to check. Thanks for your help.*

(woman) *No problem. See you tomorrow.*

Questions:

1. On the recording, you hear:

(narrator) *Who is the man?*

In your test book, you read:

(A) A professor.
(B) An office worker.
(C) Professor Denton's assistant.
(D) A student.

2. On the recording, you hear:

(narrator) *When does the man come to see Professor Denton?*

In your test book, you read:

(A) During regular class hours.
(B) Just before class time.
(C) As soon as class is finished.
(D) During office hours.

(continued on next page)

3. On the recording, you hear:

(narrator) *Why does the man come to see Professor Denton?*

In your test book, you read:
(A) To turn in an assignment.
(B) To ask a question.
(C) To pick up a completed test.
(D) To explain why he did not attend class.

4. On the recording, you hear:

(narrator) *What incorrect information did the man have?*

In your test book, you read:
(A) The date the assignment was due.
(B) The page number of the assignment.
(C) The length of the assignment.
(D) The numbers of the assignment questions.

The first question asks you to determine who the man is. Since the man opens the conversation with *Professor Denton* and he asks about the page number of an assignment for tomorrow, he is probably a student. The best answer to this question is therefore answer (D). The second question asks about when the man comes to see the professor. The professor says that *these are my office hours,* so the best answer to this question is answer (D). The third question asks why the man comes to see the professor. Since the man says *I have a quick question for you,* the best answer to this question is answer (B). The last question asks what incorrect information the man had. The man thought that the assignment was on page 67 and not on page 76, so he was mistaken about the *page number* of the assignment. The best answer to this question is answer (B).

STRATEGIES FOR THE LISTENING PART B QUESTIONS

1. **If you have time, preview the answers to the Listening Part B questions.** While you are looking at the answers, you should try to do the following:
   - Anticipate the **topics** of the conversations you will hear.
   - Anticipate the **questions** for each of the groups of answers.
2. **Listen carefully to the first line of the conversation.** The first line of the conversation often contains the main idea, subject, or topic of the conversation, and you will often be asked to answer such questions.
3. **As you listen to the conversation, draw conclusions about the situation of the conversation: who is talking, where the conversation takes place, or when it takes place.** You will often be asked to make such inferences about the conversation.
4. **As you listen to the conversation, follow along with the answers in your test book and try to determine the correct answers.** Detail questions are generally answered in order in the conversation, and the answers often sound the same as what is said in the recording program.
5. **You should guess even if you are not sure.** Never leave any answers blank.
6. **Use any remaining time to look ahead at the answers to the questions that follow.**

The following skills will help you to implement these strategies in Part B of the Listening Comprehension section of the TOEFL test.

BEFORE LISTENING

Skill 18: ANTICIPATE THE TOPICS

It is very helpful to your overall comprehension if you know what topics to expect in Listening Part B. You should therefore try to anticipate the topics you will be hearing. For example, are the conversations about some aspect of school life, or some type of social issue, or a trip someone is planning? A helpful strategy is therefore to look briefly at the answers in the test book, before you actually hear the conversations in the recording program, and try to determine the topics of the conversations that you will hear.

EXERCISE 18: Look at the answers to the five questions together, and try to anticipate the topic of the conversation for those five questions. (Of course, you cannot always determine exactly what the topic is, but you often can get a general idea.) Questions 1 through 5 have been answered for you.

1. (A) Find *work on campus.*
   (B) *Work* in the *employment office.*
   (C) Help *students* find *jobs.*
   (D) Ask the woman questions.

2. (A) In the library.
   (B) In a classroom.
   (C) In a campus office.

   (D) Weekdays.

5. (A) Fill out a form.
   (B) Give her some additional information.
   (C) Tell her some news.
   (D) Phone her.

What is the topic of the conversation for questions 1 through 5?

   (B) Three complete days.
   (C) Three classes.
   (D) Three weeks.

    (D) She should get more information about acid rain.

What is the topic of the conversation for questions 11 through 15?

SKILL 19: ANTICIPATE THE QUESTIONS

It is very helpful to your ability to answer individual questions in Listening Part B if you can anticipate what the questions will be and listen specifically for the answers to those questions.

> **Example**
>
> In your test book, you read:
>
> (A) In the airport.
> (B) In the library.
> (C) In the dormitory.
> (D) In the travel agent's office.
>
> You try to anticipate the question:
>
> *Where does the conversation probably take place?*

In this example, you can be quite certain that one of the questions will be about where the conversation takes place. Since you are sure that this is one of the questions, you can listen carefully for clues that will give you the answer. This example shows that a helpful strategy is therefore to look briefly at the answers in the test book, before you actually hear the conversations in the recording program, and try to determine the questions that you will be asked to answer.

EXERCISE 19: Study the following answers and try to determine what the questions will be. (You should note that perhaps you will only be able to predict part of a question, rather than the complete question.) If you cannot predict the question in a short period of time, then move on to the next group of answers. Question 1 has been answered for you.

WHILE LISTENING

SKILL 20: DETERMINE THE TOPIC

As you listen to each conversation in Listening Part B, you should be thinking about the topic (subject) or main idea for each conversation. Since the first one or two sentences generally give the topic, you should be asking yourself what the topic is while you are listening carefully to the first part of the conversation.

Example

On the recording, you hear:

(man) *You can't believe what I just got!*
(woman) *I bet you got that new car you've always wanted.*
(man) *Now, how in the world did you figure that out?*

You think:

The topic of the conversation is the new car that the man just got.

EXERCISE 20: Listen to the first part of each of the conversations, and decide on the topic of each conversation.

NOW BEGIN THE RECORDING PROGRAM AT EXERCISE 20.

1. What is the topic of Conversation 1?

   _____

2. What is the topic of Conversation 2?

   _____

3. What is the topic of Conversation 3?

   _____

SKILL 21: DRAW CONCLUSIONS ABOUT *WHO, WHAT, WHEN, WHERE*

As you listen to each conversation in Listening Part B, you should be trying to set the situation in your mind. You should be thinking the following thoughts:

- ***Who** is talking?*
- ***When** does the conversation probably take place?*
- ***Where** does the conversation probably take place?*
- ***What** is the source of information for the conversation?*

Example

On the recording, you hear:

(man) *Why do you have so many books?*
(woman) *I need them for my paper on George Washington. Do you know how I can check them out?*
(man) *Yes, you should go downstairs to the circulation desk and fill out a card for each book.*

You think:

Who is probably talking?	(two students)
Where are they?	(in the library)
What course are they discussing?	(American History)

EXERCISE 21: Listen to the first part of each of the conversations and try to imagine the situation. Then answer the questions in the text.

NOW BEGIN THE RECORDING PROGRAM AT EXERCISE 21.

Conversation 1

1. Who is probably talking? _____

2. Where does the conversation take place? _____

Conversation 2

1. Who is probably talking? _____

2. When does the conversation take place? _____

3. What is the source of the man's information? _____

Conversation 3

1. Who is probably talking? _____

2. When does the conversation take place? _____

3. What is the source of the information? _____

SKILL 22: LISTEN FOR ANSWERS IN ORDER

There are two possible methods to use while you listen to a conversation in the Listening Part B of the TOEFL test.

- *You can just listen to the conversation (and ignore the answers).*
- *You can follow along with the answers while you listen.*

Some students prefer to just listen to the conversation while it is being spoken, and if that method works well for you, then that is what you should do. Other students find that they can answer more questions correctly if they read along with the answers while the conversation is being spoken. Because the detail questions are answered in order, it is possible to read along while you listen to the conversation in the recording program.

Example

On the recording, you hear:

(man) *Can I help you?*
(woman) *I'm interested in opening an account.*
(man) *Well, we have several different types of accounts: checking accounts, savings accounts, money market accounts, time deposit accounts.*
(woman) *It's a checking account that I am interested in.*
(man) *I can help you with that. First, you have to fill out a form, and then I need to see some identification. That's about all there is to it.*
(woman) *That sounds easy enough. Thanks for your help.*

On the recording, you hear:

(narrator) 1. *What type of account does the woman want?*
2. *What does the man need for her to show him?*

In your test book, you read (same time):

1. (A) A checking account.
(B) A savings account.
(C) A money market account.
(D) A time deposit account.

2. (A) A form.
(B) An account.
(C) A piece of identification.
(D) A check.

When you read the answers to the first question, you can anticipate that the first question is: *What type of account?* As you listen, you determine that the woman wants *a checking account.* Therefore, you can anticipate that the best answer to the first question is (A).

When you read the answers to the second question, you can anticipate that the second question is going to ask *What thing . . .?* In the conversation, the man asks her to fill out a *form* and show some *identification,* so as you are listening you can anticipate that the correct answer to the second question is either (A) or (C). When you hear the question, you can determine that the best answer is answer (C).

TOEFL EXERCISE 22: Listen to each complete conversation and answer the questions that follow.

THE LISTENING PART C QUESTIONS

Part C of the Listening Comprehension section of the TOEFL test consists of three talks, each followed by a number of questions. You will hear the talks and the questions on a recording; they are not written in your test book. You must choose the best answer to each question from the four choices that are written in your test book. Like the conversations in Listening Part B, the talks are often about some aspect of school life or topics currently in the news. It is also very common for the talks to be shortened versions of lectures from courses taught in American colleges and universities.

Example

On the recording, you hear:

(narrator) ***Questions 1 through 4.*** *Listen to a talk about the settlement of America.*

(woman) *The settling of the vast farmlands in central North America was delayed at least partly because of an error by one man. In the early nineteenth century, Lieutenant Zebulon Pike of the U.S. Army was sent out to explore and chart the huge expanses of land in the center of the continent. When he returned from his explorations, he wrote a report in which he erroneously stated that the vast plains in the central part of the continent were desertlike, comparable to the Sahara in Africa. In reality, however, these vast plains contained some of the most fertile farmland in the world. Because of Pike's mistake, the maps of the day depicted the central part of what is today the United States as a vast desert rather than the excellent and available farmland that it was. This mistaken belief about the nature of those lands caused settlers to avoid the central plains for years.*

Questions:

1. On the recording, you hear:

   (narrator) *What is the topic of this talk?*

   In your test book, you read:
   (A) Zebulon Pike's career.
   (B) A mistake that influenced the settlement of America.
   (C) A report for the army.
   (D) The farmlands.

2. On the recording, you hear:

   (narrator) *How did Pike describe the area that he explored?*

   In your test book, you read:
   (A) As a desert.
   (B) As usable for army purposes.
   (C) As located in the Sahara.
   (D) As available for farmland.

(continued on next page)

3.	On the recording, you hear:	
	(narrator)	*What was this area really like?*
	In your test book, you read:	(A) It was a vast desert. (B) It was covered with farms. (C) It was excellent farmland. (D) It was similar to the Sahara.
4.	On the recording, you hear:	
	(narrator)	*This talk would probably be given in which of the following courses?*
	In your test book, you read:	(A) Agricultural Science. (B) American History. (C) Geology of the United States. (D) Military Science.

The first question asks about the topic of the talk. The topic of the talk is found in the first sentence of the talk: *The settling of the vast farmlands in central North America was delayed at least partly because of an error by one man.* Therefore, the best answer to the question is (B). The second question is a detail question that asks how Pike described this area. It is stated in the talk that Pike *wrote a report in which he erroneously stated that the vast plains in the central part of the continent were desertlike. . . .* Therefore, the best answer to this question is (A). The third question is an additional detail question that asks what the area was really like. Because the talk indicates that *in reality . . . these vast plains contained some of the most fertile farmland in the world,* the best answer to this question is (C). The fourth question is an inference question. It asks in which course this lecture would probably be given. The word *probably* indicates to you that the question is not answered directly in the talk. You must draw a conclusion from the information in the talk to answer this question. Because this talk refers to *the early nineteenth century* and discusses the *settling of the vast farmlands in central North America,* it would probably be given in an American History course. The best answer to this question is (B).

STRATEGIES FOR THE LISTENING PART C QUESTIONS

1. **If you have time, preview the answers to the Listening Part C questions.** While you are looking at the answers, you should try to do the following:
   - Anticipate the **topics** of the talks you will hear.
   - Anticipate the **questions** for each of the groups of answers.
2. **Listen carefully to the first line of the talk.** The first line of the talk often contains the main idea, subject, or topic of the talk, and you will often be asked this type of question.
3. **As you listen to the talk, draw conclusions about the situation of the talk: who is talking, where or when the talk takes place, which course this lecture might be given in.** You will often be asked to make such inferences about the talk.
4. **As you listen to the talk, follow along with the answers in your test book and try to determine the correct answers.** Detail questions are generally answered in order in the talk, and the answers often sound the same as what is said on the recording.
5. **You should guess even if you are not sure.** Never leave any answers blank.
6. **Use any remaining time to look ahead at the answers to the questions that follow.**

The following skills will help you to implement these strategies in Part C of the Listening Comprehension section of the TOEFL test.

BEFORE LISTENING

SKILL 23: ANTICIPATE THE TOPICS

It is very helpful to your overall comprehension if you know what topics to expect in Listening Part C. You should therefore try to anticipate the topics that you will be hearing (as you did in Listening Part B). For example, are the talks about American history, or literature, or some aspect of school life? A helpful strategy is therefore to look briefly at the answers in the test book, before you actually hear the talks on the recording, and try to determine the topics of the talks that you will hear.

EXERCISE 23: Look at the answers to the five questions together, and try to anticipate the topic of the talk for those five questions. (Of course, you cannot always determine exactly what the topic is, but you often can get a general idea.) Questions 1 through 5 have been answered for you.

1. (A) During a *biology* laboratory session.
   (B) In a biology study group.
   (C) On the *first day of class.*
   (D) Just before the final exam.
2. (A) Once a week.
   (B) Two times a week.
   (C) Three times a week.
   (D) For fifteen hours.
3. (A) To do the first laboratory assignment.
   (B) To take the first *exam.*
   (C) To study the laboratory manual.
   (D) To read one chapter of the text.
4. (A) Room assignments.
   (B) Exam topics.
   (C) *Reading assignments.*
   (D) The first lecture.
5. (A) *Exams and lab work.*
   (B) Reading and writing assignments.
   (C) Class participation and grades on examinations.
   (D) Lecture and laboratory attendance.

What is the topic of the talk for questions 1 through 5?

the requirements of a biology class

You can guess this because of the following clues:

- *biology*
- *first day of class*
- *reading assignments*
- *exams*
- *lab work*

6. (A) What caused the Ring of Fire.
   (B) The volcanoes of the Ring of Fire.

   (B) The characteristics of volcanoes in the Ring of Fire.
   (C) The volcanoes of Hawaii.
   (D) Mauna Loa.

   (C) Along the Ring of Fire.
   (D) Within the Ring of Fire.
9. (A) They are not so violent.
   (B) They are located along the Ring of Fire.
   (C) They contain a lot of gas.

    (B) To the Smithsonian.
    (C) To the mall.
    (D) To various other museums.

What is the topic of the talk for questions 11 through 15?

SKILL 24: ANTICIPATE THE QUESTIONS

It is very helpful to your ability to answer individual questions in Listening Part C if you can anticipate what the questions will be and listen specifically for the answers to those questions (as you did in Listening Part B).

Example

In your test book, you read:

(A) For three weeks.
(B) For three days.
(C) For three months.
(D) For three hours.

You try to anticipate the question:

How long does (something) last?

In this example, you can be quite certain that one of the questions will be about how long something lasts. Since you are sure that this is one of the questions, you can listen carefully for clues that will give you the answer. This example shows that a helpful strategy is therefore to look briefly at the answers in the test book, before you actually hear the talks on the recording, and try to determine the questions that you will be asked to answer.

EXERCISE 24: Study the following answers and try to determine what the questions will be. (You should note that perhaps you will only be able to predict part of a question, rather than the complete question.) If you cannot predict the question in a short period of time, then move on to the next group of answers. Question 1 has been answered for you.

WHILE LISTENING

SKILL 25: DETERMINE THE TOPIC

As you listen to each talk in Listening Part C, you should be thinking about the topic (subject) or main idea for the talk (as you did in Listening Part B). Since the first sentence is generally a topic sentence, you should be asking yourself what the topic is while you are listening carefully to the first part of the talk.

Example

On the recording, you hear:

(man) *The major earthquake that occurred east of Los Angeles in 1971 is still affecting the economy of the area today.*

You think:

The topic of the talk is the effect of the 1971 earthquake on Los Angeles today.

EXERCISE 25: Listen to the first part of each of the talks, and decide on the topic of each talk.

NOW BEGIN THE RECORDING PROGRAM AT EXERCISE 25.

1. What is the topic of Talk 1?

_____

2. What is the topic of Talk 2?

_____

3. What is the topic of Talk 3?

_____

SKILL 26: DRAW CONCLUSIONS ABOUT *WHO, WHAT, WHEN, WHERE*

As you listen to each talk in Listening Part C, you should be trying to set the situation in your mind (as you did in Listening Part B). You should be thinking the following thoughts:

- ***Who** is talking?*
- ***When** does the talk probably take place?*
- ***Where** does the talk probably take place?*
- ***What** course is the talk concerned with?*
- ***What** is the source of information for the talk?*

Example

On the recording, you hear:

(woman) *The next stop on our tour of Atlanta will be the original home of Coca-Cola, at 107 Marietta Street. Coca-Cola was manufactured at this location until early in September of 1888.*

You think:

Who is probably talking?	(a tour guide)
Where are they?	(in Atlanta)
When does the talk take place?	(in the middle of a tour)

EXERCISE 26: Listen to the first part of each of the talks and try to imagine the situation. Then answer the questions in the text.

NOW BEGIN THE RECORDING PROGRAM AT EXERCISE 26.

Talk 1

1. Who is probably talking? _____
2. Where does the talk probably take place? _____
3. When does the talk probably take place? _____
4. What course is being discussed? _____

Talk 2

1. Who is probably talking? _____
2. Where does the talk probably take place? _____
3. When does the talk probably take place? _____
4. What course is being discussed? _____

Talk 3

1. Who is probably talking? _____
2. Where does the talk take place? _____
3. When does the talk take place? _____

SKILL 27: LISTEN FOR ANSWERS IN ORDER

There are two possible methods to use while you listen to the talks in Listening Part C.

- *You can just listen to the talk (and ignore the answers).*
- *You can follow along with the answers while you listen.*

Some students prefer to just listen to the talk while it is being spoken, and if that method works well for you, then that is what you should do. Other students find that they can answer more questions correctly if they read along with the answers while the talk is being given. Because the detail questions are answered in order, it is possible to read along while you listen to the talk in the recording program.

Example

On the recording, you hear:

(woman) *The Great Chicago Fire began on October 8, 1871, and, according to legend, began when a cow knocked over a lantern in Mrs. O'Leary's barn. No matter how it began, it was a disastrous fire. The preceding summer had been exceedingly dry in the Chicago area, and the extreme dryness accompanied by Chicago's infamous winds created an inferno that destroyed 18,000 buildings and killed more than 300 people before it was extinguished the following day.*

On the recording, you hear:

(narrator) 1. *According to legend, where did the Great Chicago Fire begin?*

2. *Which of the following is* ***not*** *true about the Great Chicago Fire?*

In your test book, you read (same time):

1. (A) In a barn.
   (B) In Mrs. O'Leary's home.
   (C) In a cow pasture.
   (D) In a lantern factory.

2. (A) The dry weather prior to the fire made it worse.
   (B) It happened during the summer.
   (C) Chicago's winds made it worse.
   (D) It killed many people.

When you read the answers to the first question, you can anticipate that the first question is: *Where did something happen?* As you listen, you determine that the fire began *in Mrs. O'Leary's barn.* Therefore, you can anticipate that the best answer to the first question is (A).

If you read the answers to the second question while you listen to the talk, you can determine that answers (A), (C), and (D) are true. Answer (B) is not true: the fire did not begin in the summer, it began in *October,* which is in the autumn. Therefore, answer (B) is the best answer to the question *Which of the following is* ***not*** *true about the Great Chicago Fire?*

TOEFL EXERCISE 27: Listen to each complete talk and answer the questions that follow.

TOEFL POST-TEST

SECTION 1
LISTENING COMPREHENSION
Time—approximately 35 minutes
(including the reading of the directions for each part)

In this section of the test, you will have an opportunity to demonstrate your ability to understand conversations and talks in English. There are three parts to this section, with special directions for each part. Answer all the questions on the basis of what is **stated** or **implied** by the speakers you hear. Do **not** take notes or write in your test book at any time. Do **not** turn the pages until you are told to do so.

Part A

Directions: In Part A you will hear short conversations between two people. After each conversation, you will hear a question about the conversation. The conversations and questions will not be repeated. After you hear a question, read the four possible answers in your test book and choose the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Listen to an example.

Sample Answer

On the recording, you will hear:

(man) *That exam was just awful.*
(woman) *Oh, it could have been worse.*
(narrator) *What does the woman mean?*

In your test book, you will read:

(A) The exam was really awful.
(B) It was the worst exam she had ever seen.
(C) It couldn't have been more difficult.
(D) It wasn't that hard.

You learn from the conversation that the man thought the exam was very difficult and that the woman disagreed with the man. The best answer to the question, "What does the woman mean?" is (D), "It wasn't that hard." Therefore, the correct choice is (D).

Part C

Directions: In this part of the test, you will hear several talks. After each talk, you will hear some questions. The talks and questions will not be repeated.

After you hear a question, you will read the four possible answers in your test book and choose the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Here is an example.

On the recording, you will hear:

(narrator) *Listen to an instructor talk to his class about painting.*

(man) *Artist Grant Wood was a guiding force in the school of painting known as American regionalist, a style reflecting the distinctive characteristics of art from rural areas of the United States. Wood began drawing animals on the family farm at the age of three, and when he was thirty-eight one of his paintings received a remarkable amount of public notice and acclaim. This painting, called "American Gothic," is a starkly simple depiction of a serious couple staring directly out at the viewer.*

Now listen to a sample question.

Sample Answer

(narrator) *What style of painting is known as American regionalist?*

Ⓐ Ⓑ Ⓒ ●

In your test book, you will read:

(A) Art from America's inner cities.
(B) Art from the central region of the U.S.
(C) Art from various urban areas in the U.S.
(D) Art from rural sections of America.

The best answer to the question, "What style of painting is known as American regionalist?" is (D), "Art from rural sections of America." Therefore, the correct choice is (D).

Now listen to another sample question.

Sample Answer

(narrator) *What is the name of Wood's most successful painting?*

Ⓐ Ⓑ ● Ⓓ

In your test book, you will read:

(A) "American Regionalist."
(B) "The Family Farm in Iowa."
(C) "American Gothic."
(D) "A Serious Couple."

The best answer to the question, "What is the name of Wood's most successful painting?" is (C), "American Gothic." Therefore, the correct choice is (C).

Remember, you are **not** allowed to take notes or write in your test book.

- Turn to the **Diagnostic Chart** on pages 585–587, and circle the numbers of the questions that you missed.
- Turn to **Scoring Information** on pages 581–582, and determine your TOEFL score.
- Turn to the **Progress Chart** on page 591, and add your score to the chart.

STRUCTURE AND WRITTEN EXPRESSION

The second section of the TOEFL test is the Structure and Written Expression section. This section consists of forty questions (some tests may be longer). You have twenty-five minutes to complete the forty questions in this section.

There are two types of questions in the Structure and Written Expression section of the TOEFL test:

1. **Structure** (questions 1–15) consists of fifteen sentences in which part of the sentence has been replaced with a blank. Each sentence is followed by four answer choices. You must choose the answer that completes the sentence in a grammatically correct way.
2. **Written Expression** (questions 16–40) consists of twenty-five sentences in which four words or groups of words have been underlined. You must choose the underlined word or group of words that is *not* correct.

GENERAL STRATEGIES

1. **Be familiar with the directions.** The directions on every TOEFL test are the same, so it is not necessary to spend time reading the directions carefully when you take the test. You should be completely familiar with the directions before the day of the test.
2. **Begin with questions 1 through 15.** Anticipate that questions 1 through 5 will be the easiest. Anticipate that questions 11 through 15 will be the most difficult. Do not spend too much time on questions 11 through 15. There will be easier questions that come later.
3. **Continue with questions 16 through 40.** Anticipate that questions 16 through 20 will be the easiest. Anticipate that questions 36 through 40 will be the most difficult. Do not spend too much time on questions 36 through 40.
4. **If you have time, return to questions 11 through 15.** You should spend extra time on questions 11 through 15 only after you spend all the time that you want on the easier questions.
5. **Never leave any answers blank on your answer sheet.** Even if you are not sure of the correct response, you should answer each question. There is no penalty for guessing.

THE STRUCTURE QUESTIONS

In the TOEFL test, questions 1 through 15 of the Structure and Written Expression section test your knowledge of the correct structure of English sentences. The questions in this section are multiple-choice questions in which you must choose the letter of the answer that best completes the sentence.

Example

_____ is taking a trip to New York.

(A) They
(B) When
(C) The woman
(D) Her

In this example, you should notice immediately that the sentence has a verb (*is taking*), and that the verb needs a subject. Answers (B) and (D) are incorrect because *when* and *her* are not subjects. In answer (A), *they* is a subject, but *they* is plural and the verb *is taking* is singular. The correct answer is answer (C); *the woman* is a singular subject. You should therefore choose answer (C).

STRATEGIES FOR THE STRUCTURE QUESTIONS

1. **First study the sentence.** Your purpose is to determine what is needed to complete the sentence correctly.
2. **Then study each answer based on how well it completes the sentence.** Eliminate answers that do not complete the sentence correctly.
3. **Do not try to eliminate incorrect answers by looking only at the answers.** The incorrect answers are generally correct by themselves. The incorrect answers are generally incorrect only when used to complete the sentence.
4. **Never leave any answers blank.** Be sure to answer each question even if you are unsure of the correct response.
5. **Do not spend too much time on the Structure questions.** Be sure to leave adequate time for the Written Expression questions.

The following skills will help you to implement these strategies in the Structure section of the TOEFL test.

SENTENCES WITH ONE CLAUSE

Some sentences in English have just one subject and verb, and it is very important for you to find the subject and verb in these sentences. In some sentences it is easy to find the subject and verb. However, certain structures, such as objects of prepositions, appositives, and participles, can cause confusion in locating the subject and verb because each of these structures can look like a subject or verb. The object of the preposition can be mistaken for a subject.

Therefore, you should be able to do the following in sentences with one subject and verb: (1) be sure the sentence has a subject and a verb, (2) be careful of objects of prepositions and appositives when you are looking for the subject, and (3) be careful of present participles and past participles when you are looking for the verb.

SKILL 1: BE SURE THE SENTENCE HAS A SUBJECT AND A VERB

You know that a sentence in English should have a subject and a verb. The most common types of problems that you will encounter in the Structure section of the TOEFL test have to do with subjects and verbs: perhaps the sentence is missing either the subject or the verb or both, or perhaps the sentence has an extra subject or verb.

Example I

____ was backed up for miles on the freeway.

(A) Yesterday
(B) In the morning
(C) Traffic
(D) Cars

In this example you should notice immediately that there is a verb (*was*), but there is no subject. Answer (C) is the best answer because it is a singular subject that agrees with the singular verb *was*. Answer (A), *yesterday*, and answer (B), *in the morning*, are not subjects, so they are not correct. Although answer (D), *cars*, could be a subject, it is not correct because *cars* is plural and it does not agree with the singular verb *was*.

Example II

Engineers ____ for work on the new space program.

(A) necessary
(B) are needed
(C) hopefully
(D) next month

In this example you should notice immediately that the sentence has a subject (*engineers*), and that there is no verb. Because answer (B), *are needed*, is a verb, it is the best answer. Answers (A), (C), and (D) are not verbs, so they are not correct.

Example III

The boy _____ going to the movies with a friend.

(A) he is
(B) he always was
(C) is relaxing
(D) will be

This sentence has a subject (*boy*) and has part of a verb (*going*); to be correct, some form of the verb *be* is needed to make the sentence complete. Answers (A) and (B) are incorrect because the sentence already has a subject (*boy*) and does not need the extra subject *he*. Answer (C) is incorrect because *relaxing* is an extra verb part that is unnecessary because of *going*. Answer (D) is the best answer; *will be* together with *going* is a complete verb.

The following chart outlines what you should remember about subjects and verbs:

SUBJECTS AND VERBS
A sentence in English must have at least one subject and one verb.

EXERCISE 1: Underline the subjects once and the verbs twice in each of the following sentences. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. Last week went fishing for trout at the nearby mountain lake.

C 2. A schedule of the day's events can be obtained at the front desk.

_____ 3. A job on the day shift or the night shift at the plant available.

_____ 4. The new computer program has provides a variety of helpful applications.

_____ 5. The box can be opened only with a special screwdriver.

_____ 6. The assigned text for history class it contains more than twenty chapters.

_____ 7. The papers in the wastebasket should be emptied into the trash can outside.

_____ 8. Departure before dawn on a boat in the middle of the harbor.

_____ 9. Yesterday found an interesting article on pollution.

_____ 10. The new machine is processes 50 percent more than the previous machine.

SKILL 2: BE CAREFUL OF OBJECTS OF PREPOSITIONS

An object of a preposition is a noun or a pronoun that comes after a preposition, such as *in, at, of, to, by, behind, on*, and so on, to form a prepositional phrase.

(After his *exams*) Tom will take a trip (by *boat*).

This sentence contains two objects of prepositions. *Exams* is the object of the preposition *after* and *boat* is the object of the preposition *by*.

An object of a preposition can cause confusion in the Structure section of the TOEFL test because it can be mistaken for the subject of a sentence.

Example

With his friend _____ found the movie theater.

(A) has
(B) he
(C) later
(D) when

In this example you should look first for the subject and the verb. You should notice the verb *found* and should also notice that there is no subject. Do not think that *friend* is the subject; *friend* is the object of the preposition *with*, and one noun cannot be both a subject and an object at the same time. Because a subject is needed in this sentence, answer (B), *he*, is the best answer. Answers (A), (C), and (D) are not correct because they cannot be subjects.

The following chart outlines the key information that you should remember about objects of prepositions:

OBJECTS OF PREPOSITIONS
A *preposition* is followed by a noun or pronoun that is called an *object of the preposition*. **If a word is an *object of a preposition*, it is not the *subject*.**

NOTE: A lengthy list of prepositions and practice in recognizing prepositions can be found in Appendix D at the back of the text. You may want to complete these exercises before continuing with Exercise 2.

EXERCISE 2: Each of the following sentences contains one or more prepositional phrases. Underline the subjects once and the verbs twice. Circle the prepositional phrases that come before the verb. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The interviews (by radio broadcasters) were carried live by the station.

I 2. (In the last possible moment) (before takeoff) took his seat in the airplane.

_____ 3. At the neighborhood flower shop, flowers in quantities of a dozen or a half dozen can be delivered for free.

_____ 4. The progressive reading methods at this school are given credit for the improved test scores.

_____ 5. For the last three years at various hospitals in the county has been practicing medicine.

_____ 6. In the past a career in politics was not considered acceptable in some circles.

_____ 7. Shopping in the downtown area of the city it has improved a lot in recent years.

_____ 8. At the building site the carpenters with the most experience were given the most intricate work.

_____ 9. For the fever and headache took two aspirin tablets.

_____ 10. The report with complete documentation was delivered at the conference.

SKILL 3: BE CAREFUL OF APPOSITIVES

Appositives can cause confusion in the Structure section of the TOEFL test because an appositive can be mistaken for the subject of a sentence. An appositive is a noun that comes before or after another noun and has the same meaning.

Sally, the best *student* in the class, got an A on the exam.

In this example *Sally* is the subject of the sentence and *the best student in the class* can easily be recognized as an appositive phrase because of the noun *student* and because of the commas. The sentence says that *Sally* and *the best student in the class* are the same person. Note that if you leave out the appositive phrase, the sentence still makes sense (*Sally got an A on the exam*).

The following example shows how an appositive can be confused with the subject of a sentence in the Structure section of the TOEFL test.

Example I

_____, George, is attending the lecture.

(A) Right now
(B) Happily
(C) Because of the time
(D) My friend

In this example you should recognize from the commas that *George* is not the subject of the sentence. *George* is an appositive. Because this sentence still needs a subject, the best answer is (D), *my friend.* Answers (A), (B), and (C) are incorrect because they are not subjects.

The next example shows that an appositive does not always come after the subject; an appositive can also come at the beginning of the sentence.

Example II

_____, Sarah rarely misses her basketball shots.

(A) An excellent basketball player
(B) An excellent basketball player is
(C) Sarah is an excellent basketball player
(D) Her excellent basketball play

In this example you can tell that *Sarah* is the subject and *misses* is the verb because there is no comma separating them. In the space you should put an appositive for Sarah, and Sarah is *an excellent basketball player,* so answer (A) is the best answer. Answers (B) and (C) are not correct because they each contain the verb *is,* and an appositive does not need a verb. Answer (D) contains a noun, *play,* that could possibly be an appositive, but *play* is not the same as *Sarah,* so this answer is not correct.

The following chart outlines the key information that you should remember about appositives:

APPOSITIVES
An *appositive* is a noun that comes before or after another noun and is generally set off from the noun with commas. **If a word is an *appositive*, it is not the *subject*.** The following appositive structures are both possible in English:
S, APP, V ***Tom, a really good mechanic, is fixing the car.***
APP, S V ***A really good mechanic, Tom is fixing the car.***

EXERCISE 3: Each of the following sentences contains an appositive. Underline the subjects once and the verbs twice. Circle the appositive phrases. Then, indicate if the sentences are correct (C) or incorrect (I).

C 1. (The son of the previous owner,) the new owner is undertaking some fairly broad changes in management policy.

I 2. Last semester, (a friend,) graduated *cum laude* from the university.

____ 3. Valentine's Day, February 14, is a special holiday for sweethearts.

____ 8. The new tile pattern, yellow flowers on a white background, really brightens up the room.

____ 9. The high-powered computer the most powerful machine of its type, was finally readied for use.

____ 10. A longtime friend and confident, the psychologist was often invited over for Sunday dinner.

SKILL 4: BE CAREFUL OF PRESENT PARTICIPLES

A present participle is the *-ing* form of the verb (*talking, playing*). In the Structure section of the TOEFL test a present participle can cause confusion because it can be either a part of the verb or an adjective. It is part of the verb when it is preceded by some form of the verb *be*.

The man *is talking* to his friend.
VERB

In this sentence *talking* is part of the verb because it is accompanied by *is*.

A present participle is an adjective when it is not accompanied by some form of the verb *be*.

The man *talking* to his friend has a beard.
ADJECTIVE

In this sentence *talking* is an adjective and not part of the verb because it is not accompanied by some form of *be*. The verb in this sentence is *has*.

The following example shows how a present participle can be confused with the verb in the Structure section of the TOEFL test.

Example

The child _____ playing in the yard is my son.

(A) now
(B) is
(C) he
(D) was

In this example, if you look at only the first words of the sentence, it appears that *child* is the subject and *playing* is part of the verb. If you think that *playing* is part of the verb, you might choose answer (B), *is*, or answer (D), *was*, to complete the verb. However, these two answers are incorrect because *playing* is not part of the verb. You should recognize that *playing* is a participial adjective rather than a verb because there is another verb in the sentence (*is*). In this sentence there is a complete subject (*child*) and a complete verb (*is*), so this sentence does not need another subject or verb. The best answer here is (A).

The following chart outlines what you should remember about present participles:

PRESENT PARTICIPLES
A *present participle* is the *-ing* form of the verb. **The *present participle* can be (1) part of the *verb* or (2) an *adjective*.** It is part of the *verb* when it is accompanied by some form of the verb *be*. It is an *adjective* when it is not accompanied by some form of the verb *be*. 1. *The boy is **standing** in the corner.* 2. *The boy **standing** in the corner was naughty.*

EXERCISE 4: Each of the following sentences contains one or more present participles. Underline the subjects once and the verbs twice. Circle the present participles and label them as adjectives or verbs. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The companies (offering) the lowest prices will have the most customers.
ADJ.

I 2. Those travelers are (completing) their trip on Delta should report to Gate Three.
VERB

_____ 3. The artisans were demonstrating various handicrafts at booths throughout the fair.

_____ 4. The fraternities are giving the wildest parties attract the most new pledges.

_____ 5. The first team winning four games is awarded the championship.

_____ 6. The speaker was trying to make his point was often interrupted vociferously.

_____ 7. The fruits were rotting because of the moisture in the crates carrying them to market.

_____ 8. Any students desiring official transcripts should complete the appropriate form.

_____ 9. The advertisements were announcing the half-day sale received a lot of attention.

_____ 10. The spices flavoring the meal were quite distinctive.

SKILL 5: BE CAREFUL OF PAST PARTICIPLES

Past participles can cause confusion in the Structure section of the TOEFL test because a past participle can be either an adjective or a part of a verb. The past participle is the form of the verb that appears with *have* or *be*. It often ends in *-ed*, but there are also many irregular past participles in English. (See Appendix F for a list of irregular past participles.)

The family *has purchased* a television.
VERB

The poem *was written* by Paul.
VERB

In the first sentence the past participle *purchased* is part of the verb because it is accompanied by *has*. In the second sentence the past participle *written* is part of the verb because it is accompanied by *was*.

A past participle is an adjective when it is not accompanied by some form of *be* or *have*.

The television *purchased* yesterday was expensive.
ADJECTIVE

The poem *written* by Paul appeared in the magazine.
ADJECTIVE

In the first sentence *purchased* is an adjective rather than a verb because it is not accompanied by a form of *be* or *have* (and there is a verb, *was*, later in the sentence). In the second sentence *written* is an adjective rather than a verb because it is not accompanied by a form of *be* or *have* (and there is a verb, *appeared*, later in the sentence).

The following example shows how a past participle can be confused with the verb in the Structure section of the TOEFL test.

Example

The packages _____ mailed at the post office will arrive Monday.

(A) have
(B) were
(C) them
(D) just

In this example, if you look only at the first few words of the sentence, it appears that *packages* is the subject and *mailed* is either a complete verb or a past participle that needs a helping verb. But if you look further in the sentence, you will see that the verb is *will arrive.* You will then recognize that *mailed* is a participial adjective and is therefore not part of the verb. Answers (A) and (B) are incorrect because *mailed* is an adjective and does not need a helping verb such as *have* or *were.* Answer (C) is incorrect because there is no need for the object *them.* Answer (D) is the best answer to this question.

The following chart outlines what you should remember about past participles:

PAST PARTICIPLES
A *past participle* often ends in *-ed,* but there are also many irregular past participles. For many verbs, including *-ed* verbs, the *simple past* and the *past participle* are the same and can be easily confused. **The *-ed* form of the verb can be (1) the *simple past,* (2) the *past participle* of a verb, or (3) an *adjective.***
1. *She* ***painted*** *this picture.*
2. *She has* ***painted*** *this picture.*
3. *The picture* ***painted*** *by Karen is now in a museum.*

EXERCISE 5: Each of the following sentences contains one or more past participles. Underline the subjects once and the verbs twice. Circle the past participles and label them as adjectives or verbs. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The money was (offered) by the client was not (accepted)

SENTENCES WITH MULTIPLE CLAUSES

Many sentences in English have more than one clause. (A clause is a group of words containing a subject and a verb.) Whenever you find a sentence on the TOEFL test with more than one clause, you need to make sure that every subject has a verb and every verb has a subject. Next you need to check that the various clauses in the sentence are correctly joined. There are various ways to join clauses in English. Certain patterns appear frequently in English and on the TOEFL test. You should be very familiar with these patterns.

SKILL 6: USE COORDINATE CONNECTORS CORRECTLY

When you have two clauses in an English sentence, you must connect the two clauses correctly. One way to connect two clauses is to use *and, but, or, so,* or *yet* between the clauses.

Tom is singing, *and* Paul is dancing.

Tom is tall, *but* Paul is short.

Tom must write the letter, *or* Paul will do it.

Tom told a joke, *so* Paul laughed.

Tom is tired, *yet* he is not going to sleep.

In each of these examples, there are two clauses that are correctly joined with a coordinate conjunction *and, but, or, so,* or *yet,* and a comma (,).

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

A power failure occurred, _____ the lamps went out.

(A) then
(B) so
(C) later
(D) next

In this example you should notice quickly that there are two clauses, *a power failure occurred* and *the lamps went out.* This sentence needs a connector to join the two clauses. *Then, later,* and *next* are not connectors, so answers (A), (C), and (D) are not correct. The best answer is answer (B) because *so* can connect two clauses.

The following chart lists the coordinate connectors and the sentence pattern used with them:

COORDINATE CONNECTORS									
and		*but*		*or*		*so*		*yet*	
S	V,	(coordinate connector)		S	V				
She laughed,		***but***		***she wanted to cry.***					

EXERCISE 6: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The software should be used on an IBM computer, (and) this computer is an IBM.

I 2. The rain clouds can be seen in the distance, (but) no has fallen.

_____ 3. They are trying to sell their house, it has been on the market for two months.

_____ 4. So the quality of the print was not good, I changed the toner cartridge.

_____ 5. The lifeguard will warn you about the riptides, or she may require you to get out of the water.

_____ 6. You should have finished the work yesterday, yet is not close to being finished today.

_____ 7. The phone rang again and again, so the receptionist was not able to get much work done.

_____ 8. The missing wallet was found, but the cash and credit cards had been removed.

_____ 9. Or you can drive your car for another 2,000 miles, you can get it fixed.

_____ 10. The chemist was awarded the Nobel Prize, he flew to Europe to accept it.

SKILL 7: USE ADVERB *TIME* AND *CAUSE* CONNECTORS CORRECTLY

Sentences with adverb clauses have two basic patterns in English. Study the clauses and connectors in the following sentences:

I will sign the check *before* you leave.

Before you leave, I will sign the check.

In each of these examples, there are two clauses: *you leave* and *I will sign the check,* and the clause *you leave* is an adverb time clause because it is introduced with the connector *before.* In the first example the connector *before* comes in the middle of the sentence, and no comma (,) is used. In the second example the connector *before* comes at the beginning of the sentence. In this pattern, when the connector comes at the beginning of the sentence, a comma (,) is required in the middle of the sentence.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

_____ was late, I missed the appointment.

(A) I
(B) Because
(C) The train
(D) Since he

In this example you should recognize easily that there is a verb, *was,* that needs a subject. There is also another clause, *I missed the appointment.* If you choose answer (A) or answer (C), you will have a subject for the verb *was,* but you will not have a connector to join the two clauses. Because you need a connector to join two clauses, answers (A) and (C) are incorrect. Answer (B) is incorrect because there is no subject for the verb *was.* Answer (D) is the best answer because there is a subject, *he,* for the verb *was,* and there is a connector, *since,* to join the two clauses.

The following chart lists adverb *time* and *cause* connectors and the sentence patterns used with them:

ADVERB *TIME* AND *CAUSE* CONNECTORS

TIME				CAUSE	
after	*as soon as*	*once*	*when*	*as*	*now that*
as	*before*	*since*	*whenever*	*because*	*since*
as long as	*by the time*	*until*	*while*	*inasmuch as*	

S V		adverb connector	S	V
Teresa went inside		***because***	***it was raining.***	
adverb connector	S V,		S	V
Because	***it was raining,***		***Teresa went inside.***	

EXERCISE 7: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. (Since) the bank closes in less than an hour, the deposits need to be tallied immediately.

I 2. Their backgrounds are thoroughly investigated (before) are admitted to the organization.

____ 3. The citizens are becoming more and more incensed about traffic accidents whenever the accidents occur at that intersection.

____ 4. The ground had been prepared, the seedlings were carefully planted.

____ 5. We can start the conference now that all the participants have arrived.

____ 9. The mother is going to be quite upset with her son as long he misbehaves so much.

____ 10. Inasmuch as all the votes have not yet been counted the outcome of the election cannot be announced.

SKILL 8: USE OTHER ADVERB CONNECTORS CORRECTLY

Adverb clauses can express the ideas of time and cause, as you saw in Skill 7; adverb clauses can also express a number of other ideas, such as contrast, condition, manner, and place. Because these clauses are adverb clauses, they have the same structure as the time and cause clauses in Skill 7. Study the following examples:

I will leave at 7:00 *if* I am ready.

Although I was late, I managed to catch the train.

In each of these examples, there are two clauses that are correctly joined with adverb connectors. In the first sentence the adverb condition connector *if* comes in the middle of the sentence. In the second sentence the adverb contrast connector *although* comes at the beginning of the sentence, and a comma (,) is used in the middle of the sentence.

The following example shows a way that this sentence pattern can be tested in the Structure section of the TOEFL test.

Example

You will get a good grade on the exam provided _____.

(A) studying
(B) study
(C) to study
(D) you study

In this example you should quickly notice the adverb condition connector *provided*. This connector comes in the middle of the sentence; because it is a connector, it must be followed by a subject and a verb. The best answer to this question is answer (D), which contains the subject and verb *you study*.

The following chart lists the adverb contrast, condition, manner, and place connectors and the sentence patterns used with them:

OTHER ADVERB CONNECTORS			
CONDITION	CONTRAST	MANNER	PLACE
if *in case* *provided* *providing* *unless* *whether*	*although* *even though* *though* *while* *whereas*	*as* *in that*	*where* *wherever*
S V (adverb connector) S V ***Bob went to school even though he felt sick.***			
(adverb connector) S V, S V ***Even though Bob felt sick, he went to school.***			
NOTE: A comma is often used in the middle of the sentence with a contrast connector. *The Smith family arrived at 2:00, **while** the Jones family arrived an hour later.*			

EXERCISE 8: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Then indicate if the sentences are correct (C) or incorrect (I).

MORE SENTENCES WITH MULTIPLE CLAUSES

As we saw in Skills 6 through 8, many sentences in English have more than one clause. In Skills 9 through 12, we will see more patterns for connecting the clauses in sentences with multiple clauses. Because these patterns appear frequently in English and on the TOEFL test, you should be very familiar with them.

SKILL 9: USE NOUN CLAUSE CONNECTORS CORRECTLY

A noun clause is a clause that functions as a noun; because the noun clause is a noun, it is used in a sentence as either an object of a verb, an object of a preposition, or the subject of the sentence.

I know [*when* he will arrive].
NOUN CLAUSE AS OBJECT OF VERB

I am concerned about [*when* he will arrive].
NOUN CLAUSE AS OBJECT OF PREPOSITION

[*When* he will arrive] is not important.
NOUN CLAUSE AS SUBJECT

In the first example there are two clauses, *I know* and *he will arrive*. These two clauses are joined with the connector *when*. *When* changes the clause *he will arrive* into a noun clause that functions as the object of the verb *know*.

In the second example the two clauses *I am concerned* and *he will arrive* are also joined by the connector *when*. *When* changes the clause *he will arrive* into a noun clause that functions as the object of the preposition *about*.

The third example is more difficult. In this example there are two clauses, but they are a little harder to recognize. *He will arrive* is one of the clauses, and the connector *when* changes it into a noun clause that functions as the subject of the sentence. The other clause has the noun clause *when he will arrive* as its subject and *is* as its verb.

The following example shows how these sentence patterns could be tested in the Structure section of the TOEFL test.

Example

_____ was late caused many problems.

(A) That he
(B) The driver
(C) There
(D) Because

In this example there are two verbs (*was* and *caused*), and each of these verbs needs a subject. Answer (B) is wrong because *the driver* is one subject, and two subjects are needed. Answers (C) and (D) are incorrect because *there* and *because* are not subjects. The best answer is answer (A). If you choose answer (A), the completed sentence would be: *That he was late caused many problems.* In this sentence *he* is the subject of the verb *was,* and the noun clause *that he was late* is the subject of the verb *caused.*

The following chart lists the noun clause connectors and the sentence patterns used with them:

NOUN CLAUSE CONNECTORS

• *what, when, where, why, how* • *whatever, whenever* • *whether, if* • *that*

NOUN CLAUSE AS OBJECT

S V (noun connector) S V

I know ***what*** ***you did.***

NOUN CLAUSE AS SUBJECT

(noun connector) S V V

What ***you did*** ***was wrong.***

EXERCISE 9: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Put boxes around the noun clauses. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. (When) the season starts is determined by the weather.

I 2. The manual (how) the device should be built.

_____ 3. The schedule indicated if the teams would be playing in the final game.

_____ 4. He refused to enter a plea could not be determined by the lawyer.

_____ 5. Talked about where we should go for lunch.

_____ 6. Why the condition of the patient deteriorated so rapidly it was not explained.

_____ 7. Whether or not the new office would be built was to be determined at the meeting.

_____ 8. That the professor has not yet decided when the paper is due.

_____ 9. The contract will be awarded is the question to be answered at the meeting.

_____ 10. He always talked with whomever he pleased and did whatever he wanted.

SKILL 10: USE NOUN CLAUSE CONNECTOR/SUBJECTS CORRECTLY

In Skill 9 we saw that noun clause connectors were used to introduce noun subject clauses or noun object clauses. In Skill 10 we will see that in some cases a noun clause connector is not just a connector; a noun clause connector can also be the subject of the clause at the same time.

I do not know [*what* is] in the box.
NOUN CLAUSE AS OBJECT OF VERB

We are concerned about [*who* will do the work.]
NOUN CLAUSE AS OBJECT OF PREPOSITION

[*Whoever* is coming to the party] must bring a gift.
NOUN CLAUSE AS SUBJECT

In the first example there are two clauses: *I do not know* and *what is in the box.* These two clauses are joined by the connector *what.* It is important to understand that in this sentence the word *what* serves two functions. It is both the subject of the verb *is* and the connector that joins the two clauses.

In the second example there are two clauses. In the first clause *we* is the subject of *are.* In the second clause *who* is the subject of *will do. Who* also serves as the connector that joins the two clauses. The noun clause *who will do the work* functions as the object of the preposition *about.*

In the last example there are also two clauses: *whoever* is the subject of the verb *is coming,* and the noun clause *whoever is coming to the party* is the subject of *must bring.* The word *whoever* serves two functions in the sentence: It is the subject of the verb *is coming,* and it is the connector that joins the two clauses.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

_____ was on television made me angry.

(A) It
(B) The story
(C) What
(D) When

In this example you should notice immediately that there are two verbs, *was* and *made,* and each of those verbs needs a subject. Answers (A) and (B) are incorrect because *it* and *the story* cannot be the subject for both *was* and *made* at the same time. Answer (D) is incorrect because *when* is not a subject. In answer (C) *what* serves as both the subject of the verb *was* and the connector that joins the two clauses together; the noun clause *what was on television* is the subject of the verb *made.* Answer (C) is therefore the best answer.

The following chart lists the noun clause connector/subjects and the sentence patterns used with them:

NOUN CLAUSE CONNECTOR/SUBJECTS		
who	*what*	*which*
whoever	*whatever*	*whichever*
NOUN CLAUSE AS OBJECT		
S V	(noun connector/subject)	V
I know	*what*	*happened.*
NOUN CLAUSE AS SUBJECT		
(noun connector/subject) V		V
What	*happened*	*was great.*

EXERCISE 10: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Put boxes around the noun clauses. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The game show contestant was able to respond to (whatever) was asked.

I 2. You should find out (which) the best physics department.

____ 3. The employee was unhappy about what was added to his job description.

____ 4. Whoever wants to take the desert tour during spring break signing up at the office.

____ 5. The motorist was unable to discover who he had struck his car.

____ 6. The voters should elect whichever of the candidates seems best to them.

____ 7. It was difficult to distinguish what was on sale and what was merely on display.

____ 8. You should buy whatever the cheapest and most durable.

____ 9. What was written in the letter angered him beyond belief.

____ 10. You can spend your time with whoever important to you.

SKILL 11: USE ADJECTIVE CLAUSE CONNECTORS CORRECTLY

An adjective clause is a clause that describes a noun. Because the clause is an adjective, it is positioned directly after the noun that it describes.

The woman is filling the glass [*that* she put on the table.]

ADJECTIVE CLAUSE

The glass [*that* she put on the table] contains milk.

ADJECTIVE CLAUSE

In the first example there are two clauses: *woman* is the subject of the verb *is filling,* and *she* is the subject of the verb *put. That* is the adjective clause connector that joins these two clauses, and the adjective clause *that she put on the table* describes the noun *glass.*

In the second example there are also two clauses: *glass* is the subject of the verb *contains,* and *she* is the subject of the verb *put.* In this sentence also, *that* is the adjective clause connector that joins these two clauses, and the adjective clause *that she put on the table* describes the noun *glass.*

The following example shows how these sentence patterns could be tested in the Structure section of the TOEFL test.

Example

The gift _____ selected for the bride was rather expensive.

(A) because
(B) was
(C) since
(D) which we

In this example you should notice quickly that there are two clauses: *gift* is the subject of the verb *was,* and the verb *selected* needs a subject. Because there are two clauses, a connector is also needed. Answers (A) and (C) have connectors, but there are no subjects, so these answers are not correct. Answer (B) changes *selected* into a passive verb; in this case the sentence would have one subject and two verbs, so answer (B) is not correct. The best answer to this question is answer (D). The correct sentence should say: *The gift which we selected for the bride was rather expensive.* In this sentence *gift is* the subject of the verb *was, we* is the subject of the verb *selected,* and the connector *which* joins these two clauses.

The following chart lists the adjective clause connectors and the sentence patterns used with them:

ADJECTIVE CLAUSE CONNECTORS		
whom (for people)	*which* (for things)	*that* (for people or things)
S V	adjective connector S V	
I liked the book	***which***	***you recommended.***
S	adjective connector S V	V
The book	***which***	***you recommended*** ***was interesting.***

NOTE: The adjective connectors can be omitted. This omission is very common in spoken English or in casual written English. It is not as common in formal English or in the Structure section of the TOEFL test.

EXERCISE 11: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Put boxes around the adjective clauses. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. It is important to fill out the form in the way (that) you have been instructed.

I 2. The car (which) I having been driving for five years for sale at a really good price.

____ 3. I just finished reading the novel whom the professor suggested for my book report.

____ 4. The plane that he was scheduled to take to Hawaii was delayed.

____ 5. The movie which we watched on cable last night it was really frightening.

____ 6. I made an appointment with the doctor whom you recommended.

____ 7. The enthusiasm with which he greeted me made me feel welcome.

____ 8. The story that you told me about Bob.

____ 9. The men with whom were having the discussion did not seem very friendly.

____ 10. I'm not really sure about taking part in the plans that we made last night.

SKILL 12: USE ADJECTIVE CLAUSE CONNECTOR/SUBJECTS CORRECTLY

In Skill 11 we saw that adjective clause connectors were used to introduce clauses that describe nouns. In Skill 12 we will see that in some cases an adjective clause connector is not just a connector; an adjective clause connector can also be the subject of the clause at the same time.

The woman is filling the glass [*that* is on the table.]
ADJECTIVE CLAUSE

The glass [*that* is on the table] contains milk.
ADJECTIVE CLAUSE

In the first example there are two clauses: *woman* is the subject of the verb *is filling,* and *that* is the subject of the verb *is*. These two clauses are joined with the connector *that*. Notice that in this example the word *that* serves two functions at the same time: it is the subject of the verb *is,* and it is the connector that joins the two clauses. The adjective clause *that is on the table* describes the noun *glass*.

In the second example, there are also two clauses: *glass* is the subject of the verb *contains,* and *that* is the subject of the verb *is*. In this example *that* also serves two functions: it is the subject of the verb *is,* and it is the connector that joins the two clauses. Because *that is on the table* is an adjective clause describing the noun *glass,* it directly follows *glass*.

The following example shows how these sentence patterns could be tested in the Structure section of the TOEFL test.

Example

_____ is on the table has four sections.

(A) The notebook
(B) The notebook which
(C) Because the notebook
(D) In the notebook

In this example you should notice immediately that the sentence has two verbs, *is* and *has*, and each of them needs a subject. (You know that *table* is not a subject because it follows the preposition *on; table* is the object of the preposition.) The only answer that has two subjects is answer (B), so answer (B) is the correct answer. The correct sentence should say: *The notebook which is on the table has four sections.* In this sentence *notebook* is the subject of the verb *has*, and *which* is the subject of the verb *is*. *Which* is also the connector that joins the two clauses.

The following chart lists the adjective clause connector/subjects and the sentence patterns used with them:

ADJECTIVE CLAUSE CONNECTOR/SUBJECTS		
who (for people)	*which* (for things)	*that* (for people or things)
S V	(adjective connector/subject) V	
She needs a secretary	***who***	***types fast.***
S	(adjective connector/subject) V	V
A secretary	***who***	***types fast is invaluable.***

EXERCISE 12: Each of the following sentences contains more than one clause. Underline the subjects once and the verbs twice. Circle the connectors. Put boxes around the adjective clauses. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The ice cream (that) is served in the restaurant has a smooth, creamy texture.

SENTENCES WITH REDUCED CLAUSES

It is possible in English for a clause to appear in a complete form or in a reduced form.

My friend should be on the train *which is arriving at the station now.*

Although it was not really difficult, the exam took a lot of time.

The first sentence shows an adjective clause in its complete form, *which is arriving at the station now,* and in its reduced form, *arriving at the station now.* The second sentence shows an adverb clause in its complete form, *although it was not really difficult,* and its reduced form, *although not really difficult.*

The two types of clauses that can reduce in English are: (1) adjective clauses and (2) adverb clauses. It is important to become familiar with these reduced clauses because they appear frequently on the TOEFL test.

SKILL 13: USE REDUCED ADJECTIVE CLAUSES CORRECTLY

Adjective clauses can appear in a reduced form. In the reduced form, the adjective clause connector and the *be*-verb that directly follow it are omitted.

The woman *who is waving to us* is the tour guide.

The letter *which was written last week* arrived today.

The pitcher *that is on the table* is full of iced tea.

Each of these sentences may be used in the complete form or in the reduced form. In the reduced form the connector *who, which,* or *that* is omitted along with the *be*-verb *is* or *was.*

If there is no *be*-verb in the adjective clause, it is still possible to have a reduced form. When there is no *be*-verb in the adjective clause, the connector is omitted and the verb is changed into the *-ing* form.

appearing
I don't understand the article ~~*which appears*~~ *in today's paper.*

In this example there is no *be*-verb in the adjective clause *which appears in today's paper,* so the connector *which* is omitted and the main verb *appears* is changed to the *-ing* form *appearing.*

It should be noted that not all adjective clauses can appear in a reduced form. An adjective clause can appear in a reduced form only if the adjective clause connector is followed directly by a verb. In other words, an adjective clause can only be reduced if the connector is also a subject.

The woman *that I just met* is the tour guide. (*does not reduce*)
The letter *which you sent me* arrived yesterday. (*does not reduce*)

In these two examples the adjective clauses cannot be reduced because the adjective clause connectors *that* and *which* are not directly followed by verbs; *that* is directly followed by the subject *I,* and *which* is directly followed by the subject *you.*

A final point to note is that some adjective clauses are set off from the rest of the sentence with commas, and these adjective clauses can also be reduced. In addition, when an adjective clause is set off with commas, the reduced adjective clause can appear at the front of the sentence.

The White House, *which is located in Washington,* is the home of the president.
The White House, *located in Washington,* is the home of the president.
Located in Washington, the White House is the home of the president.

The president, *who is now preparing to give a speech,* is meeting with his advisors.
The president, *now preparing to give a speech,* is meeting with his advisors.
Now preparing to give a speech, the president is meeting with his advisors.

In these two examples, the adjective clauses are set off from the rest of the sentence with commas, so each sentence can be structured in three different ways: (1) with the complete clause, (2) with the reduced clause following the noun that it describes, and (3) with the reduced clause at the beginning of the sentence.

The following example shows how reduced adjective clauses could be tested in the Structure section of the TOEFL test.

Example

_____ on several different television programs, the witness gave conflicting accounts of what had happened.

(A) He appeared
(B) Who appeared
(C) Appearing
(D) Appears

In this example, answer (A) is incorrect because there are two clauses, *He appeared . . .* and *the witness gave . . . ,* and there is no connector to join them. Answer (B) is incorrect because

an adjective clause such as *who appeared . . .* cannot appear at the beginning of a sentence (unless it is in a reduced form). Answer (C) is the correct answer because it is the reduced form of the clause *who appeared,* and this reduced form can appear at the front of the sentence. Answer (D) is not the reduced form of a verb; it is merely a verb in the present tense; a verb such as *appears* needs a subject and a connector to be correct.

The following chart lists the structure for reduced adjective clauses and rules for how and when reduced forms can be used:

REDUCED ADJECTIVE CLAUSES	
with a *be*-verb in the adjective clause	~~(ADJECTIVE CONNECTOR/SUBJECT)~~ ~~*(who which that)*~~ ~~*(BE)*~~
with no *be*-verb in the adjective clause	~~(ADJECTIVE CONNECTOR/SUBJECT)~~ ~~*(who which that)*~~ (VERB + *ING*)

- To reduce an adjective clause, omit the adjective clause connector/subject and the *be*-verb.
- If there is no *be*-verb, omit the connector/subject and change the main verb to the *-ing* form.
- Only reduce an adjective clause if the connector/subject is directly followed by the verb.
- If an adjective clause is set off with commas, the reduced clause can be moved to the front of the sentence.

EXERCISE 13: Each of the following sentences contains an adjective clause, in a complete or reduced form. Underline the adjective clauses. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. We will have to return the merchandise purchased yesterday at the Broadway.

I 2. The children sat in the fancy restaurant found it difficult to behave.

____ 3. Serving a term of four years, the mayor of the town will face reelection next year.

____ 4. The brand new Cadillac, purchasing less than two weeks ago, was destroyed in the accident.

____ 5. The fans who supporting their team always come out to the games in large numbers.

____ 7. The food placing on the picnic table attracted a large number of flies.

____ 8. Impressed with everything she had heard about the course, Marie signed her children up for it.

____ 9. The passengers in the airport waiting room, heard the announcement of the canceled flight, groaned audibly.

____ 10. Dissatisfied with the service at the restaurant, the meal really was not enjoyable.

SKILL 14: USE REDUCED ADVERB CLAUSES CORRECTLY

Adverb clauses can also appear in a reduced form. In the reduced form, the adverb connector remains, but the subject and *be*-verb are omitted.

Although ~~he is~~ rather unwell, the speaker will take part in the seminar.

When ~~you are~~ ready, you can begin your speech.

These two examples may be used in either the complete or reduced form. In the reduced form, the adverb connectors *although* and *when* remain; the subjects *he* and *you* as well as the *be*-verbs *is* and *are* are omitted.

If there is no *be*-verb in the adverb clause, it is still possible to have a reduced form. When there is no *be*-verb in the adverb clause, the subject is omitted and the main verb is changed into the *-ing* form.

Although ~~he~~ feeling ~~feels~~ rather sick, the speaker will take part in the seminar.

When ~~you~~ giving ~~give~~ your speech, you should speak loudly and distinctly.

In the first example the adverb clause *although he feels rather sick* does not include a *be*-verb; to reduce this clause, the subject *he* is omitted and the main verb *feels* is changed to *feeling*. In the second example the adverb clause *when you give your speech* also does not include a *be*-verb; to reduce this clause, the subject *you* is omitted and the main verb *give* is changed to *giving*.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

When _____, you are free to leave.

(A) the finished report
(B) finished with the report
(C) the report
(D) is the report finished

In this example you should notice the adverb connector *when*, and you should know that this time word could be followed by either a complete clause or a reduced clause. Answers (A) and (C) contain the subjects *the finished report* and *the report* and no verb, so these answers are incorrect. In answer (D) the subject and verb are inverted, and this is not a question, so answer (D) is incorrect. The correct answer is answer (B); this answer is the reduced form of the clause *when you are finished with the report.*

It should be noted that not all adverb clauses can appear in a reduced form, and a number of adverb clauses can only be reduced if the verb is in the passive form.

Once you submit your thesis, you will graduate.
(active — does not reduce)

Once ~~it is~~ submitted, your thesis will be reviewed.
(passive — does reduce)

In the first example, the adverb clause *once you submit your thesis* does not reduce because clauses introduced by *once* only reduce if the verb is passive, and the verb *submit* is active. In the second example, the adverb clause *once it is submitted* does reduce to *once submitted* because the clause is introduced by *once* and the verb *is submitted* is passive.

The following chart lists the structures for reduced adverb clauses and which adverb clause connectors can be used in a reduced form:

REDUCED ADVERB CLAUSES					
with a *be*-verb in the adverb clause	(ADVERB CONNECTOR)		~~(SUBJECT)~~	~~(BE)~~	
with no *be*-verb in the adverb clause	(ADVERB CONNECTOR)		~~(SUBJECT)~~	(VERB + *ING*)	
	Time	Condition	Contrast	Place	Manner
reduces in ACTIVE	*after* *before* *since* *while* *when*	*if* *unless* *whether*	*although* *though*		
reduces in PASSIVE	*once* *until* *when* *whenever*	*if* *unless* *whether*	*although* *though*	*where* *wherever*	*as*
• To reduce an adverb clause, omit the subject and the *be*-verb from the adverb clause. • If there is no *be*-verb, then omit the subject and change the verb to the *-ing* form.					

EXERCISE 14: Each of the following sentences contains a reduced adverb clause. Circle the adverb connectors. Underline the reduced clauses. Then indicate if the sentences are correct (C) or incorrect (I).

SENTENCES WITH INVERTED SUBJECTS AND VERBS

Subjects and verbs are inverted in a variety of situations in English. Inverted subjects and verbs occur most often in the formation of a question. To form a question with a helping verb (*be, have, can, could, will, would,* etc.), the subject and helping verb are inverted.

He can go to the movies.
Can he go to the movies?

You would tell me the truth.
Would you tell me the truth?

She was sick yesterday.
Was she sick yesterday?

To form a question when there is no helping verb in the sentence, the helping verb *do* is used.

He goes to the movies.
Does he go to the movies?

You told me the truth.
Did you tell me the truth?

There are many other situations in English when subjects and verbs are inverted, but if you just remember this method of inverting subjects and verbs, you will be able to handle the other situations. The most common problems with inverted subjects and verbs on the TOEFL test occur in the following situations: (1) with question words such as *what, when, where, why,* and *how;* (2) after some place expressions; (3) after negative expressions; (4) in some conditionals; and (5) after some comparisons.

SKILL 15: INVERT THE SUBJECT AND VERB WITH QUESTION WORDS

There is some confusion about when to invert the subject and verb after question words such as *what, when, where, why,* and *how.* These words can have two very different functions in a sentence. First, they can introduce a question, and in this case the subject and verb that follow are inverted.

What is the homework?
When can I leave?
Where are you going?

Also, these words can join together two clauses, and in this case the subject and verb that follow are not inverted.

I do not know *what* the homework is.
When I can leave, I will take the first train.
Do you know *where* you are going?

In each of these examples there are two clauses joined by a question word. Notice that the subjects and verbs that follow the question words *what, when,* and *where* are not inverted in this case.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

The lawyer asked the client why _____ it.

(A) did he do
(B) did he
(C) he did
(D) did

In this example the question word *why* is used to connect the two clauses, so a subject and verb are needed after this connector; this is not a question, so the subject and verb should not be inverted. The best answer is therefore answer (C).

The following chart lists the question words and their sentence patterns:

INVERTED SUBJECTS AND VERBS WITH QUESTION WORDS					
who	*what*	*when*	*where*	*why*	*how*
When the question word introduces a question, the subject and verb *are* inverted.					
(question word) V S ?					
What are they?					
When the question word connects two clauses, the subject and verb that follow *are not* inverted.					
S V (question word) S V.					
I know what they are.					

EXERCISE 15: Each of the following sentences contains a question word. Circle the question words. Underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The phone company is not certain (when) will the new directories be ready.

C 2. The professor does not understand (why) so many students did poorly on the exam.

____ 3. How new students can get information about parking?

____ 4. Where is it cheapest to get typeset copies printed?

____ 5. Only the pilot can tell you how far can the plane go on one tank of fuel.

____ 6. What type of security does he prefer for his investments?

____ 7. Not even the bank president knows when the vault will be opened.

____ 8. How long it has been since you arrived in the United States?

____ 9. The jury doubts what the witness said under cross-examination.

____ 10. Do you know why he wants to take an extended leave of absence?

SKILL 16: INVERT THE SUBJECT AND VERB WITH PLACE EXPRESSIONS

After ideas expressing place, the subject and the verb sometimes invert in English. This can happen with single words expressing place, such as *here, there,* or *nowhere.*

Here is the book that you lent me.
There are the keys that I thought I lost.
Nowhere have I seen such beautiful weather.

In the first example the place word *here* causes the subject *book* to come after the verb *is.* In the second example the place word *there* causes the subject *keys* to come after the verb *are.* In the last example the place word *nowhere* causes the subject *I* to come after the verb *have.*

The subject and verb can also be inverted after prepositional phrases expressing place.

In the closet are the clothes that you want.
Around the corner is Sam's house.
Beyond the mountains lies the town where you will live.

In the first example the prepositional phrase of place *in the closet* causes the subject *clothes* to come after the verb *are.* In the second example the prepositional phrase of place *around the corner* causes the subject *house* to come after the verb *is.* In the last example the prepositional phrase of place *beyond the mountains* causes the subject *town* to come after the verb *lies.*

It is important (and a bit difficult) to understand that the subject and verb will invert after place expressions at the beginning of a sentence only when the place expression is *necessary* to complete the sentence. Study the following examples:

In the forest are many exotic birds.
In the forest I walked for many hours.

In the first example the subject *birds* and verb *are* are inverted because the place expression *in the forest* is needed to complete the idea *many exotic birds are. . . .* In the second example the subject *I* and the verb *walked* are not inverted because the idea *I walked for many hours* is complete without the place expression *in the forest;* the place expression is therefore not needed to complete the sentence.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

On the second level of the parking lot _____.

(A) is empty
(B) are empty
(C) some empty stalls are
(D) are some empty stalls

This example begins with the place expression *on the second level of the parking lot,* which consists of two prepositional phrases, *on the second level* and *of the parking lot.* This sentence needs a subject and a verb to be complete, and the two answers that contain both a subject, *stalls,* and verb, *are,* are answers (C) and (D). The subject and verb should be inverted because the place expression is necessary to complete the idea *some empty stalls are. . . .* The best answer is therefore answer (D).

The following chart lists the sentence patterns used with place expressions:

INVERTED SUBJECTS AND VERBS WITH PLACE EXPRESSIONS
When a place expression at the front of the sentence is *necessary* to complete the sentence, the subject and verb that follow *are* inverted. (PLACE (necessary)) V S ***In the classroom were some old desks.***
When a place expression at the front of the sentence contains *extra* information that is *not* needed to complete the sentence, the subject and verb that follow *are not* inverted. (PLACE (extra)) S V ***In the classroom, I studied very hard.***

EXERCISE 16: Each of the following sentences contains an expression of place at the beginning of the sentence. Circle the expressions of place. Look at the clauses that immediately follow the place expressions and underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. (In front of the house) were some giant trees.

I 2. (There) a big house is on the corner.

____ 3. In the cave was a vast treasure of gems and jewels.

____ 4. To the north the stream is that the settlers will have to cross.

____ 5. Around the corner are the offices that you are trying to find.

____ 6. At the Italian restaurant was the food too spicy for my taste.

____ 7. Nowhere in the world farmers can grow such delicious food.

____ 8. In the backyard the two trees are that need to be pruned.

____ 9. Around the recreation hall and down the path are the tents where we will be staying this week.

____ 10. In the apartment next to mine, a family was that had a lot of pets.

SKILL 17: INVERT THE SUBJECT AND VERB WITH NEGATIVES

The subject and verb can also be inverted after certain negatives and related expressions. When negative expressions, such as *no, not,* or *never,* come at the beginning of a sentence, the subject and verb are inverted.

Not once did I miss a question.
Never has Mr. Jones taken a vacation.
At no time can the woman talk on the telephone.

In the first example the negative expression *not once* causes the subject *I* to come after the helping verb *did.* In the second example the negative word *never* causes the subject *Mr. Jones* to come after the helping verb *has.* In the last example the negative expression *at no time* causes the subject *woman* to come after the helping verb *can.*

Certain words in English, such as *hardly, barely, scarcely,* and *only,* act like negatives. If one of these words comes at the beginning of a sentence, the subject and verb are also inverted.

Hardly ever does he take time off.
(This means that he *almost never* takes time off.)

Only once did the manager issue overtime paychecks.
(This means that the manager *almost never* issued overtime paychecks.)

In the first example the "almost negative" expression *hardly ever* causes the subject *he* to come after the helping verb *does*. In the second example the "almost negative" expression *only once* causes the subject *manager* to come after the helping verb *did*.

When a negative expression appears in front of a subject and verb in the middle of a sentence, the subject and verb are also inverted. This happens often with the negative words *neither* and *nor*.

I do not want to go, and *neither* does Tom.
The secretary is not attending the meeting, *nor* is her boss.

In the first example the negative *neither* causes the subject *Tom* to come after the helping verb *does*. In the second example the negative *nor* causes the subject *boss* to come after the verb *is*.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

Only in extremely dangerous situations _____ stopped.

(A) will be the printing presses
(B) the printing presses will be
(C) that the printing presses will be
(D) will the printing presses be

In this example you should notice that the sentence begins with the negative *only*, so an inverted subject and verb are needed. Answer (D) contains a correctly inverted subject and verb, with the helping verb *will*, the subject *printing presses*, and the main verb *be*, so answer (D) is the best answer.

The following chart lists the negative expressions and the sentence pattern used with them:

INVERTED SUBJECTS AND VERBS WITH NEGATIVES					
no	*not*	*never*	*neither*	*nor*	
barely	*hardly*	*only*	*rarely*	*scarcely*	*seldom*

When a negative expression appears *in front of* a subject and verb (at the beginning of a sentence or in the middle of a sentence), the subject and verb are inverted.

(negative expression)	V	S
Rarely	***were***	***they so happy.***

EXERCISE 17: Each of the following sentences contains a negative or "almost negative" expression. Circle the negative expressions. Look at the clauses that follow and underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. (Never) the boy wrote to his sisters.

C 2. (On no occasion) did they say that to me.

____ 3. Steve did not win the prize, nor did he expect to do so.

____ 4. Only once in my life gone I have to New York City.

____ 5. Did he go out of the house at no time.

____ 6. Seldom their secretary has made such mistakes.

____ 7. No sooner had she hung up the phone than it rang again.

____ 8. Sheila did not arrive late for work, nor she left early.

____ 9. Barely had he finished the exam when the graduate assistant collected the papers.

____ 10. The police did not arrive in time to save the girl, and neither did the paramedics.

SKILL 18: INVERT THE SUBJECT AND VERB WITH CONDITIONALS

In certain conditional structures, the subject and verb may also be inverted. This can occur when the helping verb in the conditional clause is *had, should,* or *were,* and the conditional connector *if* is omitted.

If he had taken more time, the results would have been better.
Had he taken more time, the results would have been better.

I would help you *if* I were in a position to help.
I would help you were I in a position to help.

If you should arrive before 6:00, just give me a call.
Should you arrive before 6:00, just give me a call.

In each of these examples you can see that when *if* is included, the subject and verb are in the regular order (*if he had taken, if I were, if you should arrive*). It is also possible to omit *if*; in this case, the subject and verb are inverted (*had he taken, were I, should you arrive*).

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

The report would have been accepted _____ in checking its accuracy.

(A) if more care
(B) more care had been taken
(C) had taken more care
(D) had more care been taken

In this example a connector (*if*) and a subject and verb are needed, but *if* could be omitted and the subject and verb inverted. Answer (A) is incorrect because it contains the connector *if* and the subject *care* but no verb. Answer (B) is incorrect because it contains the subject *care* and the verb *had been taken* but does not have a connector. In answers (C) and (D), *if* has been omitted. Because it is correct to invert the subject *more care* and the helping verb *had*, answer (D) is correct.

The following chart lists the conditional verbs that may invert and the sentence patterns used with them:

INVERTED SUBJECTS AND VERBS WITH CONDITIONALS			
	had	*should*	*were*
When the verb in the conditional clause is *had, should,* or *were,* it is possible to omit *if* and invert the subject and verb.			
(omitted *if*)	V S		
	Were he	***here, he would help.***	
It is also possible to keep *if.* Then the subject and verb *are not* inverted.			
if	S V		
If	***he were***	***here, he would help.***	

EXERCISE 18: Each of the following sentences contains a conditional (with a stated or implied *if*). Circle the conditionals, or put an asterisk (*) where *if* has been omitted. Look at the clauses that follow and underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. *Were our neighbors a bit more friendly, it would be somewhat easier to get to know them.

I 2. There are plenty of blankets in the closet if should you get cold during the night.

_____ 3. Has he enough vacation days left this year, he will take two full weeks off in December.

_____ 4. Had we been informed of the decision, we might have had something to say about it.

_____ 5. I would like to know could you help me pack these boxes.

_____ 9. Should you ever visit this town again, I would be delighted to show you around.

_____ 10. Do you think that she would give the speech were she asked to do so?

SKILL 19: INVERT THE SUBJECT AND VERB WITH COMPARISONS

An inverted subject and verb may occur also after a comparison. The inversion of a subject and verb after a comparison is optional, rather than required, and it is a rather formal structure. There have been a number of inverted comparisons on recent TOEFL tests, so you should be familiar with this structure.

My sister spends *more* hours in the office *than* John.
My sister spends *more* hours in the office *than* John does.
My sister spends *more* hours in the office *than* does John.

All three of these examples contain the comparison *more . . . than,* and all three are correct in English. It is possible to have the noun *John* alone, as in the first example; it is possible that the comparison is followed by the subject and verb *John does,* as in the second example; it is also possible that the comparison is followed by the inverted subject and verb *does John,* as in the third example.

The following example shows how this sentence pattern could be tested in the Structure section of the TOEFL test.

Example

The results of the current experiment appear to be more consistent than _____ the results of any previous tests.

(A) them
(B) were
(C) they were
(D) were they

In this example you should notice the comparison *more consistent than,* and you should also understand that *the results of the current experiment* is being compared with *the results of any previous tests.* Because *the results of any previous tests* is the subject, only a verb is needed; the best answer to this question is therefore answer (B). We know that it is possible for a subject and a verb to be inverted after a comparison, and in this case the subject *the results of any previous tests* comes after the verb *were.*

The following chart lists the sentence patterns used with comparisons:

INVERTED SUBJECTS AND VERBS WITH COMPARISONS					
The subject and verb *may* invert after a comparison. The following structures are both possible.					
S	V	(comparison)		S	V
We	*were*	*more prepared than*		*the other performers*	*were.*
S	V	(comparison)	V	S	
We	*were*	*more prepared than*	*were*	*the other performers.*	

NOTE: A subject–verb inversion after a comparison sounds rather formal.

EXERCISE 19: Each of the following sentences contains a comparison. Circle the comparisons. Look at the clauses that follow and underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. This candidate has received (more votes than) has any other candidate in previous years.

I 2. Obviously we were much (more impressed with the performance than) did the other members of the audience.

THE WRITTEN EXPRESSION QUESTIONS

Questions 16 through 40 in the Structure and Written Expression section of the TOEFL test examine your knowledge of the correct way to express yourself in English writing. Each question in this section consists of one sentence in which four words or groups of words have been underlined. You must choose the letter of the word or group of words that is *not* correct.

Example I

The final (A) delivery of the day (B) is (C) the importantest. (D)

If you look at the underlined words in this example, you should notice immediately that *importantest* is not correct. The correct superlative form of *important* is *the most important.* Therefore, you should choose answer (D) because (D) is not correct.

Example II

The books (A) that I read (B) was (C) interesting. (D)

If you look at the underlined words in this example, each word by itself appears to be correct. However, the singular verb *was* is incorrect because it does not agree with the plural subject *books*; the verb should be *were* instead. Therefore, you should choose answer (C) because (C) is not correct.

STRATEGIES FOR THE WRITTEN EXPRESSION QUESTIONS

1. **First look at the underlined word or groups of words.** You want to see if you can spot which of the four answer choices is *not* correct.
2. **If you have been unable to find the error by looking only at the four underlined expressions, then read the complete sentence.** Often an underlined expression is incorrect because of something in another part of the sentence.
3. **Never leave any answers blank.** Be sure to answer each question even if you are unsure of the correct response.

The following skills will help you to implement these strategies in the Written Expression questions.

PROBLEMS WITH SUBJECT/VERB AGREEMENT

Subject/verb agreement is simple: if the subject of a sentence is singular, then the verb must be singular; if the subject of the sentence is plural, then the verb must be plural. An *s* on a verb usually indicates that a verb is singular, while an *s* on a noun usually indicates that the noun is plural. (Do not forget irregular plurals of nouns, such as *women*, *children*, and *people*.)

The boy walks to school.
The boys walk to school.

In the first example the singular subject *boy* requires a singular verb, *walks*. In the second example the plural subject *boys* requires a plural verb, *walk*.

Although this might seem quite simple, there are a few situations on the TOEFL test when subject/verb agreement can be a little tricky. You should be careful of subject/verb agreement in the following situations: (1) after prepositional phrases, (2) after expressions of quantity, (3) after inverted verbs, and (4) after certain words, such as *anybody*, *everything*, *no one*, *something*, *each*, and *every*.

SKILL 20: MAKE VERBS AGREE AFTER PREPOSITIONAL PHRASES

Sometimes prepositional phrases can come between the subject and the verb. If the object of the preposition is singular and the subject is plural, or if the object of the preposition is plural and the subject is singular, there can be confusion in making the subject and verb agree.

The key (to the doors) are* in the drawer.
SINGULAR PLURAL

The keys (to the door) is* in the drawer.
PLURAL SINGULAR

(* indicates an error)

In the first example you might think that *doors* is the subject because it comes directly in front of the verb *are*. However, *doors* is not the subject because it is the object of the preposition *to*. The subject of the sentence is *key*, so the verb should be *is*. In the second example you might think that *door* is the subject because it comes directly in front of the verb *is*. You should recognize in this example that *door* is not the subject because it is the object of the preposition *to*. Because the subject of the sentence is *keys*, the verb should be *are*.

The following chart outlines the key information that you should understand about subject/verb agreement with prepositional phrases:

SUBJECT/VERB AGREEMENT WITH PREPOSITIONAL PHRASES
S (prepositional phrase) V
When a *prepositional phrase* comes between the *subject* and the *verb*, be sure that the *verb* agrees with the *subject*.

EXERCISE 20: Each of the following sentences has one or more prepositional phrases between the subject and verb. Circle the prepositional phrases. Underline the subjects once and the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The climbers (on the sheer face) (of the mountain) need to be rescued.

I 2. The interrogation, conducted (by three police officers,) have lasted for several hours.

SKILL 21: MAKE VERBS AGREE AFTER EXPRESSIONS OF QUANTITY

A particular agreement problem occurs when the subject is an expression of quantity, such as *all, most,* or *some,* followed by the preposition *of.* In this situation, the subject (*all, most,* or *some*) can be singular or plural, depending on what follows the preposition *of.*

All (of the *book*) was interesting.
SINGULAR

All (of the *books*) were interesting.
PLURAL

All (of the *information*) was interesting.
UNCOUNTABLE

In the first example the subject *all* refers to the singular noun *book,* so the correct verb is therefore the singular verb *was.* In the second example the subject *all* refers to the plural noun *books,* so the correct verb is the plural verb *were.* In the third example the subject *all* refers to the uncountable noun *information,* so the correct verb is therefore the singular verb *was.*

The following chart outlines the key information that you should understand about subject/verb agreement after expressions of quantity:

SUBJECT/VERB AGREEMENT AFTER EXPRESSIONS OF QUANTITY			
	all *most* *some* *half*	OF THE (OBJECT)	V
When an expression of quantity is the subject, the verb agrees with the object.			

EXERCISE 21: Each of the following sentences has a quantity expression as the subject. Underline the subjects once and the verbs twice. Circle the objects that the verbs agree with. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The witnesses saw that most of the (fire) in the hills was extinguished.

I 2. Some of the (animals) from the zoo was released into the animal preserve.

____ 10. Most of the trouble that the employees discussed at the series of meetings was resolved within a few weeks.

SKILL 22: MAKE INVERTED VERBS AGREE

We have seen that sometimes in English the subject comes after the verb. This can occur after question words (Skill 15), after place expressions (Skill 16), after negative expressions (Skill 17), after omitted conditionals (Skill 18), and after some comparisons (Skill 19). When the subject and verb are inverted, it can be difficult to locate them, and it can therefore be a problem to make them agree.

(Behind the house) was* the bicycles I wanted.
(Behind the houses) were* the bicycle I wanted.

In the first example it is easy to think that *house* is the subject, because it comes directly in front of the verb *was*. *House* is not the subject, however, because it is the object of the preposition *behind*. The subject of the sentence is *bicycles*, and the subject *bicycles* comes after the verb because of the place expression *behind the house*. Because the subject *bicycles* is plural, the verb should be changed to the plural *were*. In the second example the subject *bicycle* comes after the verb *were* because of the place expression *behind the houses*. Because the subject *bicycle* is singular, the verb should be changed to the singular *was*.

The following chart outlines the key information that you should understand about subject/verb agreement after inverted verbs:

SUBJECT/VERB AGREEMENT AFTER INVERTED VERBS	
question *negative* *place* *condition (no if)* *comparison*	V S
After question words, negative expressions, place expressions, conditions without *if*, and comparisons, the *verb* agrees with the *subject*, which may be after the *verb*.	

EXERCISE 22: Each of the following sentences contains an inverted subject and verb. Circle the word or group of words that causes the subject and verb to invert. Find the subject and verb that follow these words. Underline the subject once and the verb twice. Then indicate if the sentences are correct (C) or incorrect (I).

SKILL 23: MAKE VERBS AGREE AFTER CERTAIN WORDS

Certain words in English are always grammatically singular, even though they might have plural meanings.

Everybody are going* to the theater.

Even though we understand from this example that a lot of people are going to the theater, *everybody* is singular and requires a singular verb. The plural verb *are going* should be changed to the singular verb *is going*.

The following chart lists the grammatically singular words that have plural meanings:

SUBJECT/VERB AGREEMENT AFTER CERTAIN WORDS				
These words or expressions are grammatically singular, so they take singular verbs:				
anybody	*everybody*	*nobody*	*somebody*	*each* (+ noun)
anyone	*everyone*	*no one*	*someone*	*every* (+ noun)
anything	*everything*	*nothing*	*something*	

EXERCISE 23: Each of the following sentences contains one of the words that are grammatically singular but have plural meanings. Underline these words once and underline the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

PROBLEMS WITH PARALLEL STRUCTURE

In good English an attempt should be made to make the language as even and balanced as possible. This balance is called "parallel structure." You can achieve parallel structure by making the forms of words as similar as possible. The following is an example of a sentence that is not parallel:

I like to sing and dancing.*

The problem in this sentence is not the expression *to sing,* and the problem is not the word *dancing.* The expression *to sing* is correct by itself, and the word *dancing* is correct by itself. Both of the following sentences are correct:

I like to sing.
I like dancing.

The problem in the incorrect example is that *to sing* and *dancing* are joined together in one sentence with *and.* They are different forms where it is possible to have similar forms; therefore the example is not parallel. It can be corrected in two different ways: we can make the first expression like the second, or we can make the second expression like the first.

I like to sing and to dance.
I like singing and dancing.

There are several situations in which you should be particularly careful of parallel structure. Parallel structures are required in the following situations: (1) with coordinate conjunctions, such as *and, but, or;* (2) with paired conjunctions, such as *both . . . and, either . . . or, neither . . . nor, not only . . . but also;* and (3) with comparisons.

SKILL 24: USE PARALLEL STRUCTURE WITH COORDINATE CONJUNCTIONS

The job of the coordinate conjunctions (*and, but, or*) is to join together equal expressions. In other words, what is on one side of these words must be parallel to what is on the other side. These conjunctions can join nouns, or verbs, or adjectives, or phrases, or subordinate clauses, or main clauses; they just must join together two of the same thing. Here are examples of two nouns joined by a coordinate conjunction:

I need to talk to the manager *or* the assistant manager.
She is not a teacher *but* a lawyer.
You can choose from activities such as hiking *and* kayaking.

Here are examples of two verbs joined by a coordinate conjunction:

He eats *and* sleeps only when he takes a vacation.
She invites us to her home *but* never talks with us.
You can stay home *or* go to the movies with us.

Here are examples of two adjectives joined by a coordinate conjunction:

My boss is sincere *and* nice.
The exam that he gave was short *but* difficult.
Class can be interesting *or* boring.

Here are examples of two phrases joined by a coordinate conjunction:

There are students in the classroom *and* in front of the building.
The papers are on my desk *or* in the drawer.
The checks will be ready not at noon *but* at 1:00.

Here are examples of two clauses joined by a coordinate conjunction:

They are not interested in what you say *or* what you do.
I am here because I have to be *and* because I want to be.
Mr. Brown likes to go home early, *but* his wife prefers to stay late.

The following chart outlines the use of parallel structures with coordinate conjunctions:

PARALLEL STRUCTURE WITH COORDINATE CONJUNCTIONS				
(same structure)		and / but / or		(same structure)
(same structure),	(same structure),		and / but / or	(same structure)

EXERCISE 24: Each of the following sentences contains words or groups of words that should be parallel. Circle the word that indicates that the sentence should have parallel parts. Underline the parts that should be parallel. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. She held jobs as a typist, a housekeeper, (and) in a restaurant.

C 2. The report you are looking for could be in the file (or) on the desk.

____ 3. She works very hard but usually gets below-average grades.

____ 8. The dean or the assistant dean will inform you of when and where you should apply for your diploma.

____ 9. There are papers to file, reports to type, and those letters should be answered.

____ 10. The manager needed a quick but thorough response.

SKILL 25: USE PARALLEL STRUCTURE WITH PAIRED CONJUNCTIONS

The paired conjunctions *both . . . and, either . . . or, neither . . . nor,* and *not only . . . but also* require parallel structures.

I know *both* where you went *and* what you did.
Either Mark *or* Sue has the book.
The tickets are *neither* in my pocket *nor* in my purse.
He is *not only* an excellent student *but also* an outstanding athlete.

The following is not parallel and must be corrected:

He wants *either* to go by train *or* by plane*.

It is not correct because *to go by train* is not parallel to *by plane.* It can be corrected in several ways.

He wants *either* to go by train *or* to go by plane.
He wants to go *either* by train *or* by plane.
He wants to go by *either* train *or* plane.

When you are using these paired conjunctions, be sure that the correct parts are used together. The following are incorrect:

I want *both* this book *or** that one.
Either Sam *nor** Sue is taking the course.

These sentences are incorrect because the wrong parts of the paired conjunctions are used together. In the first example, *and* should be used with *both.* In the second example, *or* should be used with *either.*

The following chart outlines the use of parallel structure with paired conjunctions:

PARALLEL STRUCTURE WITH PAIRED CONJUNCTIONS			
both *either* *neither* *not only*	(same structure)	*and* *or* *nor* *but also*	(same structure)

EXERCISE 25: Each of the following sentences contains words or groups of words that should be parallel. Circle the word or words that indicate that the sentence should have parallel parts. Underline the parts that should be parallel. Then indicate if the sentences are correct (C) or incorrect (I).

____ 9. You can graduate either at the end of the fall semester or you can graduate at the end of the spring semester.

____ 10. The movie was neither amusing nor was it interesting.

SKILL 26: USE PARALLEL STRUCTURE WITH COMPARISONS

When you make a comparison, you point out the similarities or differences between two things, and those similarities or differences must be in parallel form. You can recognize a comparison showing how two things are different from the *-er . . . than* or the *more . . . than*.

My school is farth*er than* your school.
To be rich is bett*er than* to be poor.
What is written is *more* easily understood *than* what is spoken.

A comparison showing how two things are the same might contain *as . . . as* or expressions such as *the same as* or *similar to.*

Their car is *as* big *as* a small house.
Renting those apartments costs about *the same as* leasing them.
The work that I did is *similar to* the work that you did.

The following chart outlines the use of parallel structures with comparisons:

PARALLEL STRUCTURE WITH COMPARISONS		
(same structure)	*more . . . than* *-er . . . than* *less . . . than* *as . . . as* *the same . . . as* *similar . . . to*	(same structure)

EXERCISE 26: Each of the following sentences contains words or groups of words that should be parallel. Circle the word or words that indicate that the sentence should have parallel parts. Underline the parts that should be parallel. Then indicate if each sentence is correct (C) or incorrect (I).

PROBLEMS WITH COMPARATIVES AND SUPERLATIVES

Sentences with incorrect comparatives and superlatives can appear on the TOEFL test. It is therefore important for you to know how to do the following: (1) form the comparative and superlative correctly; (2) use the comparative and superlative correctly; and (3) use the irregular *-er, -er* structure that has been appearing frequently on the TOEFL test.

SKILL 27: FORM COMPARATIVES AND SUPERLATIVES CORRECTLY

The problem with some of the comparative and superlative sentences on the TOEFL test is that the comparative or superlative is formed incorrectly. You should therefore understand how to form the comparative and superlative to answer such questions correctly.

The comparative is formed with either *-er* or *more* and *than*. In the comparative, *-er* is used with short adjectives such as *tall,* and *more* is used with longer adjectives such as *beautiful.*

Bob is tall*er than* Ron.
Sally is *more* beautiful *than* Sharon.

The superlative is formed with *the,* either *-est* or *most,* and sometimes *in, of,* or a *that*-clause. In the superlative, *-est* is used with short adjectives such as *tall,* and *most* is used with longer adjectives such as *beautiful.*

Bob is *the* tall*est* man *in* the room.
Sally is *the most* beautiful *of* all the women at the party.
The spider over there is *the* larg*est* one *that* I have ever seen.
The fast*est* runner wins the race. (no *in, of,* or *that*)

The following chart outlines the possible forms of comparatives and superlatives:

THE FORM OF COMPARATIVES AND SUPERLATIVES			
COMPARATIVE	[*more* (long adjective) / (short adjective) + *er*]	*than*	
SUPERLATIVE	*the*	[*most* (long adjective) / (short adjective) + *est*]	maybe *in, of, that*

EXERCISE 27: Each of the following sentences contains a comparative or superlative. Circle the comparative or superlative. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. Oxygen is (abundanter than) nitrogen.

C 2. The directions to the exercise say to choose (the most appropriate) response.

____ 9. The quarterback on this year's football team is more versatile than the quarterback on last year's team.

____ 10. She always tries to do the best and most efficient job that she can do.

SKILL 28: USE COMPARATIVES AND SUPERLATIVES CORRECTLY

Another problem with the comparative and superlative on the TOEFL test is that they can be used incorrectly. The comparative and superlative have different uses, and you should understand these different uses to answer such questions correctly. The comparative is used to compare two equal things.

The history class is *larger than* the math class.
Mary is *more intelligent than* Sue.

In the first example *the history class* is being compared with *the math class.* In the second example *Mary* is being compared with *Sue.*

The superlative is used when there are more than two items to compare and you want to show the one that is the best, the biggest, or in some way the most outstanding.

The history class is *the largest* in the school.
Mary is *the most intelligent* of all the students in the class.

In the first example *the history class* is compared with all the other classes in the school, and the history class is larger than each of the other classes. In the second example, *Mary* is compared with all the other students in the class, and Mary is more intelligent than each of the other students.

The following chart outlines the uses of comparatives and superlatives:

THE USES OF COMPARATIVES AND SUPERLATIVES
The COMPARATIVE is used to compare *two equal things*.
The SUPERLATIVE is used to show which *one* of *many* is in some way the most outstanding.

EXERCISE 28: Each of the following sentences contains a comparative or superlative. Circle the comparative or superlative. Then indicate if the sentences are correct (C) or incorrect (I).

____ 10. The first journal article is the longest of the second article.

SKILL 29: USE THE IRREGULAR *-ER, -ER* STRUCTURE CORRECTLY

An irregular comparative structure that has been appearing frequently on the TOEFL test consists of two parallel comparatives introduced by *the*.

The harder he tried, *the further* he fell behind.
The older the children are, *the more* their parents expect from them.

The first example contains the two parallel comparatives *the harder* and *the further.* The second example contains the two parallel comparatives *the older* and *the more.*

In this type of sentence, *the* and the comparison can be followed by a number of different structures.

The more children you have, *the bigger* the house you need.
The harder you work, *the more* you accomplish.
The greater the experience, *the higher* the salary.

In the first example, *the more* is followed by the noun *children* and the subject and verb *you have,* while *the bigger* is followed by the noun *the house* and the subject and verb *you need.* In the second example, *the harder* is followed by the subject and verb *you work,* while *the more* is followed by the subject and verb *you accomplish.* In the third example, *the greater* is followed only by the noun *the experience,* while *the higher* is followed only by the noun *the salary.* You should note that this last example does not even contain a verb, yet it is a correct structure in English.

The following chart outlines this irregular *-er, -er* structure:

THE *-ER, -ER* STRUCTURE					
THE	*-er* / *more*	(same structure),	THE	*-er* / *more*	(same structure)
This type of sentence *may* or *may not* include a verb.

PROBLEMS WITH THE FORM OF THE VERB

It is common in the Written Expression part of the TOEFL test for the verbs to be formed incorrectly. Therefore, you should check the form of the verb carefully. You should be familiar with the following verb forms: the base form, the present tense, the present participle, and the past participle. The following are examples of each of these verb forms as they are used in this text:

BASE FORM*	PRESENT	PRESENT PARTICIPLE	PAST	PAST PARTICIPLE
walk	*walk(s)*	*walking*	*walked*	*walked*
hear	*hear(s)*	*hearing*	*heard*	*heard*
cook	*cook(s)*	*cooking*	*cooked*	*cooked*
sing	*sing(s)*	*singing*	*sang*	*sung*
come	*come(s)*	*coming*	*came*	*come*
begin	*begin(s)*	*beginning*	*began*	*begun*

You should be particularly aware of the following three problematic situations with verbs because they are the most common and the easiest to correct: (1) check what comes after *have;* (2) check what comes after *be;* and (3) check what comes after *will, would,* and other modals.

> NOTE: A more complete list of verb forms and an exercise to practice their use are included at the back of the text in Appendix F. You may want to complete this exercise before you continue with skills 30 through 32.

SKILL 30: AFTER *HAVE*, USE THE PAST PARTICIPLE

Whenever you see the verb *have* in any of its forms (*have, has, having, had*), be sure that the verb that follows it is in the past participle form.

They *had walk** to school.	(should be *had walked*)
We *have see** the show.	(should be *have seen*)
He *has took** the test.	(should be *has taken*)
*Having ate**, he went to school.	(should be *Having eaten*)
She *should have did** the work.	(should be *should have done*)

In addition, you should be sure that if you have a subject and a past participle, you also have the verb *have.* This problem is particularly common with those verbs (such as *sing, sang, sung*) that change from present to past to past participle by changing only the vowel.

My friend *sung** in the choir.	(should be *sang* or *has sung*)
He *become** angry at his friend.	(should be *became* or *has become*)
The boat *sunk** in the ocean.	(should be *sank* or *has sunk*)

The following chart outlines the use of verb forms after *have:*

SKILL 31: AFTER *BE*, USE THE PRESENT PARTICIPLE OR THE PAST PARTICIPLE

The verb *be* in any of its forms (*am, is, are, was, were, be, been, being*) can be followed by another verb. This verb should be in the present participle or the past participle form.

We *are do** our homework.	(should be *are doing*)
The homework *was do** early.	(should be *was done*)
Tom *is take** the book.	(should be *is taking*)
The book *was take** by Tom.	(should be *was taken*)

The following chart outlines the use of verb forms after *be:*

PROBLEMS WITH THE USE OF THE VERB

Many different problems in using the correct verb tense are possible in English. However, four specific problems occur frequently on the TOEFL test, so you need to pay careful attention to these four: (1) knowing when to use the past with the present, (2) using *had* and *have* correctly, (3) using the correct tense with time expressions, and (4) using the correct tense with *will* and *would.*

SKILL 33: KNOW WHEN TO USE THE PAST WITH THE PRESENT

One verb tense problem that is common both in student writing and on the TOEFL test is the switch from the past tense to the present tense for no particular reason. Often when a sentence has both a past tense and a present tense, the sentence is incorrect.

He *took* the money when he *wants** it.

This sentence says that *he took the money* (in the past) *when he wants it* (in the present). This meaning does not make any sense; it is impossible to do something in the past as a result of something you want in the present. This sentence can be corrected in several ways, depending on the desired meaning.

He *took* the money when he *wanted* it.
He *takes* the money when he *wants* it.

The first example means that *he took the money* (in the past) *when he wanted it* (in the past). This meaning is logical, and the sentence is correct. The second example means that *he takes the money* (habitually) *when he wants it* (habitually). This meaning is also logical, and the second example is also correct.

It is necessary to point out, however, that it is possible for a logical sentence in English to have both the past and the present tense.

I *know* that he *took* the money yesterday.

The meaning of this sentence is logical: *I know* (right now, in the present) that *he took the money* (yesterday, in the past). You can see from this example that it is possible for an English sentence to have both the past and the present tense. The error you need to avoid is the switch from the past to the present for no particular reason. Therefore, when you see a sentence on the TOEFL test with both the past and the present tense, you must check the meaning of the sentence carefully to see if it is logical in English.

The following chart outlines the use of the past tense with the present tense in English:

USING THE PAST WITH THE PRESENT
1. If you see a sentence with one verb in the *past* and one verb in the *present*, the sentence is probably incorrect.
2. However, it is possible for a correct sentence to have both *past* and *present* together.
3. If you see the *past* and *present* together, you must *check the meaning* to determine whether or not the sentence is correct.

EXERCISE 33: Each of the following sentences has at least one verb in the past and one verb in the present. Underline the verbs twice and decide if the meanings are logical. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. I tell him the truth when he asked me the question.

C 2. I understand that you were angry.

____ 3. When he was a child, he always goes to the circus.

____ 4. Last semester he reads seven books and wrote five papers.

____ 5. Steve wakes up early every morning because he went to work early.

____ 6. Mark studied at the American University when he is in Washington, D.C.

____ 7. He is telling the teacher why he did not have time to finish his homework.

____ 8. He put some money in his account when he goes to the bank.

____ 9. Tom keeps studying hard because he intended to go to dental school.

____ 10. She is where she is today because she worked hard when she was a student.

SKILL 34: USE *HAVE* AND *HAD* CORRECTLY

Two tenses that are often confused are the present perfect (*have* + past participle) and the past perfect (*had* + past participle). These two tenses have completely different uses, and you should understand how to differentiate them.

The present perfect (*have* + past participle) refers to the period of time *from the past until the present.*

Sue *has lived* in Los Angeles for ten years.

This sentence means that Sue has lived in Los Angeles for the ten years up to now. According to this sentence, Sue is still living in Los Angeles.

Because the present perfect refers to a period of time from the past until the present, it is not correct in a sentence that indicates past only.

At the start of the nineteenth century, Thomas Jefferson *has become** president of the United States.
Every time Jim *worked* on his car, he *has improved** it.

In the first example, the phrase *at the start of the nineteenth century* indicates that the action of the verb was in the past only, but the verb indicates the period of time from the past until the present. Since this is not logical, the sentence is not correct. The verb in the first example should be *became.* The second example indicates that Jim *worked* on his car in the past, but he improved it in the period from the past until the present. This idea also is not logical. The verb in the second example should be the simple past *improved.*

The past perfect (*had* + past participle) refers to a period of time *that started in the past and ended in the past, before something else happened in the past.*

Sue *had lived* in Los Angeles for ten years when she *moved* to San Diego.

This sentence means that Sue lived in Los Angeles for ten years in the past before she moved to San Diego in the past. She no longer lives in Los Angeles.

Because the past perfect begins in the past and ends in the past, it is generally not correct in the same sentence with the present tense.

Tom *had finished* the exam when the teacher *collects** the papers.

This sentence indicates that *Tom finished the exam* (in the past) and that action ended *when the teacher collects the papers* (in the present). This is not logical, so the sentence is not correct. Tom finished the exam (in the past), and the action of finishing the exam ended when the teacher collected the papers. Therefore, the second verb in this example should be in the past tense, *collected.*

The following chart outlines the uses of the present perfect and the past perfect:

USING (*HAVE* + PAST PARTICIPLE) AND (*HAD* + PAST PARTICIPLE)			
TENSE	FORM	MEANING	USE
present perfect	*have* + past participle	past up to now	not with a past tense**
past perfect	*had* + past participle	before past up to past	not with a present tense
**Except when the time expression *since* is part of the sentence (see Skill 35).			

EXERCISE 34: Each of the following sentences contains *had* or *have*. Underline the verbs twice and decide if the meanings are logical. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. I have always liked the designs that are on the cover.

I 2. Because her proposal had been rejected, she is depressed.

____ 3. The students have registered for classes before the semester started.

____ 8. After the votes were counted, it had been determined that Steve was the winner.

____ 9. Last night all the waiters and waitresses have worked overtime.

____ 10. He had fastened his seat belt before the airplane took off.

SKILL 35: USE THE CORRECT TENSE WITH TIME EXPRESSIONS

Often in sentences in the Written Expression section of the TOEFL test there is a time expression that clearly indicates what verb tense is needed in the sentence.

We moved to New York *in 1970.*
We had left there *by 1980.*
We have lived in San Francisco *since 1982.*

In the first example, the time expression *in 1970* indicates that the verb should be in the simple past (*moved*). In the second example, the time expression *by 1980* indicates that the verb should be in the past perfect (*had left*). In the third example, the time expression *since* 1982 indicates that the verb should be in the present perfect (*have lived*).

Some additional time expressions that clearly indicate the correct tense are *ago, last,* and *lately.*

She got a job *two years ago.*
She started working *last week.*
She has worked very hard *lately.*

In the first example, the time expression *two years ago* indicates that the verb should be in the simple past (*got*). In the second example, the time expression *last week* indicates that the verb should be in the simple past (*started*). In the third example, the time expression *lately* indicates that the verb should be in the present perfect (*has worked*).

The following chart lists time expressions that indicate the correct verb tense:

USING CORRECT TENSES WITH TIME EXPRESSIONS		
PAST PERFECT	SIMPLE PAST	PRESENT PERFECT
by (1920)	*(two years) ago*	*since (1920)*
	last (year)	*lately*
	in (1920)	

EXERCISE 35: Each of the following sentences contains a time expression. Circle the time expressions and underline the verbs twice. Then indicate if the sentences are correct (C) or incorrect (I).

____ 9. By the time the main course was served, all the guests had arrived and been seated.

____ 10. I had not done much more work since I talked to you on Wednesday.

SKILL 36: USE THE CORRECT TENSE WITH *WILL* AND *WOULD*

Certain combinations of verbs are very common in English. One is the combination of the simple present and *will*.

I *know* that they *will arrive* soon.
It *is* certain that he *will graduate*.

Another combination that is quite common is the combination of the simple past and *would*.

I *knew* that he *would arrive*.
It *was* certain that he *would graduate*.

It is important to stress that in the combination discussed here, the present should be used with *will* and the past should be used with *would*; they generally should not be mixed.

The common errors that must generally be avoided are the combination of the past with *will* and the combination of the present with *would*.

I *know* that he *would* arrive* soon.
It *was* certain that he *will* graduate*.

In the first example, the present, *know*, is illogical with *would*. It can be corrected in two different ways.

I *knew* that he *would arrive* soon.
I *know* that he *will arrive* soon.

In the second example, the past, *was*, is illogical with *will*. It can also be corrected in two different ways.

It *was* certain that he *would graduate*.
It *is* certain that he *will graduate*.

The following chart outlines the use of tenses with *will* and *would*:

USING CORRECT TENSES WITH *WILL* AND *WOULD*		
VERB	MEANING	USE
will	after the present	do not use with past
would	after the past	do not use with present
NOTE: There is a different modal *would* that is used to make polite requests. This type of *would* is often used with the present tense. *I would like to know if you have a pencil that I could borrow.*

PROBLEMS WITH PASSIVE VERBS

Sentences in which the error is an incorrect passive are common in the Written Expression section of the TOEFL test. You therefore need to be able to recognize the correct form of the passive and to be able to determine when a passive verb rather than an active verb is needed in a sentence.

The difference between an active and a passive verb is that the subject in an active sentence *does* the action of the verb, and the subject in a passive sentence *receives* the action of the verb. To convert a sentence from active to passive, two changes must be made. (1) The subject of the active sentence becomes the object of the passive sentence, while the object of the active sentence becomes the subject of the passive sentence. (2) The verb in the passive sentence is formed by putting the helping verb *be* in the same form as the verb in the active sentence and then adding the past participle of this verb.

The first example is an active sentence. To convert this active sentence to a passive sentence, you must first make the subject of the active sentence, *Margaret,* the object of the passive sentence with *by.* The object of the active sentence, *letter,* becomes the subject of the passive sentence. Next, the passive verb can be formed. Because *wrote* is in the past tense in the active sentence, the past tense of *be (was)* is used in the passive sentence. Then the verb *wrote* in the active sentence is changed to the past participle *written* in the passive sentence.

It should be noted that in a passive sentence, *by + object* does not need to be included to have a complete sentence. The following are both examples of correct sentences.

The letter was written yesterday *by Margaret.*
The letter was written yesterday.

Notice that these passive sentences are correct if *by Margaret* is included (as in the first example) or if *by Margaret* is omitted (as in the second example).

NOTE: Exercises to practice active and passive forms can be found in Appendix G at the back of the text. You may want to complete these exercises before you begin Skill 37.

SKILL 37: USE THE CORRECT FORM OF THE PASSIVE

One way that the passive can be tested on the TOEFL test is simply with an incorrect form of the passive. The following are examples of passive errors that might appear on the TOEFL test:

The portrait *was painting** by a famous artist.
The project *will finished** by Tim.

In the first example, the passive is formed incorrectly because the past participle *painted* should be used rather than the present participle *painting*. In the second example, the verb *be* has not been included, and some form of *be* is necessary for a passive verb. The verb in the second sentence should be *will be finished*.

The following chart outlines the way to form the passive correctly:

THE FORM OF THE PASSIVE		
BE	+	past participle (*BY* + object)

EXERCISE 37: Each of the following sentences has a passive meaning. Underline twice the verbs that should be passive. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The boy had never be stung by a bee.

C 2. The suits were hung in the closet when they were returned from the cleaners.

____ 3. Money is lending by the credit union to those who want to buy homes.

____ 8. The patients who are too sick to sit up are being assisted by the orderlies.

____ 9. The offices were thoroughly clean last evening by the night crew.

____ 10. The car that was struck in the intersection yesterday is being repaired today.

SKILL 38: RECOGNIZE ACTIVE AND PASSIVE MEANINGS

When there is no object (with or without *by*) after a verb, you must look at the meaning of the sentence to determine if the verb should be active or passive. Sentences with an incorrect passive verb and no *by + object* to tell you that the verb should be passive are the most difficult passive errors to recognize on the TOEFL test. Study the examples:

We mailed *the package* at the post office.
The letter was mailed *by us* today before noon.
The letter was mailed today before noon.
The letter mailed* today before noon.

The first three examples above are correct. The first example has the active verb *mailed* used with the object *package*; the second example has the passive verb *was mailed* used with *by us*; the third sentence has the passive verb *was mailed* used without an object.

The fourth example is the type of passive error that appears most often on the TOEFL test. This type of sentence has the following characteristics: (1) an incorrect passive verb that looks like a correct active verb, and (2) no *by + object* to tell you that a passive is needed. To correct the fourth example, the active verb needs to be changed to the passive *was mailed*.

To determine that such a sentence is incorrect, you must study the meaning of the subject and the verb. You must ask yourself if the subject *does* the action of the verb (so an active verb is needed) or if the subject *receives* the action of the verb (so a passive verb is needed). In the incorrect example, you should study the meaning of the subject and verb, *the letter mailed*. You should ask yourself if *a letter mails itself* (the letter *does* the action) or if someone *mails a letter* (the letter *receives* the action of being mailed). Since a letter does not mail itself, the passive is required in this sentence.

The following chart outlines the difference in meaning between active and passive verbs:

ACTIVE AND PASSIVE MEANINGS	
ACTIVE	The subject *does* the action of the verb.
PASSIVE	The subject *receives* the action of the verb.

PROBLEMS WITH NOUNS

The same types of problems with nouns appear often in the Written Expression section of the TOEFL test. You should be familiar with these problems so that you will recognize them easily. You should be able to do the following: (1) use the correct singular or plural noun, (2) distinguish countable and uncountable nouns, (3) recognize irregular singular and plural nouns, and (4) distinguish the person from the thing.

SKILL 39: USE THE CORRECT SINGULAR OR PLURAL NOUN

A problem that is common in the Written Expression section of the TOEFL test is a singular noun used where a plural noun is needed, or a plural noun used where a singular noun is needed.

On the table there were many *dish**.
The lab assistant finished every *tests**.

In the first example, *many* indicates that the plural *dishes* is needed. In the second example, *every* indicates that the singular *test* is needed.

In the Written Expression section of the TOEFL test, you should watch very carefully for key words, such as *each, every, a, one,* and *single,* that indicate that a noun should be singular. You should also watch carefully for such key words as *many, several, both, various,* and *two* (or any other number except *one*) that indicate that a noun should be plural.

The following chart lists the key words that indicate to you whether a noun should be singular or plural:

KEY WORDS FOR SINGULAR AND PLURAL NOUNS					
For Singular Nouns	*each*	*every*	*single*	*one*	*a*
For Plural Nouns	*both*	*two*	*many*	*several*	*various*

EXERCISE 39: Each of the following sentences contains at least one key word to tell you if a noun should be singular or plural. Circle the key words. Draw arrows to the nouns they describe. Then indicate if the sentences are correct (C) or incorrect (I).

____ 10. There were several boxes in the cupboard, and each box contained a dozen glasses.

SKILL 40: DISTINGUISH COUNTABLE AND UNCOUNTABLE NOUNS

In English nouns are classified as countable or uncountable. For certain questions on the TOEFL test, it is necessary to distinguish countable and uncountable nouns in order to use the correct modifiers with them.

As the name implies, countable nouns are nouns that can be counted. Countable nouns can come in quantities of one, or two, or a hundred, etc. The noun *book* is countable because you can have one book or several books.

Uncountable nouns, on the other hand, are nouns that cannot be counted because they come in some indeterminate quantity or mass. A noun such as *milk* or *happiness* cannot be counted; you cannot have one milk or two milks, and you cannot find one happiness or two happinesses. Uncountable nouns are often liquid items, such as *water, oil,* or *shampoo.* Uncountable nouns can also refer to abstract ideas, such as *security, friendship,* or *hope.*

It is important for you to recognize the difference between countable and uncountable nouns when you come across such key words as *much* and *many.*

He has seen *much** foreign *films.*
He didn't have *many** *fun* at the movies.

In the first example, *much* is incorrect because *films* is countable. This sentence should say *many foreign films.* In the second example, *many* is incorrect because *fun* is uncountable. This sentence should say *much fun.*

The following chart lists the key words that indicate to you whether a noun should be countable or uncountable:

KEY WORDS FOR COUNTABLE AND UNCOUNTABLE NOUNS				
For Countable Nouns	*many*	*number*	*few*	*fewer*
For Uncountable Nouns	*much*	*amount*	*little*	*less*

EXERCISE 40: Each of the following sentences contains at least one key word to tell you if a noun should be countable or uncountable. Circle the key words. Draw arrows to the nouns they describe. Then indicate if the sentences are correct (C) or incorrect (I).

SKILL 41: RECOGNIZE IRREGULAR PLURALS OF NOUNS

Many nouns in English have irregular plurals, and these irregular forms can cause confusion in the Written Expression section of the TOEFL test. The irregular forms that are the most problematic are plural forms that do not end in *s*.

Different *criteria* was* used to evaluate the performers.

In this example the plural noun *criteria* looks singular because it does not end in *s*; you might incorrectly assume that it is singular because there is no final *s*. However, *criteria* is a plural noun, so the singular verb *was used* is incorrect. The verb should be the plural form *were used*.

The following chart lists the irregular plurals that you should become familiar with:

IRREGULAR PLURALS			
Vowel change	*man / men* *woman / women*	*foot / feet* *tooth / teeth*	*goose / geese* *mouse / mice*
Add *-EN*	*child / children*	*ox / oxen*	
Same as singular	*deer / deer* *fish / fish*	*salmon / salmon* *sheep / sheep*	*trout / trout*
-IS ⟶ *-ES*	*analysis / analyses* *axis / axes* *crisis / crises*	*diagnosis / diagnoses* *hypothesis / hypotheses* *parenthesis / parentheses*	*synthesis / syntheses* *thesis / theses*

-US ⟶ *-I*	*alumnus / alumni* *bacillus / bacilli* *cactus / cacti*	*fungus / fungi* *nucleus / nuclei* *radius / radii*	*stimulus / stimuli* *syllabus / syllabi*

NOTE: Additional exercises to practice these irregular plurals of nouns appear in Appendix H at the back of the text. You may want to complete these exercises before you begin Exercise 41.

____ 9. The fungi has spread throughout the garden.

____ 10. The sheepdog is chasing after the sheep which are heading over the hill.

SKILL 42: DISTINGUISH THE PERSON FROM THE THING

Nouns in English can refer to persons or things. Sometimes in the Written Expression section of the TOEFL test the person is used in place of the thing, or the thing is used in place of the person.

Ralph Nader is an *authorization** in the field of consumer affairs.
There are many job opportunities in *accountant**.

In the first example, *authorization* is incorrect because *authorization* is a thing and Ralph Nader is a person. The person *authority* should be used in this sentence. In the second example, *accountant* is incorrect because *accountant* is a person and the field in which an accountant works is *accounting*. The thing *accounting* should be used in this sentence.

The following chart outlines what you should remember about the person or thing:

PERSON OR THING

PROBLEMS WITH PRONOUNS

Pronouns are words, such as *he, she,* or *it,* that take the place of nouns. When you see a pronoun in the Written Expression section of the TOEFL test, you need to check that it serves the correct function in the sentence (as a subject or object, for example) and that it agrees with the noun it is replacing. The following pronoun problems are the most common on the TOEFL test: (1) distinguishing subject and object pronouns, (2) distinguishing possessive pronouns and possessive adjectives, and (3) checking pronoun reference for agreement.

SKILL 43: DISTINGUISH SUBJECT AND OBJECT PRONOUNS

Subject and object pronouns can be confused on the TOEFL test, so you should be able to recognize these two types of pronouns:

SUBJECT	OBJECT
I	*me*
you	*you*
he	*him*
she	*her*
it	*it*
we	*us*
they	*them*

A subject pronoun is used as the subject of a verb. An object pronoun can be used as the object of a verb or the object of a preposition. Compare the following two sentences.

Sally gave *the book* to *John.*
She gave *it* to *him.*

In the second sentence the subject pronoun *she* is replacing the noun *Sally.* The object of the verb *it* is replacing the noun *book,* and the object of the preposition *him* is replacing the noun *John.*

The following are examples of the types of subject or object pronoun errors that you might see on the TOEFL test.

*Him** and the girl are going shopping.
The gift was intended for you and *I**.

In the first example, the object pronoun *him* is incorrect because this pronoun serves as the subject of the sentence. The object pronoun *him* should be changed to the subject pronoun *he.* It can be difficult to recognize that *him* is the subject because the verb *are* has a double subject, *him* and *girl.* In the second example, the subject pronoun *I* is incorrect because this pronoun serves as the object of the preposition *for.* The subject pronoun *I* should be changed to the object pronoun *me.* It can be difficult to recognize that *I* is the object of the preposition *for* because the preposition *for* has two objects: the correct object *you* and the incorrect object *I.*

EXERCISE 43: Each of the following sentences contains at least one subject or object pronoun. Circle the pronouns. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The worst problem with (it) is that (he) cannot afford (it.)

I 2. (They) saw Steve and (I) at the movies last night after class.

____ 9. He is going to the party with you and me if you do not mind.

____ 10. You and her ought to return the books to the library because they are already overdue.

SKILL 44: DISTINGUISH POSSESSIVE ADJECTIVES AND PRONOUNS

Possessive adjectives and pronouns both show who or what "owns" a noun. However, possessive adjectives and possessive pronouns do not have the same function, and these two kinds of possessives can be confused on the TOEFL test. A possessive adjective describes a noun: it must be accompanied by a noun. A possessive pronoun takes the place of a noun: it cannot be accompanied by a noun.

They lent me *their* book.
ADJECTIVE

They lent me *theirs*.
PRONOUN

Notice that in the first example the possessive adjective *their* is accompanied by the noun *book*. In the second example the possessive pronoun *theirs* is not accompanied by a noun.

These examples show the types of errors that are possible with possessive adjectives and possessive pronouns on the TOEFL test.

Each morning they read *theirs** newspapers.
Could you give me *your**?

In the first example, the possessive pronoun *theirs* is incorrect because it is accompanied by the noun *newspapers,* and a possessive pronoun cannot be accompanied by a noun. The possessive adjective *their* is needed in the first example. In the second example, the possessive adjective *your* is incorrect because it is not accompanied by a noun, and a possessive adjective must be accompanied by a noun. The possessive pronoun *yours* is needed in the second example.

The following chart outlines the possessives and their uses:

POSSESSIVE ADJECTIVES	POSSESSIVE PRONOUNS
my	*mine*
your	*yours*
his	*his*
her	*hers*
its	—
our	*ours*
their	*theirs*
must be accompanied by a noun	*cannot* be accompanied by a noun

EXERCISE 44: Each of the following sentences contains at least one possessive pronoun or adjective. Circle the possessives in these sentences. Then indicate if the sentences are correct (C) or incorrect (I).

____ 9. She worked all day cooking food and making decorations for her son's birthday party.

____ 10. The weather in the mountains this weekend will be extremely cold, so please take yours heavy jackets.

SKILL 45: CHECK PRONOUN REFERENCE FOR AGREEMENT

After you have checked that the subject and object pronouns and the possessives are used correctly, you should also check each of these pronouns and possessives for agreement. The following are examples of errors of this type that you might find on the TOEFL test:

The boys will cause trouble if you let *him**.
Everyone must give *their** name.

In the first example, the singular pronoun *him* is incorrect because it refers to the plural noun *boys*. This pronoun should be replaced with the plural noun *them*. In the second example, the plural possessive adjective *their* is incorrect because it refers to the singular *everyone*. This adjective should be replaced with the singular *his* or *his or her*.

The following chart outlines what you should remember about checking pronoun reference:

PRONOUN AGREEMENT
1. Be sure that every pronoun and possessive agrees with the noun it refers to.
2. You generally check *back* in the sentence for agreement.

EXERCISE 45: Each of the following sentences contains at least one pronoun or possessive. Circle the pronouns and possessives. Draw arrows to the nouns they refer to. Then indicate if the sentences are correct (C) or incorrect (I).

PROBLEMS WITH ADJECTIVES AND ADVERBS

Many different problems with adjectives and adverbs are possible in the Written Expression section of the TOEFL test. To identify these problems, you must first be able to recognize adjectives and adverbs.

Often adverbs are formed by adding *-ly* to adjectives, and these *-ly* adverbs are very easy to recognize. The following examples show adverbs that are formed by adding *-ly* to adjectives:

ADJECTIVE	ADVERB
recent	*recently*
public	*publicly*
evident	*evidently*

However, there are many adverbs in English that do not end in *-ly*. These adverbs can be recognized from their meanings. They can describe *when* something happens (*often, soon, later*), *how* something happens (*fast, hard, well*), or *where* something happens (*here, there, nowhere*).

There are three skills involving adjectives and adverbs that will help you on the Written Expression section of the TOEFL test: (1) knowing when to use adjectives and adverbs, (2) using adjectives rather than adverbs after linking verbs, and (3) positioning adjectives and adverbs correctly.

SKILL 46: USE BASIC ADJECTIVES AND ADVERBS CORRECTLY

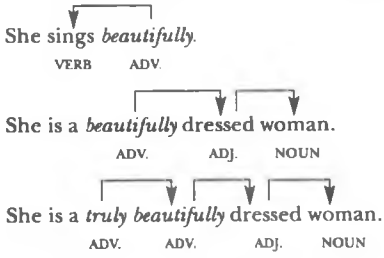

Sometimes in the Written Expression section of the TOEFL test, adjectives are used in place of adverbs, or adverbs are used in place of adjectives. Adjectives and adverbs have very different uses. Adjectives have only one job: they describe nouns or pronouns.

She is a *beautiful* woman.
ADJ. NOUN

She is *beautiful*.
PRO. ADJ.

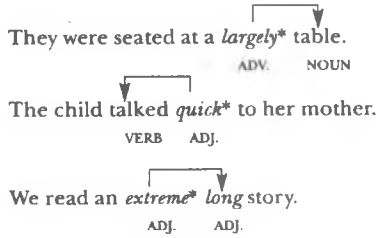

In the first example, the adjective *beautiful* describes the noun *woman*. In the second example, the adjective *beautiful* describes the pronoun *she*.

Adverbs do three different things. They describe verbs, adjectives, or other adverbs.

In the first example, the adverb *beautifully* describes the verb *sings*. In the second example, the adverb *beautifully* describes the adjective *dressed* (which describes the noun *woman*). In the third example, the adverb *truly* describes the adverb *beautifully*, which describes the adjective *dressed* (which describes the noun *woman*).

The following are examples of incorrect sentences as they might appear on the TOEFL test.

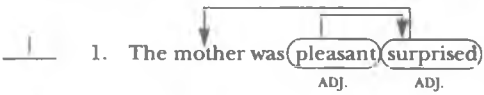

In the first example, the adverb *largely* is incorrect because the adjective *large* is needed to describe the noun *table*. In the second example, the adjective *quick* is incorrect because the adverb *quickly* is needed to describe the verb *talked*. In the last example, the adjective *extreme* is incorrect because the adverb *extremely* is needed to describe the adjective *long*.

The following chart outlines the important information that you should remember about the basic use of adjectives and adverbs:

BASIC USE OF ADJECTIVES AND ADVERBS	
ADJECTIVES	Adjectives describe *nouns* or *pronouns*.
ADVERBS	Adverbs describe *verbs*, *adjectives*, or other *adverbs*.

EXERCISE 46: Each of the following sentences has at least one adjective or adverb. Circle the adjectives and adverbs, and label them. Draw arrows to the words they describe. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The mother was pleasant surprised when her daughter came to visit.

____ 8. Points will be subtracted for each incorrect answered question.

____ 9. The production manager quietly requested a completely report of the terribly incident.

____ 10. The children finished their homework quickly so they could watch television.

SKILL 47: USE ADJECTIVES AFTER LINKING VERBS

Generally an adverb rather than an adjective will come directly after a verb because the adverb is describing the verb.

She spoke *nicely.*
VERB ADV.

In this example, the verb *spoke* is followed by the adverb *nicely.* This adverb describes the verb *spoke.*

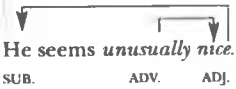

However, you must be very careful if the verb is a *linking* verb. A *linking* verb is followed by an adjective rather than an adverb.

She looks *nice.*
SUB. ADJ.

In this example, the linking verb *looks* is followed by the adjective *nice.* This adjective describes the subject *she.*

You should be sure to use an adjective rather than an adverb after a linking verb. Be careful, however, because the adjective that goes with the linking verb does not always directly follow the linking verb.

In this example, the adjective *nice,* which describes the subject *he,* is itself described by the adverb *unusually.* From this example, you should notice that it is possible to have an adverb directly after a linking verb, but only if the adverb describes an adjective that follows.

The following chart lists commonly used linking verbs and outlines the different uses of adjectives and adverbs after regular verbs and linking verbs:

ADJECTIVES AND ADVERBS AFTER VERBS			
(subject) + (regular verb) + (adverb) A regular verb is followed by an adverb. The adverb describes the verb.			
(subject) + (linking verb) + (adjective) A linking verb is followed by an adjective. The adjective describes the subject.			
(subject) + (linking verb) + (adverb) + (adjective) It is possible that a linking verb is followed by an adverb and an adjective. The adverb describes the adjective and the adjective describes the subject.			
LINKING VERBS:	*appear*	*feel*	*seem*
	be	*look*	*smell*
	become	*prove*	*taste*

EXERCISE 47: Each of the following sentences contains at least one adjective or adverb. Circle the adjectives and adverbs, and label them. Draw arrows to the words they describe. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The parents seem (angrily) about the child's report card.

_____ 8. Marla jumped up quick when she heard the gunshot.

_____ 9. Even though we were not really hungry, the food smelled delicious.

_____ 10. The history course that I took last semester proved more difficultly than I had expected.

SKILL 48: POSITION ADJECTIVES AND ADVERBS CORRECTLY

Adjectives and adverbs can appear in incorrect positions in the Written Expression section of the TOEFL test. There are two common errors of this type that you should beware of: (1) the position of adjectives with the nouns they describe, and (2) the position of adverbs with objects.

In English it is correct to place a one-word adjective in front of the noun it describes. On the TOEFL test, however, an incorrect sentence might have an adjective after the noun it describes.

The information *important** is on the first page.
NOUN ADJ.

In this example, the adjective *important* should come before the noun *information*, because *important* describes *information*.

A second problem you should be aware of is the position of adverbs with objects of verbs. When a verb has an object, an adverb describing the verb should not come between the verb and its object.

He has taken *recently** an English course.
ADV. OBJECT

This example is incorrect because the adverb *recently* comes between the verb *has taken* and its object *an English course*. There are many possible corrections for this sentence.

Recently he has taken an English course.
He has *recently* taken an English course.
He has taken an English course *recently*.

You can see from these examples that there are many possible correct positions for the adverb. What is important for you to remember is that an adverb that describes a verb cannot come between the verb and its object.

The following chart outlines the key points that you should remember about the position of adjectives and adverbs:

THE POSITION OF ADJECTIVES AND ADVERBS	
ADJECTIVES	A one-word *adjective* comes before the noun it describes. It does not come directly after.
ADVERBS	An *adverb* can appear in many positions. It cannot be used between a verb and its object.

MORE PROBLEMS WITH ADJECTIVES

The previous section dealt with various problems related to both adjectives and adverbs. This section deals with a few problems that are related only to adjectives: (1) *-ly* adjectives, (2) predicate adjectives, and (3) *-ed* and *-ing* adjectives.

SKILL 49: RECOGNIZE *-LY* ADJECTIVES

Generally when a word ends in *-ly* in English, it is an adverb. However, there are a few words ending in *-ly* that are adjectives, and these *-ly* adjectives can cause confusion in the Written Expression section of the TOEFL test.

The manager turned in his *weekly* report.
ADJ. NOUN

This example is correct, but it appears to be incorrect; it appears that there is an *-ly* adverb in front of the noun *report*. However, *weekly* is an adjective that describes the noun *report*.

The following chart lists common *-ly* adjectives that can appear in English:

-LY ADJECTIVES				
costly	*likely*	*daily*	*quarterly*	*northerly*
early	*lively*	*hourly*	*weekly*	*easterly*
friendly	*lonely*	*monthly*	*yearly*	*southerly*
kindly	*manly*	*nightly*	*lovely*	*westerly*

EXERCISE 49: Each of the following sentences contains at least one adjective or adverb ending in *-ly*. Circle the *-ly* words, and label them as either adjectives or adverbs. Draw arrows to the words they describe. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. Federal taxes are (yearly) taxes which must be paid every April.
ADJ.

I 2. At the fashion show, the new (seasonally) fashions will be shown.
ADV.

____ 3. Do you want to go to the early movie or the lately movie?

____ 7. The likely outcome of the purchase of the costly car is that he will not be able to pay his monthly bills.

____ 8. The days she spent at the beach house were lonely and solitarily.

____ 9. She takes her daily medication on a regularly schedule.

____ 10. The kindly neighbor paid hourly visits to her unhealthily friend.

SKILL 50: USE PREDICATE ADJECTIVES CORRECTLY

Certain adjectives appear only in the predicate of the sentence; that is, they appear after a linking verb such as *be*, and they cannot appear directly in front of the nouns that they describe.

The snake on the rock was *alive*.
The *alive** snake was lying on the rock.

In the first example, the predicate adjective *alive* is used correctly after the linking verb *was* to describe the subject *snake*. In the second example, the predicate adjective *alive* is used incorrectly in front of the noun *snake*. In this position, the adjective *live* should be used.

The following chart lists some common predicate adjectives and the corresponding forms that can be used in front of the noun:

PREDICATE ADJECTIVES	
PREDICATE ADJECTIVES	FORMS USED IN FRONT OF NOUN
alike	*like, similar*
alive	*live, living*
alone	*lone*
afraid	*frightened*
asleep	*sleeping*
A predicate adjective appears after a linking verb such as *be*. It cannot appear directly in front of the noun that it describes.	

EXERCISE 50: Each of the following sentences contains a predicate adjective or its related form. Circle the predicate adjectives or related forms. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. The two brothers do not look at all (alike.)

I 2. My friend brought the (alive) lobster to my house and expected me to cook it.

_____ 8. She tried to walk quietly by the asleep dogs without waking them.

_____ 9. Were you feeling afraid when you heard the noise?

_____ 10. According to the report, the president was shot by an alone gunman.

SKILL 51: USE *-ED* AND *-ING* ADJECTIVES CORRECTLY

Verb forms ending in *-ed* and *-ing* can be used as adjectives. For example, the verbal adjectives *cleaned* and *cleaning* come from the verb *to clean.*

The woman *cleans* the car.
VERB

The *cleaning* woman worked on the car.
ADJECTIVE

The woman put the *cleaned* car back in the garage.
ADJECTIVE

In the first example, *cleans* is the verb of the sentence. In the second example, *cleaning* is a verbal adjective describing *woman.* In the third example, *cleaned* is a verbal adjective describing *car.*

Verbal adjectives ending in *-ed* and *-ing* can be confused in the Written Expression section of the TOEFL test.

The *cleaning** car . . .
The *cleaned** woman . . .

The difference between an *-ed* and an *-ing* adjective is similar to the difference between the active and the passive (see Skills 37 and 38). An *-ing* adjective (like the active) means that the noun it describes is *doing* the action. The above example about the *cleaning* car is not correct because a car cannot do the action of cleaning: you cannot say that *a car cleans itself.* An *-ed* adjective (like the passive) means that the noun it describes is *receiving* the action from the verb. The above example about *the cleaned woman* is not correct because in this example a woman cannot receive the action of the verb *clean:* this sentence does not mean that *someone cleaned the woman.*

The following chart outlines the key information that you should remember about *-ed* and *-ing* adjectives:

-ED AND -ING ADJECTIVES			
TYPE	MEANING	USE	EXAMPLE
-ING	active	It does the action of the verb.	. . . the happily *playing* children . . . (The children *play*.)
-ED	passive	It receives the action of the verb.	. . . the frequently *played* record . . . (Someone *plays* the record.)

EXERCISE 51: Each of the following sentences contains either an *-ed* or an *-ing* verbal adjective. Circle the verbal adjectives. Draw arrows to the words they describe. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The teacher gave a quiz on the just (completing) lesson.

PROBLEMS WITH ARTICLES

Articles are very difficult to learn because there are many rules, many exceptions, and many special cases. It is possible, however, to learn a few rules that will help you to use articles correctly much of the time.

Nouns in English can be either countable or uncountable. If a noun is countable, it must be either singular or plural. In addition to these general types of nouns, there are two types of articles: definite (specific) and indefinite (general).

ARTICLES	COUNTABLE SINGULAR NOUNS	COUNTABLE PLURAL NOUNS	UNCOUNTABLE NOUNS
INDEFINITE (General)	*a* dollar *an* apple	_____ dollars _____ apples	_____ money _____ juice
DEFINITE (Specific)	*the* dollar *the* apple	*the* dollars *the* apples	*the* money *the* juice

SKILL 52: USE ARTICLES WITH SINGULAR NOUNS

You can see from the chart that if a noun is either countable plural or uncountable, it is possible to have either the definite article *the* or no article (indefinite). With *all* countable singular nouns, however, you must have an article (unless you have another determiner such as *my* or *each*).

I have *money*.	(uncountable — no article needed)
I have *books*.	(countable plural — no article needed)
I have a *book*.	(countable singular — article needed)

The following chart outlines the key information that you should remember about articles with singular nouns:

ARTICLES WITH SINGULAR NOUNS
A singular noun **must** have an article (*a, an, the*) or some other determiner such as *my* or *each*. (A plural noun or an uncountable noun **may** or **may not** have an article.)

EXERCISE 52: The following sentences contain different types of nouns. Circle only the countable singular nouns. Mark where articles (or determiners) have been omitted. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. She is taking a trip with friends.
C 2. In my yard there are flowers, trees, and grass.
____ 3. The manager sent memo to his employees.
____ 4. There is car in front of the building.
____ 5. The child and his friends are having milk and cookies.
____ 6. She is studying to be an actress in films.
____ 7. My neighbor was arrested for throwing rocks through windows.
____ 8. We have machinery that prints ten pages each minute.
____ 9. Teacher has many students during a semester.
____ 10. Can you heat water for tea?

SKILL 53: DISTINGUISH *A* AND *AN*

The basic difference between *a* and *an* is that *a* is used in front of consonants and *an* is used in front of vowels (*a, e, i, o, u*):

a book	*an* orange
a man	*an* illness
a page	*an* automobile

In reality, the rule is that *a* is used in front of a word that begins with a consonant *sound* and that *an* is used in front of a word that begins with a vowel *sound*. Pronounce the following examples:

a university	*a* hand	*a* one-way street	*a* euphemism	*a* xerox machine
an unhappy man	*an* hour	*an* omen	*an* event	*an* x-ray machine

These examples show that certain beginning letters can have either a consonant or a vowel sound. A word that begins with *u* can begin with a consonant *y* sound as in *university* or with a vowel sound as in *unhappy*. A word that begins with *h* can begin with a consonant *h* sound as in *hand* or with a vowel sound as in *hour*. A word that begins with *o* can begin with a consonant *w* sound as in *one* or with a vowel sound as in *omen*. A word that begins with *e* can begin with either a consonant *y* sound as in *euphemism* or with a vowel sound as in *event*. A word that begins with *x* can begin with either a consonant *z* sound as in *xerox* or with a vowel sound as in *x-ray*.

The following chart outlines the key information about the use of *a* and *an*:

A AND AN	
A	A is used in front of a singular noun with a *consonant* sound.
AN	An is used in front of a singular noun with a *vowel* sound.
Be careful of words beginning with letters such as *u, o, e, x,* or *h*. They may begin with either a *vowel* or a *consonant* sound.	

EXERCISE 53: Each of the following sentences contains *a* or *an*. Circle each *a* or *an*. Underline the beginning of the word that directly follows. Pronounce the word. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The dishwasher quit his job because he was making only four dollars (a) hour.

C 2. It was (an) unexpected disappointment to receive (a) rejection letter from the university.

____ 3. A signature is required wherever you see a X on the form.

____ 4. He bought a half gallon of milk and a box of a hundred envelopes.

____ 5. An objection was raised because it was such a unacceptable idea.

____ 7. The police officer was not wearing an uniform when she arrested the suspect.

____ 8. If you do not give me a hand, finishing the project on time will be an impossibility.

____ 9. She was upset when a honest mistake was made.

____ 10. She opened a account at a local department store during a one-day sale.

SKILL 54: MAKE ARTICLES AGREE WITH NOUNS

The definite article (*the*) is used for both singular and plural nouns, so agreement is not a problem with the definite article. However, because the use of the indefinite article is different for singular and plural nouns, you must be careful of agreement between the indefinite article and the noun. One very common agreement error is to use the singular indefinite article (*a* or *an*) with a plural noun.

He saw *a** new *movies*.
They traveled to *a** nearby *mountains*.
Do you have *an*other* *books*?

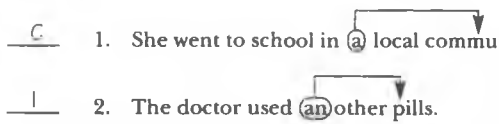

In these examples, you should not have *a* or *an* because the nouns are plural. The following sentences are possible corrections of the sentences above.

He saw a new movie.	(singular)
He saw new movies.	(plural)
They traveled to a nearby mountain.	(singular)
They traveled to nearby mountains.	(plural)
Do you have another book?	(singular)
Do you have other books?	(plural)

The following chart states the key point for you to remember about the agreement of articles with nouns:

AGREEMENT OF ARTICLES WITH NOUNS
You should never use *a* or *an* with a plural noun.

EXERCISE 54: Each of the following sentences contains *a* or *an*. Circle each *a* or *an*. Draw an arrow to the noun it describes. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. She went to school in a local community.

____ 8. They crossed through several forests and a stream.

____ 9. There will be another important lessons tomorrow.

____ 10. He could not give me a good reasons for what he did.

SKILL 55: DISTINGUISH SPECIFIC AND GENERAL IDEAS

With countable singular nouns it is possible to use either the definite or the indefinite article, but they have different meanings. The definite article is used to refer to one specific noun.

Tom will bring *the* book tomorrow.
(There is one specific book that Tom will bring tomorrow.)

He will arrive on *the* first Tuesday in July.
(There is only one first Tuesday in July.)

He sailed on *the* Pacific Ocean.
(There is only one Pacific Ocean.)

The definite article is used when the noun could be one of several different nouns.

Tom will bring *a* book tomorrow.
(Tom will bring any one book.)

He will arrive on *a* Tuesday in July.
(He will arrive on one of four Tuesdays in July.)

He sailed on *an* ocean.
(He sailed on any one of the world's oceans.)

The following chart outlines the key information that you should understand about specific and general ideas:

SPECIFIC AND GENERAL IDEAS		
ARTICLE	MEANING	USES
A or *AN*	general idea	Use when there are *many*, and you do not *know* which one it is. Use when there are *many*, and you do not *care* which one it is.
THE	specific idea	Use when it is *the only one*. Use when there are *many*, and you *know* which one it is.

PROBLEMS WITH PREPOSITIONS

Prepositions can be used in two ways: in a literal way and in an idiomatic way. In the literal use, the preposition means exactly what you expect.

The boy ran *up* the hill.
She went *in* the house.

In the first example, the preposition *up* means that the boy went in the direction *up* rather than *down*. In the second example, the preposition *in* means that she went *into* rather than *out of* the house.

In the idiomatic use, which is what appears most often on the TOEFL test, the preposition appears in an idiomatic expression; that is, its meaning in this expression has nothing to do with the literal meaning.

I call *up* my friend.
He succeeded *in* passing the course.

In the first example, the word *up* has nothing to do with the direction *up*. *To call up someone* means *to telephone* someone. In the second example, the word *in* has nothing to do with the meaning of *into* or *inside*; it is simply idiomatic that the word *in* is used after the verb *succeed*.

It is impossible to list all potential idiomatic expressions with their prepositions because there are so many expressions that could appear on the TOEFL test. However, in this section you can practice recognizing problems with prepositions in TOEFL-type questions. Then, when you are working in the Written Expression section of the TOEFL test, you should be aware that idiomatic errors with prepositions are common in that section. There are two common types of problems with prepositions that you should expect: (1) incorrect prepositions and (2) omitted prepositions.

SKILL 56: RECOGNIZE INCORRECT PREPOSITIONS

Sometimes an incorrect preposition is given in a sentence in the Written Expression section of the TOEFL test.

The game was called *on** because of rain.
I knew I could count *in** you to do a good job.

The first example should say that the game was *called off* because of rain. The expression *called off* means *canceled*, and that is the meaning that makes sense in this sentence. *To call on someone* is *to visit someone*, and this meaning does not make sense in this example. In the second example, it is not correct in English to *count in someone*. The correct expression is to *count on someone*.

EXERCISE 56: Each of the following sentences contains at least one preposition. Circle the prepositions. Then indicate if the sentences are correct (C) or incorrect (I).

C 1. (After) school many students participate (in) sports.

____ 9. Failure to pass the test will result to the loss of your license.
____ 10. It is unlawful for parolees to associate with known felons.

SKILL 57: RECOGNIZE WHEN PREPOSITIONS HAVE BEEN OMITTED

Sometimes a necessary preposition has been omitted from a sentence in the Written Expression section of the TOEFL test.

Can you *wait** me after the game?
I *plan** attending the meeting.

The first example is incorrect because it is necessary to say *wait for me.* The second example is incorrect because it is necessary to say *plan on attending.*

EXERCISE 57: Prepositions have been omitted in some of the following sentences. Mark where prepositions have been omitted. Then indicate if the sentences are correct (C) or incorrect (I).

PROBLEMS WITH USAGE

In English certain groups of words have similar uses, and these words are sometimes confused in the Written Expression section of the TOEFL test. Although various usage problems are possible on the TOEFL test, the following problems are the most common: (1) when to use *make* and *do;* (2) when to use *like, unlike,* and *alike;* and (3) when to use *other, another,* and *others.*

SKILL 58: DISTINGUISH *MAKE* AND *DO*

Make and *do* can be confused in English because their meanings are so similar. Since the difference between *make* and *do* is tested on the TOEFL test, you should learn to distinguish them.

Make often has the idea of *creating* or *constructing.* The following expressions show some of the possible uses of *make:*

She likes to *make* her own clothes.
Would you like to *make* a cake for dessert?
If you *make* a mistake, you should correct it.
He was unable to *make* a response to the threat.

Do often has the idea of *completing* or *performing.* The following expressions show some of the possible uses of *do:*

This morning she *did* all the dishes.
The students *are doing* the assignments.
The janitors *did* the work they were assigned.
You can *do* your laundry at the laundromat.

These are only some of the uses of *make* and *do.* Many uses of *make* and *do* are idiomatic and therefore difficult to classify.

EXERCISE 58: Each of the following sentences contains *make* or *do.* Circle *make* or *do.* Draw arrows to the nouns that complete the expressions. Then indicate if the sentences are correct (C) or incorrect (I).

SKILL 59: DISTINGUISH *LIKE, ALIKE, UNLIKE,* AND *DISLIKE*

Like, alike, unlike, and *dislike* are easily confused because they look so similar and they have many different uses. There are several structures with *like, alike, unlike,* and *dislike* that you should be familiar with.

The first structures you should already be familiar with are the adjectives *alike* and *like* (see Skill 50). Study the use of *alike* and *like* in the following examples.

John and Tom are *alike.*
John and Tom worked in a *like* manner.

In both these examples, *alike* and *like* are adjectives that mean *similar.* In the first example, *alike* is a predicate adjective describing *John* and *Tom.* Because *alike* is a predicate adjective, it can only be used after a linking verb such as *are.* In the second example, *like* is the adjective form that is used immediately before the noun *manner.*

The next structures you should be familiar with are the prepositions *like* and *unlike,* which have opposite meanings. Because they are prepositions, they must be followed by objects.

John is (*like* Tom).
John is (*unlike* Tom).

In the first example, the preposition *like* is followed by the object *Tom.* It means that Tom and John are similar. In the second example, the preposition *unlike* is followed by the object *Tom.* It means that Tom and John are not similar.

The prepositions *like* and *unlike* can also be used at the beginning of a sentence.

(*Like* Tom), John is tall.
(*Unlike* Tom), John is tall.

In the first example, the preposition *like* is followed by the object *Tom.* It means that Tom is tall. In the second example, the preposition *unlike* is followed by the object *Tom.* It means that Tom is not tall.

The final structures that you should be familiar with are the verbs *like* and *dislike,* which have opposite meanings. Because they are verbs, they are used with subjects.

John and Tom *like* the course.
John and Tom *dislike* the course.

In the first example, the verb *like* follows the subject *John and Tom.* It means that both men think that the course is enjoyable. In the second example, the verb *dislike* follows that subject *John and Tom.* It means that both men think that the course is not enjoyable.

The following chart outlines the structures and meanings of sentences with *like, alike, unlike,* and *dislike:*

LIKE, ALIKE, UNLIKE, AND DISLIKE			
	GRAMMAR	MEANING	USE
like *alike*	adjective adjective	similar similar	As an adjective, *like* is used before a noun. As an adjective, *alike* is used after a linking verb.
like *unlike*	preposition preposition	similar different	Both prepositions are followed by objects. They can both be used in many positions, including at the beginning of the sentence.

EXERCISE 59: Each of the following sentences contains *like, alike, unlike,* or *dislike.* Circle the *like* words. Then indicate if the sentences are correct (C) or incorrect (I).

Questions 1–12

Algae is a primitive form of life, a single-celled or simple multiple-celled organism that is able to conduct the process of photosynthesis. It is generally found in water but can also be found elsewhere, growing on such surfaces as rocks or trees. The various types of algae are classified according to their
Line pigmentation, or coloration.
(5) Blue-green algae, or *Cyanophyta*, can grow at very high temperatures and under high-intensity light. This is a microscopic type of algae, and some species consist of only one cell. Blue-gree algae is the oldest form of life with photosynthetic capabilities, and fossilized remains of this type of algae more than 3.4 billion years old have been found in parts of Africa.

Green algae, or *Chlorophyta*, is generally found in fresh water. It reproduces on the surfaces of
(10) enclosed bodies of water such as ponds or lakes and has the appearance of a fuzzy green coating on the water. In large quantities, this type of algae may reproduce enough to give a green color to an entire lake.

Brown algae, or *Phaeophyta*, grows in shallow, temperate water. This type of algae is the largest in size and is most recognizable as a type of seaweed; kelp is a type of brown algae that has grown to
(15) lengths of up to 200 feet. Its long stalks can be enmeshed on the ocean floor, or it can float freely on the ocean's surface.

Red algae, or *Rhodophyta*, is a small, delicate organism found in the deep waters of the subtropics, where it often grows with coral. This type of algae has an essential role in the formation of coral reefs: it secretes lime from the seawater to foster the formation of limestone deposits.

Questions 13–21

Narcolepsy is a disease characterized by malfunctioning sleep mechanics. It can consist of a sudden and uncontrollable bout of sleep during daylight hours and disturbed sleep during nighttime hours. It occurs more often in men than in women, and it commonly makes its appearance during
Line adolescence or young adulthood. At least a half million Americans are believed to be affected by
(5) narcolepsy.

Narcolepsy can take a number of forms during daylight hours. One common symptom of the disease during daytime hours is a sudden attack of REM (rapid-eye movement) sleep during normal waking hours. This occurs in some people hundreds of times in a single day, while others only have rare occurrences. During a sleep attack, narcoleptics may experience automatic behavior; even
(10) though asleep, they may continue automatically performing the activity they were involved in prior to falling asleep. They may, for example, continue walking, or driving, or stirring a pot until the activity is interrupted by external forces. Others experience cataplexy during daytime hours; cataplexy involves a sudden loss of muscle tone that may cause the head to droop or the knees to wobble in minor attacks or a total collapse in more serious attacks. Cataplexy seems to occur most often in
(15) conjunction with intense emotion or excitement.

During sleep hours, narcolepsy can also manifest itself in a variety of ways. During the transitional phase that precedes the onset of sleep, it is common for hallucinations to occur. These hallucinations, known as hypnagogic phenomena, consist of realistic perceptions of sights and sounds during the semi-conscious state between wakefulness and sleep. Narcoleptics may also suffer
(20) from night wakening during sleep, resulting in extremely fragmented and restless sleep. Then, upon waking, a narcoleptic may experience sleep paralysis, the inability to move, perhaps for several minutes, immediately after waking.

Questions 22–30

Whereas literature in the first half of the eighteenth century in America had been largely religious and moral in tone, by the latter half of the century the revolutionary fervor that was coming to life in the colonies began to be reflected in the literature of the time, which in turn served to further
Line influence the population. Although not all writers of this period supported the Revolution, the two
(5) best-known and most influential writers, Ben Franklin and Thomas Paine, were both strongly supportive of that cause.

Ben Franklin first attained popular success through his writings in his brother's newspaper, the *New-England Courant*. In these articles he used a simple style of language and commonsense argumentation to defend the point of view of the farmer and the Leather Apron man. He continued
(10) with the same commonsense practicality and appeal to the common man with his work on *Poor Richard's Almanac* from 1733 until 1758. Firmly established in his popular acceptance by the people, Franklin wrote a variety of extremely effective articles and pamphlets about the colonists' revolutionary cause against England.

Thomas Paine was an Englishman working as a magazine editor in Philadelphia at the time of
(15) the Revolution. His pamphlet *Common Sense*, which appeared in 1776, was a force in encouraging the colonists to declare their independence from England. Then throughout the long and desperate war years he published a series of *Crisis* papers (from 1776 until 1783) to encourage the colonists to continue on with the struggle. The effectiveness of his writing was probably due to his emotional yet oversimplified depiction of the cause of the colonists against England as a classic struggle of good
(20) and evil.

Questions 31–41

Federal Express is a company that specializes in rapid overnight delivery of high-priority packages. The first company of its type, Federal Express was founded by the youthful Fred Smith in 1971, when he was only 28 years old. Smith had actually developed the idea for the rapid delivery
Line service in a term paper for an economics class when he was a student at Yale University. The term
(5) paper reputedly received a less-than-stellar grade because of the infeasibility of the project that Smith had outlined. The model that Smith proposed had never been tried; it was a model that was efficient to operate but at the same time was very difficult to institute.

Smith achieved efficiency in his model by designing a system that was separate from the passenger system and could, therefore, focus on how to deliver packages most efficiently. His strategy
(10) was to own his own planes so that he could create his own schedules and to ship all packages through the hub city of Memphis, a set-up which resembles the spokes on the wheel of a bicycle. With this combination of his own planes and hub set-up, he could get packages anywhere in the United States overnight.

What made Smith's idea difficult to institute was the fact that the entire system had to be
(15) created before the company could begin operations. He needed a fleet of aircraft to collect packages from airports every night and deliver them to Memphis, where they were immediately sorted and flown out to their new destinations; he needed a fleet of trucks to deliver packages to and from the various airports; he needed facilities and trained staff all in place to handle the operation. Smith had a $4 million inheritance from his father, and he managed to raise an additional $91 million dollars
(20) from venture capitalists to get the company operating.

When Federal Express began service in 1973 in 25 cities, the company was not an immediate success, but success did come within a relatively short period of time. The company lost $29 million in the first 26 months of operations. However, the tide was to turn relatively quickly. By late 1976, Federal Express was carrying an average of 19,000 packages per night and had made a profit of $3.6
(25) million.

    (A) Smith submitted it through a delivery service.
    (B) It was written by a student of Smith's.
    (C) Its grade was mediocre.
    (D) The professor thought it had great potential.

34. What was a key idea of Smith's?

    (A) That he should focus on passenger service
    (B) That package delivery should be separate from passenger service
    (C) That packages could be delivered on other companies' planes
    (D) That passenger service had to be efficient

Questions 42–50

Perhaps better known than the Cullman Diamond is the Hope Diamond, a valuable and rare blue gem with a background of more than 300 years as a world traveler. The 112-carat blue stone that later became the Hope Diamond was mined in India sometime before the middle of the seventeenth century and was first known to be owned by Shah Jahan, who built the Taj Mahal in memory of his beloved wife. From India, the celebrated blue stone has changed hands often, moving from location to location in distant corners of the world.

In the middle of the seventeenth century, a trader from France named Jean Baptiste Tavernier acquired the large blue diamond, which was rumored to have been illegally removed from a temple. Tavernier returned to France with the big blue gem, where the stone was purchased by the Sun King, Louis XIV. Louis XIV had it cut down from 112 to 67 carats to make its shape symmetrical and to maximize its sparkle. The newly cut diamond, still huge by any standards, was passed down through the royal family of France, until it arrived in the hands of Louis XVI and Marie Antoinette. During the French Revolution, Louis XVI and his wife met their fate on the guillotine in 1793, and the big blue diamond disappeared from public sight.

The diamond somehow managed to get from France to England, where banker Henry Hope purchased it from a gem dealer early in the nineteenth century. The huge blue stone was cut into a 45.5-carat oval, and at this point it took on the name by which it is known today. The diamond stayed in the Hope family for around a century, when deep indebtedness brought on by a serious gambling habit on the part of one of Henry Hope's heirs forced the sale of the diamond.

From England, the Hope Diamond may have made its way into the hands of the Sultan of Turkey; whatever route it took to get there, it eventually went on to the United States when American Evelyn Walsh McLean purchased it in 1911. Mrs. McLean certainly enjoyed showing the diamond off; guests in her home were sometimes astounded to notice the huge stone embellishing the neck of Mrs. McLean's Great Dane as the huge pet trotted around the grounds of her Washington, D.C. home. The Hope Diamond later became the property of jeweler Harry Winston, who presented the stunning 45.5-carat piece to the Smithsonian in 1958. The Hope Diamond is now taking a well-earned rest following its rigorous travel itinerary and is on display at the Smithsonian Institution in Washington, D.C., where it has been since 1958.

42. The paragraph preceding the passage most likely discussed

    (A) its shape
    (B) the newly cut diamond
    (C) the royal family

This is the end of the Reading Comprehension Pre-Test.

When you finish the test, you may do the following:

- Turn to the **Diagnostic Chart** on pages 588–590, and circle the numbers of the questions that you missed.
- Turn to **Scoring Information** on pages 581–582, and determine your TOEFL score.
- Turn to the **Progress Chart** on page 591, and add your score to the chart.

READING COMPREHENSION

The third section of the TOEFL test is the Reading Comprehension section. This section consists of fifty questions (some tests may be longer). You have fifty-five minutes to complete the fifty questions in this section.

In this part of the test you will be given reading passages, and you will be asked two types of questions about the reading passages:

1. **Reading Comprehension** questions ask you to answer questions about the information given in the reading passages. There will be a variety of questions about each reading passage, including main idea questions, directly answered detail questions, and implied detail questions.
2. **Vocabulary** questions ask you to identify the meanings of vocabulary words in the reading passages. To answer these questions, you may have to know the meanings of the words. You can also identify the meanings of some of the words by understanding the context surrounding the words, by using structural clues to identify the meanings of the words, or by breaking down the unknown words into known word parts in order to identify them.

GENERAL STRATEGIES

1. **Be familiar with the directions.** The directions on every TOEFL test are the same, so it is not necessary to spend time reading the directions carefully when you take the test. You should be completely familiar with the directions before the day of the test.
2. **Do not spend too much time reading the passages!** You do not have time to read each reading passage in depth, and it is quite possible to answer the questions correctly without first reading the passages in depth. Some students prefer to spend a minute or two on each passage reading for the main idea before starting on the questions. Other students prefer to move directly to the questions without reading the passages first.
3. **Do not worry if a reading passage is on a topic that you are unfamiliar with.** All of the information that you need to answer the questions is included in the passages. You do not need any background knowledge to answer the questions.
4. **Never leave any answers blank on your answer sheet.** Even if you are unsure of the correct response, you should answer each question. There is no penalty for guessing.

THE READING COMPREHENSION QUESTIONS

The Reading Comprehension section of the TOEFL test consists of five reading passages, each followed by a number of reading comprehension and vocabulary questions. Topics of the reading passage are varied, but they are often informational subjects that might be studied in an American university: American history, literature, art, architecture, geology, geography, and astronomy, for example.

Time is definitely a factor in the Reading Comprehension section. Many students who take the TOEFL test note that they are unable to finish all the questions in this section. Therefore, you need to make the most efficient use of your time in this section to get the highest score. The following method is the best way of attacking a reading passage to get the most questions correct in a limited amount of time.

STRATEGIES FOR THE READING COMPREHENSION QUESTIONS

1. **Skim the reading passage to determine the main idea and the overall organization of ideas in the passage.** You do not need to understand every detail in each passage to answer the questions correctly. It is therefore a waste of time to read the passage with the intent of understanding every single detail before you try to answer the questions.
2. **Look ahead at the questions to determine what types of questions you must answer.** Each type of question is answered in a different way.
3. **Find the section of the passage that deals with each question.** The question-type tells you exactly where to look in the passage to find correct answers.
   - For *main idea questions*, look at the first line of each paragraph.
   - For *directly* and *indirectly answered detail questions*, choose a key word in the question, and skim for that key word (or a related idea) in order in the passage.
   - For *vocabulary questions*, the question will tell you where the word is located in the passage.
   - For *overall review questions*, the answers are found anywhere in the passage.
4. **Read the part of the passage that contains the answer carefully.** The answer will probably be in the same sentence (or one sentence before or after) the key word or idea.
5. **Choose the best answer to each question from the four answer choices listed in your test book.** You can choose the best answer according to what is given in the appropriate section of the passage, eliminate definitely wrong answers, and mark your best guess on the answer sheet.

The following skills will help you to implement these strategies in the Reading Comprehension section of the TOEFL test.

QUESTIONS ABOUT THE IDEAS OF THE PASSAGE

It is very common for reading passages in the Reading Comprehension section of the TOEFL test to have questions about the overall ideas in the passage. The most common type of question asks about the main idea, topic, title, or subject. Occasionally, there will also be a question about how the information in the passage is organized.

SKILL 1: ANSWER MAIN IDEA QUESTIONS CORRECTLY

Almost every reading passage on the TOEFL test will have a question about the main idea of a passage. Such a question may be worded in a variety of ways; you may, for example, be asked to identify the *topic, subject, title, primary idea,* or *main idea.* These questions are all really asking what primary point the author is trying to get across in the passage. Since TOEFL passages are generally written in a traditionally organized manner, it is not difficult to find the main idea by studying the topic sentence, which is most probably found at the beginning of a paragraph.

If a passage consists of only one paragraph, you should study the beginning of that paragraph to determine the main idea.

Example 1

The passage:

In the philosophy of John Dewey, a sharp distinction is made between "intelligence" and "reasoning." According to Dewey, intelligence is the only absolute way to achieve a balance between
Line realism and idealism, between practicality and wisdom of life.
(5) Intelligence involves "interacting with other things and knowing them," while reasoning is merely the act of an observer; ". . . a mind that beholds or grasps objects outside the world of things. . . ." With reasoning, a level of mental certainty can be achieved, but it is through intelligence that control is taken of events that shape
(10) one's life.

The question:

What is the topic of this passage?

(A) The intelligence of John Dewey
(B) Distinctions made by John Dewey
(C) Dewey's ideas on the ability to reason
(D) How intelligence differs from reasoning in Dewey's works

The first sentence of this passage discusses a distinction between the ideas of "intelligence" and "reasoning" in the philosophy of John Dewey, so this is probably the topic. A quick check of the rest of the sentences in the passage confirms that the topic is in fact the difference between "intelligence" and "reasoning." Now you should check each of the answers to determine which one comes closest to the topic that you have determined. Answer (A) mentions only intelligence, so it is not the topic. Answer (B) mentions distinctions that John Dewey makes, but it does not say specifically what type of distinctions. Answer (C) mentions only reasoning, so answer (C) is incomplete. The best answer is therefore (D); the idea of *how intelligence differs from reasoning* comes from the first sentence of the passage, which mentions *a sharp distinction . . . between "intelligence" and "reasoning."*

If a passage consists of more than one paragraph, you should study the beginning of each paragraph to determine the main idea.

Example II

The passage:

Nitrogen fixation is a process by which nitrogen is continuously fed into biological circulation. In this process, certain algae and bacteria convert nitrogen into ammonia (NH_3). This
Line newly created ammonia is then for the most part absorbed by
(5) plants.

The opposite process of denitrification returns nitrogen to the air. During the process of denitrification, bacteria cause some of the nitrates from the soil to convert into gaseous nitrogen or nitrous oxide (N_20). In this gaseous form the nitrogen returns to the
(10) atmosphere.

The question:

Which of the following would be the best title for this passage?

(A) The Process of Nitrogen Fixation
(B) Two Nitrogen Processes
(C) The Return of Nitrogen to the Air
(D) The Effect of Nitrogen on Plant Life

In a passage with more than one paragraph, you should be sure to read the first sentence of each paragraph to determine the subject, title, or main idea. In Example II, the first sentence of the first paragraph indicates that the first paragraph is about the process of nitrogen fixation. If you look only at the first paragraph, you might choose the incorrect answer (A), which would be a good title for the first paragraph only. The first sentence of the second paragraph indicates that the process of denitrification is discussed in the second paragraph. Answer (C) is incorrect because *the return of nitrogen to the air* is the process of denitrification, and this is discussed in the second paragraph only. Answer (D) is incorrect because *the effect of nitrogen on plant life* is not discussed in this passage. The best answer to this question is answer (B); the two nitrogen processes are nitrogen fixation, which is discussed in the first paragraph, and denitrification, which is discussed in the second paragraph.

The following chart outlines the key information that you should remember about main idea questions:

MAIN IDEA QUESTIONS	
HOW TO IDENTIFY THE QUESTION	*What is the **topic** of the passage?* *What is the **subject** of the passage?* *What is the **main idea** of the passage?* *What is the author's **main point** in the passage?* *With what is the author **primarily concerned?*** *Which of the following would be the best **title?***
WHERE TO FIND THE ANSWER	The answer to this type of question can generally be determined by looking at the first sentence of each paragraph.

HOW TO ANSWER THE QUESTION	1. Read the first line of each paragraph. 2. Look for a common theme or idea in the first lines. 3. Pass your eyes quickly over the rest of the passage to check that you really have found the topic sentence(s). 4. Eliminate any definitely wrong answers and choose the best answer from the remaining choices.

TOEFL EXERCISE 1: Study each of the passages and choose the best answers to the questions that follow. In this exercise, each passage is followed by several main idea, topic, or title questions so that the students can practice this type of question. On the TOEFL test, one passage would probably not have two such questions because they are so similar.

PASSAGE ONE (Questions 1–2)

Fort Knox, Kentucky, is the site of a U.S. army post, but it is even more renowned for the Fort Knox Bullion Depository, the massive vault that contains the bulk of the U.S. government's gold deposits. Completed in 1936, the vault is housed in a two-story building constructed of granite, steel,
Line and concrete; the vault itself is made of steel and concrete and has a door that weighs more than
(5) twenty tons. Naturally, the most up-to-date security devices available are in place at Fort Knox, and the army post nearby provides further protection.

1. Which of the following best describes the topic of the passage?
   (A) The city of Fort Knox, Kentucky
   (B) The federal gold depository
   (C) The U.S. army post at Fort Knox
   (D) Gold bullion

2. Which of the following would be the best title for this passage?
   (A) The Massive Concrete Vault
   (B) Fort Knox Security
   (C) Where the U.S. Keeps Its Gold
   (D) A Visit to Kentucky

PASSAGE TWO (Questions 3–4)

One identifying characteristic of minerals is their relative hardness, which can be determined by scratching one mineral with another. In this type of test, a harder mineral can scratch a softer one, but a softer mineral is unable to scratch the harder one. The Mohs' hardness scale is used to rank minerals
Line according to hardness. Ten minerals are listed in this scale, ranging from talc with a hardness of 1 to
(5) diamond with a hardness of 10. On this scale, quartz (number 7) is harder than feldspar (number 6) and is therefore able to scratch it; however, feldspar is unable to make a mark on quartz.

3. Which of the following best states the subject of this passage?
   (A) The hardness of diamonds
   (B) Identifying minerals by means of a scratch test
   (C) Feldspar on the Mohs' scale
   (D) Recognizing minerals in their natural state

4. The main idea of this passage is that
   (A) the hardness of a mineral can be determined by its ability to make a mark on other minerals
   (B) diamonds, with a hardness of 10 on the Mohs' scale, can scratch all other minerals
   (C) a softer mineral cannot be scratched by a harder mineral
   (D) talc is the first mineral listed on the Mohs' scale

PASSAGE THREE (Questions 5–6)

Hurricanes generally occur in the North Atlantic from May through November, with the peak of the hurricane season in September; only rarely will they occur from December through April in that part of the ocean. The main reason for the occurrence of hurricanes during this period is that the
Line temperature on the water's surface is at its warmest and the humidity of the air is at its highest.
(5) Of the tropical storms that occur each year in the North Atlantic, only about five, on the average, are powerful enough to be called hurricanes. To be classified as a hurricane, a tropical storm must have winds reaching speeds of at least 117 kilometers per hour, but the winds are often much stronger than that; the winds of intense hurricanes can easily surpass 240 kilometers per hour.

5. The passage mainly discusses

(A) how many hurricanes occur each year
(B) the strength of hurricanes
(C) the weather in the North Atlantic
(D) hurricanes in one part of the world

6. The best title for this passage would be

(A) The North Atlantic Ocean
(B) Storms of the Northern Atlantic
(C) Hurricanes: The Damage and Destruction
(D) What Happens from May through November

PASSAGE FOUR (Questions 7–9)

Henry Wadsworth Longfellow (1807–1882) was perhaps the best-known American poet of the nineteenth century. His clear writing style and emphasis on the prevalent values of the period made him popular with the general public if not always with the critics. He was particularly recognized for
Line his longer narrative poems *Evangeline, The Song of Hiawatha,* and *The Courtship of Miles Standish,* in
(5) which he told stories from American history in terms of the values of the time.

Evangeline was set during the French and Indian War (1754–1763), when the British forced French settlers from Nova Scotia; two lovers, Gabriel and Evangeline, were separated by the British, and Evangeline devoted her lifetime to the search for Gabriel. With its emphasis on sentimental, undying love, *Evangeline* was immensely popular with the public.

(10) In *The Song of Hiawatha,* Longfellow depicted the noble life of the American Indian through the story of the brave Hiawatha and his beloved wife Minehaha. The tear-inspiring poem follows Hiawatha through the tragedies and triumphs of life, ending with the death of Minehaha and Hiawatha's departure into the sunset in his canoe.

The Courtship of Miles Standish takes place during the early period of the settlement of New
(15) England, a period which was viewed as a time of honor and romance. In this poem centered around a love triangle, Miles Standish asks his friend John Alden to propose to Priscilla Mullins for him; John Alden ends up marrying Priscilla Mullins himself, and it takes time for his friendship with Miles Standish to recover. As with Longfellow's other narrative poems, the emphasis on high ideals and romance made the poem extremely popular.

7. Which of the following best describes the main idea of the passage?

(A) American history is often depicted in poetry.
(B) Longfellow described American history even though people really did not enjoy it.
(C) The popularity of Longfellow's poems results from his stress on the values of the people.
(D) Longfellow wrote long narrative poems that were not always popular with the critics.

8. The best title of the passage is

(A) Longfellow's Popular Appeal
(B) Historical Narrative Poems
(C) The Lyric, Dramatic, and Narrative Poems of Longfellow
(D) Longfellow and the Critics

9. The subject of the fourth paragraph is

(A) nobility and honor in the poems of Longfellow
(B) the love triangle involving Miles Standish
(C) the popular appeal of *The Courtship of Miles Standish*
(D) the period of the early settlement of New England

SKILL 2: RECOGNIZE THE ORGANIZATION OF IDEAS

In the Reading Comprehension section of the TOEFL test, there will sometimes be questions about the organization of ideas in a passage. In this type of question, you will be asked to determine how the ideas in one paragraph (or paragraphs) relate to the ideas in another paragraph (or paragraphs).

Example

The passage:

If asked who invented the game of baseball, most Americans would probably reply that it was Abner Doubleday. At the beginning of this century, there was some disagreement over how
Line the game of baseball had actually originated, so sporting-goods
(5) manufacturer Spaulding inaugurated a commission to research the question. In 1908 a report was published by the commission in which Abner Doubleday, a U.S. Army officer from Cooperstown, New York, was given credit for the invention of the game. The National Baseball Hall of Fame was established in Cooperstown in
(10) honor of Doubleday.

Today, most sports historians are in agreement that Doubleday really did not have much to do with the development of baseball. Instead, baseball seems to be a close relation to the English game of rounders and probably has English rather than
(15) American roots.

The question:

The second paragraph

(A) provides examples to support the ideas in the first paragraph
(B) precedes the ideas in the first paragraph
(C) outlines the effect of the idea in the first paragraph
(D) refutes the idea in the first paragraph

To answer this question it is necessary to look at the main ideas of each of the two paragraphs. The main idea of the first paragraph is found in the first sentence of the first paragraph: most people believe that Abner Doubleday invented the game of baseball. The main idea of the second paragraph is found in the first line of the second paragraph: historians generally agree that Doubleday did not invent baseball. The second paragraph therefore *contradicts* or *refutes* the information in the first paragraph. The best answer to this question is answer (D).

The following chart outlines the key information that you should remember about questions on the organization of ideas:

ORGANIZATION OF IDEAS	
HOW TO IDENTIFY THE QUESTION	*How is the information in the passage* ***organized?*** *How is the information in the second paragraph* ***related*** *to the information in the first paragraph?*
WHERE TO FIND THE ANSWER	The answer to this type of question can generally be determined by looking at the first sentence of the appropriate paragraphs.
HOW TO ANSWER THE QUESTION	1. Read the first line of each paragraph. 2. Look for words that show the relationship between the paragraphs. 3. Choose the answer that best expresses the relationship.

TOEFL EXERCISE 2: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

Conflict within an organization is not always viewed as undesirable. In fact, various managers have widely divergent ideas on the value that conflict can have.

According to the traditional view of conflict, conflict is harmful to an organization. Managers
Line with this traditional view of conflict see it as their role in an organization to rid the organization of
(5) any possible sources of conflict.

The interactionist view of conflict, on the other hand, holds that conflict can serve an important function in an organization by reducing complacency among workers and causing positive changes to occur. Managers who hold an interactionist view of conflict may actually take steps to stimulate conflict within the organization.

1. How is the information in the passage organized?
   (A) The origin of ideas about conflict is presented.
   (B) Contrasting views of conflict are presented.
   (C) Two theorists discuss the strengths and weaknesses of their views on conflict.
   (D) Examples of conflict within organizations are presented.

2. What type of information is included in the third paragraph?
   (A) A comparison of the interactionist and traditional views of conflict
   (B) A discussion of the weaknesses of the interactionist view of conflict
   (C) An outline of the type of manager who prefers the interactionist view of conflict
   (D) A description of one of the opposing views of conflict

PASSAGE TWO (Questions 3–4)

IQ, or Intelligence Quotient, is defined as the ratio of a person's mental age to chronological age, with the ratio multiplied by 100 to remove the decimal. Chronological age is easily determined; mental age is generally measured by some kind of standard test and is not so simple to define.

Line In theory, a standardized IQ test is set up to measure an individual's ability to perform *(5)* intellectual operations such as reasoning and problem solving. These intellectual operations are considered to represent intelligence.

In practice, it has been impossible to arrive at consensus as to which types of intellectual operations demonstrate intelligence. Furthermore, it has been impossible to devise a test without cultural bias, which is to say that any IQ tests so far proposed have been shown to reflect the culture *(10)* of the test makers. Test takers from that culture would, it follows, score higher on such a test than test takers from a different culture with equal intelligence.

3. What type of information is included in the first paragraph?

   (A) An argument
   (B) A definition
   (C) An opinion
   (D) A theory

4. How does the information in the third paragraph differ from that in the second paragraph?

   (A) It presents a contrasting point of view.
   (B) It follows chronologically from the ideas in the second paragraph.
   (C) It presents real information rather than a premise.
   (D) It presents an example of the ideas in the second paragraph.

PASSAGE THREE (Questions 5–6)

The largest lake in the western United States is the Great Salt Lake, an inland saltwater lake in northwestern Utah, just outside the state capital of Salt Lake City. Rivers and streams feed into the Great Salt Lake, but none drain out of it; this has a major influence on both the salt content and the *Line* size of the lake.

(5) Although the Great Salt Lake is fed by freshwater streams, it is actually saltier than the oceans of the world. The salt comes from the more than two million tons of minerals that flow into the lake each year from the rivers and creeks that feed it. Sodium and chloride—the components of salt—comprise the large majority of the lake's mineral content.

The Great Salt Lake can vary tremendously from its normal size of 1,700 square miles, *(10)* depending on long-term weather conditions. During periods of heavy rains, the size of the lake can swell tremendously from the huge amounts of water flowing into the lake from its feeder rivers and streams; in 1980 the lake even reached a size of 2,400 square miles. During periods of dry weather, the size of the lake decreases, sometimes drastically, due to evaporation.

5. How is the information in the passage organized?

   (A) Two unusual characteristics of the Great Salt Lake are discussed.
   (B) Contrasting theories about the Great Salt Lake's salt levels are presented.
   (C) The process by which the Great Salt Lake gets its salt is outlined.
   (D) The reasons for the variations in the Great Salt Lake's size are given.

6. The third paragraph contains information on

   (A) how the size of the lake affects weather conditions
   (B) the effects of contrasting weather conditions on the size of the lake
   (C) the effects of changes in the size of the lake
   (D) the causes of the varied weather conditions in the area of the lake

TOEFL EXERCISE (Skills 1–2): Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

Common types of calendars can be based on the Sun or on the Moon. The solar calendar is based on the solar year. Since the solar year is 365.2422 days long, solar calendars consist of regular years of 365 days and have an extra day every fourth year, or leap year, to make up for the additional
Line fractional amount. In a solar calendar, the waxing and waning of the moon can take place at various
(5) stages of each month.

The lunar calendar is synchronized to the lunar month rather than the solar year. Since the lunar month is twenty-nine and a half days long, most lunar calendars have alternating months of twenty-nine and thirty days. A twelve-month lunar year thus has 354 days, 11 days shorter than a solar year.

1. What is the main idea of the passage?
   (A) All calendars are the same.
   (B) The solar calendar is based on the Sun.
   (C) Different calendars have dissimilar bases.
   (D) The lunar month is twenty-nine and a half days long.

2. How is the information in the passage organized?
   (A) Characteristics of the solar calendar are outlined.
   (B) Two types of calendars are described.
   (C) The strengths and weakness of the lunar calendar are described.
   (D) The length of each existing calendar is contrasted.

PASSAGE TWO (Questions 3–4)

Vaccines are prepared from harmful viruses or bacteria and administered to patients to provide immunity to specific diseases. The various types of vaccines are classified according to the method by which they are derived.

Line The most basic class of vaccines actually contains disease-causing microorganisms that have
(5) been killed with a solution containing formaldehyde. In this type of vaccine, the microorganisms are dead and therefore cannot cause disease; however, the antigens found in and on the microorganisms can still stimulate the formation of antibodies. Examples of this type of vaccine are the ones that fight influenza, typhoid fever, and cholera.

A second type of vaccine contains the toxins produced by the microorganisms rather than the
(10) microorganisms themselves. This type of vaccine is prepared when the microorganism itself does little damage but the toxin within the microorganism is extremely harmful. For example, the bacteria that cause diphtheria can thrive in the throat without much harm, but when toxins are released from the bacteria, muscles can become paralyzed and death can ensue.

A final type of vaccine contains living microorganisms that have been rendered harmless. With
(15) this type of vaccine, a large number of antigen molecules are produced and the immunity that results is generally longer lasting than the immunity from other types of vaccines. The Sabin oral antipolio vaccine and the BCG vaccine against tuberculosis are examples of this type of vaccine.

3. Which of the following expresses the main idea of the passage?
   (A) Vaccines provide immunity to specific diseases.
   (B) Vaccines contain disease-causing microorganisms.
   (C) Vaccines are derived in different ways.
   (D) New approaches in administering vaccines are being developed.

4. How many types of vaccines are presented in the passage?
   (A) Two
   (B) Three
   (C) Four
   (D) Five

PASSAGE THREE (Questions 5–7)

A hoax, unlike an honest error, is a deliberately concocted plan to present an untruth as the truth. It can take the form of a fraud, a fake, a swindle, or a forgery, and can be accomplished in almost any field: successful hoaxes have been foisted on the public in fields as varied as politics,
Line religion, science, art, and literature.
(5) A famous scientific hoax occurred in 1912 when Charles Dawson claimed to have uncovered a human skull and jawbone on the Piltdown Common in southern England. These human remains were said to be more than 500,000 years old and were unlike any other remains from that period; as such they represented an important discovery in the study of human evolution. These remains, popularly known as the Piltdown Man and scientifically named *Eoanthropus dawsoni* after their discoverer,
(10) confounded scientists for more than forty years. Finally in 1953, a chemical analysis was used to date the bones, and it was found that the bones were modern bones that had been skillfully aged. A further twist to the hoax was that the skull belonged to a human and the jaws to an orangutan.

5. The topic of this passage could best be described as
   (A) the Piltdown Man
   (B) Charles Dawson's discovery
   (C) *Eoanthropus dawsoni*
   (D) a definition and an example of a hoax

6. The author's main point is that
   (A) various types of hoaxes have been perpetrated
   (B) Charles Dawson discovered a human skull and jawbone
   (C) Charles Dawson was not an honest man
   (D) the human skull and jawbone were extremely old

7. The second paragraph includes
   (A) an illustration to support the ideas in the first paragraph
   (B) a counterargument to the ideas in the first paragraph
   (C) an analogy to the ideas in the first paragraph
   (D) a detailed definition of a hoax

DIRECTLY ANSWERED QUESTIONS

Many questions in the Reading Comprehension section of the TOEFL test will require answers that are directly stated in the passage. This means that you should be able to find the answer to this type of question without having to draw a conclusion. The common questions of this type are (1) stated detail questions, (2) "unstated" detail questions, and (3) pronoun referent questions.

SKILL 3: ANSWER STATED DETAIL QUESTIONS CORRECTLY

A stated detail question asks about one piece of information in the passage rather than the passage as a whole. The answers to these questions are generally given in order in the passage, and the correct answer is often a restatement of what is given in the passage. This means that the correct answer often expresses the same idea as what is written in the passage, but the words are not exactly the same.

Example

The passage:

Williamsburg is a historic city in Virginia situated on a peninsula between two rivers, the York and the James. It was settled by English colonists in 1633, twenty-six years after the first
Line permanent English colony in America was settled at Jamestown. In
(5) the beginning the colony at Williamsburg was named Middle Plantation because of its location in the middle of the peninsula. The site for Williamsburg had been selected by the colonists because the soil drainage was better there than at the Jamestown location, and there were fewer mosquitoes.

The questions:

1. According to the passage, Williamsburg is located

   (A) on an island
   (B) in the middle of a river
   (C) where the York and the James meet
   (D) on a piece of land with rivers on two sides

2. The passage indicates that Jamestown

   (A) was settled in 1633
   (B) was settled twenty-six years after Williamsburg
   (C) was the first permanent English colony in America
   (D) was originally named Middle Plantation

3. The passage states that the name Middle Plantation

   (A) is a more recent name than Williamsburg
   (B) derived from the location of the colony on the peninsula
   (C) refers to the middle part of England that was home to the colonists
   (D) was given to the new colony because it was located in the middle of several plantations

The answers to the questions are generally found in order in the passage, so you should look for the answer to the first question near the beginning of the passage. Since the first question asks about where *Williamsburg is located,* you should see that the first sentence in the passage answers the question because *situated* means *located.* Answer (A) is an incorrect answer because Williamsburg is not located on an island; the passage states that it is *situated on a peninsula.* Answer (B) is incorrect because Williamsburg is *between two rivers,* not *in the middle of a river.* Answer (C) is incorrect because the passage says nothing about whether or not the two rivers meet at Williamsburg. The best answer to this question is answer (D); *with rivers on two sides* is closest in meaning to *between two rivers.*

The answer to the second question will probably be located in the passage after the answer to the first question. Since the second question is about *Jamestown,* you should skim through the passage to find the part of the passage that discusses this topic. The answer to this question is found in the statement that Williamsburg *was settled by English colonists in 1633, twenty-six years after the first permanent English colony in America was settled at Jamestown.* Answer (A) is incorrect because it was Williamsburg that was settled in 1633. Answer (B) is incorrect because Jamestown was settled *before* rather than *after Williamsburg.* Answer (D) is incorrect because the name *Middle Plantation* referred to Williamsburg. The best answer to this question is answer (C), which is directly stated in the passage about Jamestown.

The answer to the third question will probably be located in the passage after the answer to the second question. Because the third question is about *the name Middle Plantation,* you should skim through the passage to find the part that discusses this topic. The answer to this question is found in the statement *Williamsburg was named Middle Plantation because of its location in the middle of the peninsula.* Answer (B) is correct because it is closest in meaning to this statement. Answer (A) is incorrect because it is false; the area was named Middle Plantation *in the beginning,* and the name Williamsburg is *more recent.* Answer (C) is incorrect because the passage says nothing about naming the area after the colonists' home in England. Answer (D) is incorrect because the passage says nothing about any other plantations in the area of Williamsburg.

The following chart outlines the key information that you should remember about stated detail questions:

STATED DETAIL QUESTIONS	
HOW TO IDENTIFY THE QUESTION	***According** to the passage,...* *It is **stated** in the passage...* *The passage **indicates** that...* *The author **mentions** that...* *Which of the following is **true**...?*
WHERE TO FIND THE ANSWER	The answers to these questions are found in order in the passage.
HOW TO ANSWER THE QUESTION	1. Choose a *key word* in the question. 2. Skim in the appropriate part of the passage for the *key word* or *idea.* 3. Read the sentence that contains the *key word* or *idea* carefully. 4. Look for the answer that restates an idea in the passage. 5. Eliminate the definitely wrong answers and choose the best answer from the remaining choices.

TOEFL EXERCISE 3: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–3)

Ice ages, those periods when ice covered extensive areas of the Earth, are known to have occurred at least six times. Past ice ages can be recognized from rock strata that show evidence of foreign materials deposited by moving walls of ice or melting glaciers. Ice ages can also be recognized
Line from land formations that have been produced from moving walls of ice, such as U-shaped valleys,
(5) sculptured landscapes, and polished rock faces.

1. According to the passage, what happens during an ice age?

   (A) Rock strata are recognized by geologists.
   (B) Evidence of foreign materials is found.
   (C) Ice covers a large portion of the Earth's surface.
   (D) Ice melts six times.

2. The passage covers how many different methods of recognizing past ice ages?

   (A) One
   (B) Two
   (C) Three
   (D) Four

3. According to the passage, what in the rock strata is a clue to geologists of a past ice age?

   (A) Ice
   (B) Melting glaciers
   (C) U-shaped valleys
   (D) Substances from other areas

PASSAGE TWO (Questions 4–6)

The human heart is divided into four chambers, each of which serves its own function in the cycle of pumping blood. The atria are the thin-walled upper chambers that gather blood as it flows
Line from the veins between heartbeats. The ventricles are the thick-walled lower chambers that receive
(5) blood from the atria and push it into the arteries with each contraction of the heart. The left atrium and ventricle work separately from those on the right. The role of the chambers on the right side of the heart is to receive oxygen-depleted blood from the body tissues and send it on to the lungs; the chambers on the left side of the heart then receive the oxygen-enriched blood from the lungs and send it back out to the body tissues.

4. The passage indicates that the ventricles

   (A) have relatively thin walls
   (B) send blood to the atria
   (C) are above the atria
   (D) force blood into the arteries

5. According to the passage, when is blood pushed into the arteries from the ventricles?

   (A) As the heart beats
   (B) Between heartbeats
   (C) Before each contraction of the heart
   (D) Before it is received by the atria

6. According to the passage, which part of the heart gets blood from the body tissues and passes it on to the lungs?

   (A) The atria
   (B) The ventricles
   (C) The right atrium and ventricle
   (D) The left atrium and ventricle

PASSAGE THREE (Questions 7–9)

The Golden Age of Railroads refers to the period from the end of the Civil War to the beginning of World War I when railroads flourished and, in fact, maintained a near monopoly in mass transportation in the United States. One of the significant developments during the period was the
Line notable increase in uniformity, particularly through the standardization of track gauge and time.
(5) At the end of the Civil War, only about half of the nation's railroad track was laid at what is now the standard gauge of 1.4 meters; much of the rest, particularly in the southern states, had a 1.5-meter gauge. During the postwar years, tracks were converted to the 1.4-meter gauge, and by June 1, 1886, the standardization of tracks was completed, resulting in increased efficiency and economy in the rail system.
(10) A further boon to railroad efficiency was the implementation of standard time in 1883. With the adoption of standard time, four time zones were established across the country, thus simplifying railroad scheduling and improving the efficiency of railroad service.

7. According to the passage, the Golden Age of Railroads

   (A) occurred prior to the Civil War
   (B) was a result of World War I
   (C) was a period when most of U.S. mass transportation was controlled by the railroads
   (D) resulted in a decrease in uniformity of track gauge

8. The passage mentions that which of the following occurred as a result of uniformity of track gauge?

   (A) The Civil War
   (B) Improved economy in the transportation system
   (C) Standardization of time zones
   (D) Railroad schedules

9. The passage indicates that standard time was implemented

   (A) before the Civil War
   (B) on June 1, 1886
   (C) after World War I
   (D) before standardized track gauge was established throughout the United States

SKILL 4: FIND "UNSTATED" DETAILS

You will sometimes be asked in the Reading Comprehension section of the TOEFL test to find an answer that is *not stated* or *not mentioned* or *not true* in the passage. This type of question really means that three of the answers are *stated, mentioned,* or *true* in the passage, while one answer is not. Your actual job is to find the three correct answers and then choose the letter of the one remaining answer.

You should note that there are two kinds of answers to this type of question: (1) there are three true answers and one answer that is not discussed in the passage, or (2) there are three true answers and one that is false according to the passage.

Example

The passage:

In English there are many different kinds of expressions that people use to give a name to anything whose name is unknown or momentarily forgotten. The word *gadget* is one such word. It was
Line first used by British sailors in the 1850s and probably came from
(5) the French word *gachette,* which was a small hook. In everyday use, the word has a more general meaning. Other words are also used to give a name to something unnamed or unknown, and these words tend to be somewhat imaginative. Some of the more commonly used expressions are a *what-d'ye-call-it,* a *whatsis,* a *thingamabob,* a
(10) *thingamajig,* a *doodad,* or a *doohickey.*

The questions:

1. Which of the following is NOT true about the word "gadget"?

   (A) It is used to name something when the name is not known.
   (B) It was used at the beginning of the nineteenth century.
   (C) It most likely came from a word in the French language.
   (D) Its first known use was by British sailors.

2. Which of the following is NOT mentioned in the passage as an expression for something that is not known?

   (A) A *thingamabob*
   (B) A *gadget*
   (C) A *doohickey*
   (D) A *what-is-it*

The first question asks for the one answer that is *not true,* so three of the answers are true and one answer is *not.* Answer (B) is the one answer that is not true: the word *gadget* was first used in 1850, which is the middle of the nineteenth century, so answer (B) is the best answer. Answer (A) is true according to the second line of the paragraph; answer (C) is true according to the fourth and fifth lines of the paragraph; answer (D) is true according to the fourth line of the paragraph.

The second question asks for the one answer that is *not mentioned,* so three of the answers are listed in the passage and one is not. Since a *thingamabob,* a *gadget,* and a *doohickey* are listed in the passage, answers (A), (B), and (C) are incorrect. However, a *what-is-it* is not listed in the passage, so answer (D) is the best answer to this question.

The following chart outlines the key information that you should remember about "unstated" detail questions:

"UNSTATED" DETAIL QUESTIONS	
HOW TO IDENTIFY THE QUESTION	*Which of the following is* ***not stated. . .?*** *Which of the following is* ***not mentioned. . .?*** *Which of the following is* ***not discussed. . .?*** *All of the following are true* ***except. . . .***
WHERE TO FIND THE ANSWER	The answers to these questions are found in order in the passage.
HOW TO ANSWER THE QUESTION	1. Choose *a key word* in the question. 2. Scan in the appropriate place in the passage for the *key word* (or related *idea*). 3. Read the sentence that contains the *key word* or *idea* carefully. 4. Look for answers that are definitely true according to the passage. Eliminate those answers. 5. Choose the answer that is *not true* or *not discussed* in the passage.

TOEFL EXERCISE 4: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

Blood plasma is a clear, almost colorless liquid. It consists of blood from which the red and white blood cells have been removed. It is often used in transfusions because a patient generally needs the plasma portion of the blood more than the other components.

Line Plasma differs in several important ways from whole blood. First of all, plasma can be mixed for *(5)* all donors and does not have to be from the right blood group, as whole blood does. In addition, plasma can be dried and stored, while whole blood cannot.

1. All of the following are true about blood plasma EXCEPT

   (A) it is a deeply colored liquid
   (B) blood cells have been taken out of it
   (C) patients are often transfused with it
   (D) it is generally more important to the patient than other parts of whole blood

2. Which of the following is NOT stated about whole blood?

   (A) It is different from plasma.
   (B) It cannot be dried.
   (C) It is impossible to keep it in storage for a long time.
   (D) It is a clear, colorless liquid.

PASSAGE TWO (Questions 3–4)

Elizabeth Cochrane Seaman was an American journalist at the turn of the century who wrote for the newspaper *New York World* under the pen name Nellie Bly, a name which was taken from the Stephen Foster song *Nelly Bly*. She achieved fame for her exposes and in particular for the bold and
Line adventuresome way that she obtained her stories.
(5) She felt that the best way to get the real story was from the inside rather than as an outside observer who could be treated to a prettified version of reality. On one occasion she pretended to be a thief so that she would get arrested and see for herself how female prisoners were really treated. On another occasion she faked mental illness in order to be admitted to a mental hospital to get the real picture on the treatment of mental patients.

3. Which of the following is NOT true about Nellie Bly?

   (A) Nellie Bly's real name was Elizabeth Cochrane Seaman.
   (B) Nellie Bly was mentally ill.
   (C) The name Nellie Bly came from a song.
   (D) The name Nellie Bly was used on articles that Seaman wrote.

4. Which of the following is NOT mentioned as something that Nellie Bly did to get a good story?

   (A) She acted like a thief.
   (B) She got arrested by the police.
   (C) She pretended to be ill.
   (D) She worked as a doctor in a mental hospital.

PASSAGE THREE (Questions 5–6)

Dekanawida's role as a supreme lawgiver in the Iroquois tribe has given him the status of demigod within the Indian nation. Born into the Huron tribe, Dekanawida caused great fear in his parents, who tried to drown him in his youth after a prophecy was made indicating that he would
Line bring great sorrow to the Huron nation. Dekanawida was to survive this attempted drowning but later
(5) left his parents' home and tribe to live among the Iroquois.

One of his achievements with the Iroquois was the institution of a law among the Iroquois that virtually ended blood feuds among the nation's families. Wampum, strings of beads made of polished shells, was a valued commodity in the Iroquois culture; according to policies established by Dekanawida, wampum had to be paid to the family of a murder victim by the family of the killer.
(10) Since the killer was also put to death, the family of the killer had to pay the victim's family in wampum for two deaths, the death of the murder victim and the death of the killer. These strict policies implemented by Dekanawida helped to establish him as a wise lawgiver and leader of the Iroquois nation.

5. According to the passage, Dekanawida was NOT

   (A) a lawmaker
   (B) a Huron by birth
   (C) a near deity
   (D) drowned when he was young

6. Which of the following is NOT mentioned in the passage about wampum?

   (A) It was used extensively by the Huron.
   (B) It had a high value to the Iroquois.
   (C) It was given to a murder victim's family.
   (D) It was made of polished shells.

SKILL 5: FIND PRONOUN REFERENTS

In the Reading Comprehension section of the TOEFL test, you will sometimes be asked to determine which noun a pronoun refers to. In this type of question it is important to understand that a noun is generally used first in a passage, and the pronoun that refers to it comes after. Whenever you are asked which noun a pronoun refers to, you should look *before* the pronoun to find the noun.

Example

The passage:

Carnivorous plants, such as the sundew and the Venus flytrap, are generally found in humid areas where there is an inadequate supply of nitrogen in the soil. In order to survive, these
Line plants have developed mechanisms to trap insects within their
(5) foliage. They have digestive fluids to obtain the necessary nitrogen from the insects. These plants trap the insects in a variety of ways. The sundew has sticky hairs on its leaves; when an insect lands on these leaves, it gets caught up in the sticky hairs, and the leaf wraps itself around the insect. The leaves of the Venus flytrap function
(10) more like a trap, snapping suddenly and forcefully shut around an insect.

The questions:

1. The pronoun "They" in line 5 refers to

   (A) humid areas
   (B) these plants
   (C) insects
   (D) digestive fluids

2. The pronoun "it" in line 8 refers to

   (A) a variety
   (B) the sundew
   (C) an insect
   (D) the leaf

To answer the first question, you should look before the pronoun *they* for plural nouns that the pronoun could refer to. *Humid areas, insects,* and *these plants* come before the pronoun, so they are possible answers; *digestive fluids* comes after the pronoun, so it is probably not the correct answer. Then you should try the three possible answers in the sentence in place of the pronoun. You should understand from the context that *these plants* have *digestive fluids* to obtain the necessary nitrogen from the insects, so the best answer to this question is answer (B). To answer the second question, you should look before the pronoun *it* for singular nouns that the pronoun could refer to. *A variety, the sundew,* and *an insect* come before the pronoun, so they are possible answers; *the leaf* comes after the pronoun, so it is probably not the correct answer. Next you should try the three possible answers in the sentence in place of the pronoun. *An insect* gets caught up in the sticky hairs, rather than *a variety* or *the sundew,* so the best answer to this question is answer (C).

The following chart outlines the key information that you should remember about pronoun referents:

PRONOUN REFERENTS	
HOW TO IDENTIFY THE QUESTION	*The **pronoun** "..." in line X **refers** to which of the following?*
WHERE TO FIND THE ANSWER	The line where the pronoun is located is generally given in the question. The noun that the pronoun refers to is generally found *before* the pronoun.
HOW TO ANSWER THE QUESTION	1. Find the pronoun in the passage. (The line where the pronoun can be found is generally stated in the question.) 2. Look for nouns that come *before* the pronoun. 3. Read the part of the passage *before* the pronoun carefully. 4. Eliminate any definitely wrong answers and choose the best answer from the remaining choices.

TOEFL EXERCISE 5: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

The full moon that occurs nearest the equinox of the Sun has become known as the harvest moon. It is a bright moon which allows farmers to work late into the night for several nights; they can work when the moon is at its brightest to bring in the fall harvest. The harvest moon of course occurs
Line at different times of the year in the northern and southern hemispheres. In the northern hemisphere,
(5) the harvest moon occurs in September at the time of the autumnal equinox. In the southern hemisphere, the harvest moon occurs in March at the time of the vernal equinox.

1. The pronoun "It" in line 2 refers to
   (A) the equinox
   (B) the Sun
   (C) the harvest moon
   (D) the night

2. The pronoun "they" in line 2 refers to
   (A) farmers
   (B) nights
   (C) times of the year
   (D) northern and southern hemispheres

PASSAGE TWO (Questions 3–4)

Mardi Gras, which means "Fat Tuesday" in French, was introduced to America by French colonists in the early eighteenth century. From that time it has grown in popularity, particularly in New Orleans, and today it is actually a legal holiday in several southern states. The Mardi Gras
Line celebration in New Orleans begins well before the actual Mardi Gras Day. Parades, parties, balls, and
(5) numerous festivities take place throughout the week before Mardi Gras Day; tourists from various countries throughout the world flock to New Orleans for the celebration, where they take part in a week of nonstop activities before returning home for some much-needed rest.

3. The pronoun "it" in line 2 refers to
   (A) Mardi Gras
   (B) French
   (C) that time
   (D) New Orleans

4. The pronoun "they" in line 6 refers to
   (A) numerous festivities
   (B) tourists
   (C) various countries
   (D) nonstop activities

PASSAGE THREE (Questions 5–6)

The financial firm Dow Jones and Company computes business statistics every hour on the hour of each of the business days of the year, and these statistics are known as the Dow Jones averages. They are based on a select group of stocks and bonds that are traded on the New York Stock Exchange. The Dow Jones averages are composed of four different types of averages: the average price of the common stock of thirty industrial firms, the average price of the common stock prices of twenty transportation companies, the average price of the common stock prices of fifteen utility companies, and an overall average of all the sixty-five stocks used to compute the first three averages. Probably the average that is the most commonly used is the industrial average; it is often used by an investor interested in checking the state of the stock market before making an investment in an industrial stock.

5. The pronoun "They" in line 3 refers to

(A) the business days
(B) these statistics
(C) stocks and bonds

(D) an investment

TOEFL EXERCISE (Skills 3–5): Study each of the passages and choose the best answers to the questions that follow.

The United States does not have a national university, but the idea has been around for quite some time. George Washington first recommended the idea to Congress; he even selected an actual site in Washington, D.C., and then left an endowment for the proposed national university in his will. During the century following the Revolution, the idea of a national university continued to receive the support of various U.S. presidents, and philanthropist Andrew Carnegie pursued the cause at the beginning of the present century. The La Brea tarpits, located in Hancock Park in the Los Angeles area, have proven to be an extremely fertile source of Ice Age fossils. Apparently, during the period of the Ice Age, the tarpits were covered by shallow pools of water; when animals came there to drink, they got caught in the
Line sticky tar and perished. The tar not only trapped the animals, leading to their death, but also served
(5) as a remarkably effective preservant, allowing near-perfect skeletons to remain hidden until the present era.

In 1906, the remains of a huge prehistoric bear discovered in the tarpits alerted archeologists to the potential treasure lying within the tar. Since then thousands and thousands of well-preserved skeletons have been uncovered, including the skeletons of camels, horses, wolves, tigers, sloths, and

PASSAGE THREE (Questions 10–14)

When the president of the United States wants to get away from the hectic pace in Washington, D.C., Camp David is the place to go. Camp David, in a wooded mountain area about 70 miles from Washington, D.C., is the official retreat of the president of the United States. It consists of living space
Line for the president, the first family, and the presidential staff as well as sporting and recreational
(5) facilities.

Camp David was established by President Franklin Delano Roosevelt in 1942. He found the site particularly appealing in that its mountain air provided relief from the summer heat of Washington and its remote location offered a more relaxing environment than could be achieved in the capital city.

(10) When Roosevelt first established the retreat, he called it Shangri-La, which evoked the blissful mountain kingdom in James Hilton's novel *Lost Horizon*. Later, President Dwight David Eisenhower renamed the location Camp David after his grandson David Eisenhower.

Camp David has been used for a number of significant meetings. In 1943 during World War II, President Roosevelt met there with Great Britain's Prime Minister Winston Churchill. In 1959 at the

TOEFL REVIEW EXERCISE (Skills 1–5): Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–4)

Hay fever is a seasonal allergy to pollens; the term "hay fever," however, is a less than adequate description since an attack of this allergy does not incur fever and since such an attack can be brought on by sources other than hay-producing grasses. Hay fever is generally caused by air-borne
Line pollens, particularly ragweed pollen. The amount of pollen in the air is largely dependent on
(5) geographical location, weather, and season. In the eastern section of the United States, for example, there are generally three periods when pollen from various sources can cause intense hay fever suffering: in the springtime months of March and April when pollen from trees is prevalent, in the summer months of June and July when grass pollen fills the air, and at the end of August when ragweed pollen is at its most concentrated levels.

1. Which of the following would be the best title for the passage?

    (A) The Relationship between Season and Allergies
    (B) Misconceptions and Facts about Hay Fever
    (C) Hay Fever in the Eastern United States
    (D) How Ragweed Causes Hay Fever

2. According to the passage, which of the following helps to explain why the term "hay fever" is somewhat of a misnomer?

    (A) A strong fever occurs after an attack.
    (B) The amount of pollen in the air depends on geographical location.
    (C) Hay fever is often caused by ragweed pollen.
    (D) Grass pollen is prevalent in June and July.

3. Which of the following is NOT discussed in the passage as a determining factor of the amount of pollen in the air?

    (A) Place
    (B) Climate
    (C) Time of year

    (B) Pollen from trees causes hay fever suffering in the spring.
    (C) Grass pollen fills the air earlier in the year than ragweed pollen.
    (D) Ragweed pollen is most prevalent at the end of the summer.

PASSAGE TWO (Questions 5–9)

Lincoln's now famous Gettysburg Address was not, on the occasion of its delivery, recognized as the masterpiece that it is today. Lincoln was not even the primary speaker at the ceremonies, held at the height of the Civil War in 1863, to dedicate the battlefield at Gettysburg. The main speaker was orator Edward Everett, whose two-hour speech was followed by Lincoln's shorter remarks. Lincoln began his small portion of the program with the words that today are immediately recognized by most Americans: "Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal." At the time of the speech, little notice was given to what Lincoln had said, and Lincoln considered his appearance at the ceremonies rather unsuccessful. After his speech appeared in print, appreciation for his words began to grow, and today it is recognized as one of the all-time greatest speeches.

Line (5) (10)

5. The main idea of this passage is that

   (A) his words were immediately recognized by most Americans
   (B) he spoke for only a short period of time
   (C) he was enthusiastically cheered
   (D) he was extremely proud of his performance

8. When did Lincoln's Gettysburg Address begin to receive public acclaim?

   (A) After it had been published
   (B) Immediately after the speech
   (C) Not until the present day

   (B) Print
   (C) Appreciation
   (D) One

PASSAGE THREE (Questions 10–15)

According to the theory of continental drift, the continents are not fixed in position but instead move slowly across the surface of the Earth, constantly changing in position relative to one another. This theory was first proposed in the eighteenth century when mapmakers noticed how closely the
Line continents of the Earth fit together when they were matched up. It was suggested then that the
(5) present-day continents had once been one large continent that had broken up into pieces which drifted apart.

Today the modern theory of plate tectonics has developed from the theory of continental drift. The theory of plate tectonics suggests that the crust of the Earth is divided into six large, and many small, tectonic plates that drift on the lava that composes the inner core of the Earth. These plates
(10) consist of ocean floor and continents that quite probably began breaking up and moving relative to one another more than 200 million years ago.

10. The topic of this passage is

    (A) continental drift
    (B) the theory of plate tectonics
    (C) the development of ideas about the movement of the Earth's surface
    (D) eighteenth-century mapmakers

11. The passage states that the theory of continental drift developed as a result of

    (A) the fixed positions of the continents
    (B) the work of mapmakers
    (C) the rapid movement of continents
    (D) the fit of the Earth's plates

12. The pronoun "they" in line 4 refers to

    (A) mapmakers
    (B) continents
    (C) pieces
    (D) tectonic plates

13. Which of the following is NOT true about the theory of plate tectonics?

    (A) It is not as old as the theory of continental drift.
    (B) It evolved from the theory of continental drift.
    (C) It postulates that the Earth's surface is separated into plates.
    (D) It was proposed by mapmakers.

14. According to the passage, what constitutes a tectonic plate?

    (A) Lava
    (B) Only the continents
    (C) The inner core of the Earth
    (D) The surface of the land and the floor of the oceans

15. Which of the following best describes the organization of the passage?

    (A) Two unrelated theories are presented.
    (B) Two contrasting opinions are stated.
    (C) A theory is followed by an example.
    (D) One hypothesis is developed from another.

PASSAGE FOUR (Questions 16–24)

Charles Lutwidge Dodgson is perhaps not a name that is universally recognized, but Dodgson did achieve enormous success under the pseudonym Lewis Carroll. He created this pseudonym from the Latinization, *Carolus Ludovicus*, of his real given names. It was under the name Lewis Carroll that Dodgson published the children's books *Alice's Adventures in Wonderland* (1865) and its sequel *Through the Looking Glass* (1872). Though Dodgson achieved this success in children's literature, he was not an author of children's books by training or profession. His education and chosen field of pursuit were far removed from the field of children's literature and were instead focused on theoretical mathematics.

Dodgson graduated with honors from Christ Church, Oxford, in 1854 and then embarked on a career in the world of academia. He worked as a lecturer in mathematics at Oxford and, later in his career, published a number of theoretical works on mathematics under his own name rather than under the pseudonym that he used for his children's stories. He produced a number of texts for students, such as *A Syllabus of Plane Algebraical Geometry* (1860), *Formulae of Plane Trigonometry* (1861), which was notable for the creativity of the symbols that he used to express trigonometric functions such as sine and cosine, and *A Guide for the Mathematical Student* (1866). In a number of more esoteric works, he championed the principles of Euclid; in *Euclid and His Modern Rivals* (1879), he presented his ideas on the superiority of Euclid over rival mathematicians in a highly imaginative fashion, by devising a courtroom trial of anti-Euclid mathematicians that he named "Euclid-wreakers" and ultimately finding the defendants guilty as charged. *Curiosa Mathematica* (1888–1893) made a further defense of Euclid's work, focusing on Euclid's definition of parallel lines. These academic works never had the universal impact of Dodgson's works for children using the name Lewis Carroll, but they demonstrate a solid body of well-regarded academic material.

16. The topic of this passage is

(A) the works of Lewis Carroll
(B) Charles Dodgson and Euclid
(C) the story of *Alice's Adventures in Wonderland*
(D) Dodgson and Carroll: mathematics and children's stories

17. According to the passage, Dodgson

(A) did not use his given name on his stories for children
(B) used the same name on all his published works
(C) used the name Carroll on his mathematical works
(D) used a pseudonym for the work about the courtroom trial

18. Which of the following is true, according to the passage?

(A) "Lewis" is a Latin name.
(B) "Lutwidge" is part of Dodgson's pseudonym.
(C) "Carolus" is the Latin version of the name "Charles."
(D) "Ludovicus" is part of Dodgson's given name.

19. It is NOT stated in the passage that Dodgson

(A) attended Christ Church, Oxford
(B) studied children's literature
(C) was an outstanding student
(D) was a published author of academic works

20. What is stated in the passage about the work *Formulae of Plane Trigonometry*?

(A) It portrayed mathematics in a creative way.
(B) It was written by Euclid.
(C) It was published in 1860.
(D) It was one of the texts that Dodgson studied at Oxford.

21. All of the following are stated in the passage about the work *Euclid and His Modern Rivals* EXCEPT that

(A) it was published in 1879
(B) it was a highly creative work
(C) it described an actual trial in which Euclid participated
(D) it described a trial in which "Euclid-wreakers" were found guilty

22. The passage indicates that which of the following works was about Euclid?

    (A) *A Syllabus of Plane Algebraical Geometry*
    (B) *Formulae of Plane Trigonometry*
    (C) *A Guide for the Mathematical Student*
    (D) *Curiosa Mathematica*

23. The pronoun "they" in line 22 refers to

    (A) parallel lines
    (B) these academic works
    (C) Dodgson's works for children
    (D) children

24. What is stated in the passage about Dodgson's academic works?

    (A) They are all about Euclid.

    (C) They were published under the name Lewis Carroll.
    (D) They were well received in the academic world.

INDIRECTLY ANSWERED QUESTIONS

Some questions in the Reading Comprehension section of the TOEFL test will require answers that are not directly stated in the passage. To answer these questions correctly, you will have to draw conclusions from information that is given in the passage. Two common types of indirectly answered questions are (1) implied detail questions and (2) transition questions.

SKILL 6: ANSWER IMPLIED DETAIL QUESTIONS CORRECTLY

You will sometimes be asked to answer a question by drawing a conclusion from a specific detail or details in the passage. Questions of this type contain the words *implied, inferred, likely,* or *probably* to let you know that the answer to the question is not directly stated. In this type of question it is important to understand that you do not have to "pull the answer out of thin air." Instead, some information will be given in the passage, and you will draw a conclusion from that information.

Example

The passage:

The Hawaiian language is a melodious language in which all words are derived from an alphabet of only twelve letters, the five vowels *a, e, i, o, u* and the seven consonants *h, k, l, m, n, p, w.* Each
Line syllable in the language ends in a vowel, and two consonants never
(5) appear together, so vowels have a much higher frequency in the Hawaiian language than they do in English.

This musical-sounding language can be heard regularly by visitors to the islands. Most Hawaiians speak English, but it is quite common to hear English that is liberally spiced with words
(10) and expressions from the traditional language of the culture. A visitor may be greeted with the expression *aloha* and may be referred to as a *malihini* because he is a newcomer to the island. This visitor may attend an outside *luau* where everyone eats too much and may be invited afterwards to dance the *hula.*

The questions:

1. Which of the following is probably NOT a Hawaiian word?
   (A) *mahalo*
   (B) *mahimahi*
   (C) *meklea*
   (D) *moana*
2. It is implied that a *luau* is
   (A) a dance
   (B) a feast
   (C) a concert
   (D) a language

To answer the first question, you should refer to the part of the passage where it states that in the Hawaiian language *two consonants never appear together.* From this you can draw the conclusion that answer (C), *meklea,* is probably not a Hawaiian word because the consonants *k* and *l* appear together in this word, so answer (C) is the best answer to this question. To answer the second question, you should refer to the part of the passage where it states that at a luau, *everyone eats too much.* From this you can draw the conclusion that a *luau* is a feast, which is a very large meal. The best answer is therefore answer (B).

The following chart outlines the key information that you should remember about implied detail questions:

IMPLIED DETAIL QUESTIONS	
HOW TO IDENTIFY THE QUESTION	*It is **implied** in the passage that . . .* *It can be **inferred** from the passage that . . .* *It is most **likely** that . . .* *What **probably** happened . . . ?*
WHERE TO FIND THE ANSWER	The answers to these questions are found in order in the passage.
HOW TO ANSWER THE QUESTION	1. Choose a key word in the question. 2. Scan the passage for the key word (or a related idea). 3. Carefully read the sentence that contains the key word. 4. Look for an answer that *could be* true, according to that sentence.

TOEFL EXERCISE 6: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

Eskimos need efficient and adequate means to travel across water in that the areas where they live are surrounded by oceans, bays, and inlets and dotted with lakes and seas. Two different types of boats have been developed by the Eskimos, each constructed to meet specific needs.

Line
(5) The kayak is something like a canoe that has been covered by a deck. A kayak is generally constructed with one opening in the deck for one rider; however, some kayaks are made for two. Because the deck of a kayak is covered over except for the hole (or holes) for its rider (or riders), a kayak can tip over in the water and roll back up without filling with water and sinking. One of the primary uses of the kayak is for hunting.

(10) The umiak is not closed over, as is the kayak. Instead, it is an open boat that is built to hold ten to twelve passengers. Eskimos have numerous uses for the umiak which reflect the size of the boat; e.g., the umiak is used to haul belongings from campsite to campsite, and it is used for hunting larger animals that are too big to be hunted in a kayak.

1. It is implied in the passage that if a kayak has two holes, then
   (A) it accommodates two riders
   (B) it is less stable than a kayak with one hole
   (C) it is as large as an umiak
   (D) it cannot be used on the ocean

2. It can be inferred from the passage that an example of the animal mentioned in lines 11–12 might be
   (A) a kangaroo
   (B) a snake
   (C) a whale
   (D) a salmon

PASSAGE TWO (Questions 3–5)

Two types of trees from the same family of trees share honors in certain respects as the most impressive of trees. Both evergreen conifers, the California redwood (*Sequoia sempervirens*) and the giant sequoia (*Sequoiandendron giganteum*) are found growing natively only in the state of California.
Line The California redwood is found along the northern coast of the state, while the giant sequoia is
(5) found inland and at higher elevations, along the western slopes of the Sierra Nevadas.

The California redwood is the tallest living tree and is in fact the tallest living thing on the face of the Earth; the height of the tallest redwood on record is 385 feet (120 meters). Though not quite as tall as the California redwood, with a height of 320 feet (100 meters), the giant sequoia is nonetheless the largest and most massive of living things; giant sequoias have been measured at more than 100
(10) feet (30 meters) around the base, with weights of more than 6,000 tons.

3. It is implied in the passage that

   (A) the leaves of only the California redwood turn brown in the autumn
   (B) the leaves of only the giant sequoia turn brown in the winter
   (C) the leaves of both types of trees in the passage turn brown in the winter
   (D) the leaves of neither type of tree in the passage turn brown in the winter

4. It can be inferred from the passage that the Sierra Nevadas are

   (A) a type of giant redwood
   (B) a coastal community
   (C) a group of lakes
   (D) a mountain range

5. Which of the following is implied in the passage?

   (A) The giant sequoia is taller than the California redwood.
   (B) The California redwood is not as big around as the giant sequoia.
   (C) The California redwood weighs more than the giant sequoia.
   (D) Other living things are larger than the giant sequoia.

PASSAGE THREE (Questions 6–8)

Probably the most recognized boardgame around the world is the game of Monopoly. In this game, players vie for wealth by buying, selling, and renting properties; the key to success in the game, in addition to a bit of luck, is for a player to acquire monopolies on clusters of properties in order to force opponents to pay exorbitant rents and fees.

Although the game is now published in countless languages and versions, with foreign locations and place names appropriate to the target language adorning its board, the beginnings of the game were considerably more humble. The game was invented in 1933 by Charles Darrow, during the height of the Great Depression. Darrow, who lived in Germantown, Pennsylvania, was himself unemployed during those difficult financial times. He set the original game not as might be expected in his hometown of Germantown, but in Atlantic City, New Jersey, the site of numerous pre-Depression vacations, where he walked along the Boardwalk and visited at Park Place. Darrow made the first games by hand and sold them locally until Parker Brothers purchased the rights to Monopoly in 1935 and took the first steps toward the mass production of today.

6. The French version of Monopoly might possibly include a piece of property entitled

   (A) Atlantic City, New Jersey
   (B) Germantown, Pennsylvania
   (C) Boardwalk
   (D) the Eiffel Tower

7. It is implied that Darrow selected Atlantic City as the setting for Monopoly because

   (A) it brought back good memories
   (B) his family came from Atlantic City
   (C) the people of Germantown might have been angered if he had used Germantown
   (D) Atlantic City was larger than Germantown

8. Parker Brothers is probably

   (A) a real estate company
   (B) a game manufacturing company
   (C) a group of Charles Darrow's friends
   (D) a toy design company

SKILL 7: ANSWER TRANSITION QUESTIONS CORRECTLY

You will sometimes be asked to determine what probably came before the reading passage (in the *preceding* paragraph) or what probably comes after the reading passage (in the *following* paragraph). Of course, the topic of the *preceding* or *following* paragraph is not directly stated, and you must draw a conclusion to determine what is probably in these paragraphs.

This type of question is a *transition* question. It asks you to demonstrate that you understand that good writing contains *transitions* from one paragraph to the next. A paragraph may start out with the idea of the previous paragraph as a way of linking the ideas in the two paragraphs. A paragraph may also end with an idea that will be further developed in the following paragraph.

Example

The passage:

Another myth of the oceans concerns Davy Jones, who in folklore is the mean-spirited sovereign of the ocean's depths. The name "Jones" is thought by some etymologists to have been derived
Line from the name "Jonah," the Hebrew prophet who spent three days
(5) in a whale's belly.

According to tradition, any object that goes overboard and sinks to the bottom of the ocean is said to have gone to Davy Jones's locker, the ocean-sized, mythical receptacle for anything that falls into the water. Needless to say, any sailor on the seas is
(10) not so eager to take a tour of Davy Jones's locker, although it might be a rather interesting trip considering all the treasures located there.

The questions:

1. The paragraph *preceding* this passage most probably discusses

   (A) the youth of Davy Jones
   (B) Davy Jones's career as a sailor
   (C) a different traditional story from the sea
   (D) preparing to travel on the ocean

2. The topic of the paragraph *following* the passage most likely is

   (A) valuable items located at the bottom of the ocean
   (B) where Davy Jones is found today
   (C) Jonah and the whale
   (D) preventing objects from falling overboard

The first question asks about the topic of the *preceding* paragraph, so you must look at the beginning of the passage and draw a conclusion about what probably came *before.* Since the passage begins with the expression *another myth of the oceans,* you should understand that the new passage is going to present a *second* myth of the oceans and the previous passage probably presented the *first* myth of the oceans. A *myth* is a *traditional story,* so the best answer to this question is answer (C). The second question asks about the topic of the *following* paragraph, so you must look at the end of the passage and draw a conclusion about what probably comes *after.* The passage ends with the mention of *all the treasures located there,* and *there* is in Davy Jones's locker, or at the bottom of the ocean; this is probably going to be the topic of the next paragraph. The best answer to the second question is therefore answer (A).

The following chart outlines the key information that you should remember about transition questions:

TRANSITION QUESTIONS	
HOW TO IDENTIFY THE QUESTION	*The paragraph* ***preceding*** *the passage probably ...* *What is most likely in the paragraph* ***following*** *the passage?*
WHERE TO FIND THE ANSWER	The answer can generally be found *in the first line* of the passage for a *preceding* question. The answer can generally be found *in the last line* for a *following* question.

HOW TO ANSWER THE QUESTION	1. Read the *first* line for a *preceding* question. 2. Read the *last* line for a *following* question. 3. Draw a conclusion about what comes *before* or *after*. 4. Choose the answer that is reflected in the *first* or *last* line of the passage.

TOEFL EXERCISE 7: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–2)

Another program instrumental in the popularization of science was *Cosmos*. This series, broadcast on public television, dealt with topics and issues from varied fields of science. The principal writer and narrator of the program was Carl Sagan, a noted astronomer and Pulitzer Prize-winning author.

1. The paragraph preceding this passage most probably discusses
   (A) a different scientific television series
   (B) Carl Sagan's scientific achievements
   (C) the Pulitzer Prize won by Carl Sagan
   (D) public television

2. The paragraph following this passage most likely contains information on what?
   (A) The popularity of science
   (B) The program *Cosmos*
   (C) The astronomer Carl Sagan
   (D) Topics and issues from various fields of science

PASSAGE TWO (Questions 3–4)

When a strong earthquake occurs on the ocean floor rather than on land, a tremendous force is exerted on the seawater and one or more large, destructive waves called *tsunamis* can be formed. Tsunamis are commonly called tidal waves in the United States, but this is really an inappropriate
Line name in that the cause of the tsunami is an underground earthquake rather than the ocean's tides.
(5) Far from land, a tsunami can move through the wide open vastness of the ocean at a speed of 600 miles (900 kilometers) per hour and often can travel tremendous distances without losing height and strength.    (C) The differences between tsunamis and tidal waves
   (D) The distances covered by tsunamis

PASSAGE THREE (Questions 5–6)

While draft laws are federal laws, marriage laws are state laws rather than federal; marriage regulations are therefore not uniform throughout the country. The legal marriage age serves as an example of this lack of conformity. In most states, both the man and the woman must be at least
Line eighteen years old to marry without parental consent; however, the states of Nebraska and Wyoming
(5) require the couple to be at least nineteen, while the minimum age in Mississippi is twenty-one. If parental permission is given, then a couple can marry at sixteen in some states, and a few states even allow marriage before the age of sixteen, though a judge's permission, in addition to the permission of the parents, is sometimes required in this situation. Some states which allow couples to marry at such a young age are now considering doing away with such early marriages because of the numerous
(10) negative effects of these young marriages.

5. The paragraph preceding the passage most probably discusses
   (A) state marriage laws
   (B) the lack of uniformity in marriage laws
   (C) federal draft laws
   (D) the minimum legal marriage age

6. The topic of the paragraph following the passage is most likely to be
   (A) disadvantages of youthful marriages
   (B) reasons why young people decide to marry

The most conservative sect of the Mennonite Church is the Old Order Amish, with 33,000 members living mainly today in the states of Pennsylvania, Ohio, and Indiana. Their lifestyle reflects their belief in the doctrines of separation from the world and simplicity of life. The Amish have
Line steadfastly rejected the societal changes that have occurred in the previous three hundred years,
(5) preferring instead to remain securely rooted in a seventeenth-century lifestyle. They live on farms without radios, televisions, telephones, electric lights, and cars; they dress in plainly styled and colored old-fashioned clothes; and they farm their lands with horses and tools rather than modern farm equipment. Various other Indian tribes also lived on the Great Plains. The Sioux, a group of seven American Indian tribes, are best known for the fiercely combative posture against encroaching White civilization in the 1800s. Although they are popularly referred to as Sioux, these Indian tribes did not
Line call themselves Sioux; the name was given to them by an enemy tribe. The seven Sioux tribes called
(5) themselves by some variation of the word "Dakota," which means "allies" in their language. Four tribes of the eastern Sioux community living in Minnesota were known by the name Dakota. The Nakota included two tribes that left the eastern woodlands and moved out onto the plains. PASSAGE THREE (Questions 9–12)

The extinction of many species of birds has undoubtedly been hastened by modern man; since 1600 it has been estimated that approximately 100 bird species have become extinct over the world. In North America, the first species known to be annihilated was the great auk, a flightless bird that served as an easy source of food and bait for Atlantic fishermen through the beginning of the nineteenth century.

Shortly after the great auk's extinction, two other North American species, the Carolina parakeet and the passenger pigeon, began dwindling noticeably in numbers. The last Carolina parakeet and the last passenger pigeon in captivity both died in September 1914. In addition to these extinct species, several others such as the bald eagle, the peregrine falcon, and the California condor are today recognized as endangered; steps are being taken to prevent their extinction.

   (C) how several bird species became endangered
   (D) other extinct species

TOEFL REVIEW EXERCISE (Skills 1–7): Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–6)

The Mason-Dixon Line is often considered by Americans to be the demarcation between the North and the South. It is in reality the boundary that separates the state of Pennsylvania from Maryland and parts of West Virginia. Prior to the Civil War, this southern boundary of Pennsylvania separated the nonslave states to the north from the slave states to the south.

The Mason-Dixon Line was established well before the Civil War, as a result of a boundary dispute between Pennsylvania and Maryland. Two English astronomers, Charles Mason and Jeremiah Dixon, were called in to survey the area and officially mark the boundary between the two states. The survey was completed in 1767, and the boundary was marked with stones, many of which remain to this day.

Manic depression is another psychiatric illness that mainly affects mood. A patient suffering from this disease will alternate between periods of manic excitement and extreme depression, with or without relatively normal periods in between. The changes in mood suffered by a manic-depressive
Line patient go far beyond the day-to-day mood changes experienced by the general population. In the
(5) period of manic excitement, the mood elevation can become so intense that it can result in extended insomnia, extreme irritability, and heightened aggressiveness. PASSAGE THREE (Questions 13–18)

Unlike earlier campaigns, the 1960 presidential campaign featured the politically innovative and highly influential series of televised debates in the contest between the Republicans and the Democrats. Senator John Kennedy established an early lead among the Democratic hopefuls and was
Line nominated on the first ballot at the Los Angeles convention to be the representative of the Democratic
(5) party in the presidential elections. Richard Nixon, then serving as vice president of the United States under Eisenhower, received the nomination of the Republican party. Both Nixon and Kennedy campaigned vigorously throughout the country and then took the unprecedented step of appearing in face-to-face debates on television. Political experts contend that the debates were a pivotal force in the elections. In front of a viewership of more than 100 million citizens, Kennedy masterfully
(10) overcame Nixon's advantage as the better-known and more experienced candidate and reversed the public perception of him as too inexperienced and immature for the presidency.

PASSAGE FOUR (Questions 19–29)

Unlike these fish, which are actually extinct, the coelacanth is a type of fish that was believed to be extinct. However, an unexpected twentieth-century rediscovery of living coelacanths has brought about a reassessment of the status of this prehistoric sea creature that was believed to have long since
Line disappeared from the Earth.
(5) From fossil remains of the coelacanth, paleontologists have determined that the coelacanth was in existence around 350 million years ago, during the Paleozoic Era, more than 100 million years before the first dinosaurs arrived on Earth. The most recent fossilized coelacanths date from around 70 million years ago, near the end of the Mesozoic Era and near the end of the age of dinosaurs. Because no fossilized remnants of coelacanths from the last 70 million years have been found, the
(10) coelacanth was believed to have died out around the same time as the dinosaurs.

The prehistoric coelacanth studied by paleontologists had distinctive characteristics that differentiated it from other fish. It was named for its hollow spine and was known to have been a powerful carnivore because of its many sharp teeth and a special joint in the skull that allowed the ferocious teeth to move in coordination with the lower jaw. It also had a pair of fins with unusual
(15) bony and muscular development that allowed the coelacanth to dart around the ocean floor. These fins also enable the coelacanth to search out prey trying to hide on the ocean bottom.

In 1938, a living specimen of the coelacanth was discovered in the catch of a fishing boat off the coast of South Africa, and since then numerous other examples of the coelacanth have been found in the waters of the Indian Ocean. This modern version of the coelacanth is not exactly the same as its
(20) prehistoric cousin. Today's coelacanth is larger than its prehistoric relative, measuring up to six feet in length and weighing up to 150 pounds. However, the modern version of the coelacanth still possesses the characteristic hollow spine and distinctive fins with their unusual bony and muscular structure.

(D) 450 million years ago

22. Coelacanths were believed to have died out after existing for

(A) 70 million years

25. The pronoun "It" in line 14 refers to

(A) coelacanth
(B) joint

(D) jaw

26. According to the passage, why are scientists sure that the prehistoric coelacanth was a flesh-eater?

(A) Because of its hollow spine
(B) Because of the size of the skull
(C) Because of the shape and movement of the teeth
(D) Because of its unusual bony and muscular development

27. How many modern coelacanths have been found?

    (A) Only one
    (B) Only two
    (C) Only a few

VOCABULARY QUESTIONS

In the Reading Comprehension section of the TOEFL test, there will be a number of vocabulary questions. To answer this type of question, it is of course helpful if you know the meaning of the word that the the TOEFL test is testing. However, it is not always *necessary* for you to know the meaning of the word; often there are skills that you can use to help you find the correct answer to the question: (1) finding definitions from structural clues, (2) determining meanings from word parts, and (3) using context clues to determine meanings.

SKILL 8: FIND DEFINITIONS FROM STRUCTURAL CLUES

When you are asked to determine the meaning of a word in the Reading Comprehension section of the TOEFL test, it is possible (1) that the passage provides information about the meaning of the word and (2) that there are structural clues to tell you that the definition of a word is included in the passage.

Example

The passage:

One of the leading schools of psychological thought in the twentieth century was behaviorism—the belief that the role of the psychologist is to study behavior, which is observable, rather than
Line conscious or unconscious thought, which is not. Probably the best-
(5) known proponent of behaviorism is B.F. Skinner, who was famous for his research on how rewards and punishments influence behavior. He came to believe that positive reinforcements such as praise, food, or money were more effective in promoting good behavior than negative reinforcement, or punishment.

The questions:

1. In "behaviorism" in line 2, a psychologist is concerned with

   (A) conscious thought patterns
   (B) unconscious thought patterns
   (C) observable actions
   (D) unobservable actions

2. What is "positive reinforcement" in line 7?

   (A) A gift
   (B) A reward
   (C) A bribe
   (D) A penalty

3. What is "negative reinforcement" in line 9?

   (A) A promotion
   (B) A reward
   (C) A surprise
   (D) A punishment

To answer the first question, you should look at the part of the passage following the word *behaviorism.* The dash punctuation (—) indicates that a definition or further information about behaviorism is going to follow. In the information following the dash you should see that the behaviorist is interested in *behavior, which is observable,* so the best answer to this question is answer (C). To answer the second question, you should look at the part of the passage following the expression *positive reinforcements.* The expression *such as* indicates that examples of *positive reinforcement* are going to follow. Your job is to look at the examples of positive reinforcement and draw a conclusion about what positive reinforcement might be. Since *praise, food,* or *money* might be given in return for a job well done, then *positive reinforcement* must be a *reward.* The best answer to this question is therefore answer (B). To answer the third question, you should look at the part of the passage following the expression *negative reinforcement.* The word *or* following *negative reinforcement* tells you that the idea is going to be restated in different words. You can see in the passage that another word for *negative reinforcement* is *punishment,* so answer (D) is the best answer to this question.

The following chart outlines the key information that you should remember about structural clues to help you understand unknown vocabulary words:

STRUCTURAL CLUES	
HOW TO IDENTIFY THE QUESTION	*What is . . . ?* *What is the **meaning** of . . . ?* *What is true about . . . ?*
TYPES OF CLUES	Punctuation: comma, parentheses, dashes Restatement: *or, that is, in other words, i.e.* Examples: *such as, for example, e.g.*
WHERE TO FIND THE ANSWER	Information to help you determine what something means will generally be found after the punctuation clue, the restatement clue, or the example clue.
HOW TO ANSWER THE QUESTION	1. Find the word in the passage. 2. Locate any structural clues. 3. Read the part of the passage after the structural clue *carefully.* 4. Eliminate any definitely wrong answers and choose the best answer from the remaining choices.

TOEFL EXERCISE 8: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–4)

The teddy bear is a child's toy, a nice, soft stuffed animal suitable for cuddling. It is, however, a toy with an interesting history behind it.

Theodore Roosevelt, or Teddy as he was commonly called, was president of the United States
Line from 1901 to 1909. He was an unusually active man with varied pastimes, one of which was hunting.
(5) One day the president was invited to take part in a bear hunt; and inasmuch as Teddy was president, his hosts wanted to ensure that he caught a bear. A bear was captured, clunked over the head to knock it out, and tied to a tree; however, Teddy, who really wanted to actually hunt, refused to shoot the bear and in fact demanded that the bear be extricated from the ropes; that is, he demanded that the bear be set free.

(10) The incident attracted a lot of attention among journalists. First a cartoon—drawn by Clifford K. Berryman to make fun of this situation—appeared in the *Washington Post,* and the cartoon was widely distributed and reprinted throughout the country. Then toy manufacturers began producing a toy bear which they called a "teddy bear." The teddy bear became the most widely recognized symbol of Roosevelt's presidency.

   (D) leisure activities

3. The word "extricated" in line 8 is closest in meaning to which of the following?

   (A) Released
   (B) Tied up
   (C) Hunted
   (D) Shot

4. In line 10, a "cartoon" could best be described as

   (A) a newspaper
   (B) a type of teddy bear
   (C) a drawing with a message
   (D) a newspaper article

PASSAGE TWO (Questions 5–8)

A supernova occurs when all of the hydrogen in the core of a huge star is transformed to iron and explodes. All stars die after their nuclear fuel has been exhausted. Stars with little mass die gradually, but those with relatively large mass die in a sudden explosion, a supernova. The sudden flash of light can then be followed by several weeks of extremely bright light, perhaps as much light as twenty million stars.

Supernovae are not very common; they occur about once every hundred years in any galaxy, and in 1987 a supernova that could be seen by the naked eye occurred in the Magellan Cloud, a galaxy close to the Milky Way. Scientists periodically detect supernovae in other galaxies; however, no supernovae have occurred in the Milky Way (the galaxy that includes the Earth) since 1604. One very impressive supernova occurred in the Milky Way on July 4, 1054. There was a great explosion followed by three months of lighted skies, and historical chronicles of the time were full of accounts and unusual explanations for the misunderstood phenomenon—many people believed that it meant that the world was coming to an end.

5. A "supernova" in line 1 is which of the following?

   (A) The iron component of a star
   (B) The core of a star
   (C) The hydrogen in a star
   (D) The explosion of a star

6. According to the passage, which of the following best describes the "Magellan Cloud" in line 7?

   (A) A galaxy inside the Milky Way
   (B) A cloud composed of hydrogen
   (C) A galaxy near the Earth's galaxy
   (D) A cloud in the sky above the Earth

7. The "Milky Way" in line 9 is

   (A) part of the Earth
   (B) a galaxy close to the Earth
   (C) the galaxy that is home to the Earth
   (D) a creamy-colored cloud in the sky

8. Which of the following is closest in meaning to "phenomenon" in line 12?

   (A) Everyday occurrence
   (B) Misunderstood event
   (C) Common belief
   (D) Unusual occurrence

SKILL 9: DETERMINE MEANINGS FROM WORD PARTS

When you are asked to determine the meaning of a long word that you do not know in the Reading Comprehension section of the TOEFL test, it is sometimes possible to determine the meaning of the word by studying the word parts.

Example

The passage:

Ring Lardner himself was born into a wealthy, educated, and cultured family. For the bulk of his career, he worked as a reporter for newspapers in South Bend, Boston, St. Louis, and Chicago. However, it is for his short stories of lower middle-class Americans that Ring Lardner is perhaps best known. In these stories, Lardner vividly creates the language and the ambiance of this lower class, often using the misspelled words, grammatical errors, and incorrect diction that typified the language of the lower middle class.

Line (5)

The questions:

1. The word "vividly" in line 6 is closest in meaning to

   (A) in a cultured way
   (B) in a correct way
   (C) in a lifelike way
   (D) in a brief way

2. The word "misspelled" in line 7 is closest in meaning to

   (A) highly improper
   (B) vulgar
   (C) incorrectly written
   (D) slang

3. The word "diction" in line 8 is closest in meaning to

   (A) writing
   (B) sentence structure
   (C) form
   (D) speech

In the first question, the word *vividly* contains the word part *viv,* which means *life,* so the best answer is answer (C). In the second question, the word *misspelled* contains the word part *mis,* which means *error* or *incorrect,* so the best answer is answer (C). In the third question, the word *diction* contains the word part *dic,* which means *speak,* so the best answer is answer (D).

The following chart contains a few word parts that you will need to know to complete the exercises in this part of the text. A more complete list of word parts and exercises to practice them can be found in Appendix I at the back of the text.

PASSAGE ONE (Questions 1–5)

Juan Rodriguez Cabrillo was a Portuguese-born explorer who is credited with the exploration of the coast of what is today the state of California. Line of the people in what are today Cuba, Mexico, and Guatemala. Little is known of his activities over
(5) the next decades, but apparently he succeeded in rising up through the ranks of the military; in 1541, he was ordered by Antonio de Mendoza, the Spanish ruler of Mexico, to explore the western coast of North America. Cabrillo set out in June of 1542 in command of two ships, the *San Salvador* and the *Victoria*; he reached San Diego Bay on September 28, 1542, and claimed the terrain for Spain. The peninsula where he landed is today named Cabrillo Point in his honor; the area has been established
(10) as a national monument and park, and local residents each year hold a celebration and reenactment of Cabrillo's landing.

From San Diego, Cabrillo continued northward for further exploration of the spectacular California coastline. By November 1542, he had reached as far north as San Francisco Bay, although he missed the entrance of the bay due to a huge storm. Soon after, with the approach of winter, he
(15) veered south and headed back to Mexico. He made it as far south as the Channel Islands off the coast of what is today Santa Barbara. Cabrillo, who died on San Miguel Island in the Channel Islands, never made it back to Mexico.

PASSAGE TWO (Questions 6–10)

Checks and balances are an important concept in the formation of the U.S. system of government as presented in the Constitution of the United States. Under this conception of government, each branch of government has built-in checks and limitations placed on it by one or more different branches of government in order to ensure that any one branch is not able to usurp total dominance over the government. Under the Constitution, the United States has a tripartite government, with power divided equally among the branches: the presidency, the legislature, and the judiciary. Each branch is given some authority over the other two branches to balance the power among the three branches. An example of these checks and balances is seen in the steps needed to pass a law. Congress can pass a law with a simple majority, but the president can veto such a law. Congress can then counteract the veto with a two-thirds majority. However, even if Congress passes a law with a simple majority or overrides a presidential veto, the Supreme Court can still declare the law unconstitutional if it finds that the law is contradictory to the guidelines presented in the Constitution.

SKILL 10: USE CONTEXT TO DETERMINE MEANINGS OF DIFFICULT WORDS

On the TOEFL test you will sometimes be asked to determine the meaning of a difficult word, a word that you are not expected to know. In this case, the passage will give you a clear indication of what the word means.

Example

A line in the passage:

. . . The barges headed across the lake . . . .

The question:

A "barge" is probably which of the following?

(A) A train
(B) A plane
(C) A bicycle
(D) A boat

In this type of question, you are not expected to know the meaning of the word *barge.* Instead, you should understand from the context that if the *barge* went across a *lake,* then it is probably a type of boat. Answer (D) is therefore the best answer.

The following chart outlines the key information that you should remember about vocabulary questions containing difficult words:

VOCABULARY QUESTIONS CONTAINING DIFFICULT WORDS	
HOW TO IDENTIFY THE QUESTION	*"What is the **meaning** . . . ?"* *"Which of the following is closest in **meaning** to . . . ?"* The word is a difficult word, one that you probably do not know.
WHERE TO FIND THE ANSWER	The question usually tells you in which line of the passage the word can be found.
HOW TO ANSWER THE QUESTION	1. Find the word in the passage. 2. Read the sentence that contains the word *carefully.* 3. Look for context clues to help you understand the meaning. 4. Choose the answer that the context indicates.

TOEFL EXERCISE 10: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–4)

The black widow is the most dangerous spider living in the United States. It is most common in the southern parts of the country, but it can be found throughout the country. The black widow got its name because the female has been known to kill the male after mating and, as a result, becomes a
Line widow.
(5) The black widow is rather distinctive in appearance; it has a shiny globular body, the size and shape of a pea, and is marked on its underbelly with a red or yellow spot. The female is considerably more ample than the male, roughly four times larger on the average.

If a human is bitten by a black widow, the spider's poison can cause severe illness and pain. Black widow bites have occasionally resulted in death, but it is certainly not the norm for black
(10) widow bites to be mortal.

1. In line 2, the word "widow" means

   (A) a type of poison
   (B) the dead male spider
   (C) the human victim of the spider

   (C) Green in color
   (D) Round

3. The word "ample" in line 7 indicates that the spider is

   (C) Poisonous
   (D) Sickening

PASSAGE TWO (Questions 5–8)

Tornadoes occur throughout the world, but for reasons that scientists are not fully able to discern, the great majority occur in the United States. Approximately 700 tornadoes a year occur within the United States, and this comprises three-quarters of the worldwide total. Most of the U.S.
Line tornadoes take place in the Midwest and in the southern states that border the Gulf of Mexico.
(5) In general a tornado cuts a path of a few hundred yards and lasts less than an hour; an average tornado might propel itself at a speed of 15 or 20 miles per hour and therefore cover a distance of 20 or so miles. Tornadoes, however, can be much worse than average. The most devastating tornado on record occurred on March 18, 1925, in the states of Missouri, Illinois, and Indiana. The path of this tornado was more than 200 miles long and a mile wide. Traveling at an average speed of 60 miles per
(10) hour, the winds at the center of the storm swirled around at considerably more than 200 miles per hour. A total of 689 people died, and countless more were injured at the hands of this killer storm.

SKILL 11: USE CONTEXT TO DETERMINE MEANINGS OF SIMPLE WORDS

You will sometimes be asked to determine the meaning of a simple word, a word that you see often in everyday English. In this type of question, you should ***not*** give the normal, everyday meaning of the word; instead, the TOEFL test wants to know the meaning of the word **in this situation.**

Example

A line from the passage:

. . . He put his answer this way. . . .

The question:

The word "put" is closest in meaning to which of the following?

(A) placed
(B) set
(C) expressed
(D) handed

In this type of question, you should understand that *put* is a normal, everyday word, and you are not being asked to give the regular meaning of a normal, everyday word. Because the primary meaning of *to put* is *to place,* answer (A) is ***not*** the correct answer. To answer this type of question, you must see which of the answers best fits into the sentence in the passage. You cannot *place an answer* or *set an answer* or *hand an answer,* but you can *express an answer,* so answer (C) is the best answer to this question.

The following chart outlines the key information that you should remember about vocabulary questions containing simple words:

VOCABULARY QUESTIONS CONTAINING SIMPLE WORDS	
HOW TO IDENTIFY THE QUESTION	*"What is the* ***meaning*** *. . . ?"* *"Which of the following is closest in* ***meaning*** *to . . . ?"* The word is a simple word, one that you see often in everyday English.
WHERE TO FIND THE ANSWER	The question usually tells you in which line of the passage the word can be found.
HOW TO ANSWER THE QUESTION	1. Find the word in the passage. 2. Read the sentence that contains the word *carefully.* 3. Look for context clues to help you understand the meaning. 4. Choose the answer that the context indicates.

TOEFL EXERCISE 11: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–3)

The *piece of eight* was the nickname of the Spanish *peso,* which was the rough equivalent of the American dollar in early America; the peso was accepted coin in much of the Americas, particularly during the period when the stores of Spanish ships were regularly stripped by pirates on the waters off the Americas and "redistributed" throughout coastal towns. The nickname *piece of eight* derived from the fact that the peso was equal to eight *reals* and therefore had the numeral 8 stamped on it. The piece of eight was sometimes actually cut into pieces, or bits, and one popular size was one-quarter of a piece of eight, or two bits. As a consequence, the U.S. quarter of a dollar is sometimes referred to today as two-bits, particularly in the western part of the country. A visitor to that area, if told "It'll be two-bits," should take it that the price of an item is being given.

The life span of an elephant that dies from natural causes is about sixty-five years. Of course, an elephant can perish from a number of "unnatural causes"; e.g., it can be killed by hunters, most probably for the valuable ivory in its tusks; it can die from diseases that spread throughout an elephant herd; or it can die from drought or from the lack of food that almost certainly accompanies the inadequate supply of water.

If, however, an elephant survives these disasters, it falls prey to old age in its mid-sixties. Around this age, the cause of death is attributed to the loss of the final set of molars. When this last set of teeth is gone, the elephant dies from malnutrition because it is unable to obtain adequate nourishment. In old age, elephants tend to search out a final home where there is shade for comfort from the sun and soft vegetation for cushioning; the bones of many old elephants have been found in such places.

PASSAGE THREE (Questions 14–21)

The American flag is the end product of a long evolution. Each of its component parts has its own history.

The very first American flag was hoisted in the skies over Boston on January 1, 1776, by the
Line American forces there. This first flag consisted of thirteen red and white stripes representing the
(5) number of American colonies. It also included the British Cross of St. George and Cross of St. Andrew. It could be considered rather ironic that these symbols of British rule were included on the American flag in that the American colonists were fighting for independence from the British.

The origin of the stars on the current flag is obscure; that is, the stars could possibly have been taken from the flag of Rhode Island, or they could have been taken from the coat of arms of the
(10) Washington family. According to legend, this first flag with stars was sewn by Betsy Ross, a Philadelphia seamstress who was famous for her clever needlework. This version of the flag contained thirteen stars and thirteen stripes, one for each of the thirteen colonies battling for independence.

The original idea was to add one star and one stripe for each state that joined the new, young country. However, by 1818, the number of states had grown to twenty, and it did not work well to keep
(15) adding stripes to the flag. As a result, Congress made the decision to revert to the original thirteen stripes representing the thirteen original colonies and adding a star each time a new state was admitted. This has been the policy ever since.

Bigfoot is a humanlike creature reportedly living in the Pacific Northwest. Bigfoot sightings have been noted most often in the mountainous areas of northern California, Oregon, and Washington in the United States. The creature has also been spotted numerous times in British Columbia in Canada, where it is known as *Sasquatch.*

The creature described by witnesses is tall by human standards, measuring 7 to 10 feet (2 to 3 meters) in height. It resembles an ape with its thick, powerful, fur-covered arms and short, strong neck; however, its manner of walking erect is more like that of *Homo sapiens.*

The next hormone is epinephrine, or adrenaline. This hormone is a natural secretion of the adrenal glands in the human body. Its primary function in the human body is to assist the body in coping with sudden surges of stress. When a person unexpectedly finds himself in a stressful situation
Line filled with fear or anger, a large amount of epinephrine is released into the blood and the body
(5) responds with an increased heartbeat, higher blood pressure, and conversion of glycogen into glucose for energy to enable the body to deal with the stress.

It is possible to extract epinephrine from the adrenal glands of animals or to synthesize it chemically in order to put it to further use. A massive banking crisis occurred in the United States in 1933. In the two preceding years, a large number of banks had failed, and fear of lost savings had prompted many depositors to remove their funds from banks. Problems became so serious in the state of Michigan that Governor William

PASSAGE FOUR (Questions 19–31)

Benjamin Franklin is famous in the history of the United States because of his many and varied accomplishments later in his life, as a brilliant diplomat, as a scientist, as an inventor, as a philosopher, and as a public official. Early in his life, however, he was headed for a career as a printer. He was apprenticed at the age of twelve in a print shop that belonged to his half-brother James. When faced with the unhappy prospect of spending nine years in an intolerable situation, Benjamin devised a way to get out of his contract as an apprentice printer in a rather unusual and creative way.

Benjamin's half-brother James ran a weekly newspaper, the *New-England Courant*, and it was in this paper that young Benjamin worked as an apprentice printer. Unbeknownst to his half-brother James, who owned the paper, a very young Benjamin wrote a series of humorous letters to the paper. He did not sign his own name to these letters. Instead, he used the pseudonym Mrs. Silence Dogood. In these letters he mocked the life around Boston. The letters amused the paper's readers, but they did not have the same effect on city officials.

As a result of the letters, city officials forbade James to publish his newspaper. James then decided to continue printing the paper using Benjamin's name rather than his own; in order to do this, however, James had to release Benjamin from his contract as an apprentice. After all, a newspaper could not be headed by an apprentice printer. After James had released Benjamin from his apprenticeship, he was to discover that Benjamin had written the letters that had caused so much trouble. He was angry that he had lost the right to publish his paper because of Benjamin. On his part, Benjamin was delighted to have been released from his contract as an apprentice.

Later in his life, after he had achieved success in so many varied fields of endeavor, Ben Franklin did admit that he had not handled his dissatisfaction with his apprenticeship in the most mature way. However, he still appreciated the creative way that he had dealt with the problem.

OVERALL REVIEW QUESTIONS

Often in the Reading Comprehension section of the TOEFL test the last question (or two) for a particular reading passage is an *overall* question, one that asks about the passage as a whole rather than one small detail. The overall review questions are generally *not* main idea questions; instead they ask about some other aspect of the passage as a whole. The most common types of overall review questions are (1) questions that ask *where* in the passage something is found, (2) questions about the *tone* of the passage, (3) questions about the *author's purpose* in writing the passage, or (4) questions about which *course* the passage might be a part of.

SKILL 12: DETERMINE WHERE SPECIFIC INFORMATION IS FOUND

Sometimes the final question in a reading passage will ask you to determine where in the passage a piece of information is found. The answer choices will list possible locations for that information. The best way to approach this type of question is to study the question to determine the information that you are looking for and then to go to the lines listed in the answers and skim for that information.

Example

The passage:

Meteor Crater, a great crater approximately 40 miles east of Flagstaff, Arizona, is generally thought by scientists to have formed as a result of the impact of a 60,000-ton meteor about 50,000 years ago. The meteor, made of nickel and iron, disintegrated on impact and spread half a billion tons of rock over the surface of the land. The massiveness of the meteor can only be imagined from the mammoth size of the crater, which measures a mile in diameter and three miles around the top. The rim of the crater rises more than 150 feet above the plain where the meteor impacted and is visible for more than ten miles on a clear day.

Line
(5)
(10)

The questions:

1. Where in the passage does the author discuss the composition of the meteor?

   (A) Lines 1–4
   (B) Lines 4–5
   (C) Lines 6–8
   (D) Lines 8–10

2. Where in the passage does the author mention the distance from which the crater can be seen?

   (A) Lines 1–4
   (B) Lines 4–5
   (C) Lines 6–8
   (D) Lines 9–10

The first question asks you to find information about the *composition* of the crater. You should skim through the lines of the passage listed in the answers to the question looking for the word *composition* or something that means *composition*. In line 4 you should find the expression *made of*, and you should recognize that *composition* is what something is *made of*. The best answer to this question is therefore answer (B). The second question asks you to find information about the *distance from which the crater can be seen*. You should again skim through the lines of the passage listed in the answers to the question looking for the key words or ideas *distance* and *seen*. In lines 9 and 10 you should recognize that *visible* means *seen*, and *ten miles* is a *distance*. The best answer to this question is therefore answer (D).

The following chart outlines the key information that you should remember when you are trying to determine where in the passage something is found:

QUESTIONS ABOUT WHERE IN THE PASSAGE	
HOW TO IDENTIFY THE QUESTION	***Where** in the passage . . . ?*
WHERE TO FIND THE ANSWER	The answer can be in any of the lines listed in the answers to the question.
HOW TO ANSWER THE QUESTION	1. Choose a *key word* or *idea* in the question. 2. Skim the lines in the passage that are listed in the answers to the question. You should skim for the *key word* or *idea*. 3. Choose the answer that contains the line numbers of a *restatement* of the question.

TOEFL EXERCISE 12: Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–4)

Beavers generally live in family clusters consisting of six to ten members. One cluster would probably consist of two adults, one male and one female, and four to eight young beavers, or kits. A female beaver gives birth each spring to two to four babies at a time. These baby beavers live with
Line their parents until they are two years old. In the springtime of their second year they are forced out of
(5) the family group to make room for the new babies. These two-year-old beavers then proceed to start new family clusters of their own.

1. Where in the passage does the author give the name of a baby beaver?

   (A) Line 1
   (B) Line 2
   (C) Line 3
   (D) Lines 4–5

2. Where in the passage does the author mention the time of year when new baby beavers are born?

   (A) Line 1
   (B) Line 2
   (C) Line 3
   (D) Lines 4–5

3. Where in the passage does the author state the age at which beavers must go out on their own?

   (A) Line 1
   (B) Line 2
   (C) Line 3
   (D) Lines 4–5

4. Where in the passage does the author indicate why the young beavers must leave their parents' home?

   (A) Line 1
   (B) Line 2
   (C) Line 3
   (D) Lines 4–5

PASSAGE TWO (Questions 5–7)

Chamber music received its name because it was originally intended to be performed in small rooms in private homes rather than huge concert halls or theaters. Today it has evolved into small ensemble music in which each performer in the ensemble plays an individual part.

Line The compositions written for this type of performance can easily be classified into three distinct *(5)* periods, each with its style of music and instrumentation. In the earliest period (1450–1650), the viol and other instrumental families developed considerably, and instrumental music took its first steps toward equal footing with vocal music. In the second period (1650–1750), trio sonatas dominated. These ensemble compositions were often written for two violins and a cello; the harpsichord was also featured in various compositions of this period. In the modern period (after 1750), the preponderance *(10)* of chamber music was written for the string quartet, an ensemble composed of two violins, a viola, and a cello.

5. Where in the passage does the author discuss the modern definition of chamber music?

   (A) Lines 2–3
   (B) Lines 4–5
   (C) Lines 8–9
   (D) Lines 9–11

6. Where in the passage does the author discuss the period when ensembles for three instruments predominated?

   (A) Lines 2–3
   (B) Lines 4–5
   (C) Lines 7–9
   (D) Lines 9–11

7. Where in the passage does the author mention music written for four strings?

   (A) Lines 2–3
   (B) Lines 4–5
   (C) Lines 7–9
   (D) Lines 9–11

PASSAGE THREE (Questions 8–10)

It is common practice to coat metals such as iron and steel with a protective layer of zinc or an alloy made from zinc mixed with aluminum, cadmium, or tin in a process known as "galvanization." The purpose of galvanization is to prevent the corrosion of the iron or steel.

Line The most common method to galvanize metal is the hot-dip galvanizing process. In this process, *(5)* the iron or steel is dipped into a hot bath of a zinc alloy to form a protective coating approximately .003 inches thick. Another method of galvanizing that is not as common is the process known as electrogalvanizing; in this process the metal is placed in a solution composed of zinc sulphate and water and is then charged electrically. This causes a thin layer of zinc to coat the metal.

Zinc is effective in galvanizing metals such as iron or steel in that zinc reacts more easily with *(10)* oxygen than iron does. If iron is unprotected, it reacts with the oxygen in the air to form iron oxide, or rust, which leads to the corrosion of the iron. If, however, the iron is coated with zinc, as it is in the galvanization process, then it is the zinc rather than the iron which interacts with the oxygen to form zinc oxide, and the iron is not subject to corrosion.

8. Where in the passage does the author list the components of a zinc alloy?

   (A) Lines 1–2
   (B) Lines 4–6
   (C) Lines 9–10
   (D) Lines 11–13

9. Where in the passage does the author present the less routinely used process of galvanization?

   (A) Lines 1–2
   (B) Lines 4–6
   (C) Lines 6–8
   (D) Lines 9–10

10. Where in the passage does the author describe what happens when iron and oxygen interact?

    (A) Lines 4–6
    (B) Lines 6–8
    (C) Lines 10–11
    (D) Lines 11–13

SKILL 13: DETERMINE THE TONE, PURPOSE, OR COURSE

Other types of overall review questions occur occasionally in the Reading Comprehension section of the TOEFL test. Possible questions of this type are those that ask about (1) the *tone* of the passage, (2) the *author's purpose* in writing the passage, and (3) the *course* in which the passage might be used.

A question about the *tone* is asking if the author is showing any emotion in his or her writing. The majority of the passages on the TOEFL test are factual passages presented without any emotion; the tone of this type of passage could be simply *informational, explanatory,* or *factual.* Sometimes on the TOEFL test, however, the author shows some emotion, and you must be able to recognize that emotion to answer a question about tone correctly. If the author is being funny, then the tone might be *humorous;* if the author is making fun of something, the tone might be *sarcastic;* if the author feels strongly that something is right or wrong, the tone might be *impassioned.*

A question about *purpose* is asking what the author is trying to do in the passage. You can draw a conclusion about the author's purpose by referring to the main idea and the organization of details in the passage. For example, if the main idea is that George Washington's early life greatly influenced his later career and if the details give a history of his early life, the author's purpose could be *to show how George Washington's early life influenced his later career.* However, the answer to a purpose question is often considerably more general than the main idea. A more general author's purpose for the main idea about George Washington would be *to demonstrate the influence of early experiences on later life* (without any mention of George Washington).

A question about the *course* is asking you to decide which university course might have this passage as assigned reading. You should draw a conclusion about the course by referring to the topic of the passage and the organization of details. For example, if the passage is about George Washington and the details give historical background on his early life, then this would probably be assigned reading in an American history class. However, if the passage is about George Washington and the details show the various influences that he had on the formation of the American government, then the passage might be assigned reading in a government or political science class.

Example

The passage:

Military awards have long been considered symbolic of royalty, and thus when the United States was a young nation just finished with revolution and eager to distance itself from anything
Line tasting of monarchy, there was strong sentiment against military
(5) decoration. For a century, from the end of the Revolutionary War until the Civil War, the United States awarded no military honors. The institution of the Medal of Honor in 1861 was a source of great discussion and concern. From the Civil War until World War I, the Medal of Honor was the only military award given by the United
(10) States government, and today it is awarded only in the most extreme cases of heroism. Although the United States is still somewhat wary of granting military awards, several awards have been instituted since World War I.

The questions:

1. The *tone* of the passage is

   (A) angered
   (B) humorous
   (C) outraged
   (D) informational

2. The author's *purpose* in this passage is to

   (A) describe the history of military awards from the Revolutionary War to the Civil War
   (B) demonstrate an effect of America's attitude toward royalty
   (C) give an opinion of military awards
   (D) outline various historical symbols of royalty

3. The passage would probably be assigned reading in a *course* on

   (A) general science
   (B) psychology
   (C) American history
   (D) interior decoration

The first question asks about the *tone* of the passage. To determine the tone of a passage, you should look for any indications of emotion on the part of the author. In this passage, the author uses historical facts to make a point about America's sentiment against military awards; the author does not make any kind of emotional plea. Therefore, the best answer to this question is answer (D). There is nothing in the passage to indicate any anger (A), or humor (B), or outrage (C) on the part of the author.

The second question asks about the author's *purpose* in writing the passage. To answer this question correctly, you should refer to the main idea of this passage as outlined in the first sentence. The main idea is that there has been strong sentiment against military awards in the United States because military awards are symbols of royalty. The author gives historical facts about military awards as details to support the main idea. Since the purpose is determined from the main idea and the overall organization of details, the author's purpose is to describe, explain, or demonstrate that America's sentiment against military awards is because of its negative sentiment against royalty. The best answer to this

question is therefore answer (B); you should notice that the correct answer is considerably more general than the main idea: according to answer (B) the purpose is to *demonstrate an effect* (America's dislike of military awards) *of America's attitude toward royalty.*

The third question asks about the *course* in which you might be assigned this reading passage. To draw a conclusion about the course, you should refer to the topic of the passage and the overall organization of details. Since this passage is about American military awards, and the details discuss the history of American military awards from the Revolutionary War until today, the best answer is (C).

The following chart outlines the key information that you should remember about tone, purpose, or course questions:

TONE, PURPOSE, OR COURSE		
HOW TO IDENTIFY THE QUESTION	TONE: PURPOSE: COURSE:	*What is the **tone** of the passage?* *What is the author's **purpose** in this passage?* *In which **course** would this reading be assigned?*
WHERE TO FIND THE ANSWER	TONE: PURPOSE: COURSE:	There will be clues throughout the passage that the author is showing some *emotion* rather than just presenting facts. Draw a conclusion about the *purpose* from the main idea and supporting details. Draw a conclusion about the *course* from the topic of the passage and the supporting details.
HOW TO ANSWER THE QUESTION	TONE: PURPOSE: COURSE:	1. Skim the passage looking for clues that the author is showing some *emotion.* 2. Choose the answer that identifies the emotion. 1. Study the main idea in the topic sentence and the details used to support the main idea. 2. Draw a conclusion about the *purpose.* 1. PASSAGE ONE (Questions 1–3)

Truman Capote's *In Cold Blood* (1966) is a well-known example of the "nonfiction novel," a popular type of writing based upon factual events in which the author attempts to describe the underlying forces, thoughts, and emotions that lead to actual events. In Capote's book, the author
Line describes the sadistic murder of a family on a Kansas farm, often showing the point of view of the

PASSAGE TWO (Questions 4–6)

Up to now, confessions that have been obtained from defendants in a hypnotic state have not been admitted into evidence by courts in the United States. Experts in the field of hypnosis have found that such confessions are not completely reliable. Subjects in a hypnotic state may confess to
Line crimes they did not commit for one of two reasons. Either they fantasize that they committed the
(5) crimes or they believe that others want them to confess.

A landmark case concerning a confession obtained under hypnosis went all the way to the U.S. Supreme Court. In the case of *Layra* v. *Denno*, a suspect was hypnotized by a psychiatrist for the district attorney; in a posthypnotic state the suspect signed three separate confessions to a murder. The Supreme Court ruled that the confessions were invalid because the confessions had been the only
(10) evidence against him.

4. Which of the following best describes the author's purpose in this passage?
   (A) To explain the details of a specific court case
   (B) To demonstrate why confessions made under hypnosis are not reliable

PASSAGE THREE (Questions 7–9)

The rate at which the deforestation of the world is proceeding is alarming. In 1950 approximately 25 percent of the Earth's land surface had been covered with forests, and less than twenty-five years later the amount of forest land was reduced to 20 percent. This decrease from 25 percent to 20 percent
Line from 1950 to 1973 represents an astounding 20 million square kilometers of forests. Predictions are
(5) that an additional 20 million square kilometers of forest land will be lost by 2020.

The majority of deforestation is occurring in tropical forests in developing countries, fueled by the developing countries' need for increased agricultural land and the desire on the part of developed countries to import wood and wood products. More than 90 percent of the plywood used in the United States, for example, is imported from developing countries with tropical rain forests. By the
(10) mid-1980s, solutions to this expanding problem were being sought, in the form of attempts to establish an international regulatory organization to oversee the use of tropical forests.

7. The author's main purpose in this passage is to

   (A) cite statistics about an improvement on the Earth's land surface
   (B) explain where deforestation is occurring
   (C) make the reader aware of a worsening world problem
   (D) blame developing countries for deforestation

TOEFL EXERCISE (Skills 12–13): Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–5)

The causes of schizophrenia are not clear, but schizophrenia has long been attributed to faulty parenting. In cases where schizophrenia developed, the parents were often considered responsible and were faulted for having been uncaring, or manipulative, or emotionally abusive. However, recent studies are now pointing to heredity and prenatal environmental factors as the chief culprits in this disease.

Recent studies of identical twins have been used to demonstrate that heredity plays a role in the development of schizophrenia. These studies have shown that in cases where one identical twin is afflicted with schizophrenia, the other twin has a 50 percent probability of also suffering from it.

However, heredity is not believed to be the only culprit. Studies of the fingerprints of identical twins have lent credence to the theory that prenatal environmental factors are likely contributors to the development of schizophrenia. In studies of pairs of identical twins in which one is afflicted with schizophrenia and one is not, abnormalities were found in the fingerprints of one-third of the twins, always in the afflicted twin. Since fingers develop in the second trimester of pregnancy, the hypothesis has been proposed that the abnormalities in the fingerprints were due to a second-trimester trauma that affected only one of the twins and that this same trauma was a factor in the onset of schizophrenia.

1. The author's purpose in this passage is to
   (A) enumerate examples
   (B) cause the development of schizophrenia
   (C) prove that faulty parenting is the main cause of schizophrenia
   (D) refute a common misconception

5. This passage would probably be assigned reading in which of the following courses?
   (A) Criminology
   (B) Public Administration
   (C) Statistics
   (D) Psychology

PASSAGE TWO (Questions 6–9)

To Americans, the Pony Express was a fixture of the Old West; most Americans are rather surprised to find out that in reality the Pony Express was in existence for only a short period of time, about a year and a half. This forefather of "express" mail service operated between St. Joseph, Missouri, and Sacramento, California, a distance of just under 2,000 miles; letters and small packages could be delivered in under 10 days instead of the 3 to 4 weeks that it had taken prior to the institution of the Pony Express.

In 1860, St. Joseph was the westernmost terminal of the country's railroad system; mail destined for the West Coast could come to St. Joe by train, but the only way to get it farther west was on horseback. The Pony Express service was established on April 3, 1860, to fill this need: a letter carried on horseback with only minimal downtime for changes in horses and riders could cover 200 miles in one twenty-four hour period.

The Pony Express system consisted of approximately 80 riders, 400 horses, and 190 stations every 10 to 15 miles along the route. One rider took a mail pouch and carried it for 75 miles, changing his tired horse for a fresh one at every station; he then passed the pouch to another rider. Riders traveled day and night, and the mail never stopped.

On October 24, 1861, only a year and a half after the start of the Pony Express, the first transcontinental telegraph opened for business, ending the need for the Pony Express. The Pony Express officially closed for business on October 26, 1861; obviously its owners were quick to recognize that the need for their services had just been basically wiped out.

   (B) To describe a little-known reality about a historical subject
   (C) To incite readers to action on behalf of the Pony Express
   (D) To describe the development of express mail service

PASSAGE THREE (Questions 10–13)

The grand jury is an important part of the American legal system. The grand jury is composed of private citizens who are appointed to serve for a designated period of time. Grand juries, which hold meetings in private, serve one of two functions: charging or investigatory. A grand jury that is serving a charging function listens to evidence presented by the prosecutor and decides whether or not the prosecution has adequate evidence to charge a suspect with a crime; if the grand jury feels that there is adequate evidence, then it issues an indictment, and the suspect must then proceed with a trial. A grand jury that is serving an investigatory function investigates cases of suspected dishonesty, often by public officials.

The primary reason for the existence of the grand jury is that it is supposed to ensure that citizens are not subject to unfair prosecution; under the grand jury system, prosectors must first convince an unbiased group of citizens that there is justification for the charges that they want to bring. However, the grand jury system has come under attack from numerous directions. Grand juries are routinely criticized for being too slow and too costly; the grand jury system really means that there are two trials, the grand jury hearing to decide whether or not there should be a trial and then the actual trial itself. Another criticism of the grand jury results from the fact that the meetings are held in private; the grand jury is not open to public scrutiny and is therefore not publicly responsible for its actions, and this has cast doubt on some of its findings. A final common criticism of the grand jury is that the evidence it hears is one-sided, from the perspective of the prosecution, so that the grand jury serves as the right arm of the prosecution rather than as a defender of the rights of a suspect.

TOEFL REVIEW EXERCISE (Skills 1–13): Study each of the passages and choose the best answers to the questions that follow.

PASSAGE ONE (Questions 1–6)

Another noteworthy trend in twentieth-century music in the U.S. was the use of folk and popular music as a base for more serious compositions. The motivation for these borrowings from traditional music might be a desire on the part of a composer to return to simpler forms, to enhance
Line patriotic feelings, or to establish an immediate rapport with an audience. For whatever reason,
(5) composers such as Charles Ives and Aaron Copland offered compositions featuring novel musical forms flavored with refrains from traditional Americana. Ives employed the whole gamut of patriotic songs, hymns, jazz, and popular songs in his compositions, while Copland drew upon folk music, particularly as sources for the music he wrote for the ballets *Billy the Kid, Rodeo,* and *Appalachian Spring.*

1. The paragraph preceding this passage most probably discusses
   (A) nineteenth-century music
   (B) one development in music in the twentieth century
   (C) the works of Aaron Copland
   (D) the history of folk and popular music

2. Which of the following best describes the main idea of the passage?
   (A) Traditional music flavored some American musical compositions in the last century.
   (B) Ives and Copland used folk and popular music in their compositions.
   (C) A variety of explanations exist as to why a composer might use traditional sources of music.
   (D) Traditional music is composed of various types of folk and popular music.

3. It can be inferred from this passage that the author is not sure
   (A) when Ives wrote his compositions
   (B) that Ives and Copland actually borrowed from traditional music
   (C) why certain composers borrowed from folk and popular music
   (D) if Copland really featured new musical forms

4. Which of the following is not listed in the passage as a source for Ives's compositions?
   (A) National music
   (B) Religious music
   (C) Jazz

5. Where in the passage does the author list examples of titles of Copland's works?
   (A) Lines 1–2

PASSAGE TWO (Questions 7–13)

The rattlesnake has a reputation as a dangerous and deadly snake with a fierce hatred for humanity. Although the rattlesnake is indeed a venomous snake capable of killing a human, its nature has perhaps been somewhat exaggerated in myth and folklore.

Line The rattlesnake is not inherently aggressive and generally strikes only when it has been put on *(5)* the defensive. In its defensive posture the rattlesnake raises the front part of its body off the ground and assumes an S-shaped form in preparation for a lunge forward. At the end of a forward thrust, the rattlesnake pushes its fangs into the victim, thereby injecting its venom.

There are more than 30 species of rattlesnakes, varying in length from 20 inches to 6 feet and also varying in toxicity of venom. In the United States there are only a few deaths annually from *(10)* rattlesnakes, with a mortality rate of less than 2 percent of those attacked.

PASSAGE THREE (Questions 14–21)

For a century before the Erie Canal was built, there was much discussion among the general population of the Northeast as to the need for connecting the waterways of the Great Lakes with the Atlantic Ocean. A project of such monumental proportions was not going to be undertaken and
Line completed without a supreme amount of effort.
(5) The man who was instrumental in accomplishing the feat that was the Erie Canal was DeWitt Clinton. As early as 1812, he was in the nation's capital petitioning the federal government for financial assistance on the project, emphasizing what a boon to the economy of the country the canal would be; his efforts with the federal government, however, were not successful.

In 1816, Clinton asked the New York State Legislature for the funding for the canal, and this
(10) time he did succeed. A canal commission was instituted, and Clinton himself was made head of it. One year later, Clinton was elected governor of the state, and soon after, construction of the canal was started.

The canal took eight years to complete, and Clinton was on the first barge to travel the length of the canal, the *Seneca Chief*, which departed from Buffalo on October 26, 1825, and arrived in New

PASSAGE FOUR (Questions 22–33)

The Celtic languages are a group of languages of northern Europe that are descendents of the Indo-European family of languages. These languages developed from the language of the Celts, a warlike civilization originating in the eastern part of central Europe, in the northern Alps, and along
Line the Danube during the Bronze Age. The Celts reached the height of their civilization during the Iron
(5) Age, the last five centuries B.C., and then fanned out from their original homeland into many parts of continental Europe and across the channel and into the British Isles. Celtic languages were spoken in much of western Europe during Pre-Roman and Roman times. Place names of Celtic origin can be found today all over the British Isles and France, in northern Spain and Italy, and in Switzerland and parts of Germany.

(10) Rather than one language, the Celtic languages consist of two distinct clusters: the Gaelic group and the Brythonic group. These two clusters of languages most likely developed from dialects of the same language, the language of the Celts in their original homeland. These two dialects were most likely mutually intelligible to some degree as late as the fourth century. The Gaelic group of Celtic languages consists of Irish, Scottish, and Manx, the language of the Isle of Man. The Brythonic group
(15) of Celtic languages includes Welsh, Cornish, Breton, and Gaulish, the language of Gaul prior to the days of the Roman Empire, with its Latin-speaking population.

Many, though not all, of the Celtic languages are either extinct or are in the process of becoming extinct. Gaulish apparently disappeared around 600 A.D. Cornish and Manx both actually became extinct, the former in the nineteenth century and the latter just a few decades ago, but both are being
(20) revived and are now taught in a few schools each. Scottish, Irish, and Breton are all declining in use. There are under a hundred thousand speakers of Scottish Gaelic, mostly on the northern Hebridean Islands; there are more than a hundred thousand speakers of Irish, mainly in the western counties of Ireland; there are about a half million speakers who use Breton on a daily basis. In all these situations, though, the rate of transmission to new generations is low, and this does not bode well for
(25) the survival of these languages. Of all the Celtic languages, perhaps only Welsh has a strong hold on the future.

22. The author's purpose in the passage is to

    (A) describe the past and present of a related set of languages
    (B) list the major characteristics of Celtic languages
    (C) outline the major achievements of the Celts
    (D) explain how languages manage to survive without changing

23. According to the passage, the Celtic languages did NOT

    (A) develop from the Indo-European language family
    (B) originate in the British Isles
    (C) exist before the time of the Roman Empire
    (D) provide any Italian place names

24. The passage states that the Celts were

    (A) peaceful farmers
    (B) unheard of during the Bronze Age
    (C) at their peak during the Iron Age

    (A) all Celtic languages are extinct
    (B) a few Celtic languages disappeared
    (C) some Celtic languages are flourishing
    (D) most Celtic languages are either dead or dying

29. It is NOT true according to the passage that both Cornish and Manx

    (A) were once considered extinct
    (B) became extinct in the same century
    (C) are being resuscitated
    (D) may be taught in some academic institutions

30. According to the passage, the percentage of young people learning Scottish, Irish, and Breton is

    (A) nonexistent
    (B) not high
    (C) increasing
    (D) quite robust

31. This passage would most likely be assigned reading in a course on

Questions 1–10

Aspirin's origins go back at least as early as 1758. In that year, Englishman Edward Stone noticed a distinctive bitter flavor in the bark of the willow tree. To Stone, this particular bark seemed to have much in common with "Peruvian Bark," which had been used medicinally since the 1640s to bring down fevers and to treat malaria. Stone decided to test the effectiveness of the willow bark. He obtained some, pulverized it into tiny pieces, and conducted experiments on its properties. His tests demonstrated that this pulverized willow bark was effective both in reducing high temperatures and in relieving aches and pains. In 1763, Stone presented his findings to the British Royal Society.

Several decades later, further studies on the medicinal value of the willow bark were being conducted by two Italian scientists. These chemists, Brugnatelli and Fontana, determined that the active chemical that was responsible for the medicinal characteristics in the willow bark was the chemical salicin, which is the active ingredient of today's aspirin.

The name "aspirin" is the trade name of the drug based on the chemical salicin, properly known as acetylsalicylic acid. The trade name "aspirin" was invented for the drug in the 1890s by the Bayer Drug Company in Germany. Questions 11–20

Herman Melville, an American author best known today for his novel *Moby Dick,* was actually more popular during his lifetime for some of his other works. He traveled extensively and used the knowledge gained during his travels as the basis for his early novels. In 1837, at the age of eighteen, Melville signed as a cabin boy on a merchant ship that was to sail from his Massachusetts home to Liverpool, England. His experiences on this trip served as a basis for the novel *Redburn* (1849). In 1841 Melville set out on a whaling ship headed for the South Seas. After jumping ship in Tahiti, he wandered around the islands of Tahiti and Moorea. This South Sea island sojourn was a backdrop to the novel *Omoo* (1847). After three years away from home, Melville joined up with a U.S. naval frigate that was returning to the eastern United States around Cape Horn. The novel *White-Jacket* (1850) describes this lengthy voyage as a navy seaman.

With the publication of these early adventure novels, Melville developed a strong and loyal following among readers eager for his tales of exotic places and situations. However, in 1851, with the publication of *Moby Dick,* Melville's popularity started to diminish. *Moby Dick,* on one level the saga of the hunt for the great white whale, was also a heavily symbolic allegory of the heroic struggle of humanity against the universe. The public was not ready for Melville's literary metamorphosis from romantic adventure to philosophical symbolism. It is ironic that the novel that served to diminish Melville's popularity during his lifetime is the one for which he is best known today.

Questions 21–31

Although only a small percentage of the electromagnetic radiation that is emitted by the Sun is ultraviolet (UV) radiation, the amount that is emitted would be enough to cause severe damage to most forms of life on Earth were it all to reach the surface of the Earth. Fortunately, all of the Sun's
Line ultraviolet radiation does not reach the Earth because of a layer of oxygen, called the ozone layer,
(5) encircling the Earth in the stratosphere at an altitude of about 15 miles above the Earth. The ozone layer absorbs much of the Sun's ultraviolet radiation and prevents it from reaching the Earth.

Ozone is a form of oxygen in which each molecule consists of three atoms (O_3) instead of the two atoms (O_2) usually found in an oxygen molecule. Ozone forms in the stratosphere in a process that is initiated by ultraviolet radiation from the Sun. UV radiation from the Sun splits oxygen
(10) molecules with two atoms into free oxygen atoms, and each of these unattached oxygen atoms then joins up with an oxygen molecule to form ozone. UV radiation is also capable of splitting up ozone molecules; thus, ozone is constantly forming, splitting, and reforming in the stratosphere. When UV radiation is absorbed during the process of ozone formation and reformation, it is unable to reach Earth and cause damage there.

(15) Recently, however, the ozone layer over parts of the Earth has been diminishing. Chief among the culprits in the case of the disappearing ozone, those that are really responsible, are the chloroflurocarbons (CFCs). CFCs meander up from Earth into the stratosphere, where they break down and release chlorine. The released chlorine reacts with ozone in the stratosphere to form chlorine monoxide (ClO) and oxygen (O_2). The chlorine then becomes free to go through the cycle
(20) over and over again. One chlorine atom can, in fact, destroy hundreds of thousands of ozone molecules in this repetitious cycle, and the effects of this destructive process are now becoming evident.

Questions 32–40

A number of nonmetric measurements in common use may at first glance seem to lack the logic and clarity of the metric system, with its measurements all neatly based on tens and multiples of tens. However, these nonmetric measurements developed over time from habitual use of commonplace
Line items to make simple measurements. They might not seem like simple measurements today, but such
(5) is their history.

The measurements *foot* and *yard* developed based on average lengths of body parts. As can be inferred from the name, the Romans used the term *foot* to describe the length of a man's foot, from the base of the heel to the tip of the big toe. Though not exactly an accurate measurement, due to the varying lengths of men's feet, a foot was a measurement that was easy to conceptualize and visualize
(10) by most people. The term *yard* was used extensively by the English as the measurement from the tip of a man's nose to the tip of his outstretched thumb. English King Edward I redefined a yard as equivalent to three feet in 1305, and it still has this meaning today.

To describe longer distances, the Romans also invented the use of the term *mile*. The word *mile* comes from the Latin word *mille*, which means *one thousand*. A mile was meant to conform to a
(15) distance of one thousand paces, each pace consisting of two steps or approximately five thousand feet.

On the ocean, speed is measured in knots, with one knot roughly equivalent to one nautical mile per hour. This measurement of speed comes from the days when sailors used a knotted rope to determine their speed while at sea. A rope was knotted at regular intervals and tossed overboard. The rope was let out as sand flowed through an hourglass. When the sand had passed through the hourglass,
(20) the speed of the boat was determined by counting the number of knots that had been let out.

32. The main idea of the passage is that nonmetric measurements

    (C) are actually based on simple concepts
    (D) developed from Roman measurements

    (D) It was not very easy for people to understand.

    (B) changed in definition in the 14th century

    (D) was in use prior to the term *foot*

36. The word "extensively" in line 10 could best be replaced by

    (A) lengthily

(D) the term *knot* has come to be used only recently

40. Which paragraph discusses examples of measurements based on parts of the body?

Questions 41–50

In the first half of the nineteenth century, the U.S. government decided that it needed to set up a system for protecting its coastline. It then began building a series of forts along the coast of the eastern part of the country to facilitate its defenses.

Line
(5) The largest of these forts was Fort Jefferson, which was begun in 1846. This fort was built on Garden Key, one of a cluster of small coral islands 70 miles west of Key West. At the time of its construction, Fort Jefferson was believed to be of primary strategic importance to the United States because of its location at the entryway to the Gulf of Mexico. Because of its location at the entrance to a great body of water, it became known as the Gibraltar of the Gulf, in reference to the island located at the mouth of the Mediterranean. The fort itself was a massive structure. It was hexagonal in shape,
(10) with 8-foot-thick walls, and was surrounded by a medieval-style moat for added security. Covering most of the Garden Key, it was approximately half a mile in circumference.

In the latter half of the nineteenth century, during the Civil War and its aftermath, the fort was used as a prison rather than a military installation. The most notorious of its prisoners was Dr. Samuel Mudd, a physician who was most probably innocently involved in the assassination of
(15) Abraham Lincoln. The actual assassin, John Wilkes Booth, broke his leg as he lept from the stage of the Ford Theater during the assassination. Dr. Mudd set Booth's broken leg, unaware of Booth's involvement in the assassination. As a result of this action, Dr. Mudd was sentenced to life in prison and remanded to Fort Jefferson. He was pardoned after only four years because of his courageous efforts in combatting an epidemic of yellow fever that ravaged the fort.

(20) Continuous use of Fort Jefferson ended in the 1870s, although the U.S. Navy continued with sporadic use of it into the twentieth century. Today, the massive ruins still remain on the tiny island that stands guard over the entrance to the gulf, undisturbed except for the occasional sightseer who ventures out from the coast to visit.

SECTION FOUR

TEST OF WRITTEN ENGLISH (TWE)

TEST OF WRITTEN ENGLISH (TWE)

The Test of Written English (TWE) is a writing section that appears on the TOEFL test several times a year. You should check the *Bulletin of Information for TOEFL, TWE, and TSE* for the dates that the TWE will be administered. If you are required to take the TWE, be sure to sign up for the TOEFL test in one of the months in which the TWE is given.

On the TWE you will be given a specific topic and you will be asked to write an essay on that topic in thirty minutes. The TWE will be given at the beginning of the TOEFL test, before the Listening Comprehension, Structure and Written Expression, and Reading Comprehension sections.

Because you must write a complete essay in such a short period of time, it is best for you to aim to write a basic, clear, concise, and well-organized essay. The following strategies should help you to write this type of essay.

STRATEGIES FOR THE TEST OF WRITTEN ENGLISH (TWE)

1. **Read the topic carefully and write about it exactly as it is presented.** Take several minutes at the beginning of the test to be sure that you understand the topic and to outline a response.
2. **Organize your response very clearly.** You should think of having an introduction, body paragraphs that develop the introduction, and a conclusion to end your essay. Use transitions to help the reader understand the organization of ideas.
3. **Whenever you make any general statement, be sure to support that statement.** You can use examples, reasons, facts, or similar details to support any general statement.
4. **Stick to vocabulary and sentence structures that you know.** This is not the time to try out new words or structures.
5. **Finish writing your essay a few minutes early so that you have time to proof what you wrote.** You should spend the last three to five minutes checking your essay for errors.

THE SCORE

The score of the TWE is included on the same form as your regular TOEFL score, but it is not part of your overall TOEFL score. It is a separate score on a scale of 1 to 6, where 1 is the worst score and 6 is the best score. The following table outlines what each of the scores essentially means:

TEST OF WRITTEN ENGLISH (TWE) SCORES
6. The writer has very strong organizational, structural, and grammatical skills.
5. The writer has good organizational, structural, and grammatical skills. However, the essay contains some errors.
4. The writer has adequate organizational, structural, and grammatical skills. The essay contains a number of errors.
3. The writer shows evidence of organizational, structural, and grammatical skills that still need to be improved.
2. The writer shows a minimal ability to convey ideas in written English.
1. The writer is not capable of conveying ideas in written English.

Sample Essay Topic
Time — 30 minutes

Do you agree or disagree with the following statement?

Some people place a high value on loyalty to the employer. To others, it is perfectly acceptable to change jobs every few years to build a career. Discuss these two positions. Then indicate which position you agree with and why.

Use specific reasons and details to support your answer.

The following essay received a score of 6:

Different cultures place varying values on loyalty to the employer. In some countries, most notably in Asia, there is a high degree of loyalty to one company. However, in most European countries and the United States, loyalty to one's employer is not highly valued; instead it is considered more rationel and reasonable for an employee to change jobs whenever it is waranted to achieve the optimal overall career. Both of these positions have advantages and disadvantages.

In cultures that value loyalty to the employer, a kind of family relationship seems to develop between employer and employee. It is a reciprocal arrangement which the employer is concerned with asisting the employee to develop to his/her full potential and the employee is concerned about optimizing the welfare of the company. The negative aspect to absolute loyalty to one company is that an employee may stay in one job that he/she has outgrow and may miss out on opportunities to develop in new directions. From the employer's point of view, the employee may be burdened with employees whose skills no longer match the needs of the company.

In cultures in which it is quite acceptable to change jobs every few years, employees can build the career they choose for themself. They can stay with one company as long as it is mutually beneficial to company and employee. As long as good relationship exists and the employee's career is advancing at an acceptable pace, the employee can rmain with a company. But at any time the employee is free to move to another company, perhaps to achieve a higher position, to move into a new area, or to find a work situation that is more suitable to his/her personality. The disadvantage of this situation is employees tend to move around a lot.

Although both these systems have advantages and disadvantages, it is much better for employees have the opportunity to move from job to job if it is necessary to have a better career.

THE "6" ESSAY

1. It discusses all aspects of the topic.
2. It is clearly organized.
3. The ideas are well developed.
4. It has good, correct sentence structure.
5. It has only a few spelling and grammar errors.

Weaknesses of This Essay

1. The concluding paragraph is rather weak.

The following essay received a score of 5:

Some people place high value on loyalty to employer. They believe the company is responsible for the employee's career. The company will make decisions for the employee about his job. The company will decide to raise employee to new position or keep him in the old position. In this way the company will have overall plan for the good of the company and everyone in the company.

Other people believe it is perfectly acceptable to change jobs every few years to build a career. They believe employee is responsible for his own career. The employee will make decisions about his career. Employee will decide when to move to other company. Employee will choose what is good for employee rather than the company.

The best system is one when employer takes responsibility for the careers of employees. Employer should take responsibility. It is his duty. Employee knows that employer is watching out for his career. Then employee will work hard and do good job. He will be loyal to the company. This system works out best for everyone. These people believe that they should work hard for their employer and so their employer will take care of them. To others it is perfectly acceptable to change jobs every few years to build a career. They believe that having only one employer and one job in a career will not be the best for them.

In my culture people stay with one employer for their whole life. They have a job they will work their hardest at that job because it is the only job they will have. BEFORE WRITING

SKILL 1: DECODE THE TOPIC

The first and most important step when writing an essay on the TOEFL test is to decode the topic to determine what the intended outline is. Writing topics generally give very clear clues about how your answer should be constructed. It is important to follow the clear clues that are given in the topic when you are planning your answer. You probably will not be given much credit for a response that does not cover the topic in the way that is intended. Study the following essay topic:

Essay Topic

Some people prefer large weddings with lots of people, while others prefer small weddings with only very close friends and family. Discuss the advantages of each type of wedding. Then indicate which you prefer and why.

As you read this topic, you should think about the organization of the intended response that will be expected by test graders. Your essay should start with an introduction, and that introduction should mention *large weddings, small weddings,* and their *advantages.* This introduction should be followed by supporting paragraphs describing the *advantages of large weddings* and the *advantages of small weddings.* In the final paragraph, you should discuss whether *you prefer large weddings* or *small weddings* and *why.* This final paragraph serves as your conclusion because it brings together the ideas in the previous paragraphs about large and small weddings. The following is an appropriate outline for an essay on the topic above:

Paragraph 1: INTRODUCTORY PARAGRAPH
(mentioning the advantages of large and small weddings)

Paragraph 2: FIRST SUPPORTING PARAGRAPH
(listing and discussing the advantages of large weddings)

Paragraph 3: SECOND SUPPORTING PARAGRAPH
(listing and discussing the advantages of small weddings)

Paragraph 4: CONCLUDING PARAGRAPH
(whether you prefer large or small weddings and why)

The following chart outlines the key information that you should remember about decoding writing topics:

THE WRITING TOPIC

Each writing topic shows you exactly *what* you should discuss and *how* you should organize your response. You must decode the topic carefully to determine the intended way of organizing your response.

EXERCISE 1: For each of the following writing topics, indicate the type of information that you will include in each paragraph of your response.

1. What type of novel do you enjoy reading most? Use reasons and examples to support your response.

INTRODUCTION:	*the type of novel I enjoy reading most*
SUPPORTING PARAGRAPH 1:	*the first reason I enjoy this type of novel (with an example)*
SUPPORTING PARAGRAPH 2:	*the second reason I enjoy this type of novel (with an example)*
SUPPORTING PARAGRAPH 3:	*the third reason I enjoy this type of novel (with an example)*
CONCLUSION:	*summary of the reasons I enjoy this type of novel*

2. Some students prefer to study alone, while other students prefer to study with others. Discuss the advantages of each type of studying. Then indicate which you prefer and why.

   Patience is the most important characteristic in a boss.

   Use specific reasons and examples to support your response.

8. Do you agree or disagree with the following statement?

A knowledge of history is absolutely essential.

Use specific reasons and examples to support your response.

SKILL 2: DEVELOP SUPPORTING IDEAS

After you have decoded a writing topic to determine the overall organization of your response, you need to plan how to develop your ideas. You need to provide as much support as possible for the ideas in your essay, using reasons and examples and making your answer as personal as possible. To have an effective essay, you need strong support.

Essay Topic

Why is it important to you to learn English? Support your response with reasons and examples.

As you read this topic, you should quickly determine that the overall organization of your response should be an introduction, supporting paragraphs about your reasons for learning English, and a conclusion. You should take a few minutes before you begin writing to develop your ideas.

INTRODUCTION	*my reasons for learning English*
SUPPORTING PARAGRAPH 1	*for educational opportunities*
(examples)	• *going to university abroad, going to graduate school abroad*
(reason)	• *necessary to learn English in order to study abroad*
(personal story)	• *the opportunity that I have to get a graduate degree abroad with a scholarship from my company*
SUPPORTING PARAGRAPH 2	*for professional opportunities*
(examples)	• *getting an entry-level job in a multinational company, advancing to a higher position in the company*
(reason)	• *necessary to learn English in order to succeed in a multinational company*
(personal story)	• *the low, entry-level job in a multinational company that I got after I was interviewed in English*
CONCLUSION	*the educational and professional opportunities that result from learning English*

In this example, there are two main reasons for learning English: *for educational opportunities* and *for professional opportunities*. Each of these ideas is supported by examples, a reason, and personal information.

The following chart outlines the key information that you should remember about the development of supporting ideas.

SUPPORTING IDEAS

Support your essay with *reasons* and *examples*, and *personalize* your essay as much as possible. The more support you have, the stronger your essay will be.

   It is better to save your money for the future than to enjoy it now.

   Use specific reasons and examples to support your response.

7. At the end of your life, how would you most like to be remembered? Support your response with reasons and examples.

8. Some people dream of reaching unlikely goals, while other people set more reasonable and reachable goals. Which kind of person do you tend to be? Use examples to support your response.

WHILE WRITING

SKILL 3: WRITE THE INTRODUCTORY PARAGRAPH

The purpose of the introduction is first to interest the reader in your topic and then to explain clearly to the reader what you are going to discuss. When finished with your introduction, the reader should be eager to continue on with your essay, and the reader should have an exact idea of your topic and how you are going to organize the discussion of your topic. You do not need to give the outcome of your discussion in the introduction; you can save that for the conclusion.

Essay Topic

Do you agree or disagree with the following statement?

To succeed, you should focus more on cooperation than on competition.

Support your response with specific examples.

The following paragraph shows one possible introduction to an essay on this topic in which the author agrees with the statement.

INTRODUCTION 1

In my work in a marketing company, it is very clear that employees in the company compete with each other in order to be selected to work on the best projects and in order to advance in the company. However, in spite of this intense competition among employees, the most important key to the success of the company, and therefore to the success of the employees working within the company, is for employees to cooperate in order to produce the most effective marketing campaigns. Two examples in which I have taken part, a marketing campaign for an office supply company and a marketing campaign for a dance theater, demonstrate the value of cooperation among employees.

The first part of this introduction gives background information about the writer to interest the reader in the essay. The first two sentences tell the reader that the writer works in a marketing company and recognizes that, while both competition and cooperation exist among the employees of the marketing company, cooperation is the most important. From the last sentence of the introduction, it can be determined that the writer will discuss two examples from the marketing company that demonstrate the value of cooperation.

The next paragraph shows another way that the essay on the above topic could be introduced. In this essay, the author disagrees with the statement.

INTRODUCTION 2

As a student in the university, I find that, while on many occasions it is beneficial to cooperate with other students, it is most important for me always to compete with other students for the top grades in the courses I take. The following two situations from my university studies indicate the importance of competition to a student in my position.

The first part of this introduction informs the reader that the writer is a university student who regularly competes for top grades; it also shows that the writer believes that competition is more important than cooperation. From the last sentence of the introduction, it can be determined that the writer will continue the essay by discussing two situations from the university that demonstrate the importance of competition.

The following chart outlines the key information that you should remember about writing introductory paragraphs.

THE INTRODUCTORY PARAGRAPH

1. Begin the introduction with *background* information about how the topic relates to you in order to get the reader *interested* in your essay.
2. End the introduction with a statement or statements that show the reader how the rest of the essay will be *organized.*

EXERCISE 3: Write introductory paragraphs for essays on the following topics. In each introductory paragraph, circle the *background* information that shows how the topic relates to you. Underline the information that shows how the rest of the essay will be *organized.*

1. Do you agree or disagree with the following statement?

   It is better to stick with what you know than to try out new things.

   Use specific reasons and examples to support your response.

2. What course that you have taken have you enjoyed the most, and why? Use reasons and examples to support your response.

3. In some courses, there are numerous exams throughout the course, while in other courses there is only one final exam. Discuss the advantages of each type of course. Then indicate which you prefer and why.

4. Do you agree or disagree with the following statement?

   Parents always know what is best for their children.

   Use specific reasons and examples to support your response.

5. What is the strongest advantage that technology can bring us? Support your response with reasons and examples.

6. Some people are very casual about handling their money, while other people budget their money carefully. Which type of person are you? Support your response with reasons and examples.

7. Do you agree or disagree with the following statement?

   It is the responsibility of government to support the arts.

   Use specific reasons and examples to support your response.

8. What person, other than a family member, has influenced you the most in your life? Support your response with reasons and examples.

SKILL 4: WRITE UNIFIED SUPPORTING PARAGRAPHS

A good way to write a clear and effective supporting paragraph is to begin with a sentence to introduce the main idea of the passage, support the main idea with strong details, and connect the ideas together in a unified paragraph. The following outline shows a paragraph topic and its supporting ideas.

to be a good employee, have a good understanding of your job
- *understand your responsibilities*
- *understand the rules you must follow*
- *understand the decisions you can make*

Various methods can be used to connect ideas together in a unified paragraph: repeating a key word, rephrasing the key word, referring to the key word with a pronoun or possessive, and adding transition expressions or sentences. The paragraph based on the outline above contains examples of each of these methods of unifying the ideas in a paragraph.

If you want to be a good employee, one characteristic that you must have is a clear understanding of the job you have. First of all, you must know what your responsibilities are in the position you hold. For example, you must know exactly what tasks you must do in your job. You must also know exactly how these tasks should be done and when they should be done. After this, you must understand the organizational rules that you must follow in your position. Every organization has rules to follow, such as when to take breaks or what to do when you are sick, and it is important for you to understand these clearly. In addition to understanding your duties and the rules you must observe in your job, you must also have a clear understanding of which decisions you can and cannot make. Some types of decisions may be yours to make, while other kinds of decisions may be up to your supervisor. In summary, for you to be a good employee, it is important for you to understand all of these aspects of your job.

(1) job (4) transition expression
(1) rephrasing of job (4) transition expression
(2) tasks (1) job
(2) tasks (2) pronoun for tasks
(4) transition expression (3) rules
(1) rephrasing of job (3) rules (4) transition expression
(3) pronoun for rules
(5) transition sentence
(4) transition expression
(1) job

This paragraph contains numerous examples of devices that make the paragraph more unified. (1) The key word *job* is repeated numerous times and rephrased as *position.* (2) The key word *tasks* is repeated and is replaced with the pronoun *they.* (3) The key word *rules* is repeated and then is replaced with the pronoun *these.* (4) There are numerous transition expressions: *first of all, for example, after this, such as,* and *in summary.* (5) There is a transition sentence relating the first two supporting ideas about duties and rules to the third supporting idea about decisions.

The following chart outlines the key information that you should remember when you are writing supporting paragraphs.

UNIFIED SUPPORTING PARAGRAPHS

Introduce each supporting paragraph with a *topic sentence* and support that paragraph with lots of *details.* Make sure that the ideas in the paragraph are unified by using a mixture of the following methods:

- repeating a key word
- rephrasing a key word
- replacing a key word with a pronoun or possessive
- adding transition words, phrases, or sentences

NOTE: See 7B on page 396 for examples of transition expressions.

EXERCISE 4: Read the paragraph. Then answer these questions.

1. (A) Find the word *employee* in the passage. How many times does it appear?
   (B) How is the word *employee* restated in the second sentence?

2. (A) Find the word *priorities* in the passage. How many times does it appear?
   (B) Which pronoun refers to the noun *priorities*?

3. (A) Find the word *manner* in the passage. *Manner* is a rephrasing of which word in the previous sentence?
   (B) What pronoun refers to *manner*?

4. (A) Find the transition expression that indicates the first way you must understand your organization.
   (B) Find the transition sentence that relates the first way to the second way you must understand your organization.

5. (A) Find the transition expression that precedes examples of priorities.
   (B) Find the transition expression that precedes examples of manner.
   (C) Find the transition expression that precedes examples of inflexible style.

Another characteristic that you must have if you are going to be a good employee is a clear understanding of your organization. First of all, for you to be a good worker, you must understand where the organization places its priorities. You must, for example, know if the organization most values product quality, on-time production, customer satisfaction, or cost savings. If you understand the organization's priorities, then you will be able to do your job in accordance with them. However, in addition to understanding an organization's priorities if you want to be a good employee, you must also understand the style for getting work done within the organization. The manner of getting work done could, for instance, be casual or formal, with perhaps very formal or informal ways of dressing or communicating. It could also be either flexible or inflexible. In a very rigid type of organization, you follow the rules to the letter (i.e., arriving at your desk precisely on time, taking breaks exactly as prescribed, and leaving as the clock strikes the hour); in a less rigid organization, the rules are not followed so precisely.

Line (5) (10) (15)

Now write a paragraph beginning with *The recent news event that has affected me most....* Then follow these directions:

1. Circle each key word the first time that it appears in the paragraph. Draw a line from the key word to any repetitions, rephrases, or pronoun references to that key word.
2. Underline any transition phrases once.
3. Underline any transition sentences twice.

SKILL 5: WRITE THE CONCLUDING PARAGRAPH

The purpose of the conclusion is to close your essay by summarizing the main points of your discussion. When finished with your conclusion, the reader should clearly understand your exact ideas on the topic and the reasons you feel the way that you do about the topic.

The ideas in your conclusion should be closely related to the ideas that you began in the introduction. While in the introduction you should indicate what you intend to discuss in the essay, in the conclusion you should indicate the outcome or results of the discussion. Refer to the essay topic and sample introductions in Skill 3 on page 382.

Essay Topic

Do you agree or disagree with the following statement?

To succeed, you should focus more on cooperation than on competition.

Support your response with specific examples.

The following paragraph is a conclusion to the essay that began with INTRODUCTION 1 (in Skill 3) on page 382.

CONCLUSION 1

Even though there is intense competition among employees to advance in the company, the key ingredient for the success of the company is cooperation among employees to complete the company's various projects. The truth of this statement should be clear from the examples of the marketing campaigns for the office supply company and the dance theater, where strong teamwork caused one campaign to succeed and lack of teamwork caused the other campaign to be less successful.

In this conclusion, the writer clearly indicates the belief that cooperation is more important than competition. The writer also refers to the two examples from the essay that support this position.

The next paragraph is a conclusion to the essay that began with INTRODUCTION 2 (in Skill 3) on page 383.

CONCLUSION 2

If I had not competed so strongly in these two situations, my life would be very different from what it is today. I would never have been admitted to the top university in my country, and I would certainly never have earned a scholarship for my studies there. It is because I believe so strongly in competition that I was able to succeed in this way.

In this conclusion, the writer clearly indicates the strong belief that competition is very important. The writer also summarizes the two examples from the essay that support this position.

The following chart outlines the key information that you should remember about writing concluding paragraphs.

THE CONCLUDING PARAGRAPH
1. *Summarize* the key points in your discussion. 2. Be sure that your overall *idea* and the *reasons* for the idea are very clear.

EXERCISE 5: Write concluding paragraphs for the essays that you introduced in Skill 3. In each concluding paragraph, circle your overall idea. Underline the key points of your discussion.

   It is better to stick with what you know than to try out new things.

   Use specific reasons and examples to support your response.

2. What course that you have taken have you enjoyed the most, and why? Use reasons and examples to support your response.

3. In some courses, there are numerous exams throughout the course, while in other courses there is only one final exam. Discuss the advantages of each type of course. Then indicate which you prefer and why.

4. Do you agree or disagree with the following statement?

   Parents always know what is best for their children.

   Use specific reasons and examples to support your response.

   Use specific reasons and examples to support your response.

8. What person, other than a family member, has influenced you the most in your life? Support your response with reasons and examples.

SKILL 6: CONNECT THE SUPPORTING PARAGRAPHS IN THE ESSAY

To make your essay as clear as possible, you should show as clearly as you can how the ideas in the supporting paragraphs in your essay are related. This can be accomplished (1) with transition expressions such as *the first, the most important,* or *a final way,* or (2) with transition sentences that include the idea of the previous paragraph and the idea of the current paragraph. It is best to use a combination of these two types of transitions. The following example shows how transitions can be used to show the relationships among the supporting paragraphs in an essay.

ESSAY OUTLINE	
(introduction)	*characteristics of a good class*
(supporting paragraph 1)	• *an organized teacher*
(supporting paragraph 2)	• *interesting lectures*
(supporting paragraph 3)	• *clear and reasonable assignments*
TRANSITIONS	
(to introduce SP1)	*One important characteristic of a good class is an organized teacher.*
(to introduce SP2)	*In addition to having a teacher who is organized, a good class must also have a teacher who gives interesting lectures.*
(to introduce SP3)	*A final characteristic of a good class is that the assignments are clear and reasonable.*

The first supporting paragraph is introduced with the transition *One important characteristic* to show that this is the first of the characteristics of a good class that you are going to discuss in your essay. The second supporting paragraph is introduced with a transition sentence that shows how this paragraph is related to the previous paragraph; it includes a reference to the first supporting paragraph *a teacher who is organized* and a reference to the second supporting paragraph *a teacher who gives interesting lectures.* The third supporting paragraph is introduced with the transition expression *A final characteristic* to show that this is the last of the three characteristics of a good class.

The following chart outlines the important information to remember about connecting the supporting paragraphs of your essay:

WELL-CONNECTED SUPPORTING PARAGRAPHS

1. The supporting paragraphs of an essay can be connected with *transition expressions* or with *transition sentences.*
2. It is best to use a combination of these two types of transitions.

AFTER WRITING

SKILL 7: EDIT SENTENCE STRUCTURE

7A. Simple Sentence Structure

A *simple* sentence is a sentence that has only one **clause**.[1] Two types of sentence structure errors are possible in a sentence with only one clause: (1) the clause can be missing a subject or a verb, and (2) the clause can be introduced by a subordinate clause connector.

The first type of incorrect simple sentence is a sentence that is missing a subject or a verb. (Note that an asterisk is used to indicate that the sentence contains an error.)

Every day it is necessary to sign in and sign out.*
(is = VERB)

His recommendation about the project.*
(recommendation = SUBJECT)

The first sentence is incorrect because it has the verb *is* but is missing a subject. The second sentence is incorrect because it has the subject *recommendation* but is missing a verb.

A sentence structure with both a subject and a verb is not always correct. If the one clause in the sentence includes both a subject and a verb but is introduced by a subordinate clause connector, then the sentence is also incomplete.

When the storm with thunder and lightning will leave the area.*
(storm = SUBJECT; will leave = VERB)

How the driver of the car managed to avoid an accident.*
(driver = SUBJECT; managed = VERB)

The first sentence includes both the subject *storm* and the verb *will leave,* but this sentence is not correct because it is introduced by the subordinate clause connector *When.* The second sentence includes both the subject *driver* and the verb *managed,* but this sentence is not correct because it is introduced by the subordinate clause connector *How.*

The following chart outlines what you should remember about editing simple sentences:

SIMPLE SENTENCES
1. A simple sentence is a sentence with *one clause.* 2. A simple sentence must have both a *subject* and a *verb.* 3. A simple sentence may not be introduced by a *subordinate clause connector.*

[1]A **clause** is a group of words that has both a subject and a verb. Simple sentences with only one main clause are covered in great detail in Skills 1–5 of the Structure and Written Expression section on pages 130–139.

EXERCISE 7A: Underline the subjects once and the verbs twice. Put boxes around the subordinate clause connectors. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The vague meaning of the underlined expression.

____ 2. When you finally found out the whole truth.

____ 3. His reaction to the film was priceless.

____ 4. Usually leaves quite early in the morning.

____ 5. An indication to everyone of the importance of the project.

____ 19. Actually, the results have not yet been posted.

7B. Compound Sentence Structure

A *compound* sentence is a sentence that has more than one **main clause.**[2] The main clauses in a compound sentence can be connected correctly with either a coordinate conjunction (*and, but, so, or, yet*) and a comma or with a semi-colon (;).

Tom drove too fast. He got a ticket for speeding.
Tom drove too fast, so he got a ticket for speeding.
Tom drove too fast; he got a ticket for speeding.

In the first example, the two main clauses *Tom drove too fast* and *He got a ticket for speeding* are not connected into a compound sentence. In the second example, the two main clauses are combined into a compound sentence with the coordinate conjunction *so* and a comma. In the third example, the same two clauses are combined into a compound sentence with a semi-colon.

It is possible to use adverb transitions in compound sentences. It is important to note that adverb transitions are not conjunctions, so either a semi-colon or a coordinate conjunction with a comma is needed.

Tom drove too fast. As a result, he got a ticket for speeding.
Tom drove too fast, and he got a ticket for speeding as a result.
Tom drove too fast; as a result, he got a ticket for speeding.

In the first example, the two main clauses *Tom drove too fast* and *he got a ticket for speeding* are not combined into a compound sentence even though the adverb transition *As a result* is used. In the second example, the two main clauses are combined into a compound sentence with the coordinate conjunction *and* and a comma; the adverb transition *as a result* is included at the end of the compound sentence. In the third example, the same two main clauses are combined into a compound sentence with a semi-colon, and the adverb transition is set off from the second main clause with a comma.

The following chart lists some commonly used adverb transitions:

ADVERB TRANSITIONS			
TIME	CAUSE	CONTRAST	CONDITION
afterwards *next* *then* *finally*	*as a result* *consequently* *therefore*	*however* *in contrast*	*otherwise*

[2]A **main clause** is an independent clause that has both a subject and a verb. It is not introduced by a subordinate connector. Compound sentences are covered in Skill 6 of the Structure and Written Expression section on pages 139–140.

EXERCISE 7B: Underline the subjects once and the verbs twice in the main clauses. Put boxes around the punctuation, transitions, and connectors that join the main clauses. Then indicate if the sentences are correct (C) or incorrect (I).

__I__ 1. The researcher completed the study, the results were quite surprising.

____ 19. The bookstore is open for another hour we should go there right now.

____ 20. It has been raining steadily for days, consequently, the streets are flooded.

7C. Complex Sentence Structure

A *complex* sentence is a sentence that has at least one main clause and one **subordinate clause**.[3] Noun, adjective, and adverb clauses are all types of subordinate clauses. Each of these sentences is a complex sentence because it contains a subordinate clause:

They do not understand (what I said).
NOUN CLAUSE

The professor (who wrote the book) is giving the lectures.
ADJECTIVE CLAUSE

Final grades will be available (after the semester ends).
ADVERB CLAUSE

The first complex sentence contains the subordinate noun clause *what I said.* The second complex sentence contains the subordinate adjective clause *who wrote the book.* The final complex sentence contains the subordinate adverb clause *after the semester ends.*

A variety of errors with complex sentence structures can occur in student writing, but the following two errors occur with great frequency: (1) repeated subjects after adjective clauses, and (2) repeated subjects after noun clauses as subjects.

The movie (that we saw last night) it* was really funny.
S ADJECTIVE CLAUSE S V

(What she told me yesterday) it* was quite confusing.
NOUN CLAUSE - S S V

The first sentence is incorrect because it contains an extra subject. The correct subject *movie* comes before the adjective clause *that we saw last night,* and an extra subject *it* comes after the adjective clause. To correct this sentence, you should omit the extra subject *it.* The second sentence is also incorrect because it contains an extra subject. The noun clause *What she told me yesterday* is a subject, and this noun clause subject is followed by an extra subject *it.* To correct this sentence, you should omit the extra subject *it.*

The following chart outlines what you should remember about editing complex sentences:

COMPLEX SENTENCES
1. When a subject comes before an adjective clause, do not add an extra subject after the adjective clause.
2. When a noun clause is used as a subject, do not add an extra subject after the noun clause.

[3]A **subordinate clause** is a dependent clause. It has both a subject and a verb and is introduced by a subordinate connector. Complex sentences with subordinate noun, adverb, and adjective clauses are covered in great detail in Skills 7–12 of the Structure and Written Expression section on pages 141–153.

EXERCISE 7C: Underline the subjects once and the verbs twice in the main clauses. Put parentheses around the subordinate noun and adjective clauses. Then indicate if the sentences are correct (C) or incorrect (I).

I 1. The tickets (that I ordered) they will be delivered tomorrow.

____ 2. How I will be able to get all this work done is unclear.

> Some people prefer to take vacations in quiet, natural places, while others prefer to spend their vacation time in big cities. Discuss the advantages of each type of vacation. Then indicate which you prefer and why.

1. *What you need to do before going on a vacation it is to decide where you will go on your vacation. You may decide to go to a quiet place with a quiet and natural setting, instead you may decide to go to a big city with a fast-paced life. Each of these types of vacation something to offer.* (3 errors)

2. *The reasons that it can be a good idea to go to a quiet and natural location for a vacation they are numerous. Then, after are thoroughly relaxed, what you can do it is to take part in outdoor activities such as hiking or swimming. All of this will leave you completely relaxed and free of stress by the end of your vacation.* (5 errors)

3. *It can be nice to go to a quiet and natural spot for a vacation, however it can also be quite an adventure to go to a big and fast-paced city for a vacation. The main reason that it can be a good idea to take a vacation in a big city it is to take part in so many activities that are unavailable in your hometown. On a big city vacation, numerous cultural events that might not be available in your hometown, such as theatrical performances, concerts, and art and museum exhibits, they are available. On a big city vacation, will also have access to some of the world's finest restaurants and shopping. After your big city vacation has ended. 4. *For me, the type of vacation that I decide to take it depends on my life prior to the vacation. I work as a legal assistant in a law office, this job is often repetitious and dull but is sometimes quite frantic just prior to a major case. After a slow and boring period of work. All I want is to head to a fast-paced vacation in a big city. However, if my job been frantic and busy prior to my vacation, then want to head to a quiet and beautiful place where I can relax. Thus, I enjoy different types of vacations, the type of vacation depends on the pace of my life before the vacation.* (6 errors)

EXERCISE 8A: Find and correct the errors in the following essay. (The number in parentheses at the end of each paragraph indicates the number of errors in that paragraph.) The essay discusses the following topic.

> Some people prefer to work for a company, while others prefer to work for themselves. Discuss the advantages of each position. Then indicate which you prefer and why.

1. *Something very important for students to decide as they near the end of their studies are whether should they work for another company or go into business for themselves. As a university student, this decision about my future are one that I face soon myself. To me, each of these positions have clear advantages, in particular depending on the stage of your career.* (4 errors)

2. *There is numerous advantages to working for another company, particularly early in your career. One of the advantages are that working in someone else's company provide a situation with the security of a regular paycheck and less responsibility than you would have you were to be the owner of the company. Also, not until you start your own business you need to come up with the finances to back the company. Thus, all of this indicate that it is better to work for other people early in your career while you are gaining the knowledge and experience you need to start your own company.* (6 errors)

3. *Then, later in your career, it may be advantageous for you to go into business for yourself. The main reason for going into business for yourself are that in your own company you are able to decide on what direction do you want your company to go. However, only when you have gained enough knowledge and experience are it a good idea to go into business for yourself. This is when will you be ready to deal with the responsibility, pressure, and financial needs of owning a company.* (4 errors)

4. *Nothing are more important to me than having my own company one day. However, what seems very clear to me now is that beginning my career working in someone else's company are best. In this situation, not only I can work with more security and less pressure, but I can also build up my financial resources and learn from others. Then, I should manage to gain enough experience, knowledge, and confidence and build up my financial resources, I hope eventually to open my own company, where can I determine exactly how would I like the company to operate.* (6 errors)

> Do you agree or disagree with the following statement?
>
> *The primary reason to get an education is to succeed financially.*
>
> Support your response with reasons and examples.

1. *I am a university student, and I am studying in the university for a number of reasons. Of course, one of my reasons for going to school, studying hard, and obtain a university degree is to succeed financially; the more money I make, it will be better for me. However, financial success is not my most importantest reason for going to the university. Instead, I am going to the university for a much broad reason than that: I believe that a university education will give me a much rich and better life, not just in a financial way.* (5 errors)

2. *One way that a university education makes your life enjoyabler is to give you the opportunity to have a career that you really desire and appreciative. Having a career that you like is much better than a job that just pays the bills. I, for example, am studying to be a marine biologist. I will have the better career for me; I will be rewarded not only in terms of money and also in terms of enjoyment of my career.* (5 errors)

3. *Another way that a university education can enrich your life is to provide a broadest knowledge, understand, and appreciation of the world around you than you already have. It provides you with an understanding of both the history of your own culture and to influence history on the present. Finally, it provides you with an understanding of the universe around you and showing you how the universe functions.* (5 errors)

4. *Thus, in getting a university education, I can say that financial success is certainly one goal that I have. However, the goal of financial success is not as important as I have another goal. My primary goal in getting a university education is the goal of achieving a more full life, certainly one with financial security but more importantly one that is rewarding both in terms of professional opportunities or in terms of awareness and understanding of life around me. The closer I get to achieving this goal, I will be happier.* (4 errors)

The following example shows my usual reaction to situations when I have be completely unprepared for them.* (3 errors)

2. *This example of the way that I react to unexpected situations has occurred in history class last week. The professor had told us that we will be covering the material in Chapters 10 through 12 in class on Thursday. By the time I arrived in class, I have read all of the assigned material, and I understood most of what I had. study. While I was relax in my chair at the beginning of class, the professor announces that there would be a pop quiz on the material in the assigned chapters. I was preparing on the material because I have studied all of it thoroughly before class.* (8 errors)

3. *However, I was face with an unexpected situation, and I do not react well to unexpected situations. Instead of feeling relaxed at the announcement of the unexpected quiz because I was so prepared, I was completely fill with anxiety by the situation. As the professor was write the questions on the board, I become more and more nervous. I was unable to think clearly, and I knew that I would done a bad job on the quiz because this was what always happens to me when I feel panic. As I stared at the questions on the board, I had been unable to think of the correct answers. It was as if I had not prepare at all for class. Then, the professor collected the papers from the class, including my basically blank piece of paper. Just after the papers had been collecting, the answers to all the questions came to me.* (9 errors)

4. *You can seen from this example that my usual reaction to something unexpected is to panic. In the future, I hoped that I will learn to react more calmly, but up to now I had not learned to react this way. On the basis of my past behavior, however, it seems that I currently had a stronger tendency to react with panic than with calm.* (4 errors)

1. *I was not a very good athleticism in high school, but I wanted with all of mine heart to be on the football team. My desire to be on the team had little to do with athletics and was perhaps not for the best of reasons; the strong stimuli for I to make the team was that team members were well-known in the school and he became very popular. This desire to be on the football team in high school, and the fact that through hard worker I managed to accomplish something that I wanted so much, even if its was something petty, turned out to be the single most valuable experiences of my years in high school.* (8 errors)

2. *I had to work very hard to make the football team in high school, and for some time this seemed like an impossible goals. A large amount of students in my school, more than a hundred and fifty of them, spent many of theirs afternoons trying out for a team with less than forty positions. After a lot of hard work on my part, and after I had demonstrated to the coaches that he could count on me to keep going long after everyone was exhausted, I managed to make the team as a secondary play. Even with so many effort, I was never going to be a sports phenomena or even a member of the first team, but I did accomplish my goal of making the team.* (8 errors)

3. *The valuable lesson that I learned through this experience was not the joy of competitor or the much benefits of teamwork, several lesson very commonly associated with participation in team sports. Instead, the valuable lesson that I learned was that hard work and determination could be very important in helping I accomplish each goals that I want to reach. Even if others have more talent, I can work harder than it does and still perhaps find successor where them do not.* (8 errors)

8E. Adjectives and Adverbs

There are two reasons why I regular procrastinate on my assignments academic in spite of the fact that this is not a best way to get my work done.* (9 errors)

2. *One reason that I tend to be a eternal procrastinator is that I work much more efficient under pressure than I do when I am not under pressure. For example, I can accomplish so much more in a two-hour period when I have a definitely deadline in two hours than I can during an alike period without the pressure of a deadline strict. Without a deadline, the two-hour period seems to fly by with minimally accomplishment, but with an rapid approached deadline I seem quite capably of making every minute of the two-hour period count.* (10 errors)

3. *Another reason that I tend to procrastinate is that if I start preparing early, it takes generally more of my time. If, for example, I have paper due in six weeks, I can start working on the paper now and work on it on a day basis, and that paper will take up a lot of my time and energy during the followed six weeks. However, if I wait to begin work on the paper until week before it is due, I have to go off some place where I can be lone and spend all of my time and energy that week on the paper, but it will only take one week of my time valuable and not six weeks.* (7 errors)

4. *In summary, it seems that I always wait until the last minute to complete an assignments because I am afraid that I will waste too much time by starting early. It would be good idea, however, for me to make a effort to get work done efficient and early so that I do not always have to feel tensely about getting work done at a last minute.* (6 errors)

Skills 58–60: Problems with Usage

EXERCISE 8F: Find and correct the errors in the following essay. (The number in parentheses at the end of each paragraph indicates the number of errors in that paragraph.) The essay discusses the following topic.

> Some people avoid confrontations at all costs, while other people seem to seek them out. Discuss each type of person. Then indicate which type of person you are and why.

1. *Some people make their best to avoid confrontations, while another people often seem to get involved confrontations. There can be problems with either type of behavior; thus, I always try to be dislike people at either extreme and remain moderate in my approach at confrontation.* (5 errors)

2. *To some people, confrontation should be avoided for all costs. These people will make nothing even after something terribly wrong has happened to them. They, for example, stay silent when they are pushed around or when they are blamed something they did not do. Unfortunately, it is quite probable that others will take advantage from people alike this. Thus, people who avoid confrontations will find that they do not get as much out life as they deserve because other always take advantage of them.* (7 errors)

3. *Alike people who avoid confrontations, others individuals go to the opposite extreme; they take part for confrontations too easily. When something small happens accidentally, they become enraged and do a big deal of it as if they had been terribly wronged. Perhaps, for example, someone accidentally bumps in them or mistakenly says something offensive; in this type of situation, they create a serious confrontation. While it is true that other people will try hard not to provoke this type of person, it is also true that other will do an effort to avoid spending much time in the company of such a person. Thus, people who get involved in confrontations easily will find it hard to develop close friendships and relationships with anothers.* (8 errors)

4. *I try to make the right thing by avoiding either extreme type of behavior. I always try to behave in an alike manner, without overreacting or underreacting. If someone offends me with chance, I try to brush it and keep in going as if nothing had happened me. If someone intentionally succeeds on bothering me, however, I try to react without anger but with a reaction that shows that behavior alike this is unacceptable. In this way, I do not do the mistake of wasting time on unimportant situations, but I prevent others instances of bad behavior toward me for recurring.* (11 errors)

Questions 1–9

John James Audubon, nineteenth-century artist and naturalist, is known as one of the foremost authorities on North American birds. Born in Les Cayes, Haiti, in 1785, Audubon was raised in France and studied art under French artist Jacques-Louis David. After settling on his father's
Line Pennsylvania estate at the age of eighteen, he first began to study and paint birds.
(5) In his young adulthood, Audubon undertook numerous enterprises, generally without a tremendous amount of success; at various times during his life he was involved in a mercantile business, a lumber and grist mill, a taxidermy business, and a school. His general mode of operating a business was to leave it either unattended or in the hands of a partner and take off on excursions through the wilds to paint the natural life that he saw. His business career came to an end in 1819
(10) when he was jailed for debt and forced to file for bankruptcy.

It was at that time that Audubon began to seriously pursue the dream of publishing a collection of his paintings of birds. For the next six years he painted birds in their natural habitats while his wife worked as a teacher to support the family. His *Birds of America,* which included engravings of 435 of his colorful and lifelike watercolors, was published in parts during the period from 1826 to 1838 in
(15) England. After the success of the English editions, American editions of his work were published in 1839, and his fame and fortune were ensured.

Questions 10–19

These stories of killer bees in the news in recent years have attracted a lot of attention as the bees have made their way from South America to North America. Killer bees are reputed to be extremely aggressive in nature, although experts say that their aggression may have been somewhat
Line inflated.
(5) The killer bee is a hybrid—or combination—of the very mild European strain of honeybee and the considerably more aggressive African bee, which was created when the African strain was imported into Brazil in 1955. The African bees were brought into Brazil because their aggression was considered an advantage: they were far more productive than their European counterparts in that they spent a higher percentage of their time working and continued working longer in inclement
(10) weather than did the European bees.

These killer bees have been known to attack humans and animals, and some fatalities have occurred. Experts point out, however, that the mixed breed known as the killer bee is actually not at all as aggressive as the pure African bee. They also point out that the attacks have a chemical cause. A killer bee stings only when it has been disturbed; it is not aggressive by nature. However, after a
(15) disturbed bee stings and flies away, it leaves its stinger embedded in the victim. In the vicera attached to the embedded stinger is the chemical isoamyl acetate, which has an odor that attracts other bees. As other bees approach the victim of the original sting, the victim tends to panic, thus disturbing other bees and causing them to sting. The new stings create more of the chemical isoamyl acetate, which attracts more bees and increases the panic level of the victim. Killer bees tend to travel in large
(20) clusters or swarms and thus respond in large numbers to the production of isoamyl acetate.

10. The subject of the preceding paragraph was most likely

    (A) exaggerated

    (A) traveled from Brazil to Africa in 1955
    (B) was a predecessor of the African bee
    (C) was carried from Africa to Brazil in 1955
    (D) did not exist early in the twentieth century

Questions 20–28

There is a common expression in the English language referring to a blue moon. When people say that something happens "only once in a blue moon," they mean that it happens only very rarely, once in a great while. This expression has been around for at least a century and a half; there are
Line references to this expression that date from the second half of the nineteenth century.
(5) The expression "a blue moon" has come to refer to the second full moon occurring in any given calendar month. A second full moon is not called a blue moon because it is particularly blue or is any different in hue from the first full moon of the month. Instead, it is called a blue moon because it is so rare. The moon needs a little more than 29 days to complete the cycle from full moon to full moon. Because every month except February has more than 29 days, every month will have at least one full
(10) moon (except February, which will have a full moon unless there is a full moon at the very end of January and another full moon at the very beginning of March). It is on the occasion when a given calendar month has a second full moon that a blue moon occurs. This does not happen very often, only three or four times in a decade.

The blue moons of today are called blue moons because of their rarity and not because of their
(15) color; however, the expression "blue moon" may have come into existence in reference to unusual circumstances in which the moon actually appeared blue. Certain natural phenomena of gigantic proportions can actually change the appearance of the moon from Earth. The eruption of the Krakatao volcano in 1883 left dust particles in the atmosphere, which clouded the sun and gave the moon a bluish tint. This particular occurrence of the blue moon may have given rise to the expression
(20) that we use today. Another example occurred more than a century later. When Mount Pinatubo erupted in the Philippines in 1991, the moon again took on a blue tint.

    (B) an unusual color

Questions 29–40

The organization that today is known as the Bank of America did start out in America, but under quite a different name. Italian American A.P. Giannini established this bank on October 17, 1904, in a renovated saloon in San Francisco's Italian community of North Beach under the name Bank of Italy, with immigrants and first-time bank customers comprising the majority of his first customers. During its development, Giannini's bank survived major crises in the form of a natural disaster and a major economic upheaval that not all other banks were able to overcome.

One major test for Giannini's bank occurred on April 18, 1906, when a massive earthquake struck San Francisco, followed by a raging fire that destroyed much of the city. Giannini obtained two wagons and teams of horses, filled the wagons with the bank's reserves, mostly in the form of gold, covered the reserves with crates of oranges, and escaped from the chaos of the city with his clients' funds protected. In the aftermath of the disaster, Giannini's bank was the first to resume operations. Unable to install the bank in a proper office setting, Giannini opened up shop on the Washington Street Wharf on a makeshift desk created from boards and barrels.

In the period following the 1906 fire, the Bank of Italy continued to prosper and expand. By 1918 there were twenty-four branches of the Bank of Italy, and by 1928 Giannini had acquired numerous other banks, including a Bank of America located in New York City. In 1930 he consolidated all the branches of the Bank of Italy, the Bank of America in New York City, and another Bank of America that he had formed in California into the Bank of America National Trust and Savings Association.

A second major crisis for the bank occurred during the Great Depression of the 1930s. Although Giannini had already retired prior to the darkest days of the Depression, he became incensed when his successor began selling off banks during the bad economic times. Questions 41–50

Thunderstorms, with their jagged bursts of lightning and roaring thunder, are actually one of nature's primary mechanisms for transferring heat from the surface of the earth into the atmosphere. A thunderstorm starts when low-lying pockets of warm air from the surface of the earth begin to rise. The pockets of warm air float upward through the air above that is both cooler and heavier. The rising pockets cool as their pressure decreases, and their latent heat is released above the condensation line through the formation of cumulus clouds.

What will happen with these clouds depends on the temperature of the atmosphere. In winter, the air temperature differential between higher and lower altitudes is not extremely great, and the temperature of the rising air mass drops more slowly. During these colder months, the atmosphere, therefore, tends to remain rather stable. In summer, however, when there is a high accumulation of heat near the earth's surface, in direct contrast to the considerably colder air higher up, the temperature differential between higher and lower altitudes is much more pronounced. As warm air rises in this type of environment, the temperature drops much more rapidly than it does in winter; when the temperature drops more than four degrees Fahrenheit per thousand feet of altitude, cumulus clouds aggregate into a single massive cumulonimbus cloud, or thunderhead.

In isolation, a single thunderstorm is an impressive but fairly benign way for Mother Earth to defuse trapped heat from her surface; thunderstorms, however, can appear in concert, and the resulting show, while extremely impressive, can also prove extraordinarily destructive. When there is a large-scale collision between cold air and warm air masses during the summer months, a squall line, or series of thunderheads, may develop. It is common for a squall line to begin when an advancing cold front meets up with and forces itself under a layer of warm and moist air, creating a line of thunderstorms that races forward at speeds of approximately forty miles per hour. A squall line, which can be hundreds of miles long and can contain fifty distinct thunderheads, is a magnificent force of nature with incredible potential for destruction. Within the squall line, often near its southern end, can be found supercells, long-lived rotating storms of exceptional strength that serve as the source of tornadoes.

(B) the greater temperature differential between higher and lower altitudes makes thunderstorms more likely to occur
(C) there is not much cold air higher up in the atmosphere
(D) the temperature of rising air drops more slowly than it does in winter

In your test book, you will read:

(A) The exam was really awful.
(B) It was the worst exam she had ever seen.
(C) It couldn't have been more difficult.
(D) It wasn't that hard.

You learn from the conversation that the man thought the exam was very difficult and that the woman disagreed with the man. The best answer to the question, "What does the woman mean?" is (D), "It wasn't that hard." Therefore, the correct choice is (D).

Part C

Directions: In this part of the test, you will hear several talks. After each talk, you will hear some questions. The talks and questions will not be repeated.

After you hear a question, you will read the four possible answers in your test book and choose the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Here is an example.

On the recording, you will hear:

(narrator) *Listen to an instructor talk to his class about painting.*
(man) *Artist Grant Wood was a guiding force in the school of painting known as American regionalist, a style reflecting the distinctive characteristics of art from rural areas of the United States. Wood began drawing animals on the family farm at the age of three, and when he was thirty-eight one of his paintings received a remarkable amount of public notice and acclaim. This painting, called "American Gothic," is a starkly simple depiction of a serious couple staring directly out at the viewer.*

Now listen to a sample question.

Sample Answer

(narrator) *What style of painting is known as American regionalist?*

In your test book, you will read:
(A) Art from America's inner cities.
(B) Art from the central region of the United States.
(C) Art from various urban areas in the United States.
(D) Art from rural sections of America.

Questions 1–10

Niagara Falls, one of the most famous North American natural wonders, has long been a popular tourist destination. Tourists today flock to see the two falls that actually constitute Niagara Falls: the 173-foot-high Horseshoe Falls on the Canadian side of the Niagara River in the Canadian province of Ontario and the 182-foot-high American Falls on the U.S. side of the river in the state of New York. Approximately 85 percent of the water that goes over the falls actually goes over Horseshoe Falls, with the rest going over American Falls.

Line
(5)

Most visitors come between April and October, and it is quite a popular activity to take a steamer out onto the river and right up to the base of the falls for a close-up view. It is also possible to get a spectacular view of the falls from the strategic locations along the Niagara River, such as Prospect Point or Table Rock, or from one of the four observation towers which have heights up to 500 feet.

(10)

Tourists have been visiting Niagara Falls in large numbers since the 1800s; annual visitation now averages above 10 million visitors per year. Because of concern that all these tourists would inadvertently destroy the natural beauty of this scenic wonder, the state of New York in 1885 created Niagara Falls Park in order to protect the land surrounding American Falls. A year later Canada created Queen Victoria Park on the Canadian side of the Niagara, around Horseshoe Falls. With the area surrounding the falls under the jurisdiction of government agencies, appropriate steps could be taken to preserve the pristine beauty of the area.

Questions 11–19

What is commonly called pepper in reality comes from two very different families of plants. Black and white pepper both come from the fruit of the *Piper nigrum*, a vine with fruits called peppercorns. The peppercorns turn from green to red as they ripen and finally blacken as they dry out. The dried-out peppercorns are ground to obtain black pepper. White pepper, which has a more subtle flavor than black pepper, comes from the same peppercorns as black pepper; to obtain white pepper, the outer hull of the peppercorn, the pericarp, is removed before the peppercorn is ground.

Red and green peppers, on the other hand, come from a completely different family from black and white pepper. Red and green peppers are from the genus *Capsicum*. Plants of this type generally have tiny white flowers and fruit which can be any one of a number of colors, shapes, and sizes. These peppers range in flavor from very mild and sweet to the most incredibly burning taste imaginable. Bell peppers are the most mild, while habaneros are the most burning.

Christopher Columbus is responsible for the present-day confusion over what a pepper is. The *Piper nigrum* variety of pepper was highly valued for centuries, and high demand for pepper by Europeans was a major cause of the fifteenth-century push to locate ocean routes to the spice-growing regions of Asia. When Columbus arrived in the New World in 1492, he was particularly interested in finding black pepper because of the high price that it would command in Europe. Columbus came across plants from the *Capsicum* family in use among the people of the New World, and he incorrectly identified them as relatives of black pepper. Columbus introduced the spicy *Capsicum* chili peppers to Europeans on his return from the 1492 voyage, and traders later spread them to Asia and Africa. These *Capsicum* peppers have continued to be called peppers in spite of the fact that they are not related to the black and white pepper of the *Piper nigrum* family.

11. The purpose of this passage is to

    (A) explain why there is confusion today over peppers

Questions 20–31

Just two months after the flight of *Apollo 10,* the *Apollo 11* astronauts made their historic landing on the surface of the Moon. This momentous trip for humanity also provided scientists with an abundance of material for study; from rock and soil samples brought back from the Moon, scientists have been able to determine much about the composition of the Moon as well as to draw inferences about the development of the Moon from its composition.

Line
(5)

The Moon soil that came back on *Apollo 11* contains small bits of rock and glass which were probably ground from larger rocks when meteors impacted with the surface of the Moon. The bits of glass are spherical in shape and constitute approximately half of the Moon soil. Scientists found no trace of animal or plant life in this soil.

(10)

In addition to the Moon soil, astronauts gathered two basic types of rocks from the surface of the Moon: basalt and breccia. Basalt is a cooled and hardened volcanic lava common to the Earth. Since basalt is formed under extremely high temperatures, the presence of this type of rock is an indication that the temperature of the Moon was once extremely hot. Breccia, the other kind of rock brought back by the astronauts, was formed during the impact of falling objects on the surface of the

(15)

Moon. This second type of rock consists of small pieces of rock compressed together by the force of impact. Gases such as hydrogen and helium were found in some of the rocks, and scientists believe that these gases were carried to the Moon by the solar wind, the streams of gases that are constantly emitted by the Sun.

Questions 32–40

Today, the most universally known style of trousers for both men and women is jeans; these trousers are worn throughout the world on a variety of occasions and in diverse situations. Also called levis or denims, jeans have an interesting history, one that is intermixed with the derivations of the words *jeans*, *denims*, and *levis*.

The word *jeans* is derived from the name of the place where a similar style of pants developed. In the sixteenth century, sailors from Genoa, Italy, wore a rather unique type of cotton trousers. In the French language, the word for the city of Genoa and for the people from that city is Genes; this name became attached to the specific style of pants worn by the sailors from this city and developed into the word *jeans* that today describes the descendents of the Genovese sailors' cotton pants.

Similar to the word *jeans*, the word *denim* is also derived from a place name. In the seventeenth century, French tailors began making trousers out of a specialized type of cloth that was developed in the city of Nimes, France, and was known as *serge de Nimes*. This name for the cloth underwent some transformations, and it eventually developed into today's *denim*, the material from which jeans are made and an alternate name for these popular pants.

The word *levis* came from the name of a person rather than a place. In the nineteenth century, immigrant Levi Strauss came to America and tried his hand at selling heavy canvas to miners taking part in the hunt for gold in northern California. Strauss intended for this canvas to be used by miners to make heavy-duty tents. This first endeavor was a failure, but Strauss later found success when he used the heavy canvas to make indestructible pants for the miners. Levi then switched the fabric from brown canvas to blue denim, creating a style of pants that long outlived him and today is referred to by his name. A modern-day urban shopper out to buy some levis is searching for a close relative of the product that Strauss had developed years earlier.

Questions 41–50

During the heyday of the railroads, when America's rail system provided the bulk of the country's passenger and freight transportation, various types of railroad cars were in service to accomplish the varied tasks handled by the railroads. One type of car that was not available for public use prior to the Civil War, however, was a sleeping car; ideas for sleeping cars abounded at the time, but these ideas were unworkable. It unfortunately took the death of a president to make the sleeping car a viable reality.

Cabinet-maker George M. Pullman had recognized the demand for sleeping cars and had worked on developing experimental models of sleeping cars in the decade leading up to the Civil War. However, in spite of the fact that he had made successful test runs on the Chicago and Alton Railroads with his models, he was unable to sell his idea because his models were too wide and too high for existing train stations and bridges. In 1863, after spending time working as a storekeeper in a Colorado mining town, he invested his savings of twenty thousand dollars, a huge fortune at that time and all the money that he had in the world, in a luxurious sleeping car that he named the Pioneer. Pullman and friend Ben Field built the Pioneer on the site of the present-day Chicago Union Station. For two years, however, the Pioneer sat on a railroad siding, useless because it could not fit through train stations and over bridges.

Following President Lincoln's assassination in 1865, the state of Illinois, Lincoln's birthplace, wanted to transport the presidential casket in the finest fashion possible. The Pullman Pioneer was the most elegant car around; in order to make the Pullman part of the presidential funeral train in its run from Springfield to Chicago, the state cut down station platforms and raised bridges in order to accommodate the luxurious railway car. The Pullman car greatly impressed the funeral party, which included Lincoln's successor as president, General Ulysses S. Grant, and Grant later requested the Pioneer for a trip from Detroit to Chicago. To satisfy Grant's request for the Pioneer, the Michigan Central Railroad made improvements on its line to accommodate the wide car, and soon other railroads followed. George Pullman founded the Pullman Palace Car Company in partnership with financier Andrew Carnegie and eventually became a millionaire.

41. Which of the following best states the main idea of the passage?

Questions 1–10

The final battle of the War of 1812 was the Battle of New Orleans. This battle gave a clear demonstration of the need for effective communication during wartime; it also showed the disastrous results that can come to pass when communication is inadequate.

Line
(5) The War of 1812 was fought between Great Britain and the very young country of the United States only a relatively few years after the United States had won its independence from Britain. The United States had declared war against Britain in June of 1812, mostly because of interference with U.S. shipping by the British and because of the shanghaiing of U.S. sailors for enforced service on British vessels. The war lasted for a little more than two years, when a peace treaty was signed at Ghent, in Belgium, on the 24th of December, 1814.

(10) Unfortunately, the news that the Treaty of Ghent had been signed and that the war was officially over was not communicated in a timely manner over the wide distance to where the war was being contested. Negotiations for the treaty and the actual signing of the treaty took place in Europe, and news of the treaty had to be carried across the Atlantic to the war front by ship. A totally unnecessary loss of life was incurred as a result of the amount of time that it took to inform the combatants of the *(15)* treaty.

Early in January of 1815, some two weeks after the peace treaty had been signed, British troops in the southern part of the United States were unaware that the war had officially ended. Over 5,000 British troops attacked U.S. troops. During the ensuing battle, known as the Battle of New Orleans, the British suffered a huge number of casualties, around 2,000, and the Americans lost 71, all in a *(20)* battle fought only because news of the peace treaty that had already been signed in Ghent had not yet reached the battlefield.

Questions 11–21

Mount Rushmore is a well-known monument in the Black Hills of South Dakota that features the countenances of four United States presidents: Washington, Jefferson, Roosevelt, and Lincoln. What is not so well known is that the process of creating this national treasure was not exactly an uneventful one.

Mount Rushmore was the project of the visionary sculptor John Gutzen de la Mothe Borglum, who was born in Idaho but studied sculpture in Paris in his youth and befriended the famous French sculptor Auguste Rodin. In 1927 Borglum was granted a commission by the federal government to create the sculpture on Mount Rushmore. Though he was nearly sixty years old when he started, he was undaunted by the enormity of the project and the obstacles that it engendered. He optimistically asserted that the project would be completed within five years, not caring to recognize the potential problems that such a massive project would involve, the problems of dealing with financing, with government bureaucracy, and with Mother Nature herself. An example of what Mother Nature had to throw at the project was the fissure—or large crack—that developed in the granite where Jefferson was being carved. Jefferson had to be moved to the other side of Washington, next to Roosevelt because of the break in the stone. The work that had been started on the first Jefferson had to be dynamited away.

Mount Rushmore was not completed within the five years predicted by Borglum and was in fact not actually completed within Borglum's lifetime, although it was almost finished. Borglum died on March 6, 1941, at the age of seventy-four, after fourteen years of work on the presidents. His son, Lincoln Borglum, who had worked with his father throughout the project, completed the monument within eight months of his father's death.

Questions 22–31

Carbon dating can be used to estimate the age of any organic natural material; it has been used successfully in archeology to determine the age of ancient artifacts or fossils as well as in a variety of other fields. the principle underlying the use of carbon dating is that carbon is a part of all living
Line things on Earth. Since a radioactive substance such as carbon-14 has a known half-life, the amount of
(5) carbon-14 remaining in an object can be used to date that object.

Carbon-14 has a half-life of 5,570 years, which means that after that number of years half of the carbon-14 atoms have decayed into nitrogen-14. It is the ratio of carbon-14 to nitrogen-14 in that substance that indicates the age of the substance. If, for example, in a particular sample the amount of carbon-14 is roughly equivalent to the amount of nitrogen-14, this indicates that around half of the
(10) carbon-14 has decayed into nitrogen-14, and the sample is approximately 5,570 years old.

Carbon dating cannot be used effectively in dating objects that are older than 80,000 years. When objects are that old, much of the carbon-14 has already decayed into nitrogen-14, and the minuscule amount that is left does not provide a reliable measurement of age. In the case of older objects, other age-dating methods are available, methods which use radioactive atoms with longer
(15) half-lives than carbon has.

22. This passage is mainly about

    (D) It can decay into nitrogen-14.

Questions 32–40

Madison Square Garden, a world-famous sporting venue in New York City, has actually been a series of buildings in varied locations rather than a single building in one spot. In 1873, P. T. Barnum built Barnum's Monster Classical and Geological Hippodrome at the corner of Madison Avenue and
Line 26th Street, across from Madison Square Park. Two years later, bandleader Patrick Gilmore bought
(5) the property, added statues and fountains, and renamed it Gilmore's Gardens. When Cornelius Vanderbilt bought the property in 1879, it was renamed Madison Square Garden.

A second very lavish Madison Square Garden was built at the same location in 1890, with a ballroom, a restaurant, a theater, a rooftop garden, and a main arena with seating for 15,000. However, this elaborate Madison Square Garden lasted only until 1924, when it was torn down to
(10) make way for a forty-story skyscraper.

When the second Madison Square Garden had been replaced in its location across from Madison Square Park, boxing promoter Tex Rickard raised six million dollars to build a new Madison Square Garden. This new Madison Square Garden was constructed in a different location, on 8th Avenue and 50th Street and quite some distance from Madison Square Park and Madison Avenue.
(15) Rickard's Madison Square Garden served primarily as an arena for boxing prizefights and circus events until it outgrew its usefulness by the late 1950s.

A new location was found for a fourth Madison Square Garden, atop Pennsylvania Railroad Station, and plans were announced for its construction in 1960. This current edifice, which includes a huge sports arena, a bowling center, a 5,000-seat amphitheater, and a twenty-nine-story office
(20) building, does retain the traditional name Madison Square Garden. However, the name is actually quite a misnomer. The building is not located near Madison Square, nor does it have the flowery gardens that contributed to the original name.

Questions 41–50

It is often the case with folktales that they develop from actual happenings but in their development lose much of their factual base; the story of Pocahontas quite possibly fits into this category of folktale. This princess of the Powhatan tribe was firmly established in the lore of early America and has been made even more famous by the Disney film based on the folktale that arose from her life. She was a real-life person, but the actual story of her life most probably differed considerably from the folktale and the movie based on the folktale.

Powhatan, the chief of a confederacy of tribes in Virginia, had several daughters, none of whom was actually named Pocahontas. The nickname means "playful one," and several of Powhatan's daughters were called Pocahontas. The daughter of Powhatan who became the subject of the folktale was named Matoaka. What has been verified about Matoaka, or Pocahontas as she has come to be known, is that she did marry an Englishman and that she did spend time in England before she died there at a young age. In the spring of 1613, a young Pocahontas was captured by the English and taken to Jamestown. There she was treated with courtesy as the daughter of chief Powhatan. While Pocahontas was at Jamestown, English gentleman John Rolfe fell in love with her and asked her to marry. Both the governor of the Jamestown colony and Pocahontas's father Powhatan approved the marriage as a means of securing peace between Powhatan's tribe and the English at Jamestown. In 1616, Pocahontas accompanied her new husband to England, where she was royally received. Shortly before her planned return to Virginia in 1617, she contracted an illness and died rather suddenly.

A major part of the folktale of Pocahontas that is unverified concerns her love for English Captain John Smith in the period of time before her capture by the British and her rescue of him from almost certain death. Captain John Smith was indeed at the colony of Jamestown and was acquainted with Powhatan and his daughters; he even described meeting them in a 1612 journal. However, the story of his rescue by the young maiden did not appear in his writings until 1624, well after Pocahontas had aroused widespread interest in England by her marriage to an English gentleman and her visit to England. It is this discrepancy in dates that has caused some historians to doubt the veracity of the tale. However, other historians do argue quite persuasively that this incident did truly take place.

    (A) developed from
    (B) went up with

Questions 1–10

A rather surprising geographical feature of Antarctica is that a huge freshwater lake, one of the world's largest and deepest, lies hidden there under four kilometers of ice. Now known as Lake Vostok, this huge body of water is located under the ice block that comprises Antarctica. The lake is able to exist in its unfrozen state beneath this block of ice because its waters are warmed by geothermal heat from the earth's core. The thick glacier above Lake Vostok actually insulates it from the frigid temperatures (the lowest ever recorded on Earth) on the surface.

The lake was first discovered in the 1970s while a research team was conducting an aerial survey of the area. Radio waves from the survey equipment penetrated the ice and revealed a body of water of indeterminate size. It was not until much more recently that data collected by satellite made scientists aware of the tremendous size of the lake; the satellite-borne radar detected an extremely flat region where the ice remains level because it is floating on the water of the lake.

The discovery of such a huge freshwater lake trapped under Antarctica is of interest to the scientific community because of the potential that the lake contains ancient microbes that have survived for thousands upon thousands of years, unaffected by factors such as nuclear fallout and elevated ultraviolet light that have affected organisms in more exposed areas. The downside of the discovery, however, lies in the difficulty of conducting research on the lake in such a harsh climate and in the problems associated with obtaining uncontaminated samples from the lake without actually exposing the lake to contamination. Scientists are looking for possible ways to accomplish this.

Questions 11–21

In the American colonies there was little money. England did not supply the colonies with coins and it did not allow the colonies to make their own coins, except for the Massachusetts Bay Colony, which received permission for a short period in 1652 to make several kinds of silver coins. England
Line wanted to keep money out of America as a means of controlling trade: America was forced to trade
(5) only with England if it did not have the money to buy products from other countries. The result during this prerevolutionary period was that the colonists used various goods in place of money: beaver pelts, Indian wampum, and tobacco leaves were all commonly used substitutes for money. The colonists also made use of any foreign coins they could obtain. Dutch, Spanish, French, and English coins were all in use in the American colonies.

(10) During the Revolutionary War, funds were needed to finance the war, so each of the individual states and the Continental Congress issued paper money. So much of this paper money was printed that, by the end of the war, almost no one would accept it. As a result trade in goods and the use of foreign coins still flourished during this period.

By the time the Revolutionary War had been won by the American colonists, the monetary
(15) system was in a state of total disarray. To remedy this situation, the new Constitution of the United States, approved in 1789, allowed Congress to issue money. The individual states could no longer have their own money supply. A few years later, the Coinage Act of 1792 made the dollar the official currency of the United States and put the country on a bimetallic standard. Questions 22–30

The human brain, with an average weight of 1.4 kilograms, is the control center of the body. It receives information from the senses, processes the information, and rapidly sends out responses; it also stores the information that is the source of human thoughts and feelings. Each of the three main parts of the brain—the cerebrum, the cerebellum, and the brain stem—has its own role in carrying out these functions.

The cerebrum is by far the largest of the three parts, taking up 85 percent of the brain by weight. The outside layer of the cerebrum, the cerebral cortex, is a grooved and bumpy surface covering the nerve cells beneath. The various sections of the cerebrum are the sensory cortex, which is responsible for receiving and decoding sensory messages from throughout the body; the motor cortex, which sends action instructions to the skeletal muscles; and the association cortex, which receives, monitors, and processes information. It is in the association cortex that the processes that allow humans to think take place.

The cerebellum, located below the cerebrum in the back part of the skull, is made of masses of bunched up nerve cells. It is the cerebellum that controls human balance, coordination, and posture.

The brain stem, which connects the cerebrum and the spinal cord, controls various body processes such as breathing and heartbeat. It is the major motor and sensory pathway connecting the body and the cerebrum.

Questions 31–41

Though Edmund Halley was most famous because of his achievements as an astronomer, he was a scientist of diverse interests and great skill. In addition to studying the skies, Halley was also deeply interested in exploring the unknown depths of the oceans. One of his lesser-known
Line accomplishments that was quite remarkable was his design for a diving bell that facilitated
(5) exploration of the watery depths.

The diving bell that Halley designed had a major advantage over the diving bells that were in use prior to his. Earlier diving bells could only make use of the air contained within the bell itself, so divers had to surface when the air inside the bell ran low. Halley's bell was an improvement in that its design allowed for an additional supply of fresh air that enabled a crew of divers to remain
(10) underwater for several hours.

The diving contraption that Halley designed was in the shape of a bell that measured three feet across the top and five feet across the bottom and could hold several divers comfortably; it was open at the bottom so that divers could swim in and out at will. The bell was built of wood, which was first heavily tarred to make it water repellent and was then covered with a half-ton sheet of lead to make
(15) the bell heavy enough to sink in water. The bell shape held air inside for the divers to breathe as the bell sank to the bottom.

The air inside the bell was not the only source of air for the divers to breathe, and it was this improvement that made Halley's bell superior to its predecessors. In addition to the air already in the bell, air was also supplied to the divers from a lead barrel that was lowered to the ocean floor close to
(20) the bell itself. Air flowed through a leather pipe from the lead barrel on the ocean floor to the bell. The diver could breath the air from a position inside the bell, or he could move around outside the bell wearing a diving suit that consisted of a lead bell-shaped helmet with a glass viewing window and a leather body suit, with a leather pipe carrying fresh air from the diving bell to the helmet.

Questions 42–50

Paul Bunyan is perhaps America's best-known folk hero. A fictional logger of incredible strength, he was most likely based on an actual nineteenth-century logger from the northern United States or Canada. As a folk hero, he struck a chord with Americans on some level, perhaps because he
Line was incredibly strong but also because he was hard-working and capable, ingenious in solving
(5) problems, and fun-loving.

Though there is evidence that Paul Bunyan tales were part of oral tradition in the nineteenth century, Paul Bunyan stories did not appear in written form until the early twentieth century. Journalist James McGillivray included descriptions of Bunyan in a series of essays entitled "The Round River Drive," which appeared in a number of Midwestern newspapers between 1906 and 1910.
(10) However, it was through an extensive advertising campaign that Paul Bunyan moved solidly into print.

Recognizing the appeal of Paul Bunyan as a figure for his company's advertising, William Laughead, an advertising executive for the Red River Lumber Company, initiated a campaign that consisted of a series of publications featuring Paul Bunyan. For several decades, the company
(15) distributed these publications free of charge and made no attempt to obtain a copyright on them. In fact, the company vigorously encouraged other writers to make use of Paul Bunyan because it felt that the use of this character enhanced the name recognition of the Red River Lumber Company inasmuch as the name of the folk hero and the name of the company had become interwoven.

The Bunyan stories published by Red River and further circulated by others were tall tales of
(20) gigantic proportions. In these tales, Bunyan is depicted as a man of superhuman proportions, who is strong, hard-working, entrepreneurial, and innovative. In one story, for example, Paul is credited with digging the Great Lakes in order to create a watering hole for his giant ox, Babe. In another of these tales, Paul caused an entire winter of blue snow to fall by swearing a blue streak after he injured himself by smashing his thumb with a large hammer. A third story in the series describes Paul's role
(25) in establishing the Mississippi River.

Fascination with Paul Bunyan has continued to grow, and today he is a standard of American folklore. The prevalence of Bunyan as a figure of folklore today is evidenced by references to him in countless stories, cartoons, poems, and songs as well as the numerous community festivals and logging competitions featuring Paul Bunyan that can be found throughout the sections of the country
(30) where logging has a strong tradition.

42. The purpose of this passage is to

    (A) present the actual feats of a real-life logger
    (B) discuss a "larger than life" folk hero
    (C) describe logging in North America
    (D) provide an overview of American folktales

Part C

Directions: In this part of the test, you will hear several talks. After each talk, you will hear some questions. The talks and questions will not be repeated.

After you hear a question, you will read the four possible answers in your test book and choose the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Here is an example.

On the recording, you will hear:

(narrator) *Listen to an instructor talk to his class about painting.*
(man) *Artist Grant Wood was a guiding force in the school of painting known as American regionalist, a style reflecting the distinctive characteristics of art from rural areas of the United States. Wood began drawing animals on the family farm at the age of three, and when he was thirty-eight one of his paintings received a remarkable amount of public notice and acclaim. This painting, called "American Gothic," is a starkly simple depiction of a serious couple staring directly out at the viewer.*

Now listen to a sample question.

Sample Answer

(narrator) *What style of painting is known as American regionalist?*

In your test book, you will read:

(A) Art from America's inner cities.
(B) Art from the central region of the United States.
(C) Art from various urban areas in the United States.
(D) Art from rural sections of America.

The best answer to the question, "What style of painting is known as American regionalist?" is (D), "Art from rural sections of America." Therefore, the correct choice is (D).

Now listen to another sample question.

Sample Answer

(narrator) *What is the name of Wood's most successful painting?*

In your test book, you will read:

(A) "American Regionalist."
(B) "The Family Farm in Iowa."
(C) "American Gothic."
(D) "A Serious Couple."

The best answer to the question, "What is the name of Wood's most successful painting?" is (C), "American Gothic." Therefore, the correct choice is (C).

Questions 1–11

Harvard University, today recognized as part of the top echelon of the world's universities, came from very inauspicious and humble beginnings.

This oldest of American universities was founded in 1636, just sixteen years after the Pilgrims landed at Plymouth. Included in the Puritan emigrants to the Massachusetts colony during this period were more than 100 graduates of England's prestigious Oxford and Cambridge universities, and these university graduates in the New World were determined that their sons would have the same educational opportunities that they themselves had had. Because of this support in the colony for an institution of higher learning, the General Court of Massachusetts appropriated 400 pounds for a college in October of 1636 and early the following year decided on a parcel of land for the school; this land was in an area called Newetowne, which was later renamed Cambridge after its English cousin and is the site of the present-day university.

When a young minister named John Harvard, who came from the neighboring town of Charlestowne, died from tuberculosis in 1638, he willed half of his estate of 1,700 pounds to the fledgling college. In spite of the fact that only half of the bequest was actually paid, the General Court named the college after the minister in appreciation for what he had done. The amount of the bequest may not have been large, particularly by today's standards, but it was more than the General Court had found it necessary to appropriate in order to open the college.

Henry Dunster was appointed the first president of Harvard in 1640, and it should be noted that in addition to serving as president, he was also the entire faculty, with an entering freshman class of four students. Although the staff did expand somewhat, for the first century of its existence the entire teaching staff consisted of the president and three or four tutors.

Questions 12–21

A binary star is actually a pair of stars that are held together by the force of gravity. Although occasionally the individual stars that compose a binary star can be distinguished, they generally appear as one star. The gravitational pull between the individual stars of a binary star causes one to
Line orbit around the other. From the orbital pattern of a binary, the mass of its stars can be determined:
(5) the gravitational pull of a star is in direct proportion to its mass, and the strength of the gravitational force of one star on another determines the orbital pattern of the binary.

Scientists have discovered stars that seem to orbit around an empty space. It has been suggested that such a star and the empty space really composed a binary star. The empty space is known as a "black hole," a star with such strong gravitational force that no light is able to get through. Although
(10) the existence of black holes has not been proven, the theory of their existence has been around for about two centuries, since the French mathematician Pierre Simon de Laplace first proposed the concept at the end of the eighteenth century. Scientific interest in this theory has been intense in the last few decades. However, currently the theory is unproven. Black holes can only be potentially identified based on the interactions of objects around them, as happens when a potential black hole is
(15) part of a binary star; they, of course, cannot be seen because of the inability of any light to escape the star's powerful gravity.

12. A binary star could best be described as

    (A) stars that have been forced apart
    (B) a star with a strong gravitational force
    (C) two stars pulled together by gravity
    (D) a large number of attached stars

    (A) One star circles the other.
    (B) The mass of the binary star increases.
    (C) A black hole is destroyed.
    (D) The gravitational force decreases.

15. The word "proportion" in line 5 is closest in meaning to which of the following?

    (A) Contrast
    (B) Ratio
    (C) Inversion
    (D) Force

16. A "black hole" in line 9 is

    (A) an empty space around which nothing orbits
    (B) a star with close to zero gravity
    (C) a star whose gravitational force blocks the passage of light
    (D) an empty space so far away that no light can reach it

17. Which of the following statements about black holes is NOT supported by the passage?

    (A) A black hole can have a star orbiting around it.
    (B) A binary star can be composed of a black hole and a visible star.
    (C) All empty space contains black holes.
    (D) The gravitational pull of a black hole is strong.

Questions 22–30

Clara Barton is well known for her endeavors as a nurse on the battlefield during the Civil War and for her role in founding the American Red Cross. She is perhaps not as well known, however, for her role in establishing a bureau for tracing missing soldiers following the Civil War.

Line At the close of the Civil War, the United States did not have in place any agency responsible for *(5)* accounting for what had happened to the innumerable men who had served in the military during the war, and many families had no idea as to the fate of their loved ones. Families were forced to agonize endlessly over where their loved ones were, what kind of shape they were in, whether or not they would return, and what had happened to them.

Clara Barton developed a system for using print media to publish the names of soldiers known *(10)* to have been wounded or killed during various battles of the Civil War. She was prepared to publish names that she herself had gathered on the battlefield as well as information gathered from others. She made numerous unsuccessful attempts to interest various government officials in her plan. However, it was not until Henry Wilson, a senator from the state of Massachusetts, took up her cause and presented her plan to President Lincoln that her plan was implemented.

(15) With Lincoln's assistance, Clara Barton was set up in a small government office with funding for a few clerks and the authority to examine military records. She and her clerks gathered and compiled information from military records and battlefield witnesses and published it in newspapers and magazines. Clara Barton operated this missing persons bureau for four years, from the end of the war in 1865 until 1869. During this period, she and her staff put out more than 100,000 printed lists, *(20)* answered more than 60,000 letters, and accounted for more than 20,000 missing soldiers.

Questions 31–40

Mutualism is a type of symbiosis that occurs when two unlike organisms live together in a state that is mutually beneficial. It can exist between two animals, between two plants, or between a plant and an animal. Mutualism is unlike the symbiotic state of commensalism in that commensalism is a one-sided state in which a host gives and a guest takes, while in mutualism both partners live on a give-and-take basis.

In the African wilds, the zebra and the ostrich enjoy a symbiotic relationship that enhances the ability of each of these large land animals to survive. Both serve as prey for the lion, and neither has the capability alone to withstand an attack from this fierce hunter. However, when the zebra and the ostrich collaborate in their defense by alerting each other to possible danger from an approaching predator, the lion is rarely able to capture more than the oldest or feeblest of the herd.

The complementary physical strengths and weaknesses of the ostrich and the zebra allow them to work in coordination to avoid succumbing to the lion. The ostrich, the largest flightless bird in the world, possesses great speed and keen eyesight, which enable it to spot large predatory animals long before they are able to position themselves to attack. The zebra, with a running speed equal to that of the ostrich, has excellent hearing and a good sense of smell but lacks the sharp eyesight of the ostrich. When ostriches and zebras intermix for grazing, each animal benefits from the ability of the other to detect approaching danger. If either animal senses danger, both animals are alerted and take off. With the running speed that both of these animals possess, they are able to outrun any predator except the cheetah.

Questions 41–50

Esperanto is what is called a planned, or artificial, language. It was created more than a century ago by Polish eye doctor Ludwik Lazar Zamenhof. Zamenhof believed that a common language would help to alleviate some of the misunderstandings among cultures.

Line In Zamenhof's first attempt at a universal language, he tried to create a language that was as *(5)* uncomplicated as possible. This first language included words such as *ab, ac, ba, eb, be,* and *ce.* This did not result in a workable language in that these monosyllabic words, though short, were not easy to understand or to retain.

Next, Zamenhof tried a different way of constructing a simplified language. He made the words in his language sound like words that people already knew, but he simplified the grammar *(10)* tremendously. One example of how he simplified the language can be seen in the suffixes: all nouns in this language end in *o,* as in the noun *amiko,* which means "friend," and all adjectives end in *-a,* as in the adjective *bela,* which means "pretty." Another example of the simplified language can be seen in the prefix *mal-,* which makes a word opposite in meaning; the word *malamiko* therefore means "enemy," and the word *malbela* therefore means "ugly" in Zamenhof's language.

(15) In 1887, Zamenhof wrote a description of this language and published it. He used a pen name, Dr. Esperanto, when signing the book. He selected the name Esperanto because this word means "a person who hopes" in his language. Esperanto clubs began popping up throughout Europe, and by 1905, Esperanto had spread from Europe to America and Asia.

In 1905, the First World Congress of Esperanto took place in France, with approximately 700 *(20)* attendees from 20 different countries. Congresses were held annually for nine years, and 4,000 attendees were registered for the Tenth World Esperanto Congress scheduled for 1914, when World War I erupted and forced its cancellation.

Esperanto has had its ups and downs in the period since World War I. Today, years after it was introduced, it is estimated that perhaps a quarter of a million people are fluent in it. This may seem *(25)* like a large number, but it is really quite small when compared with the billion English speakers and billion Mandarin Chinese speakers in today's world. Current advocates would like to see its use grow considerably and are taking steps to try to make this happen.

Questions 31–34

(narrator) Listen to a conversation on a university campus.

(man) You seem to know your way around campus. Have you been here long?

(woman) I'm a senior literature major. I'll be graduating next June.

(man) Your major is literature? Mine is, too. But I'm just beginning my work in my major. I just transferred to this university from a junior college. Perhaps you could tell me about the courses you've got to take for a literature major.

(woman) Well, for a literature major you need to take eight courses, three required courses and five electives. First, you have to take "Survey of World Literature, Parts One and Two." This is really two courses, and it'll take two semesters, and it's required for all literature majors. The other course required for all literature majors is "Introduction to Literary Analysis."

(man) You mean, if I want to specialize in American literature, I still must take two semesters of world literature?

(woman) Yes, because the two semesters are required for all literature majors.

(man) But I only want to study American literature!

(woman) At least you can take all of your five elective courses in the area that you want.

(man) That's what I'll do then.

31. WHAT IS THE WOMAN'S STATUS AT THE UNIVERSITY?
32. WHAT DOES THE MAN WANT TO LEARN FROM THE WOMAN?

34. THE MAN WILL PROBABLY TAKE HIS ELECTIVE COURSES IN WHICH AREA?

Questions 35–38

(narrator) Listen to a conversation between two friends.

(woman) Wasn't that a fascinating lecture on dolphins? I didn't know that dolphins traveled in such large groups or were able to communicate with other members of their group with those whistle-like sounds.

(man) And they also use clicks as a sort of sonar.

(woman) I really couldn't understand that part of the lecture. You could?

(man) Yes, the dolphins use clicks to identify objects in the water; they can even identify tiny objects more than 100 meters away using these clicks. Scientists believe that a dolphin may even have a sonar-like image in its brain of a distant object so that it can identify the object long before the dolphin can actually see the object.

(woman) So the dolphins use these clicks mostly to identify objects in the water?

(man) I think so, and they have considerably more ability to do this than humans do.

(woman) It is hard to believe that, in addition to these sonar clicks, dolphins are actually learning some human language.

(man) Yes, I believe that the lecturer said that some dolphins had already learned around fifty human commands, and that those dolphins were able to understand not only individual words but words clustered together in sentences!

(woman) Dolphins must certainly be amazing animals to do all of that.

(man) I'm sure they are, and we're only just beginning to find out how intelligent they are.

35. WHERE DID THE WOMAN LEARN ABOUT DOLPHINS?
36. WHY DO DOLPHINS USE CLICKS?
37. APPROXIMATELY HOW MANY HUMAN COMMANDS HAVE SOME DOLPHINS LEARNED?
38. WHAT DOES THE MAN SAY ABOUT DOLPHIN INTELLIGENCE?

Questions 39–42

(narrator) Listen to a welcome address by a member of a club.

(woman) Welcome to this introductory meeting for new members of the Sierra Club. The Sierra Club is an organization whose goals are centered on the protection of the environment. It was founded in 1892 in San Francisco by naturalist John Muir, who was intent on preserving the natural beauty and harmony of the Sierra Nevadas in eastern California.

Today the Sierra Club boasts almost 200,000 members in all fifty states of the United States. Through activities such as conferences, lectures, exhibits, and films, the organization works to continue the effort begun by John Muir. The Sierra Club also publishes a weekly newsletter, a bimonthly magazine, and various books.

Questions 43–46

(narrator) Listen to a talk by a university employee.

(man) The next stop on our campus tour for new freshmen is the university sports complex. This university has extensive sports facilities and is dedicated to providing maximum student access to these facilities.

On the right you can see the university stadium, which is used for football and soccer as well as track and field. The gymnasium straight ahead contains the arena that is used for basketball and gymnastics. The gymnasium also includes an up-to-date exercise room with a large variety of the latest equipment; the exercise room is open to any student with valid student I.D., not just members of athletic teams. The pool complex is behind the gymnasium, and that is also open for general student use, except when the swim team, the diving team, or the water polo team is practicing.

To the left, you can see the tennis courts and outdoor volleyball courts. It is possible to take instruction classes in these sports, or you are welcome to sign up for court time at the Athletic Department office if you just want to play with some of your friends.

These are just some of the sports facilities that are available to you here, but I think you can see that this university makes an effort to provide the best opportunity for its students to take part in sports. Now, let's continue on to the Art Center.

43. WHO IS PROBABLY LISTENING TO THIS TALK?
44. WHAT IS NEEDED TO GET INTO THE EXERCISE ROOM?
45. WHERE SHOULD A STUDENT GO TO RESERVE A TENNIS COURT?
46. WHAT WILL THE STUDENTS PROBABLY DO NEXT?

Questions 47–50

(narrator) Listen to a talk given by a professor.

(woman) Today's lecture is on the difference between the two literary styles of realism and naturalism. These two styles have in common a faithfulness to actual experience and a mistrust of idealism.

Although they do have several similarities, realism and naturalism should be clearly differentiated. The realist objectively reports on events, with the accuracy of the description as the prime motive. The naturalist, on the other hand, has more of a philosophic bent; naturalist writings express the writer's philosophy that human actions are determined by natural laws such as heredity and environment.

47. THIS TALK WOULD PROBABLY BE GIVEN IN WHICH OF THE FOLLOWING COURSES?
48. WHAT POINT IS THE SPEAKER TRYING TO MAKE ABOUT REALISM AND NATURALISM?
49. WHICH OF THE FOLLOWING BEST DESCRIBES REALISM?
50. WHICH OF THE FOLLOWING DOES NOT INFLUENCE HUMAN ACTIONS, ACCORDING TO NATURALIST IDEAS?

(narrator) Listen to the following conversation about a part-time job.

(man) I'm looking for a part-time job on campus.

(woman) Then you've come to the right place. The campus employment office is here just to help students like you find jobs on campus.

(man) I'm glad to hear that because I really need to start earning some money.

(woman) Let me ask you some questions to help determine what kind of job would be best. First of all, how many hours a week do you want to work?

(man) I need to work at least ten hours a week, and I don't think I can handle more than twenty hours with all the courses I'm taking.

(woman) And when are you free to work?

(man) All of my classes are in the morning, so I can work every weekday from noon on. And of course I wouldn't mind working on the weekends.

(woman) I'll try to match you up with one of our on-campus student jobs. Please fill out this form with some additional information about your skills, and leave the form with me today. Then you can call me back tomorrow, and maybe I'll have some news for you.

Questions 6–10

(narrator) Listen to a conversation between two friends.

(woman) Hi, Jack. It's good to see you again. Are you ready to get down to business again after spring break?

(man) Not really, but I guess I don't really have too much choice, do I? And it's going to be particularly hard to get back to work since I just had the most fantastic vacation ever.

(woman) Really? What did you do?

(man) I went kayaking on the Klamath River.

(woman) Kayaking?

(man) Yes, you know what a kayak is, don't you? It's a long, narrow boat, the kind first used by the Eskimos. It's quite popular now on white-water rivers.

(woman) Oh, I know what a kayak is. I was just surprised that you would take a trip like that. Weren't you scared?

(man) At first, I was. But after I learned some techniques for maneuvering the kayak, it wasn't so bad. We didn't start out on the river. We had three whole days of instruction in a shallow pool

first. Then, when we finally got out on the river, I felt ready for it.

(woman) Did you spend the nights camping outside on the ground? That alone would make the trip unappealing to me.

(man) Oh, no. The accommodations were fantastic. Each person on the trip had a private cabin, and the facilities included a hot tub, a lodge where you could have a drink and relax, and a top-notch cafeteria with great food.

(woman) Now, that part of the trip does sound good to me. But I don't think I'd like the part that involves riding through rough water in a small kayak.

(man) Oh, you should try it; I know you'd like it. I'm going to do it again myself as soon as I can afford to spend the time and the money.

(woman) Well, better you than me.

6. WHEN DOES THE CONVERSATION PROBABLY TAKE PLACE?
7. WHAT ARE THE MAN AND WOMAN DISCUSSING?

Conversation 3

Questions 11–15

(narrator) Listen to a conversation between two classmates.

(man) Did you read the article that the professor assigned for tomorrow's class? It was really interesting.

(woman) No, not yet. What was it about?

(man) It was about pollution, specifically one kind of pollution called acid rain.

(woman) Why is it called acid rain?

(man) It's called acid rain because the rain or some other kind of precipitation has been polluted with acid.

(woman) Where does the acid come from?

(man) From cars or factories, anything that burns coal or oil. These are made up mostly of sulfur dioxide and nitrogen oxides, which react with water vapor to form sulfuric acid or nitric acid.

(woman) You mean that when coal or oil is burned, acid gets formed. And when it rains or snows, the acids fall back on earth?

(man) Exactly. That's why it's so dangerous. Acid rain has been falling over areas of northern America and northern Europe, and if this isn't checked, the effect on the water supply and plant and animal life could be disastrous.

(woman) This is something important. I really need to read that article.

11. WHAT IS THE TOPIC OF THIS CONVERSATION?

Questions 1–4

(narrator) Listen to a man asking a woman for directions.

(man) Can you tell me how to get to the Music Building from here? I have a lecture to attend there.

(woman) Oh, are you new to campus?

(man) Yes, I just got here last night.

(woman) Well, to get to the Music Building, you have two choices. If you want to go right now, you can walk straight down this street until you're past the Commons, and then turn right. The Music Building will be straight ahead.

(man) How long will it take to get there?

(woman) About twenty minutes.

(man) What's my other choice?

(woman) If you don't mind waiting around for a while, you can take the shuttle bus. The bus only takes about five minutes to get there.

(man) But I have to wait for the bus?

(woman) That's right.

(man) Well, I guess I might as well walk.

1. WHERE DOES THE MAN WANT TO GO?
2. HOW MANY DIFFERENT ROUTES TO THE MUSIC BUILDING DOES THE WOMAN SUGGEST?

Questions 5–9

(narrator) Listen to a woman talk to a friend about her vacation.

(man) How was your trip to Wyoming last summer?

(woman) It was fantastic. Some of the most beautiful scenery in the country is in Wyoming.

(man) Where did you go in Wyoming?

(woman) We drove by Devil's Tower National Monument, and we spent a few days in Laramie. But we spent most of our vacation in Yellowstone National Park.

(man) You went to Yellowstone? I wish I could've gone! I've heard that Yellowstone is just magnificent.

(woman) It's the oldest and largest national park in the United States. And it's got

spectacular waterfalls, hot springs, and geysers.

(man) Did you see Old Faithful?

(woman) Of course we saw Old Faithful. It's the best known of the geysers there. We couldn't visit Yellowstone without seeing Old Faithful.

Questions 10–13

(narrator) Listen to a conversation between two friends.

(man) How are you going to spend this year's Thanksgiving vacation?

(woman) I'm going to spend it with my family. We celebrate very traditionally. We go to my grandparents' house and have a big Thanksgiving dinner. It's really the only time in the year that my whole family gets together.

(man) In my family we just have a big feast, too. We don't really stop and think about how Thanksgiving Day developed, how new colonists in Massachusetts had a three-day feast to give thanks for surviving the first terrible winter and for gathering their first corn harvest the following year.

(woman) Did you know that the original Thanksgiving Day was celebrated in July?

(man) No, I thought Thanksgiving had always been in November.

(woman) The first Thanksgiving was celebrated on July 30, 1623. After that, Thanksgiving was celebrated at many different times. It wasn't until 1863 that Abraham Lincoln declared the last Thursday in November as a day of thanksgiving, and this holiday has been celebrated in November ever since.

10. WHAT IS THE SUBJECT OF THIS CONVERSATION?
11. HOW WILL THE WOMAN SPEND THANKSGIVING?
12. WHAT WERE THE MASSACHUSETTS COLONISTS THANKFUL FOR?
13. ACCORDING TO THE SPEAKER, WHEN IS THANKSGIVING CELEBRATED TODAY?

Questions 1–5

(narrator) Listen to a talk given by a professor.

(woman) Welcome to Biology 101. I'm Professor Martin, and this is your laboratory assistant, Peter Smith. This course meets twice a week for lecture and once a week for laboratory assignments.

The text for this course is *Introduction to Biological Sciences,* by Abramson. You should get the text and read the first chapter before the next class. You will also need to get the laboratory manual that accompanies the text.

I've passed out a copy of the course syllabus. This syllabus lists the reading assignments and exam dates. Note that we will cover one chapter a week for each of the next fifteen weeks in the semester, and there will be three exams throughout the course.

Grades in this course are based on your exam grades and your grades on the laboratory assignments. Are there any questions?

3. WHAT IS THE ASSIGNMENT FOR THE NEXT CLASS?

Questions 6–10

(narrator) Listen to a lecture given by a professor.

(man) In yesterday's class, we discussed the volcanoes located in the area known as the Ring of Fire, an area which basically encircles the Pacific and includes the United States' Mount St. Helens as well as Japan's Mt. Fuji and Argentina's Aconcagua, the highest mountain in the western hemisphere. Most of the world's approximately 500 active volcanoes are located along the Ring of Fire, and the eruptions that take place there are among the most violent in the world.

Today, we are going to discuss the volcanoes of Hawaii, which are quite different from the volcanoes in the Ring of Fire. Hawaiian volcanoes are not located along the Ring of Fire and are therefore not caused by the movement of the Earth's plates against each other. Instead, Hawaii is located in the middle of the Ring of Fire, above a massive plate rather than where two plates meet. The result is that Hawaiian volcanoes are much gentler than those in the Ring of Fire: Hawaiian volcanoes have much less gas in them, which causes less explosive eruptions, and the lava in Hawaiian volcanoes is thinner, which results in mounds that are long and low rather than high and steep because the lava flows farther and builds mounds gradually with long, low slopes. Mauna Loa, the name of one of Hawaii's most famous volcanoes, actually means "long mountain."

Questions 11–15

(narrator) Listen to a talk about the Smithsonian.

(woman) I hope you've enjoyed your visit so far in Washington, D.C. Today, we're going on a tour of the Smithsonian.

The Smithsonian is actually several museums, each with a different focus, situated together on a mall. These museums in total have more than sixty million items on exhibit. The first Smithsonian museum we'll visit is the Museum of Natural History, which has various types of stuffed animals, and exhibits showing the lifestyles of early American Indians and Eskimos. From the Museum of Natural History, we'll go on to the National Air and Space Museum, where we'll see displays that show the development of flight. In this museum you can see the airplane that Orville Wright used to make his first flight and the airplane that Charles Lindbergh used to cross the Atlantic. After we visit those two museums as a group, you'll have free time to visit some of the other Smithsonian museums: the Museum of American History, the Smithsonian Arts and Industries Building, and the various art museums located on the Smithsonian Mall. After our trip to the Smithsonian today, we'll go on to the White House and Capitol Building tomorrow.

11. WHO IS PROBABLY GIVING THIS TALK?

13. ACCORDING TO THE TALK, WHICH MUSEUM HAS EXHIBITS OF EARLY ESKIMOS?

Talk 1

Questions 1–4

(narrator) Listen to a talk by a librarian.

(woman) Hello and welcome to the library. I'm Ms. Martin, the assistant librarian, and this is the library orientation tour for new graduate students in the business department. If you are not a newly admitted graduate student or your major isn't business, then you are in the wrong place.

Now let's get started. I'm sure you understand that, as graduate students, you'll be required to do a tremendous amount of research. Here at the library, we try to make this process as easy as possible for you. The library is open for extensive hours, from 7:00 a.m. until midnight seven days a week, so that you'll have access to library research facilities almost any time that you want. During final exam week, the library is open twenty-four hours a day, and there are library staff members available to help you whenever the library is open.

During this tour, we will be concentrating on two areas of the library. The first area is the computerized search facilities, which are located on the second floor of the library. On the computer systems located in this area, you can conduct computer searches for books as well as articles in magazines, newspapers, and journals. On the floor above the computer area are reference materials devoted specifically to business. In this area, you can find references for books and periodicals related to business and annual reports on major corporations.

Now that we have completed this little introduction, we're ready to start the tour. Please follow me.

1. WHO IS MS. MARTIN TALKING TO?
2. WHAT ARE THE LIBRARY'S HOURS DURING FINAL EXAM WEEK?
3. WHAT TWO AREAS WILL THE TOUR CONCENTRATE ON?
4. WHAT ARE THE STUDENTS PROBABLY GOING TO DO NEXT?

Talk 2

Questions 5–8

(narrator) Listen to a talk in a lecture series.

(man) This is the fourth lecture in a series of Personal Health Care lectures presented by Student Health Services. I'm Dr. Hall, a dermatologist, and tonight I will be speaking about the effects of stress on the skin.

The relationship between skin problems and stress is rather complicated: skin problems often accompany stress, but it is not the stress itself that directly causes the skin problems. Instead, it is the side effects of stress, such as the use of alcohol, tobacco, and caffeine, that are often to blame.

Alcohol consumed in large quantities can cause problems with the skin by increasing the flow of blood to the skin; this makes the skin feel warmer and can really worsen the itching that accompanies conditions such as hives or rosacea. Nicotine and caffeine, on the other hand, cause problems by reducing the supply of blood to the skin; this, in turn, keeps the skin from being properly nourished.

The best defense for your skin in times of stress is therefore to take the best possible care of yourself. If, when you're in periods of heavy stress, you

consume large quantities of alcohol or coffee, or if you smoke heavily, it is your skin that will show the results.

Thank you very much for your attention, and I hope that you will return next week for the next lecture in the series.

5. WHO IS THE SPEAKER?
6. WHAT IS THE TOPIC OF THE TALK?
7. WHICH OF THE FOLLOWING CAN WORSEN ITCHING?
8. HOW DOES CAFFEINE IRRITATE THE SKIN?

Talk 3

Questions 9–12

(narrator) Listen to a lecture given by a professor.

(woman) In today's class, we'll be discussing the nineteenth-century crash of the gold market. When the U.S. gold market crashed on September 24, 1869, the day became known as Black Friday. What set the stage for the crash was the excessive amount of paper currency issued by the government to finance the Civil War. At the end of the war, speculators in New York tried to capitalize on the inflated price of gold in relation to paper currency by cornering the gold market. Their effort to corner the market was based on what turned out to be false assurances from the president's brother-in-law that the United States government would not sell off any of its gold reserves. When the U.S. Treasury announced $4 million in gold sales, the bottom fell out of the gold market and the price of gold crashed.

9. WHEN WAS THE DAY KNOWN AS BLACK FRIDAY?
10. WHAT HAPPENED ON THE DAY KNOWN AS BLACK FRIDAY?
11. WHO SUPPLIED THE GOLD SPECULATORS WITH FALSE INFORMATION?
12. WHAT DID THE GOLD SPECULATORS WANT THE U.S. GOVERNMENT TO DO?

Questions 31–34

(narrator) Listen to a conversation between two friends who are making plans.

(woman) Do you have any plans this weekend?
(man) There's so much to choose from on campus that I'm not sure what I'm going to do.
(woman) The football game's on Saturday night, and I'm going with a group of friends. Do you want to go with us?
(man) Of course I'd like to go to the football game: it's the biggest game of the season. And it sounds like fun to go with a large group of people.
(woman) Good. We'll be meeting at the cafeteria for dinner at six o'clock on Saturday night, and then we'll go on to the game together.
(man) That takes care of my plans for Saturday night. But now I need to make a decision about Sunday afternoon. The music department is sponsoring a concert then, and I'd really like to hear that concert. But there's also a play being presented by the drama department that I really wanted to see. It's too bad those two events are at the same time.
(woman) You know, if you go to the game on Saturday night and a concert or play on Sunday, that doesn't leave much time for studying.
(man) Oh, well. Maybe I can do that the weekend after this one.

31. WHAT IS THE WOMAN PLANNING TO DO SATURDAY?
32. WHY DOES THE MAN WANT TO GO TO THE FOOTBALL GAME?
33. WHAT IS AT THE SAME TIME AS THE MUSIC DEPARTMENT'S CONCERT?

Questions 35–38

(narrator) Listen to a conversation between a man and a woman.

(woman) Have you ever thought about all the tons of garbage that's out in space circling the Earth?
(man) Tons of garbage circling the Earth? What do you mean?

(woman) I saw a television program about it last night, and according to the program, there's about 3,000 tons of metal out there in space, traveling at speeds around 17,000 miles per hour.

(man) Where did all this garbage come from?

(woman) Well, it comes from all those space missions that have gone up since 1957. Every time a rocket ship goes up into space, it leaves a lot behind, and this stuff goes into orbit around the Earth: booster rockets, solar panels, remnants of satellites, and even nuclear reactors.

(man) Isn't it dangerous to have all this stuff out there?

(woman) Some space scientists are worried about possible collisions between this orbiting junk and spaceships, particularly manned spacecrafts; however, so far there haven't been any such accidents.

(man) Well, I hope that they're going to do something about this, both for the sake of safety and for the sake of the environment.

(woman) Me, too. I know that right now the problem is being studied by numerous scientists; hopefully, they'll be able to find solutions before the problem gets too much worse.

35. WHAT ARE THE MAN AND WOMAN DISCUSSING?
36. WHERE DID THE WOMAN LEARN ABOUT THIS PROBLEM?
37. APPROXIMATELY HOW MUCH METAL IS IN ORBIT IN SPACE?
38. WHAT DOES THE WOMAN HOPE WILL HAPPEN?

Questions 39–42

(narrator) Listen to a sociology professor talk to her class.

(woman) Before I start today's sociology lecture, I'd like to talk with you about the papers that you should be working on. As you know, the topic for the paper is the relationship between gun control and violence. The paper itself is due in two weeks, but I would like to see your outlines by Friday of this week so that I can be sure that you are on the right track with the assignment.

You need to do some research for this paper, so you should be spending some time in the library. I would like you to have at least three books and at least three recent journal articles as sources.

The paper should be five pages long; in addition to the five pages of composition, you should have a title page and a one-page reference list of the sources that you used in preparing the paper.

39. WHEN DOES THIS TALK PROBABLY TAKE PLACE?
40. WHEN IS THE PAPER DUE?

42. HOW MANY TOTAL PAGES SHOULD BE IN THE PAPER, INCLUDING THE TITLE PAGE AND THE REFERENCE LIST?

Questions 43–46

(narrator) Listen to a talk about Hawaii.

(man) For those of you taking part in the trip to Hawaii next week, I'd like to give you a little information about the weather that you can expect there.

You can expect the average daily temperature there to be about 80 degrees Fahrenheit or 26 degrees Celsius. This is the average daily temperature in the springtime, when we will be there; it is interesting to note that it only gets a few degrees warmer in the summer and a few degrees cooler in the winter.

One important factor that keeps the temperature so constant and moderate in Hawaii is the trade winds. These are winds that blow in on the northeast, or windward, side of the islands on an almost daily basis; the trade winds blow through the islands an average of slightly more than 300 days per year, and they're the strongest during the heat of the afternoon and turn into a cooling breeze in the evening. The trade winds also keep the humidity down, which makes the weather even more pleasant.

I hope this information will help you to understand the weather conditions that you're going to encounter next week on your trip; it should also help you decide what types of clothes you should be packing for your trip.

43. IN WHAT SEASON OF THE YEAR WILL THE TRIP TAKE PLACE?
44. WHAT IS THE WEATHER LIKE IN HAWAII?
45. WHAT IS TRUE ABOUT THE TRADE WINDS?
46. WHAT WILL THE PEOPLE LISTENING TO THE TALK PROBABLY BE DOING SOON?

Questions 47–50

(narrator) Listen to an instructor talk to her class about Walt Whitman.

(woman) The topic of today's lecture is Walt Whitman, an American poet and author of the renowned collection of poems *Leaves of Grass*. This volume of poems is a celebration of America, full of pride in the United States and reverence for the goals of American democracy.

Whitman began writing *Leaves of Grass* in the middle of the nineteenth century, and the first edition appeared in 1855 with only twelve poems. Several other editions of *Leaves of Grass* appeared throughout Whitman's lifetime with additional poems; *Leaves of Grass* grew and matured right along with Whitman.

The longest and best-known poem in *Leaves of Grass* is "Song of Myself," which appeared in the first edition. The poem "When Lilacs Last in the Dooryard Bloomed" was added to a later edition. This poem was written at the time of Abraham Lincoln's death in 1865 and contained Whitman's reflections on that event. Lincoln's death occurred in April, in the spring, in a season of new life. This poem reflects that spring can be at the same time a period of death and a period of rebirth.

47. THIS LECTURE WOULD PROBABLY BE A PART OF WHICH COURSE?
48. WHAT IS THE MOST COMMON THEME IN *LEAVES OF GRASS*?
49. WHAT BEST DESCRIBES *LEAVES OF GRASS*?
50. WHICH IS THE LONGEST AND BEST-KNOWN POEM BY WHITMAN?

Questions 31–34

(narrator) Listen as a man and woman discuss a haircut.

(woman) Hi, Bob. Your hair looks nice. It's a bit shorter than usual, isn't it?

(man) A bit shorter? I don't think so. It's a lot shorter. When I look in the mirror, I don't even know who's looking back at me.

(woman) So you got your hair cut, but you didn't get the haircut that you wanted?

(man) This is not even close to the haircut that I wanted. I asked to have hair trimmed just a little bit, and the hairstylist really went to town. When I looked down at the floor, there were piles of hair, my hair, on the floor. I couldn't believe it!

(woman) Well, what did you say to the hairstylist?

(man) What could I say? The hair was already cut off. I couldn't exactly say, "Please put it back on," although that's exactly what I did want to say.

(woman) Well, at least your hair'll grow back soon.

(man) That's what everyone is saying to me, "It'll grow back, it'll grow back." But it won't grow fast enough to make me happy.

(woman) Maybe after you get used to it, you'll like it a bit more.

Questions 35–38

(narrator) Listen to a conversation about a man's great-grandmother.

(man) I talked to my great-grandmother on the phone this morning.

(woman) Your great-grandmother? Do you talk with her often?

(man) I try to call her at least once a week. She's a really wonderful woman, and she's over eighty-five years old. I enjoy talking to her because she's so understanding and because she gives me good advice.

(woman) What advice did she have for you today?

(man) (laughs) She told me to be careful because a big storm is coming.

(woman) She said that a big storm is coming? Is she a weather forecaster?

(man) Not exactly. She says that she can feel it in her bones when a storm is coming. I know it sounds funny, but when she feels it in her bones that a storm is coming, she's usually right.

(woman) That's not actually so funny. When people get older, the tissue around their joints can become stiff and swollen. Just before a storm, the air pressure often drops, and this drop in air pressure can cause additional pressure and pain in swollen joints. So when your great-grandmother tells you she thinks a storm is coming, she probably has some aching in her joints from the decreasing air pressure.

(man) Then I had better pay more attention to my great-grandmother's weather forecasts!

35. HOW OFTEN DOES THE MAN USUALLY TALK TO HIS GREAT-GRANDMOTHER?
36. WHAT DID THE MAN'S GREAT-GRANDMOTHER TELL HIM ON THE PHONE THIS MORNING?
37. WHERE DOES THE MAN'S GREAT-GRANDMOTHER SAY THAT SHE FEELS A STORM COMING?
38. WHAT WILL THE MAN PROBABLY DO IN THE FUTURE?

Part C, p. 415

Questions 39–42

(narrator) Listen to a talk by a tour guide in the Everglades National Park.

(man) Today we're going to be taking a tram tour through part of the Everglades National Park. Quite probably we'll be seeing a number of crocodiles sunning themselves by the side of the water or poking their heads up through the water. Needless to say, we will not be getting off the tram at any time until we leave the area because of the danger posed by the crocodiles.

By the way, you've probably heard of the expression "crying crocodile tears." It is common to say that someone is crying crocodile tears when he or she is pretending to be sad or full of regret. Crocodiles always appear to have tears in their eyes, but they are not crying because of sadness, or even pretended sadness. Instead, a crocodile uses its tear ducts to get rid of extra salt from its body. A crocodile does not sweat the same way that humans do and must get rid of extra salt through tears. So if you see a crying crocodile, don't think that it's feeling sad; it is basically sweating through its eyes.

Look! Over there on the right. There are two large crocodiles on the water's edge, right next to the fallen trees. You can get out your cameras and take pictures from here on the tram, but, no, you cannot get off the tram to get any closer.

39. WHERE DOES THIS TALK TAKE PLACE?
40. WHAT DOES THE EXPRESSION "CRYING CROCODILE TEARS" MEAN WHEN IT IS USED TO DESCRIBE HUMANS?
41. WHY DO CROCODILES HAVE TEARS IN THEIR EYES?
42. WHAT DOES THE TOUR GUIDE RECOMMEND?

Questions 43–46

(narrator) Listen to the following lecture by a university professor.

(woman) Please take your seats now because I would like to begin today's lecture. Today, we will be discussing one of the more elegant and distinct forms of nineteenth-century transportation—the clipper ship.

Clipper ships of the nineteenth century were the graceful, multisailed, oceangoing vessels that were designed for maximum speed. They were given the name "clipper" ship in reference to the fact that they "clipped along" at such a fast rate of speed.

Clipper ships were constructed with a large number of sails in order to maximize their speed. They often had six to eight sails on each of the masts, and ships commonly had three and perhaps four masts. The speeds that

they achieved were unbelievably fast for the era; clipper ships could, for example, accomplish the amazing feat of traveling from New York to San Francisco in less than a hundred days.

Clipper ships first came into use in the United States in the 1840s. They were originally intended to make the trip from New York, around the tip of South America, and on to China in order to transport tea to the United States. Once gold was discovered in California in 1848, clipper ships were immediately put into use to carry large numbers of gold prospectors and large amounts of mining supplies from the East Coast to California. With the success of the American clipper ships, the British began their own fleet of clipper ships to transport goods from the far reaches of the British Empire.

That's all for today's class. Don't forget that there's a written assignment due on Friday.

43. IN WHICH COURSE WOULD THIS LECTURE MOST PROBABLY BE GIVEN?
44. WHAT IS THE MOST LIKELY MEANING OF THE EXPRESSION "TO CLIP ALONG"?
45. WHAT WERE CLIPPER SHIPS FIRST USED FOR IN THE UNITED STATES?
46. WHAT DOES THE PROFESSOR REMIND THE STUDENTS ABOUT?

Questions 47–50

(narrator) Listen to the following talk by a drama coach to a group of actors.

(man) I know that some of you are feeling more than a little nervous about tonight's performance, and I want you to understand that this is quite a natural feeling. You are going to be on stage in front of a lot of people tonight, and it's normal to be experiencing some nerves. I would like to help you to understand these feelings and not let them interfere with your performance.

What you are experiencing is called stage fright. Stage fright is the fear that develops before you give a performance in front of an audience. Stage fright is not experienced just by actors and actresses; it can also be experienced by musicians, athletes, teachers—anyone who performs in front of a group of people. It occurs before a performance when a performer is concerned about looking foolish in front of others. Just before tonight's performance, if you're feeling a bit tense, if your knees are shaking, if your stomach has butterflies in it, and if you are thinking about how bad your performance could be, then you have a major case of stage fright.

To control stage fright, you can work to control both the physical reactions and the negative thoughts. To combat the physical reactions, you can try techniques such as deep breathing, muscle relaxation, or even just laughing to relieve some of the pressure. To combat the negative thoughts, you should force yourself to focus on what you have to do rather than on what other people are going to think.

That's all I have to say for now. I'll see you back here at six o'clock because the performance starts at eight o'clock. Just remember that if you begin to feel at all nervous, try some deep breathing to relax, and focus your thoughts on the performance that you are about to give. See you this evening.

47. WHO WOULD PROBABLY NOT EXPERIENCE STAGE FRIGHT IN THEIR WORK?
48. WHAT PHYSICAL REACTION MIGHT SOMEONE WHO IS EXPERIENCING STAGE FRIGHT COMMONLY HAVE?
49. HOW CAN SOMEONE COMBAT THE NEGATIVE THOUGHTS ASSOCIATED WITH STAGE FRIGHT?
50. WHEN SHOULD THE ACTORS ARRIVE AT THE THEATER?

Questions 31–34

(narrator) Listen to a conversation about a college course.

(woman) Hi, Mike. I've been trying to get in touch with you. I wanted to ask you about the Introduction to Sociology course you took last semester with Professor Patterson.

(man) Why did you want to know about that course?

(woman) Well, Professor Patterson is teaching it again next semester, and I think I might take it.

(man) I wouldn't do that if I were you.

(woman) Why not? Was it a terrible course?

(man) All the professor did was lecture day after day after day. He's a good enough lecturer, but I prefer courses where the students can participate more. I found it quite boring.

(woman) That course doesn't sound so bad to me. In fact, I like that kind of course. You can listen to the professor's ideas and not feel any pressure to come up with something to say.

(man) Well, then, maybe this course is for you.

Questions 35–38

(narrator) Listen to a conversation about a new solar energy plant.

(man) I was reading in last night's paper that the utility company wants to build a solar energy plant in the desert not far from here.

(woman) Do you think that's a good idea?

(man) A good idea? It's a great idea! Solar energy is the energy of the future. It's clean, it's safe, and it's abundant. What could be better?

(woman) Won't the utility company just raise our rates to pay for this new plant?

(man) Well, the newspaper said that the utility company would need extra money to get the plant going, but in the long run, rates would be lower. And to have a constant supply of energy, that's a small price to pay.

(woman) I'm not convinced that the price will be small.

35. HOW DID THE MAN LEARN ABOUT THE NEW SOLAR ENERGY PLANT?
36. WHERE WILL THE SOLAR ENERGY PLANT BE CONSTRUCTED?
37. ACCORDING TO THE MAN, WHAT IS A BENEFIT OF SOLAR ENERGY?

Questions 39–42

(narrator) Listen to a man talking to a group of students.

(man) Hello, I'm John Rogers, the manager of the student bookstore. All of you have been selected to work part-time in the bookstore while you are completing your university studies. One of the first things I need to do is prepare a work schedule, and I need two pieces of information from each of you in order to make up the schedule.

First of all, I need to know the hours you are free to work. Each of you will be assigned twenty hours of work per week, and those hours could be anytime that the bookstore is open, on weekdays, in the evenings, or on weekends. I would like each of you to write down for me the hours when you have classes so that I will know when you are free to work.

The second piece of information that I need is your job preference. Most of the jobs that are available are working as a cashier or stocking shelves with books. There are also a few positions working in the business office.

Please write down which jobs you would prefer. I cannot promise that everyone will get the first choice when I make the schedule, but I will do what I can.

Questions 43–46

(narrator) Listen to a talk given by a woman.

(woman) Did you know that those large plastic soda bottles that are so common today can actually get recycled into soft, warm, cuddly jackets and blankets with the feel of fleece? These bottles have generally been dumped into landfill rather than recycled, but now that's beginning to change. In this recycling process, the bottles are gathered at a plant, cleaned, and then crushed into tiny chips. The chips are melted and then shaped into long threads. These threads are spun into yarn and knit into cloth. It can then be dyed and made into fabric. The outcome of this process is a soft and warm cloth that can be made into items of clothing or blankets. It seems rather incredible that plastic soda bottles can be turned into something so soft and warm! I think that all of you should look for some of these products in stores and purchase them. They are great products, and they are great for the environment at the same time.

43. WHAT IS THE TOPIC OF THE TALK?
44. IN THE PAST, WHAT COMMONLY HAPPENED TO THE SODA BOTTLES?
45. WHAT CAN BE MADE OUT OF THE SODA BOTTLES?
46. WHAT DOES THE SPEAKER RECOMMEND?

Questions 47–50

(narrator) Listen to a talk on the first transcontinental railroad.

(man) The importance to the United States of the first transcontinental railroad cannot be overrated. This railroad had a profound effect on many aspects of American life, on communication, on transportation of agricultural products and livestock to market, and the settlement of the West, to name a few. But it was no easy feat to build such a railroad. The first transcontinental railroad was undertaken in 1862 by two competing railroad companies. The Union Pacific started in Omaha, Nebraska, and moved westward; the Central Pacific began in Sacramento, California, and moved eastward. Of the two, the Central Pacific had the more difficult task because it was faced with traversing the Sierra Nevadas. To lay tracks across these mountains, workers had to carve out footpaths on steep mountain faces and then use dynamite to blast out access for the railroad tracks. After years of dangerous and exhausting labor, the workers from the Central Pacific met up with the workers from the Union Pacific near Ogden, Utah, on May 10, 1869. In an exuberant ceremony, the last of the tracks was nailed to the ground with a golden spike. The completion of the railroad marked the beginning of a new era in transportation.

47. WHO BUILT THE FIRST TRANSCONTINENTAL RAILROAD?
48. WHAT WAS DIFFICULT ABOUT THE JOB THE CENTRAL PACIFIC WORKERS HAD TO COMPLETE?
49. HOW LONG DID IT TAKE TO COMPLETE THE FIRST TRANSCONTINENTAL RAILROAD?
50. WHAT HAPPENED AT THE CEREMONY MARKING THE COMPLETION OF THE RAILROAD?

Questions 31–34

(narrator) Listen to a conversation between two students.

(man) Dora, could you please give me some help?
(woman) With what?
(man) I kept putting off my History 101 paper, and it's due next week.
(woman) If you want to pass the course, you've got to write that paper.
(man) I know. I thought that since you're a history major, you could help me come up with a topic for my paper.
(woman) History 101 is about American history. You could write about the Revolutionary War, or the Civil War, or World War I.
(man) Oh, I don't want to write about wars. I don't want to think about killing and death. Can you think of something else?
(woman) Why don't you write about technology, inventions that changed American history?
(man) That topic seems a little broad. Maybe I should narrow it down a bit.
(woman) Well, you could choose one invention, the telephone or the airplane, for example, and write about its effect on history.
(man) I know. My favorite topic is cars. I'll write about the invention of the automobile and its effect on American history.
(woman) That sounds like a good topic for you. Now, you'd better get busy. You only have one week.

(narrator) Listen to a conversation about a tragic event.

(woman) Did you hear the story on the news this morning about the apartment fire down the street?
(man) I heard something about it. What happened exactly?
(woman) A fire started about three o'clock in the morning in an apartment complex with about twenty apartments. One of the apartments was completely destroyed, and several of the others were damaged.
(man) Do they know how the fire started?
(woman) They're not sure at this point, but they believe that it was started by someone smoking in bed. It's a shame that one careless person can cause so much trauma for others, not to mention the thousands and thousands of dollars of damage.
(man) Even more serious than the damage to property is the harm to the apartments' occupants. I hear that several residents were rushed to the hospital, but at least none of them died.
(woman) It's all so frightening. Do you know of anything I can do to keep this from happening to me?
(man) I guess the best thing to protect yourself is to make sure that you have a smoke alarm and a fire extinguisher in good working condition. The smoke alarm will give you an early warning that a fire has started, so you can call the fire department. If it is a small fire, maybe you can use the fire extinguisher to help put out the fire before the fire trucks arrive.
(woman) That's good advice. I think I'll go home and check my smoke alarm.

35. WHAT IS THE TOPIC OF THIS CONVERSATION?
36. ACCORDING TO THE WOMAN, HOW EXTENSIVELY WERE THE APARTMENTS DAMAGED?
37. WHAT DID THE MAN SAY ABOUT SOME OF THE APARTMENT RESIDENTS?

Questions 39–42

(narrator) Listen to a talk to university students.

(woman) Welcome to the orientation meeting for dance majors. All of you in the room should be students who want to be dance majors. Oh, please let me

introduce myself—I am Dean Peterson, the head of the dance department.

If you are majoring in dance, the most important decision you have to make is which degree you will get. Let me explain. There are two possible degrees for dance majors, and the programs are quite different; one is geared toward performance and one is not.

The first possible major in dance is the Bachelor of Performance Arts. This is a performance-oriented degree. It is intended for students who wish to pursue a professional performance career in dance or in choreography.

The second possible major in dance is the Bachelor of Art Studies. This major is intended for those of you who are interested in nonperformance dance careers, in areas such as dance therapy, dance history, dance administration, or dance education.

Either major is a four-year program, but many of the courses that you take along the way are different, so you will have to specify your degree choice early. I hope this information will help you to decide.

39. WHO IS THE SPEAKER?
40. WHAT DECISION DO THE STUDENTS HAVE TO MAKE?
41. A DANCE MAJOR WITH A BACHELOR OF PERFORMANCE ARTS DEGREE MIGHT BE INTERESTED IN WHICH AREA OF WORK?
42. WHAT IS TRUE ABOUT THE DANCE DEGREES DISCUSSED IN THE TALK?

Questions 43–46

(narrator) Listen to a talk about Cajun country.

(man) Now that we're all on the bus, I'd like to tell you a little bit about what we're going to be seeing today. The area that we're visiting is called Cajun country. The Cajuns are descended from the Acadians, French settlers who came from the Acadia region of present-day Canada. They came in the eighteenth century, during the French and Indian War, when they were driven from Acadia by the British. They settled in southern Louisiana in the areas around New Orleans. They brought their French culture with them, and today approximately a quarter of a million people in Louisiana still speak French as a result.

We'll be driving by some sugar plantations and alligator farms, and then we'll be stopping at Avery Island. There's a factory there that has been producing tabasco since 1868. Are you familiar with tabasco? It's one of the best-known spicy sauces in Cajun cooking, and it's very hot. I hope you like spicy food, because any Cajun food that you eat on this trip is going to be spicy.

After Avery Island, we'll continue on to Lafayette, which is the largest city in Cajun country. When we arrive in Lafayette, we're going to visit Acadian Village, which is a Cajun theme park. This theme park offers rides, exhibits, shopping, and restaurants, all with a Cajun theme.

Now settle back, relax, and enjoy the ride. I'll point out the interesting sights as we come to them.

43. WHO IS THE SPEAKER?
44. WHAT IS TRUE ABOUT THE CAJUNS?
45. WHAT IS CAJUN FOOD LIKE?
46. WHAT WILL PROBABLY HAPPEN NEXT?

Questions 47–50

(narrator) Listen to a lecture given in a college course.

(woman) The development of the radio into a worldwide force occurred relatively quickly. In 1920, only nineteen years after Marconi sent the first wireless signal across the Atlantic, the world's first radio station was established in Pittsburgh, Pennsylvania, and by 1923 nationwide broadcasting was possible in the United States. Radio broadcasting was initially totally uncontrolled, and each of the dozens of existing stations broadcasted its programs whenever and on whatever wavelength it wanted. The result for listeners, as you can imagine, was often a garbled mess. This confused situation in radio broadcasting lasted until the Federal Communications Commission, which is often referred to as the FCC, was created in 1930 by the United States government. The initial purpose of the FCC was to regulate radio broadcasting; each station was assigned a wavelength for its broadcasts to minimize interference from other radio stations.

47. WHAT IS THE TOPIC OF THIS TALK?
48. THIS LECTURE WOULD PROBABLY BE GIVEN IN WHICH COURSE?
49. HOW COULD THE SITUATION IN EARLY RADIO BROADCASTING BEST BE DESCRIBED?
50. WHAT DO THE INITIALS FCC STAND FOR?

(man) So you haven't finished the lab assignment yet!
(narrator) WHAT HAD THE MAN ASSUMED ABOUT THE WOMAN?

30. *(man)* I didn't realize before how tall this building is. There can't be too many more flights of stairs to go.

Questions 31–34

(narrator) Listen to a conversation between two students.

(man) Hey, Gloria. How would you like to increase the extent of your educational and historical background?

(woman) Steve, I don't understand what you're saying at all.

(man) I just took my final in History 101 this morning, and I'm trying to get rid of the books. They cost eighty dollars.

(woman) Why don't you try to sell them back to the bookstore?

(man) I tried, but they'd only refund twenty dollars, and I paid so much more for them. I'd like to get at least forty dollars.

(woman) Well, I'm not going to take History 101, so I'm not really interested in those books. Maybe you should ask some other friends.

(man) I already have. Everyone I know has already taken History 101 and doesn't want those books.

(woman) Why don't you put up some advertisements in the history building? Maybe someone you don't know will call you and buy them.

(man) I'll try, but I don't think that'll work.

(woman) Then you'll have to go back to the bookstore. After all, twenty dollars is better than nothing.

31. WHAT IS THE TOPIC OF THIS CONVERSATION?
32. WHY IS THE MAN INTERESTED IN SELLING HIS BOOKS?
33. WHY DOES THE MAN NOT WANT TO SELL THE BOOKS TO THE BOOKSTORE?
34. WHAT DOES THE WOMAN SUGGEST THAT THE MAN DO?

Questions 35–38

(narrator) Listen to a conversation about sleeping habits.

(woman) Did you know that the average time that people spend sleeping decreases considerably as they get older?

(man) Really? I would've thought that the opposite was true, that people needed more sleep when they were older.

(woman) No, studies clearly show that the need for sleep decreases rather than increases with age. I was just reading a journal article for my psychology class, and it contained some really interesting information about sleep.

(man) Really? What did you find out?

(woman) Well, young babies required the most sleep, and that should come as no surprise; the average one-year-old sleeps about thirteen hours a day. People in their twenties need about eight hours of sleep a night.

(man) That sounds about right to me. That's my age group, and I know I'm at my best when I'm able to sleep that much each night. What about older people?

(woman) Well, the average amount of sleep decreases with age, and in the study I read, the average amount of sleep for people in their fifties was between five and six hours a night.

(man) That's really surprising to me! I expected the opposite to be true.

35. WHAT INFORMATION SURPRISED THE MAN?
36. WHERE DID THE WOMAN LEARN THIS INFORMATION ABOUT SLEEP?
37. WHAT IS THE MAN'S AGE GROUP?
38. APPROXIMATELY HOW MANY HOURS OF SLEEP PER NIGHT DO FIFTY-YEAR-OLDS REQUIRE?

Part C, p. 494

Questions 39–42

(narrator) Listen to a talk by a student advisor on campus.

(woman) I'm Ms. Morton, your advisor. I'd like to explain the policies for dropping classes at this school. It's important to understand these policies, or your grades can suffer.

The policy at this school is that you can drop a course within the first three weeks of the semester. To drop a course, you first need to get the signature of the professor of the course you want to drop on an official drop card; then you need to come to me to get the signature of your advisor.

Let me give you a couple of strong warnings. First, you cannot officially drop a course after the first three weeks of the semester. If you are having problems in a course and you decide later on that you want to drop the course, it is impossible to do so. Second, if you stop attending a course without going through the official "drop" procedures, the course will remain on your schedule, and you will receive a failing grade.

It is important for you to understand these procedures and follow them. If you do so, you will not have any problems. Any questions?

39. WHAT IS THE PRIMARY TOPIC OF THE TALK?
40. WHEN CAN A STUDENT OFFICIALLY DROP A COURSE?
41. HOW MANY SIGNATURES ARE NECESSARY TO DROP A COURSE?
42. WHAT HAPPENS IF A STUDENT STOPS ATTENDING A COURSE WITHOUT OFFICIALLY DROPPING IT?

Questions 43–46

(narrator) Listen to a talk about the California Gold Rush.

(man) The California Gold Rush, which figured so prominently in the development of the West, was actually the result of a chance happening. Captain John Sutter received the rights to a large piece of land near what is today Sacramento, in northern California. Sutter's main purpose was to develop a lumber business from the huge expanses of trees on his property. It was during the construction of a sawmill for his lumber business that gold was found on the bank of the American River. As news about the gold spread, thousands of gold prospectors descended on Sutter's property. Sutter's business was destroyed by the prospectors, and Sutter received little from the gold that was found there. Although Sutter died a poor and disheartened man, the population of California increased tremendously because of what was found on his property.

43. WHAT KIND OF BUSINESS WAS SUTTER UNDERTAKING?
44. WHEN WAS GOLD DISCOVERED ON SUTTER'S FARM?
45. WHAT BENEFIT DID SUTTER RECEIVE FROM THE DISCOVERY OF GOLD ON HIS PROPERTY?
46. WHAT IS THE SPEAKER'S MAIN POINT IN THIS LECTURE?

Questions 47–50

(narrator) Listen to a talk to university students.

(woman) This lecture series is intended to help students at this university benefit more from their studies here. The topic of tonight's talk is how to manage your time.

Time is a very important commodity when you are a university student; there simply never seems to be enough of it to go around. You will need to attend classes, study, complete homework assignments, work on research, eat, sleep, perhaps hold down a part-time job, and maybe actually find time to relax for a moment or two.

So a very important skill for you to learn is to manage your time. If you manage your time wisely, I think that you'll find there is enough of it to go around.

One valuable tool in time management is to monitor how you spend your time for a week. Then, after you spend this week monitoring your time, you can evaluate what you have done with your time and learn to make the best use of it.

During this week of personal time monitoring, you should divide each twenty-four-hour day into fifteen-minute blocks, so each day has ninety-six blocks of time. Then write down

how you spend each fifteen-minute period. I know that it is bothersome to write all of this information down for a week, but the benefits of such a study can be great. At the end of a week, you will see just how much time you have spent productively and how much time you have not.

The specific assignment that I have for each one of you is to spend the next week conducting your personal time-monitoring study. At the end of this week you should make an appointment with me to discuss your results.

47. WHAT IS THE TOPIC OF THIS TALK?
48. WHAT VALUABLE TOOL IN TIME MANAGEMENT IS DISCUSSED HERE?
49. HOW LONG SHOULD THIS STUDY TAKE?
50. WHAT SHOULD THE STUDENTS DO AT THE END OF THE STUDY?

Questions 31–34

(narrator) Listen to a woman talk to a friend about her plans for the afternoon.

(woman) I'm going to my health club this afternoon. Would you like to come along? You could try it out and see if you want to take out a membership.

(man) You belong to a health club? It seems that everyone that I meet here is involved in some kind of exercise program!

(woman) Oh, exercise is very popular nowadays, and this health club's the best in the area. Why don't you try it today?

(man) I would like to get a little more exercise, but I'm not sure if a health club's the way to go.

(woman) This club has all kinds of exercise machines and classes, a track, racquetball courts, and a sauna. It has every kind of exercise you could want, except perhaps a swimming pool.

Questions 35–38

(narrator) Listen to a conversation between two students.

(woman) We really need to get to work on our oral presentation for political science class.

(man) We certainly do. You and I have to give the presentation next week, and we've hardly anything done.

(woman) I can't believe that the presentation is next week. I thought we had so much time to prepare, but the time just seems to have disappeared. The presentation's on Thursday of next week, isn't it?

(man) That's right, so we have exactly one week to get ready for it. We're going to have to do a lot of work in the next week.

(woman) In this presentation on the court system, do you think we should talk about all three, the municipal, the state, and the federal court systems?

(man) It's too much if we talk about all three, and I'm not sure we have enough time to prepare. How about if we only talk about the state and the federal courts?

(woman) That sounds good to me. I think it's best if we talk about fewer topics and really cover them in depth. Say, I really know a lot about the state courts, and you know a lot about the federal courts. How about if we each work on preparing those parts individually, and then we can get together and put it all into one overall presentation?

(man) All right. I'll work on the federal courts, and you can work on the state courts, and then we'll get together in a few days. How about if we get together next Monday?

(woman) That sounds good to me. The presentation is not until Thursday, so if we get together on Monday, we'll have plenty of time to work on it.

(man) Not exactly plenty of time, but we should be able to get it done. See you on Monday, if not sooner.

(woman) See you then.

35. WHAT ARE THE MAN AND WOMAN DISCUSSING IN THIS CONVERSATION?
36. WHAT WILL THE MAN AND WOMAN DISCUSS DURING THEIR PRESENTATION?

Questions 39–42

(narrator) Listen to a talk given on a college campus.

(man) Hello and welcome to campus. This morning there will be a short tour of the university before we head to the Administration Complex for registration. I've been selected to be your tour guide because I've been a student on this campus for three years, and I know my way around well.

The first stop on our tour is the library. As you can see, it's a large library, with over 100,000 volumes. Additionally there are journals, newspapers, and magazines from around the world. The library's open seven days a week from 8:00 to midnight.

From the library, we'll move on to the Student Center. In the Student Center you'll find the university bookstore, where you can purchase all the texts for the courses you're taking. You can also find a post office, a bank, a theater, a coffee shop, a travel agency, and a bowling alley in the Student Center. The Student Center's here to provide services and entertainment for the student body.

The final stop on our tour is the Administration Complex. In this area, you'll find the offices of university administrators and the Student Records Office. The auditorium, where registration takes place, is also in the Administration Complex. Now that we've reached the Administration Complex, the next item on your agenda is registration. Good luck.

39. WHO IS THE SPEAKER?
40. WHAT IS THE MAIN TOPIC OF THE TALK?
41. ACCORDING TO THE SPEAKER, WHAT IS THE OVERALL PURPOSE OF THE STUDENT CENTER?
42. WHERE WILL REGISTRATION TAKE PLACE?

Questions 43–46

(narrator) Listen to a talk on water pollution.

(woman) A major cause of water pollution in the 1950s was the use of synthetic detergents. Unlike natural soaps, which were biodegradable, synthetic detergents would not break down into simpler substances. When released into the water supply, these non-biodegradable synthetic detergents caused masses of foam to remain in both surface water and ground water.

In the 1960s new biodegradable detergents came into use, and the problem of foaming lakes, rivers, and streams began to disappear. However, these new biodegradable detergents contained phosphates, and those phosphates presented an entirely different set of problems in maintaining a clean water supply.

43. WHAT MAJOR CAUSE OF WATER POLLUTION IN THE 1950S WAS PRESENTED IN THIS TALK?
44. WHAT ARE BIODEGRADABLE SUBSTANCES?
45. WHAT HAPPENED WHEN NONBIODEGRADABLE SYNTHETIC DETERGENTS WERE RELEASED INTO THE WATER SUPPLY?
46. WHAT WILL PROBABLY BE THE TOPIC OF THE TALK THAT FOLLOWS?

Questions 47–50

(narrator) Listen to a lecture given by a college professor.

(man) Today's lecture is on the composition of the Earth's atmosphere; by that, I mean which gases actually make up the atmosphere. I hope all of you have read the required textbook chapter on this subject prior to coming to class today.

The key point that I would like you to understand is the changing nature of the atmosphere—the atmosphere has not remained the same throughout the Earth's history.

Scientists believe that the Earth's original atmosphere probably consisted of ammonia and methane. Perhaps 20 million years ago the atmosphere evolved into something resembling the modern composition of 78 percent nitrogen, 20 percent oxygen, and a variety of other gases making up the remaining 2 percent.

One factor that was instrumental in causing the change in the atmosphere was the evolution of plant life; oxygen is part of the modern-day atmosphere because of plant life and the process of photosynthesis that goes along with it.

Well, that's all for today. Before tomorrow's class, you should be sure to read the next chapter in the text, Chapter Ten.

47. WHAT IS THE TOPIC OF THIS TALK?
48. WHEN DID THE ATMOSPHERE FIRST EVOLVE INTO THE COMPOSITION THAT EXISTS TODAY?
49. WHAT CAUSED OXYGEN TO DEVELOP IN THE ATMOSPHERE?
50. WHAT IS THE ASSIGNMENT FOR TOMORROW'S CLASS?

EXERCISE 7 (A-C)

1. What you need to do before going on a **vacation** (7C) **is** to decide where you will go on your vacation. You may decide to go to a quiet place with a quiet and natural **setting**; (7B) **instead** you may decide to go to a big city with a fast-paced life. Each of these types of vacation (7A) **has something** to offer. (3 errors)

2. The reasons that it can be a good idea to go to a quiet and natural location for a **vacation** (7C) **are** numerous. First of all, a vacation in a natural setting **allows** (7A) you to relax and slow down the pace of your life for a while. Instead of hurrying from place to place as you are used to **doing** (7A), **you** can spend your time doing nothing more than enjoying the beauty of the location. Then, **after** (7A) **you are** thoroughly relaxed, what you **can do** (7C) **is** to take part in outdoor activities such as hiking or swimming. All of this will leave you completely relaxed and free of stress by the end of your vacation. (5 errors)

3. It can be nice to go to a quiet and natural spot for a **vacation**; (7B) **however,** it can also be quite an adventure to go to a big and fast-paced city for a vacation. The main reason that it can be a good idea to take a vacation in a big **city** (7C) **is** to take part in so many activities that are unavailable in your hometown. On a big city vacation, numerous cultural events that might not be available in your hometown, such as theatrical performances, concerts, and art and museum **exhibits**, (7C) **are** available. On a big city vacation, (7A) **you will also have** access to some of the world's finest restaurants and shopping. After your big city vacation has **ended** (7A), **you** will have a whole range of new experiences that are not part of your daily life. (5 errors)

4. For me, the type of vacation that I decide to **take** (7C) **depends** on my life prior to the vacation. I work as a legal assistant in a law **office**; (7B) **this** job is often repetitious and dull but is sometimes quite frantic just prior to a major case. After a slow and boring period of **work** (7A), **all** I want is to head to a fast-paced vacation in a big city. However, if my **job** (7A) **has been** frantic and busy prior to my vacation, **then** (7A) **I want** to head to a quiet and beautiful place where I can relax. Thus, I enjoy different types of **vacations;** (7B) **the type** of vacation depends on the pace of my life before the vacation. (6 errors)

EXERCISE 8A

1. Something very important for students to decide as they near the end of their studies **is** (23) whether **they should** (15) work for another company or to go into business for themselves. As a university student, this decision about my future **is** (20) one that I face soon myself. To me, each of these positions **has** (23) clear advantages, in particular depending on the stage of your career. (4 errors)

2. There **are** (22) numerous advantages to working for another company, particularly early in your career. One of the advantages **is** (21) that working in someone else's company **provides** (20) a situation with the security of a regular paycheck and less responsibility than you would have **were you** (18) to be the owner of the company. Also, not until you start your own business **do you need** (17) to come up with the finances to back the company. Thus, all of this **indicates** (21) that it is better to work for other people early in your career while you are gaining the knowledge and experience you need to start your own company. (6 errors)

3. Then, later in your career, it may be advantageous for you to go into business for yourself. The main reason for going into business for yourself **is** (20) that in your own company you are able to decide on what direction **you want** (15) your company to go. However, only when you have gained enough knowledge and experience **is it** (22) a good idea to go into business for yourself. This is when **you will** (15) be ready to deal with the responsibility, pressure, and financial needs of owning a company. (4 errors)

4. Nothing **is** (23) more important to me than having my own company one day. However, what seems very clear to me now is that beginning my career working in someone else's company **is** (20) best. In this situation, not only **can I** (17) work with more security and less pressure, but I can also build up my financial resources and learn from others. Then, **should I** (18) manage to gain enough experience, knowledge, and confidence and build up my financial resources, I hope eventually to open my own company, where **I can** (15) determine exactly how **I would** (15) like the company to operate. (6 errors)

EXERCISE 8B

1. I am a university student, and I am studying in the university for a number of reasons. Of course, one of my reasons for going to school, studying hard, and **obtaining** (24) a university degree is to succeed financially; the more money I make, **the better it will be** (29) for me. However, financial success is not my **most important** (27) reason for going to the university. Instead, I am going to the university for a much **broader** (27) reason than that: I believe that a university education will give me a much **richer** (24) and better life, not just in a financial way. (5 errors)

2. One way that a university education makes your life **more enjoyable** (27) is to give you the opportunity to have a career that you really desire and **appreciate** (24). Having a career that you like is much better than **having a job** (26) that just pays the bills. I, for example, am studying to be a marine biologist. I will have the **best** (28) career for me; I will be rewarded not only in terms of money **but also** (25) in terms of enjoyment of my career. (5 errors)

3. Another way that a university education can enrich your life is to provide a **broader** (27) knowledge, **understanding** (24), and appreciation of the world around you than you already have. It provides you with an understanding of both the history of your own culture and **the influence of** (25) history on the present. It also provides you with an understanding of other cultures and shows you that other cultures are neither exactly the same as nor **are they** (25) completely different from your own culture. Finally, it provides you with an understanding of the universe around you and **shows** (24) you how the universe functions. (5 errors)

4. Thus, in getting a university education, I can say that financial success is certainly one goal that I have. However, the goal of financial success is not as important as **another goal that I have** (26). My primary goal in getting a university education is the goal of achieving a **fuller** (27) life, certainly one with financial security but more importantly one that is rewarding both in terms of professional opportunities **and** (25) in terms of awareness and understanding of life around me. The closer I get to achieving this goal, **the happier I will be** (29). (4 errors)

EXERCISE 8C

1. When something unexpected happens, different people **react** (33) in a variety of ways. I wish I could **react** (32) calmly to unexpected situations. However, unfortunately, I usually react with panic. The following example shows my usual reaction to situations when I have **been** (30) completely unprepared for them. (3 errors)

2. This example of the way that I react to unexpected situations **occurred** (35) in history class last week. The professor had told us that we **would** (36) be covering the material in Chapters 10 through 12 in class on Thursday. By the time I arrived in class, I **had** (34) read all of the assigned material, and I understood most of what I had **studied** (30). While I was **relaxing** (31) in my chair at the beginning of class, the professor **announced** (36) that there would be a pop quiz on

the material in the assigned chapters. I was **prepared** (38) on the material because I **had** (34) studied all of it thoroughly before class. (8 errors)

3. However, I was **faced** (31) with an unexpected situation, and I do not react well to unexpected situations. Instead of feeling relaxed at the announcement of the unexpected quiz because I was so prepared, I was completely **filled** (37) with anxiety by the situation. As the professor was **writing** (31) the questions on the board, I **became** (33) more and more nervous. I was unable to think clearly, and I knew that I would **do** (32) a bad job on the quiz because this **is** (33) what always happens to me when I feel panic. As I stared at the questions on the board, I **was** (34) unable to think of the correct answers. It was as if I had not **prepared** (30) at all for class. Then, the professor collected the papers from the class, including my basically blank piece of paper. Just after the papers had been **collected** (38), the answers to all the questions came to me. (9 errors)
4. You can **see** (32) from this example that my usual reaction to something unexpected is to panic. In the future, I **hope** (36) that I will learn to react more calmly, but up to now I **have** (34) not learned to react this way. On the basis of my past behavior, however, it seems that I currently **have** (33) a stronger tendency to react with panic than with calm. (4 errors)

EXERCISE 8D

1. I was not a very good **athlete** (42) in high school, but I wanted with all of **my** (44) heart to be on the football team. My desire to be on the team had little to do with athletics and was perhaps not for the best of reasons; the strong **stimulus** (41) for **me** (43) to make the team was that team members were well-known in the school and **they** (45) became very popular. This desire to be on the football team in high school, and the fact that through hard **work** (42) I managed to accomplish something that I wanted so much, even if **it** (43) was something petty, turned out to be the single most valuable **experience** (39) of my years in high school. (8 errors)
2. I had to work very hard to make the football team in high school, and for some time this seemed like an impossible **goal** (39). A large **number** (40) of students in my school, more than a hundred and fifty of them, spent many of **their** (44) afternoons trying out for a team with **fewer** (40) than forty positions. After a lot of hard work on my part, and after I had demonstrated to the coaches that **they** (45) could count on me to keep going long after everyone was exhausted, I managed to make the team as a secondary **player** (42). Even with so **much** (40) effort, I was never going to be a sports **phenomenon** (41) or even a member of the first team, but I did accomplish my goal of making the team. (8 errors)
3. The valuable lesson that I learned through this experience was not the joy of **competition** (42) or the **many** (40) benefits of teamwork, several **lessons** (39) very commonly associated with participation in team sports. Instead, the valuable lesson that I learned was that hard work and determination could be very important in helping **me** (43) accomplish each **goal** (39) that I want to reach. Even if others have more talent, I can work harder than **they do** (45) and still perhaps find **success** (42) where **they** (43) do not. (8 errors)

EXERCISE 8E

1. I understand that it seems **important** (47) for (54) **students** to prepare **their assignments early** (48) rather than procrastinate in getting assignments done. However, although I understand this **clearly** (46), I always seem to wait until the **final** (46) minute to get **assigned** (51) projects done. There are two reasons why I **regularly** (46) procrastinate on my **academic assignments** (48) in spite of the fact that this is not **the** (55) best way to get my work done. (9 errors)
2. One reason that I tend to be **an** (53) eternal procrastinator is that I work much more **efficiently** (46) under pressure than I do when I am not under pressure. For example, I can accomplish so much more in a two-hour period when I have a **definite** (46) deadline in two hours than I can during **a like** (50) period without the pressure of a **strict deadline** (48). Without a deadline, the two-hour period seems to fly by with **minimal** (46) accomplishment, but with **a** (53) **rapidly** (46) **approaching** (51) deadline I seem quite **capable** (47) of making every minute of the two-hour period count. (10 errors)
3. Another reason that I tend to procrastinate is that if I start preparing early, it **generally takes** (48) more of my time. If, for example, I have **a paper** (52) due in six weeks, I can start working on the paper now and work on it on a **daily** (49) basis, and that paper will take up a lot of my time and energy during the **following** (51) six weeks. However, if I wait to begin work on the paper until **the week** (52) before it is due, I have to go off some place where I can be **alone** (50) and spend all of my time and energy that week on the paper, but it will only take one week of my **valuable time** (48) and not six weeks. (7 errors)
4. In summary, it seems that I always wait until the last minute to complete (54) **assignments** because I am afraid that I will waste too much time by starting early. It would be **a good idea** (52), however, for me to make **an** (53) effort to get work done **efficiently** (46) and early so that I do not always have to feel **tense** (47) about getting work done at **the** (55) last minute. (6 errors)

EXERCISE 8F

1. Some people **do** (58) their best to avoid confrontations, while **other** (60) people often seem to get **involved in** (57) confrontations. There can be problems with either type of behavior; thus, I always try to be **like** (59) people at either extreme and remain moderate in my approach **to** (56) confrontation. (5 errors)
2. To some people, confrontation should be avoided **at** (56) all costs. These people will **do** (58) nothing even after something terribly wrong has happened to them. They, for example, stay silent when they are pushed around or when they are **blamed for** (57) something they did not do. Unfortunately, it is quite probable that others will take advantage **of** (56) people **like** (59) this. Thus, people who avoid confrontations will find that they do not get as much **out of** (57) **life** as they deserve because **others** (60) always take advantage of them. (7 errors)
3. **Like** (59) people who avoid confrontations, **other** (60) individuals go to the opposite extreme; they take part **in** (56) confrontations too easily. When something small happens accidentally, they become enraged and **make** (58) a big deal of it as if they had

been terribly wronged. Perhaps, for example, someone accidentally bumps **into** (56) them or mistakenly says something offensive; in this type of situation, they create a serious confrontation. While it is true that other people will try hard not to provoke this type of person, it is also true that **others** (60) will **make** (58) an effort to avoid spending much time in the company of such a person. Thus, people who get involved in confrontations easily will find it hard to develop close friendships and relationships with **others** (60). (8 errors)

4. I try to **do** (58) the right thing by avoiding either extreme type of behavior. I always try to behave in **a like** (59) manner, without overreacting or underreacting. If someone offends me **by** (56) chance, I try to **brush it off** (57) and **keep on** (56) going as if nothing had **happened to** (57) me. If someone intentionally succeeds **in** (56) bothering me, however, I try to react without anger but with a reaction that shows that behavior **like** (59) this is unacceptable. In this way, I do not **make** (58) the mistake of wasting time on unimportant situations, but I prevent **other** (60) instances of bad behavior toward me **from** (56) recurring. (11 errors)
